TIMBER AGREEMENTS	163

## GENERAL INTRODUCTION

The feature of the year ending March 31, 1946, was the commencement of the implementation of a definite research programme, organized under the direction of a full time Division Chief and augmented staff.

The heavy demand for forest products continued throughout the year without easement in labour supply. The following figures may serve to compare the number of men employed in the last two years:

TABLE OF MEN IN LOGGING CAMPS BY DISTRICTS	JANUARY 1945	JANUARY 1946
Algonquin.....	1,315	1,050
Cochrane.....	4,379	5,254
Fort Frances.....	754	1,058
Geraldton.....	2,374	3,366
Kapuskasing.....	4,924	5,909
Kenora.....	1,701	1,788
North Bay.....	2,410	2,825
Parry Sound.....	1,200	1,350
Port Arthur.....	6,334	7,420
Sault Ste. Marie.....	2,693	3,088
Sioux Lookout.....	1,520	1,920
Sudbury.....	2,140	3,100
Tweed.....	1,015	1,190
TOTAL.....	<u>32,759</u>	<u>39,318</u>

No major administrative changes were made in the year under report. The work of the Department is listed under the same headings as last year, namely:

Accounts	Operation and Personnel
Air Service	Reforestation
Forest Protection	Research
Land and Recreational Areas	Surveys and Engineering
Law	Timber Management

All events of note are recorded under the above headings.

THE END OF THE PORTAGE

## DIVISION OF ACCOUNTS

## GENERAL

The financial report sets out a substantial increase—\$527,169. in expenditure appropriation of the Department, as compared with the previous year. This increased appropriation was required—

- (1) To meet sharply rising costs of goods and services.
- (2) Construction of the Forest Insect Laboratory at Sault Ste. Marie.
- (3) Expansion in field work of the Reforestation, Forest Research, and Timber Management Divisions.

This increased expenditure was more than offset by an increase in cash receipts—\$1,450,002,—as compared with the previous year. Revenue for the year was the highest in the history of the Department, with most sources of revenue showing improvement, particularly receipts from sale of Crown timber. This result was due to an increase in available woods labour following the close of hostilities, and a sharp upswing in tourist trade throughout the Province.

Following the policy of obtaining the closest possible co-operation between Field and Main Offices, officers of this Division made the following field inspections:

- (1) For purposes of instruction of Field Officers and inspection of work programs—

*Reforestation Field Offices:* Orono, St. Williams.

*District Offices:* Algonquin Park, Cochrane, Geraldton, Kapuskasing, Kenora, North Bay, Parry Sound, Port Arthur, Tweed.

*Other Field Offices:* Ranger School (Dorset), Matheson, Gravenhurst, Kirkland Lake, Rondeau Park.

- (2) For other purposes—

*Dominion Income Tax Head Office*—Ottawa.

*Royal Canadian Air Force Headquarters*—Ottawa.

## FINANCIAL REPORT

1. *Cash Receipts and Disbursements:*

Statement for the year ending March 31, 1946, is set out on Schedule A, page 10. The following summarizes the result of operations for the year:

Total—Cash Receipts.....	\$6,863,447.32
Total—Cash Disbursements.....	4,099,394.44
Excess of Receipts over Disbursements.....	\$2,764,052.88

2. *Comparison of Results with those of Prior Years:*(a) *Receipts*

In Schedule B, page 14, cash receipts for the year under review have been compared with those of the previous four years. This data may be summarized as follows:

Division	Years ending March 31st				
	1942	1943	1944	1945	1946
	\$	\$	\$	\$	\$
Accounts—					
Water Power Rentals.....	628,691	648,485	618,901	609,425	654,979
Provincial Land Tax.....	146,802	146,014	158,745	175,342	209,459
Long Lac Diversion.....	23,100	44,850	21,750	21,300	20,850
Miscellaneous.....	5,773	4,267	5,939	20,388	9,048
Land and Recreational Areas.....	164,998	173,779	273,754	294,308	348,258
Forest Protection.....	55,620	51,825	22,917	26,850	30,943
Timber Management.....	4,122,576	4,982,281	4,561,734	4,241,581	5,554,781
Surveys.....	36	3,438	13,293	1,275	459
Air Service.....	10,902	6,946	19,448	12,417	25,284
Reforestation.....	5,834	8,453	26,138	10,559	19,386
Lignite Development.....		924	16		
	85,164,332	6,071,262	5,722,635	5,413,445	6,863,447

(b) The following is a comparison of total disbursements for the five years ending March 31, 1946:

	Years ending March 31st				
	1942	1943	1944	1945	1946
	\$	\$	\$	\$	\$
Total Disbursements—					
Chargeable to appropriation as voted.....	2,565,554	2,799,689	3,040,901	3,572,225	3,988,394
Additional Disbursements—					
Uncontrollable items, chargeable to Special Warrants.....	88,802	701,296	—	—	111,000
	<u>\$2,654,356</u>	<u>3,500,985</u>	<u>3,040,901</u>	<u>3,572,225</u>	<u>4,099,394</u>

(c) *Trend of Receipts and Disbursements*

i. *Receipts*

Annual Receipts 1946 as compared with 1942 show an increase of approximately \$1,699,115.00 or 32.9 per cent. This increase is due in large part to increased revenue from:

Land and Recreational Areas.....	\$ 182,360.00
Timber Management.....	1,432,205.00
Land Tax.....	62,657.00
	<u>\$1,677,222.00</u>

ii. *Disbursements*

Annual Disbursements 1946 as compared with 1942 show an increase of \$1,445,038.00 or 54.4 per cent. This increase is accounted for in large part by the following items:

Cost of Living Bonus.....	\$ 58,831.00
Air Service.....	112,019.00
Forest Research—(Control of Spruce Bud Worm Jackpine Sawfly and General Field Research)	233,859.00
Basic Organization, Extra Fire Fighting and Scaling.....	513,949.00
Construction and operating Forest Ranger School and Construction of Forest Insect Laboratory.....	323,561.00
Purchase of McLachlin Timber Limits.....	111,000.00
	<u>\$1,353,219.00</u>

AS AIRCRAFT DIVISION OF AIR SERVICE ABOUT TO TAKE OFF AT SUNSET

## DIVISION OF AIR SERVICE

*General*

The fire hazard prevailing through the summer of 1945 can be considered as a normal one. Wartime travel restrictions were still in effect, and the number of tourists, fishermen and hunters entering the Province was restricted by control of gasoline, rubber, and motor vehicles. There were few occasions throughout the fire fighting period when the Provincial Air Service was not able to meet the entire needs of the Department for aerial transportation.

The early part of May saw the culmination of our efforts to defeat Germany, and we were all very happy and grateful to see the termination of the war with Japan in the following August. Wartime restrictions on the use of aviation gasoline were still maintained however, and we were again compelled to do a lot of flying which could not be classed as other than commercial, in order to assist and expedite the operations of those engaged in developing and marketing the natural resources of the Province. These flights, as in former years, involved a certain amount of aerial survey work for timber and pulp wood operators, transportation of mining and diamond drilling equipment, searches for lost and missing persons, and insofar as was required, co-operation with all other Departments of the Ontario Government.

By virtue of our success in arms, the Air Raid Warning Service throughout Northern Ontario was reduced to a bare minimum, and we were not required to file flight plans covering the movement of all our aircraft on all operations, as had been the case in the preceding years.

*Equipment*

The defeat of Germany in the early part of the year, relieved some of the aircraft manufacturers of the wartime demands for their product. This applied particularly to Noorduyn Aviation at Montreal who were manufacturing an aircraft, which, although suitable for some military purposes, was more essentially a commercial aircraft, and during the summer of 1945, the Service took delivery of four more of the Norseman type. These were a very welcome addition to our transport fleet, since that part of our fleet had suffered heavily through the grounding and ultimate sale in the previous year, of our two all-metal Hamiltons. It is expected that the supply of commercial aircraft will not, from now on, be nearly as critical as it has been during the war period. It is quite reasonable to expect that many of the aircraft manufacturers who, for the past several years, have been engaged in the manufacture only of military types, will now direct their efforts to the design and construction of aircraft primarily suited to commercial purposes.

The supply of aircraft and engine repair parts has however, become extremely critical. At the outbreak of war, this Service stocked as large a supply of standard spare parts as it felt it was justified in doing, without interfering with the country's war effort. As additional parts were required, they were immediately ordered, but delay in delivery dates became worse and worse as the war progressed. It finally reached the point where we were unable to get certain parts except with high priority, and many items were obtainable only on six to eighteen months delivery. Because of this, we had to dip into our reserves. During the summer of 1944, these reserves were almost entirely exhausted, and we were almost wholly dependent on current supply, as and when it could be made available. For this reason much of our overhaul work was held up for extended periods, and it was only through the most careful foresight and anticipation of our needs that we were able to struggle through and have our entire fleet ready for operations at the opening of the 1945 fire season.

### *Winter Operations*

Normal winter operations were carried out at Algonquin Park as usual, and to this was added, for the second year, the operation of a Moth at Quetico Park, engaged in game patrols and the apprehension of poachers. The operations of this latter ship were particularly successful at the break-up in 1946, and several poaching outfits were captured in their entirety. The fact that an aeroplane was known to have been patrolling the Park area has apparently had a very deterring effect on the extent of poaching in this area, and the use of the aircraft in that direction has paid handsome dividends.

Two Norseman aircraft purchased in 1945 were transferred from seaplanes to land planes, and with pilots, were placed at the disposal of all Departments of Government at Toronto. This was the first year of such operations and more or less in the nature of an experiment. Although the ships were not used extensively, it is felt that there is a need for fast transportation out of Toronto, and it is altogether likely that the service will be further developed during the winter of 1946-47.

### *Maintenance and Improvements*

Normal maintenance of Service property and buildings was carried out as usual, and one new cottage for the accommodation of our operation staff was erected at Pickle Lake. A complete new base was built at South Porcupine, and Air Service operations from that point will be undertaken in the spring of 1946.

Our building program however, is lagging behind the needs of the Service. Partly because of shortage of materials, but primarily because of lack of funds, we were unable to undertake much of the construction work that is urgently required. We need additional living accommodation for our staff at Twin Lakes, Sudbury, Port Arthur, Oba Lake and Orient Bay, and extensive dock repairs are urgently required at Sudbury and Port Arthur. As Head Office decides that new bases shall be opened, these also must be undertaken, and it is hoped that availability of funds and materials will permit of our catching up this ever-increasing back-log at an early date.

Plans have been submitted to the Department of Public Works for a sizeable addition to the Air Service building at Sault Ste. Marie. Our present space is entirely inadequate to store our ever-increasing fleet. Last year we were compelled to rent storage space for four of our aircraft at Toronto.

### *Co-operation With Other Departments*

The usual assistance was accorded the Department of Entomology in their spruce budworm research. An agreement was effected with the Department of Health under which this Service will undertake to supply all emergency flying at the direction of that Department. The control of emergency flights thus comes under the immediate jurisdiction of the Department best qualified to pass on their necessity.

Co-operation was accorded the Division of Research, in the development of a set of floats from which water can be sprayed from the air at low altitudes. Since these drenching floats were not made available for test until the latter part of the summer, no conclusion can be reached as to their effectiveness, but it is hoped that during the fire season of 1946, sufficient use will be made of this device to either approve or disapprove its advantages or disadvantages.

### *Accidents*

I am very pleased to report that there were no serious accidents to any of our personnel during the period dealt with.

The following tables are submitted as supplementary to this Report:

PILOT BOYDE SMITH OF SUDBURY UNLOADS HIS AIRCRAFT AT SKEAD HEADQUARTERS

EIGHTY PERCENT OF FOREST FIRES OCCURRING IN ONTARIO ARE CAUSED BY  
HUMAN CARELESSNESS

## DIVISION OF FOREST PROTECTION

## FIRE AND HAZARD CONDITIONS

Warm weather during the latter part of March brought on an early hazard which extended to the middle of April. The early summer hazard was only medium, but a high hazard developed in the eastern Districts the latter part of July, and continued until the middle of August. During the remainder of the summer and fall, the hazard was low.

On the whole, the season was a moderate one, the number of fires and the area burned over being well below the average for the past ten years.

## LEGISLATION

Bill No. 98, revising the Forest Fires Prevention Act, was passed at the recent session of the Legislature.

No other legislation pertaining to Forest Protection was enacted this year.

The Black Sturgeon Limit of the Great Lakes Paper Co. Ltd., and all that area lying adjacent to the Black Sturgeon Road, commencing at Hurkett in the District of Thunder Bay, was closed to travel for a short period in the middle of June, due to the high fire hazard prevailing in that area at that time.

Due to hazardous conditions throughout the Province towards the middle of October, the close season for setting out fire in the Fire District was extended to November 5th.

By Order-in-Council dated October 16th, 1945, the travel permit area was extended to include all that part of the Township of Baldwin in the District of Sudbury lying north of Highway No. 17.

There were 15 prosecutions under the Forest Fires Prevention Act, 13 resulting in conviction, and 2 in acquittal.

## ORGANIZATION

On July 16th, 1945, Mr. C. R. Mills returned from military service to resume the position of Chief, Division of Forest Protection.

Effective February 1st, 1946, the Townships of Newmarket and Aurora were transferred from Swastika Division to Cochrane Division, and the Townships of McCart, Calvert, Clergue, and Walker were transferred from Swastika Division to Timmins Division.

In February, protection activities in Geraldton District were extended northerly to include an area of about 1,000,000 acres, in which logging and mining operations are becoming active.

The fire ranging staff was again augmented during the months of July and August by some ninety high school students. These were sent to the six most southerly Districts from the towns and cities of Southern Ontario, and fifteen boys in Port Arthur District from the schools of that region. These boys rendered valuable service in improvement work, and on fire suppression.

## EQUIPMENT

Three D4 Caterpillar tractors were purchased this year, along with the usual replacements of trucks, pumps, hose, blankets, etc. Supplies were still very short, and difficulty was experienced in securing sufficient equipment to maintain the present establishment of the Department.

## PERMANENT IMPROVEMENTS

No steel lookout towers were erected in 1945. Some necessary buildings and telephone lines were constructed, and the construction of buildings at the Forest Ranger School was continued. The buildings erected to date were a

dormitory, a combined dining hall and kitchen, and a power house. Distribution lines for steam and water have also been installed.

REPAIRING TELEPHONE LINES DAMAGED BY THUNDERSTORM

Six Model 30 four-frequency transmitters were built in the Department's workshop, with distribution as follows:

North Bay District—1 unit  
Cochrane District—1 unit  
Sioux Lookout District—3 units  
Port Arthur District—1 unit

Twelve all-wave communication receivers were also purchased for use with the above transmitters.

#### HAZARD DISPOSAL

Slash disposal was carried out along the Connaught-Frederick House Dam road in Cochrane District, for which the Hydro-Electric Power Commission reimbursed the Department.

The usual maintenance work was carried out on Kirkwood Forest fire guards.

#### INSECT CONTROL

The Forestry Insect Laboratory at Sault Ste. Marie, construction of which was started during the previous fiscal year, was completed and placed in operation. The building was turned over to the Administration of the Department of Agriculture, Canada, under agreement with the Department of Lands and Forests of Ontario. By this agreement, the Department of Agriculture, Canada, undertakes to equip and staff the Laboratory, and to carry on all research and investigative work in forest entomology and insect control measures. The Department of Lands and Forests of Ontario undertakes the construction and maintenance of the laboratory building, and to carry out all direct forest insect control measures. At the end of the fiscal year, the agreement with the Dominion was in full operation.

During the year, the Department of Agriculture, Canada, assumed complete control and responsibility of the forest insect survey.

Direct measures for the control of the spruce budworm were continued with a program of spraying with D.D.T., from aircraft, an area west of Lake Nipigon in the Thunder Bay area.

#### EXPENDITURES

The total expenditure on fire ranging for the year, excluding cost of Administration and the Provincial Air Service, was \$1,180,710.30. The amount of fire tax collected from woods operations was \$419,322.89. Miscellaneous revenue amounted to \$30,942.78.

Cost of living bonus was paid for the past five years, but was charged to a separate appropriation, and is not included in the table of classified expenditures.

LADY EVELYN FIRE—TIMAGAMI DISTRICT

TIMAGAMI OFFERS HEALTHFUL RECREATION AMIDST BEAUTIFUL SCENERY

## DIVISION OF LAND AND RECREATIONAL AREAS

The volume of work undertaken in connection with the administration of Crown lands has continued to increase. It is the result of the employment of better methods of dealing with land matters, made possible by the adoption and practical application of specific regulations and by the proper training of head office and field office personnel, in addition to the implementation of a policy based on uniformity of action, simplicity, and complete co-operation with the general public, with whom we do business. This, together with more adequate inspection facilities has done much to effect a satisfactory solution of many longstanding problems which had burdened and obstructed the proper function of the Division in the enforcement of The Public Lands Act.

Some study has been given to the best method of development of lands for recreational, agricultural, and other purposes. In planning for the use of recreational areas, every effort is made to adequately provide for private summer homes, commercial resorts, and public camping, parking, picnicking and bathing areas.

In the case of agricultural lands and others, wherever possible, applications are fully discussed with prospective purchasers to ensure complete understanding, and to determine whether or not the land can be utilized to advantage and a return obtained therefrom at least commensurate with the labour performed.

*Summer Resort Lands:*

Ontario remains the leader in accommodating vacationists, both permanent and temporary. More and more persons are attracted by the outstanding beauty of the scenery in our forest areas; they are availing themselves of the opportunity of securing a summer cottage site for private use, and there has been a steady increase also in the number of areas disposed of for commercial use. Many of the applicants are American citizens, who receive the same service, pay the same fees, and are subject to the same regulations with respect to building and other requirements, as our own people. The tables and graphs which form part of this appendix indicate the volume of applications handled, and business of the Division otherwise.

The number of patents issued, as shown, would have been considerably increased, had it been possible to secure the services of Ontario Land Surveyors to make the necessary surveys.

Every effort is made to make our vacation land more attractive, and in this connection, work on roads, trails, portages, camp sites and picnicking grounds, is being continued to the extent that funds are available.

*Agricultural and Allied Uses:*

It was expected that there might be a large influx of immigrants and or ex-service men taking up Crown land, but it did not materialize. Apart from this, it was considered that there would be a reasonably large demand for lands, but this has not been experienced, due, primarily, to the fact that favorable economic conditions have continued. In the event that it does occur, however, there is sufficient land available, which is considered suitable, to take ample care of applicants in most townships which are open for disposition in Northern Ontario, particularly the Clay Belt area.

*Provincial Parks:*

Provincial Parks established to date are:

Algonquin.....	2,741 Sq. Miles
Quetico.....	1,720 Sq. Miles
Rondeau.....	8 Sq. Miles
Lake Superior.....	540 Sq. Miles
Sibley.....	63 Sq. Miles
Ipperwash Beach.....	109 Acres

Provincial Parks are established under the Provincial Parks Act and are dedicated primarily to the preservation of forests, fish, birds, and all forms of wild life. They are used extensively by the public in general for the recreational pursuits which are possible, these being varied and extensive. Some of the potential possibilities have been realized, and facilities have been provided to permit of the fullest use of the great acreages of forest, stream and lake land involved. Camping areas have been set aside, and in some cases fees are charged and hydro electric power is provided. In other cases no fee is charged; parcels are leased for private summer cottages; for commercial use; boys' and girls' camps, stores and hotels. Dancing, horseback-riding, tennis, boating and amusement concessions are available. Improvements are made to provide for the fullest enjoyment of the people as conditions warrant and funds are provided. The construction of roads, the cutting out of trails and portages, and the repair of dams, were among the numerous improvements made during the year, which have increased park facilities.

An addition to Sibley Park was made through the purchase of privately-owned lands, containing some 1078 acres. This acquisition was made primarily to effect in some measure a more uniform park boundary.

*Veterans' Lands:*

The Department entered into negotiations with the Dominion Government with a view to concluding some arrangement to provide for the disposal of land to ex-service personnel, and at the same time, to place them in a position to receive financial assistance under the Veterans' Land Act (Dominion) 1942. An agreement was completed on April 10th, 1946, which provides for the establishment of qualified veterans on Crown land in Ontario. The agreement became effective immediately.

The Province, as represented by this Department, is responsible for the allocation of Provincial land to veterans, and to extend to them all services ordinarily provided for other than veterans, consistent with the Public Lands Act and the regulations thereunder. To date, comparatively few veterans have availed themselves of the opportunity extended. Provincial facilities are available to adequately take care of any future demand.

*Regulations and Policy:*

Constant attention is given to changing conditions, and the regulations and policy are amended from time to time, consistent therewith, when in the public interest so to do. Changes effected during the year include,

Regulations governing the free release of pine timber reserved from patent on agricultural lands, as provided for in an Act to amend the Public Lands Act 1946.

Establishing building requirements in connection with the sale of summer resort parcels already surveyed to provide for an expenditure of the minimum amount of \$500.00 in the construction of buildings for each parcel as surveyed which is sold to one individual.

Provision for the depth of all summer resort parcels sold for private purposes to be not more than 300 feet. This was formerly 600 feet and it was found in most instances to be considerably in excess of what was actually necessary.

## DIVISION OF LAW

The primary duties of the Division are as indicated in the Administrative Chart following page 80.

During the months of July and August, complaints were heard under the provisions of the Provincial Land Tax Act by the District Court Judges located at Kenora, Fort Frances, Port Arthur, Sault Ste. Marie, Gore Bay, Sudbury, North Bay, Haileybury, Parry Sound and Bracebridge, and by the County Court Judge of the County of Essex. The Department was represented by the Chief of this Division and the Land Tax Collector at the hearing of all complaints.

Amendments were made to 9 Acts governing the administration of the Department, and 2 new Acts were enacted, one of which is The Trees Conservation Act, 1946. This act provides permissive legislation for county organizations who wish, with the approval of the Minister, to make by-laws concerning the utilization of agricultural woodlots.

There was a considerable decline in the number of charges laid under the Forest Fires Prevention Act.

During the year 15 timber concession agreements were prepared and completed, 7 of which dealt with the agreements effected between the Crown and Abitibi Power & Paper Company, Limited. These agreements become effective when this Company ceased to be under the control of a Receiver and Manager.

Various field trips were made by the Chief of the Division during the year in connection with the acquisition of land for the Kemptville Nursery, the extension of the Provincial Air Service Hangar at Sault Ste. Marie, and various other matters requiring legal adjustment and attention.

DISTRICT FORESTER GEORGE PHILLIPS FEEDING DEER IN ALGONQUIN PARK

## DIVISION OF OPERATION AND PERSONNEL

*Operation*

Difficulties in obtaining qualified personnel and suitable equipment to meet pressing needs have been approaching a climax, and have constituted definite handicaps in meeting minimum requirements of the Department at large. The startling developments in the war area, however, portend reasonably early relief in both fields.

## PERSONNEL MANAGEMENT

### *Selection and Placement:*

The dearth of qualified personnel to meet increased administrative routine has thrown an extra burden on the shoulders of the existing staff which they have discharged with a fine spirit of co-operation in the emergency.

As of April 1st, 1945, W. E. Gimby was transferred from Sault Ste. Marie to Pembroke as Assistant District Forester, Algonquin District.

As of July 16th, 1945, C. R. Mills returned to duty from service with the R.C.A.F. and resumed his duties as Chief, Division of Forest Protection.

As of November 7th, 1945, Richard Boultee became District Forester at Port Arthur after his return from service overseas with the Armed Forces.

As of February 15th, 1946, George Delahey returned from service with the R.C.A.F. and became District Forester at Fort Frances, with J. M. Whalen as Assistant District Forester.

The following members of the staff were superannuated during the fiscal year:

<i>Name</i>	<i>Division or District</i>	<i>Date</i>
Alexander, J. A.	Fort Frances	Aug. 1 45
Bower, N. J.	Algonquin	Oct. 1 45
Ferguson, Miss J.	Timber Management	Dec. 9 45
Fullerton, C. H.	Surveys & Engineering	April 13 45
Harris, G.	Operation & Personnel	Nov. 1 45
McKee, J. P.	North Bay	Sept. 7 45
Regan, J. L.	Cochrane	May 19 45
Rowlands, Miss M. C.	Reforestation	Aug. 23 45
Sinard, A. H.	Air Service	Jan. 1 46
Van Horn, L. E.	Cochrane	Dec. 4 45
Wilcox, W. H.	Air Service	Sept. 10 45

### TECHNICAL PERSONNEL

The number of Foresters and other technically trained personnel employed was as follows:

	<i>Head Office</i>	<i>Field</i>	<i>Totals</i>
Foresters	14	31	55
Others	12	2	14
Total	36	33	69

(Of whom 2 are in the Armed Forces)

In addition to the above, there was 1 Forester, formerly a casual employee, still in the Armed Services.

### *Classifications:*

As of the beginning of the calendar year, salary adjustments were made, and the cost of living bonus was partially absorbed. In the process, numerous classifications were adjusted, and a further group of former temporary employees were appointed to the permanent staff.

TRAINING

*Job Instruction Training*

As of March 1st, 1946, K. B. Smith, formerly instructor in Job Instruction, Relations and Management at the Canadian Vocational Schools on Gould Street, was transferred to the Division of Operation and Personnel. It is planned to give both Head Office and Field Staff introductory training in these items, and the Head Office Staff Training Course will also come under his supervision. During the year an additional number of Field Staff were given the benefits of this course, which up to the first of March, was directed by the Information and Education office.

Authorization of geographical names in conjunction with Geographic Board of Canada.</p> <p><i>Air:—</i> Preparation of contour maps for the projection of road location plans. Forest types classification for timber estimating. Exposure and processing of aerial survey films. Supplying photographic survey material to the Dept. of Highways and other Provincial departments. Compilation of maps from aerial survey photographs.</p>	<p><i>Timber Sales:—</i> Analysis of Applications. Preparing Conditions of Sale. Issuing Licenses and Renewals. Transfers and abandonments. Maintenance of statistical and map records.</p> <p><i>Timber Cut Returns:—</i> Checking returns. Recording quantity cut, with locations. Checking affidavits.</p> <p><i>Licensing of Mills:—</i> Saw mills. Pulp and paper mills. Lath, shingle, veneer and other mills landing timber. Recording mill locations.</p> <p><i>Selling:—</i> Supervision. Scalers' training and examinations. Appointing scalers.</p> <p><i>Forest Surveying</i></p> <p><i>Export from Crown Lands:—</i> Pulpwood. Hardwood logs. Other forest products.</p>

*Scalers' School and Examinations*

During the year Scalers' Schools were conducted by the Division of Timber Management as follows:

<i>Place</i>	<i>Dates</i>
Minden	May 11-45
Thessalon	June 1-45
Fort William	Sept. 1-45
Algonquin Park	Oct. 12-45

The results were as follows:

<i>Place</i>	<i>Full Licenses Granted</i>	<i>Pulp Licenses Granted</i>
Minden	15	8
Thessalon	20	2
Fort William	9	11
Algonquin Park	20	3

*Ranger School*

The Ranger School at St. Nora's Lake began the term September 4th, 1945, and concluded the ranger course for the year September 29th, 1945.

The following members of the Staff attended:

ALGONQUIN:	M. Getz, F. McIntyre, J. Orme, J. Tait.
COCHRANE:	S. E. McWhirter, L. B. Sammon, O. K. Welsh.
FORT FRANCES:	D. C. Baldwin, R. H. Pattison, S. V. Ryan.
GERALDTON:	R. Leppanen, S. Maki.
KAPUSKASING:	E. A. Boice, H. E. Hutchinson, J. M. McDougall
KENORA:	P. Borup, J. A. Murphy, J. MacKay.
NORTH BAY:	D. Burns, R. Laurin, F. Thib.
PARRY SOUND:	S. Booker, H. W. LaBrash
PORT ARTHUR:	W. J. Gibson, T. J. Guerard, W. H. Jarvis, C. W. McDonald, O. A. Sullivan.
SAULT STE. MARIE:	J. Bennett, C. MacDonald, H. MacLeod, C. Tregonning.
SIOUX LOOKOUT:	J. E. Anderson, P. S. Jarrow, P. Maskerine, N. Nylund.
SUDBURY:	E. Barnes, E. Collard, G. T. Godemair, W. K. Lahti, L. C. Mantle, L. Morin, W. E. MacPhail, W. Wetow.
TWEED:	L. Lean, H. M. Legris.

The property is not yet completed, but it is serving an excellent purpose, so far as the Department is concerned, in making available suitable instruction in advanced practices in land and forest administration, which more and more requires specialized knowledge and skill.

*Staff Meetings*

Regional Conferences including all the senior administrative officers of each region, respectively, were held as follows:

<i>Region</i>	<i>Dates</i>	<i>Location</i>	<i>Regional Forester</i>
Central	Nov. 25-27, 1945	North Bay	T. E. Mackey
Kapuskasing	April 12-13, 1945	Timmins	E. L. Ward
	Nov. 29-30, 1945	Kirkland Lake	
Kenora	April 6-7, 1945	Kenora	W. D. Cram
	Nov. 19-20, 1945		
Southern	Dec. 6-7, 1945	Gravenhurst	P. McEwen
Thunder Bay	April 9-10, 1945	Port Arthur	P. Addison
	Nov. 22-23, 1945		

YOUNG CAMPERS RETURNING FROM A CANOE TRIP IN TIMAGAMI

*Accident Prevention, Health, Safety Measures*

Progress has been made in this field and study is being given to further needs to develop and improve it, and supervision of such specialized work will be committed to the office in charge of training.

Through co-operation with the Health Centre in the Department of Public Health, the process of making chest x-ray examinations is being completed as rapidly as possible for categorization purposes.

*War Veterans Rehabilitation*

During the period of the fiscal year numerous ex-servicemen were interviewed, and continuous employment was arranged for 40 of them in the inside service, and for an additional 21 in the outside service. In all cases priority was given to returned men amongst the seasonal staff.

*Appointments*

For the most part, new appointments have been ex-service personnel. The endeavour has been made to fill the current needs of the various branches of the Department at Head Office and in the Field from applicants who have served their country in the Armed Forces.

*Deaths*

The following are regretfully reported:

James B. Burns—Clerk at Sudbury, on May 2 '45.

J. L. Depencier—Deputy Chief Forest Ranger at North Bay, on Dec. 24 '45.

Claude A. McFarland—Deputy Chief Forest Ranger at Algonquin, on Dec. 17/45.

Frank E. Rowe—Chief Forest Ranger at Port Arthur, on June 2 '45.

Wm. Stringer—Deputy Chief Forest Ranger at Tweed, on Aug. 14 '45.

N. F. Welch—Deputy Chief Ranger, at Cochrane, on April 10 '45.

*Investigations*

From time to time inspections have been made by the Division Chief and the Chief Inspector when the question at issue was not readily disposed of by correspondence in some cases, and in others, through the Field Offices, essential investigations have been conducted to facilitate final disposal of contentious cases.

*District Foresters' Conference*

The annual District Forester's Conference was held in Toronto, Jan. 14th to Jan. 19th, 1946. It was attended by Field and Head Office officials, and as a result of an organized time table and classified agenda, the proceedings resulted in a most beneficial conference.

*Victory Loan Campaigns*

There were two of these in which the Department co-operated, and due to the wholehearted support of the Staff, one of them resulted in average subscriptions of \$261.00 per capita of the employees of the Department.

In this connection, it may be observed that the Staff gave vigorous support in a material way to the Hospital for Sick Children campaign.

*Amputation Cases*

In an endeavour to assist in meeting exceptional traffic conditions in Toronto streets during the rush hour, arrangements were made for amputation cases to leave ten minutes early.

*Waste Paper and Red Tape Committee*

This body was appointed in June, 1945, to enquire into and make recommendations in an effort to combat difficulties resulting from war conditions.

### *Staff Suggestion Plan*

The interest of both employee and official in this plan has been maintained, and in June, 1945, ten prizes for suggestions were awarded by the Committee as follows:

<i>Name</i>	<i>Suggestion</i>
Miss Audrey Morrison, Toronto.....	Re: Inter-division mail.
Mr. F. R. Parmeter, Kenora.....	Wind-vane for Lookout Towers.
Mr. J. C. Dillon, Sudbury.....	Eye Test Kit for Tower Men.
Mr. M. Sauerbrei, Port Arthur.....	Aerial for Tower Radios.
Mr. H. E. Kedey, Sudbury.....	Pack Board for Storage Batteries.
Mr. E. C. Burton, Sault Ste. Marie...	Booklet for Campers.
Mr. H. E. Kedey, Sudbury and	Modification in Design of Portable Battery
Mr. R. H. Kennan.....	Charger for Tower Radios.
Mr. Allan Shaw, Kenora.....	New Pulpwood Rule.
Mr. Alvin J. Dunne, Pembroke.....	First Aid Instruction.
Mr. H. M. Jackson, Sioux Lookout...	Pay Roll Forms and Pay Roll Cheques.

### *Outside Storage Building*

Because of space limitations at Head Office for storage of reference files, it became necessary to provide additional facilities, and as these records are of exceptional value, it was decided to erect a suitable building for the purpose at the Southern Experimental Station which is Departmental property.

The main section of the building of brick and concrete has been completed, and additions will be necessary.

The completed section is in use.

### *Permanent Records*

The work of the Records Office has been facilitated by the use of outside storage mentioned elsewhere herein. Certain modifications in system have been put into force, as a result of which better service has been given in the handling of files, and their pick up and delivery.

### *Administrative Statistics*

The process of maintaining running records of features of Division responsibility has been refined and amplified to meet new demands automatically, in most cases, and provides ready reference records on groups as well as individuals.

### *Office Management*

Constant study has been given to methods and practice. Improvements and economies have been effected, and plans are being laid to go further in the field of standardization.

### *Attendance Records*

These now show details by months over a period of years for each individual member of the staff, and as sick leave accumulations are now worth half pay on separation from the service, the record of necessity must and does follow a specific pattern subject to audit at all times.

### *Workmen's Compensation*

Costs in this field were reduced, and for the past fiscal period were \$12,459.69 for actual outgo for wages, medical aid, and pensions.

The pension figure is a serious though essential item.

Every effort has been made to see that every possible privilege or benefit is extended to any of our staff injured on duty, and fortunately our fatalities have been few, having in mind the large number employed on field work.

FISHING SPOTS SUCH AS THIS ATTRACT MANY TOURISTS TO THE SOO

## OFFICE OF INFORMATION AND EDUCATION

Due to the termination of the war it has been possible for the first time since the establishment of the office of Information and Education, in 1941, to acquire some of the staff required to fulfill the program outlined at the time of inception.

In June, 1945, a man was appointed in charge of the photography and visual education sub-section. Later, two assistants were appointed to this work. In September, 1945, a man was appointed in charge of publications, and in February, 1946, another in charge of publicity. The stenographic and clerical staff was increased from two to three during the year. The field lecturing staff was not increased beyond one who was appointed in the fall of 1943.

### *General Inquiries*

The number of inquiries concerning the natural resources and Department activities by letter and personal calls, showed a marked increase over the previous year. However, with the increase in the number of publications available for distribution, it is becoming possible to answer economically a considerable proportion of the inquiries without recourse to continuous and lengthy letter writing and conversation.

### *Publicity*

The branch of the work described in the heading of Publicity includes: articles for outside publications and newspapers; radio "flashes" and program "shorts"; advertising, including business notices, such as calls for tender for the sale of timber and special fire prevention appeals; signs and posters; exhibits, and the distribution of novelties such as carborundum stones, stamps, stickers, pencils and rulers carrying fire prevention appeals and encouragements for planting of wastelands.

When the public relations assistant was appointed towards the close of the year there was a marked increase in the number of articles in outside magazines. A press release system was started. For the year as a whole, there was an increase in newspaper lineage over previous years of approximately 25%.

The radio program was limited to fire prevention appeals over local broadcasting stations in the north at the time of high fire hazard. No exhibits were undertaken. No new fire posters were designed, but reprints were made and distributed of previous designs. Advertising appeals in forest industry and sporting publications increased by approximately 10% over the previous year.

### *Articles*

Magazines and newspapers frequently requested information for articles prepared by members of the Department. Reporters and feature writers, in the preparation of articles, often sought data which they obtained by means of interviewing staff members. An increase of over 50% in total space over the previous year was noted. One well-known outdoors magazine published an article of 1,000 words each month.

In addition to the above, some 1,120 articles, news items and illustrated stories concerning activities of the Department appeared in Ontario daily and weekly newspapers. This coverage included official news releases by the Minister. Line coverage, including 112 photographs, amounted to more than 20,000 column inches during 1945-46.

### *Radio*

Radio stations, particularly in Northern Ontario, rendered valuable assistance to District Foresters by broadcasting fire hazard warnings, notifications as to the closing of areas to travel, the legal requirements to secure travel permits, burning permits etc., plus a large number of fire prevention "plugs" directed particularly to campers and smokers.

### *Advertising*

The majority of the routine business advertisements, numbering 77 in 116 publications, consisted of calls for tender to cut timber. The few additional advertisements of this type were concerned with calls for tender to supply materials or equipment to the Department.

During the year, a total of 26 display advertisements, occupying from the full to a quarter page, were used to good advantage in industrial business and sporting magazines. These consisted of forest fire prevention appeals to the public, especially with reference to camp fires and smokers.

### *Signs and Posters*

During the year, some of the District offices increased the number of roadside signs appealing to the public to be careful with fire. It is considered that a much greater use of this type of sign can be made in future. 11 different fire prevention posters for use on portages and trails were in use during the year. The total number posted throughout the north was 17,142. It is also felt that bill-boards can be used to great advantage at keypoints on highways, especially those which lead into heavily-populated recreational areas.

### *Exhibits*

Because of lack of personnel, this important phase of Department publicity had again to be postponed. It is considered that the Department can, in future, reach hundreds of thousands of citizens in a very economical manner by the use of exhibits.

### *Novelties for Distribution*

Thousands of daily reminders concerning forest fire prevention, reforestation, and conservation in general, were distributed during 1945-46 by means of messages printed on advertising novelties, such as pencils, rulers and carborundum stones. The pencils and rulers were distributed to young people in schools and elsewhere generally, at the time that meetings sponsored by the Department were held. To indicate numbers used 40,000 pencils and 15,000 carborundum stones were distributed.

### *Publications*

With the appointment of an officer in charge of publications, it was possible to prepare and issue a larger number of booklets and leaflets than previously, and improve their format. The first two numbers of a Department magazine, SYLVA, were issued during the year. Lists of the publications completed and those in course of publication appear in the tables which follow.

There was a marked increase in public demand for the publications prepared by the Department, with the result that many quickly went out-of-print. This was particularly true of the magazine SYLVA—the demand for which was truly amazing. It is indeed a problem to determine in what way the Department may meet the persistent and increasing demand for these publications in large numbers, having cost in mind. It is estimated, for example, that to supply the thousands of farmers with factual information by means of the printed word concerning the management of their wastelands, it will be necessary in future to publish in tens of thousands, instead of in thousands.

LECTURERS FOR THE DEPARTMENT REACH EVEN THE MOST REMOTE SCHOOL HOUSES IN THE PROVINCE WITH MESSAGES ON CONSERVATION AND FOREST FIRE PREVENTION

*Department Publications*

The following publications were completed during the fiscal year:

Manual of Scaling Instructions  
Addenda to Manual of Scaling Instructions  
Forest Fires Prevention Act (reprint)  
Forest Tree Planting  
Windbreaks and Shelterbelts  
Birds of Algonquin Park (reprint)  
Rondeau Park Regulations  
Chart of Administrative Divisions  
List of Townships in the Province of Ontario  
Annual Report  
SYLVIA, Vol. 1, No. 1  
SYLVIA, Vol. 1, No. 2  
Ontario Forest Tree Calendar

The following publications were in course of preparation, but are not completed to date:

Forest Trees of Ontario  
Fire Fighters Manual  
Algonquin Story  
A Cabin of Your Own  
Know Your Forest Trees

*Publications for Distribution*

At the present time the following Departmental publications are available for distribution:

*Timber Management*

Forest Resources of Ontario  
Crown Timber Regulations  
Crown Timber Dues  
Procedure to Cut Timber from Crown Lands  
Systems of Forest Cropping  
Forest Products Chart  
Manual of Scaling Instructions  
Addenda to Manual of Scaling Instructions  
Woodmen's Employment Act

*Forest Protection*

Forest Fires Prevention Act and Regulations  
Forest Conservation Poster

*Air Service*

Wings over the Bush

*Reforestation*

The Farm Woodlot  
Windbreaks and Shelterbelts  
Forest Trees for Distribution  
Forest Tree Planting  
Glacial Pot Hole Area, Durham County  
Ganaraska Survey

*Land and Recreational Areas*

The Public Lands Regulations  
 Lands for Settlement in Ontario  
 Summer Resort Lands in Ontario  
 Algonquin Park  
 Quetico Park  
 Rondeau Park  
 Birds of Algonquin Park  
 Rondeau Park Regulations

*Operation and Personnel*

Administrative Chart

*Surveys and Engineering*

List of Townships in the Province of Ontario  
 List of Lithographed Maps and Plans

*Photography and Visual Education*

In the fall of 1945 a motion picture projection and equipment maintenance room was made available and equipped. A slight easing in equipment supply made it possible to acquire several new motion picture projectors and generators. A small supply of screens, tools, etc., was also acquired.

The field lecturer held meetings throughout Northern Ontario, appealing for public co-operation in the prevention of forest fires. A total audience of over 55,000 persons were reached in these meetings, largely in schools. An additional audience of 5,000 was reached by men from Head Office, who put on motion picture showings as an extra duty.

*Lecture Tours*

One field lecturer conducted Forest Fire Prevention Lecture Tours during the whole year, while two other members of the staff conducted part-time tours during the summer months. A summary report follows:

## FOREST FIRE PREVENTION LECTURE TOURS

April 1, 1945 to March 31, 1946

R. V. WHITMAN ANSWERS A QUESTION DURING ONE OF HIS LECTURES AT A SUMMER CAMP

It is impossible for one man to cover Northern Ontario completely in a year. A limited time was allotted to as many forest districts as could be covered, each district receiving only partial coverage.

As indicated in the last report, there is a minimum requirement still of five lecturers, in order to give proper coverage to all districts at regular intervals.

#### *Photographs and Slides*

During the fiscal year, the Photography and Visual Education Branch fortunately obtained additional staff. This staff was employed on full-time photographic work, since they were hired mainly on equipment maintenance, but a start was made towards getting photographs to meet the many requirements.

A large number of photographs were purchased from various free-lance photographers.

#### *Equipment*

Camera equipment was still very scarce, but some equipment was obtained in order to make the above start.

There is still a very great need for photographs both black and white and colored, and a library of slides should be started at the first opportunity.

#### *Motion Pictures*

A new motion picture, entitled 'Tomorrow's Timber', was used for the first time during this fiscal year on the tours, and proved quite satisfactory. A second motion picture, entitled 'Scout In The Forest', was also used but later shelved, when it was felt that the proper message was not conveyed to the public by this film.

By the end of the fiscal year, 'Tomorrow's Timber' had pretty well saturated the Northern Ontario audience, and in order to maintain our lecture tour programme for the future, it is felt we must undertake production of our own film, since other suitable films are not available on either the Canadian or American markets.

#### *Equipment*

Additional projectors, screens, generators and 'fill-in-films' were purchased as they became available, but more are still needed and should become more readily available during the next year.

SAILING IS A FAVOURITE SPORT IN TIMAGAMI

ST. WILLIAMS. A RED PINE FOREST PLANTED IN 1913

## DIVISION OF REFORESTATION

*Distribution of Trees*

The distribution of trees for the year under review remained about the same as for the past few seasons. There has been an increase of about 1,000,000 output, but we anticipate the demands in the near future will far exceed our possible output. Private landowners received 7,056,000 trees, schools, 1,250,000, municipal reforestation projects 1,750,000, and Crown land a little over 1,000,000 trees. The above projects, with other miscellaneous projects, amounted to a distribution of 11,280,981 trees. Inspections and studies of distribution to private landowners are being carried on, and it is felt that many private individuals are trying to plant hardwoods under conditions which are not successful. We hope to have a cross-section report on this, probably by next season.

The successful distribution of trees to private landowners is very much dependent upon the assistance of local officers, or Zone Foresters, in preparing planting plans and giving advice. This emphasizes the necessity of extending our Zone Forester organization.

*Municipal Reforestation*

There is an increasing interest by municipalities in the matter of reforestation, and we are being presented with the problem of increasing our nursery output in order to keep up with the purchase of lands by municipalities, to be reforested under our present arrangements.

Twelve counties have acquired land, under the Municipal Reforestation Act, since 1922, and entered into an agreement with the Crown for its management. The counties have acquired land as follows: Bruce, 5,000 acres, Prescott and Russell, 10,000 acres, Simcoe, 9,500 acres, Victoria, 3,600 acres, and York, 2,700 acres. The following counties have acquired 1,000 acres or more: Northumberland and Durham, Dufferin, Grey, Leeds and Grenville, Lanark, and Ontario.

Two counties have acquired over 1,000 acres, but are not under agreement with the Crown as regards management—Norfolk, 1,400 acres, and Peterborough, 3,000 acres. In these cases, the Crown supplies the trees free, and endeavours to give technical advice when required.

Twelve other counties have acquired smaller areas. In all, twenty-six counties have made a real start in the undertaking of municipal forestry work.

A few urban municipalities have carried out reforestation in connection with the lands protecting their water supply. Guelph planted areas about the springs at the source of their water supply as early as 1909. Beeton, Hanover, St. Thomas, Woodstock, Orangeville and Midland have carried out reforestation to protect the areas about their water supplies.

*Distribution to Schools*

Considerable interest has developed among the rural schools in connection with making forest plantations or plots. Competitions have been carried out through the co-operation of the Ontario Horticultural Association.

*Crown Land Planting*

A little over 1,000,000 trees have been supplied to various projects in connection with reforestation on Crown lands in northern Ontario. These have been in the nature of additions to the Kirkwood Management Unit near Thessalon, and to various experimental plantings on cut-over lands.

*Provincial Forest Stations*

Extensions in the nursery lands at Saint Williams, and Orono, will facilitate the increasing of the output from these nurseries, and a new station has been established at Kemptville, near Ottawa, through the purchase of some 1,500 acres. This station will be able to serve the needs of eastern Ontario. The following tables furnish details of distribution:

TABLE NO. 1  
SUMMARY OF TREES DISTRIBUTED  
(July 1, 1944 to June 30, 1945)

	Total Shipments	Conifers	Hardwoods	Total Trees
PRIVATE LANDS:

A POWER PRUNER IN OPERATION IN VIVIAN FOREST

RELEASING A BALLOON TO CHECK WIND DIRECTION AND VELOCITY DURING  
SULPHUR FUMES INVESTIGATION WORK

## DIVISION OF RESEARCH

The Research Division was expanded very materially during the fiscal year 1945-46. During this period, two junior foresters were added to the staff and arrangements were completed with the Dominion Forest and Science Services, the National Research Council, the University of Toronto, the Ontario Research Foundation, the Royal Ontario Museum, and private companies, for co-operative investigations.

Extensive forest surveys, large scale insect control operations, and an expended sulphur dioxide study are the more prominent features of the Division's work during this period.

The following is a summary of projects and progress in the Research Division during the fiscal year ending March 31, 1946:

## BIOLOGICAL INVESTIGATIONS

## PROJECT I

*Regeneration and Silvicultural Studies*

*Object:* Information for sustained yield management.

To determine adequacy of stocking of desirable species following cutting and fire, and to devise methods to correct deficiencies. Experiments are or will be set up to check results in practice.

*Work accomplished:*

Surveys on 150,000 acres.  
1930-33, 1943-45.

Surveys were carried on in the following areas in 1945; or are to be done in 1946.

*Duration:* Indefinite.

Such information always necessary.

(a) Clay Belt in Kapuskasing district: Prof. R. C. Hosie and four men. Co-operative effort with Spruce Falls Co. Continuation in 1946 by Prof. Hosie alone to check conclusions.

(b) Timagami: H. C. Larsson and four men surveyed conditions of pine regeneration in cut-over areas and uncut strip around lake. Report issued. To be followed up by establishment of permanent sample plots to determine mortality among pine.

*Staff:* H. C. Larsson  
A. P. Leslie  
14 students.

(c) Goulais River regeneration and growth survey: Co-operative effort with Dominion. Ontario supplied party leader, H. Graham, during 1945. Summer spent in relocating old areas. To be continued in 1946-47. Ontario co-operation limited in these years to road repairs. Report will be issued by the Dominion Forest Service.

(d) Port Arthur regeneration survey: A survey was carried on by 8 men under the direction of Peter Addison to bring knowledge of cut-over in this region up to par with the rest of the province. An interim report has been issued, but this work will continue into 1946-47 with from 12 to 15 men under H. C. Larsson.

(e) Kenora regeneration survey: This is a 1946 project employing 2 men under the immediate supervision of Mr. Cram, covering spruce and jack pine and red and white pine associations of the Kenora region.

## PROJECT II

*Object:* More adequate and lower cost seed supply for nurseries and direct seedling reforestation.

*Work accomplished:*  
Preliminary survey only

*Duration:* Indefinite.

Study of seedling habits of red and white pine and spruce to determine practicability of producing seed in large quantities from selected trees in a special area, and increasing yield by stimulating growth with hormones and other treatments as well as protection from insects. Under the direction of Dr. Duff, of the Botany Department, University of Toronto. Two students to be employed.

## PROJECT III

*Object:* Quick and economical establishment of desirable species in cut-over or derelict stands.

*Work accomplished:*  
Spraying of roads and portages.

*Duration:* Indefinite, if feasible.

*Staff:* A. P. Leslie  
1 student.

Shrub reduction in cut-over stands just before seed fall by use of 2-4-D herbicide. Shrub growth has been shown to be one of the principal factors in retarding establishment of regeneration. Experiments in mechanical reduction in parts of the U.S. have shown good results, and it is proposed to check the chemical method along with the mechanical in Ontario for cost and efficiency. This is the first reported use of this chemical for the purpose and has been planned by the Division since this weed killer first came out. Two men employed for one month in 1946. This method will also be used experimentally as a means of clearing roads and trails quickly and economically that are now mowed by hand.

## PROJECT IV

## SOILS

*Object:* Separation of agricultural and forest lands. Description forest soils.

*Work accomplished:*  
Surveys, Cochrane and Port Arthur on 100,000 acres.

*Staff:* G. A. Hills  
G. C. McLaren  
6 students

The object of the work is to separate agricultural from forest soils to simplify land settlement and forest management problems, and to classify forest soils to ensure their most productive use. Surveys employing 7 men, have been carried out in Port Arthur and Cochrane districts, and are to be carried on in the Cochrane and Parry Sound district in 1946. The Cochrane survey is to aid in settlement of Crown lands by setting aside forest soils for forest growth only. The Parry Sound survey is to classify forest soils on the plains adjacent to Huntsville.

## PROJECT V

## GAME AND FISH

*Object:* Increase and maintenance of game and fish resources.

These studies have the aim of increasing resources of game and fish in provincial parks and hence the tourist and scenic returns from the forest. Another

*Work accomplished:*  
Surveys in parts of Algonquin and Quetico Parks.

*Duration:* Indefinite.

*Staff:*  
Dr. C. H. D. Clarke  
Dr. W. J. K. Harkness  
15 students and graduates.

feature of the study is the necessity of detailed knowledge of the close relation existing between plants and animals in any particular environment. This knowledge of habits and life cycles of many animals, such as mice, is often necessary in successful forest establishment and management. The study of animals will be done by 8 men under the direction of Dr. C. H. D. Clarke. The study of fish will be done by 7 men under the direction of Prof. W. J. K. Harkness, of the University of Toronto.

## PROJECT VI

## PEST CONTROL EXPERIMENTS

*Object:* Control of destructive forest insect outbreaks.

*Work accomplished:*  
100 square miles sprayed Algonquin and Port Arthur districts 1944-45.

*Duration:* As long as need exists.

*Staff:*  
K. E. Stewart, loaned from Dominion Div. of Entomology.  
Dr. R. R. Longford  
H. D. Graham  
H. C. Larsson  
13 students.

This includes the DDT spraying program, to control the spruce budworm, which will cover some 35 square miles with varying concentrations of insecticide from 1 lb. to the acre and upward, and very close checking of the results on all forms of forest life. Two Canso aircraft are being purchased from War Assets Corporation and fitted with spraying equipment. Some 12 men under the direction of Mr. K. E. Stewart, of the Division of Entomology, of the Dominion Government, will be employed in laying out the experiment and checking the results of the spruce budworm. Various biologists, drawn from the groups employed on fish and game studies, will further check the results of the spraying on desirable life forms. This program will take the services of 13 men for most of the summer.

## ECONOMIC INVESTIGATIONS

### PROJECT VII

### *Stumpage Study*

*Object:* Fair basis for upset price in sales by tender and permit prices for timber.

*Work accomplished:* Office study only.

*Duration:* 5 years.

*Staff:* A. P. Leslie  
H. D. Graham

This work has been on an office basis for some time, but it is to be carried out in the field to determine a fair price to be used as a basis for competitive bidding in timber sales, and as a price basis for permit sales. The work is to start south of the French river, and will occupy 2 men for one year. Extension of the work north of the French river will take several years to complete.

CONTINUOUS SULPHUR DIOXIDE ANALYZER AND MICROMAN CONDUCTIVITY RECORDER

AEROPLANE SAMPLING UNIT FOR ATMOSPHERIC SULPHUR DIOXIDE AND SULPHUR TRIOXIDE—A DOUBLE UNIT FOR TESTING IN FLIGHT AND AT LAKE LEVEL

## MECHANICAL

## PROJECT VIII

*Object:* Value for expenditure in machinery purchased by Department through thorough testing and adaptation to use.

*Work accomplished 1946:* Installation of test equipment for pumps and hose; test of DDVA, Porto, and Johnson, Kiekhaefer pumps; design of infra-red light and vacuum cone drying equipment; work on spraying equipment for Canso plane in Project VI.

*Duration:* Indefinite.

*Staff:* M. H. Baker  
Assistant  
2 students.

## PROJECT IX

*Object:* Production of device suitable for releasing water or insecticide from floats of seaplane.

*Work accomplished:* Device installed and tested 1945

*Duration:* Further development during 1946.

*Staff:* C. C. Crossley, Provincial Air Service.

## PROJECT X

*Object:* Improvement in communications equipment within the Department.

*Work accomplished:* Report on enlisting communication network.

*Duration:* Indefinite.

*Staff:* Communications staff of Forest Protection Division. Outside consultants.

This involves the test and approval of new mechanical items which the department is called on to purchase. The large amount of mechanical equipment used in forestry work now makes a mechanical laboratory for adequate testing and possible redesign a necessity. The station, now at Maple, will save money over a period of time. The most pressing needs at present are tests of various fire pumps now in use, and improvement of design. Other items of equipment which are in line for development and improvement, are fire line trenchers, tree planters and seeders, as well as new types of fire hose, and preservatives for types now in use. An engineer, one assistant, and one student are employed full time on these projects.

This is a device originally designed for drenching incipient forest fires with water. It later appeared to have possibilities for applying insecticide sprays on small infestations. It consists of automatic valves attached to one compartment of each float on a seaplane. These valves open automatically when plane is taxiing, and close when the compartment is full of water. The liquid is manually released when the plane is in the desired position in the air. Mr. Carl Crossley is responsible for the present development of this device.

This is a cooperative project with other departmental divisions, especially the Division of Forest Protection. Much of the work is done by the staff of this division with the aid of outside consultants. A complete report on the departmental communications system has been made with recommendations for future development. A low drain receiver transmitter has been made for use in outlying tower and other sites that have no power supply, other than small generating units or batteries.

## CHEMICAL INVESTIGATIONS

## PROJECT XI

*Object:* To assess damage to forest growth by  $\text{SO}_2$  and other fumes from smelters at Coppercliff, Comiston and Falconbridge.

*Work accomplished:* Two years' survey work on the ground and in the air, 12 recording stations with 3 automatic recorders established. Growth measurements, soil and foliage analyses made.

*Duration:* Five years.

*Staff:* R. H. Murray,  
Department of Mines.  
8 assistants.

This work was organized in its present form in 1944. It is a cooperative venture with the International Nickel Co., the Falconbridge Nickel Co., the Department of Mines and the Department of Lands and Forests.

The entire cost is being paid by the Department of Lands and Forests.

Competent technical advice is available from the National Research Council, the Ontario Research Foundation.

By the terms of the agreement, the survey covers only the damage to forest land.

Sample of air are tested for  $\text{SO}_2$  at 12 ground stations, and by apparatus installed in an aircraft which takes air and ground measurements at specified points. Records of smoke are kept by *all* fire towers within the affected areas.

## SOUTHERN RESEARCH STATION

## PROJECT XII

*Object:* Laboratory office and field space for various tests.

*Work accomplished:* Building program and establishment of offices well under way.

*Duration:* Indefinite.

*Staff:* All division staff.

This is to house mechanical test equipment, provide office and laboratory space for part of research staff, as well as ground space for various planting, seeding and machine tests. In addition, this area provides space for storage of departmental records, and for a fish study laboratory to be built by the Department of Zoology, University of Toronto. A superintendent's house is to be completed in 1946, and a soils laboratory equipped.

In addition to the above projects, there are several not yet clearly defined because of lack of suitable staff or other factors. They are:

1. Cooperative study on Abitibi limits at Iroquois Falls of growth, yield, and regeneration on sample plots established by the Company. This would require 4-6 men at 5-year intervals.
2. Large scale collection of black spruce seed for seeding accessible areas not now carrying a commercially valuable stand. This is dependent on a good seed year.
3. Seeding and planting experiments cooperatively with the Division of Reforestation. This involves the seeding of hardwoods, and preparation and planting of low land with the proper species.

COMPARING POINTS ON PHOTOGRAPHS WITH SLOTTED TEMPLATE LAYOUT

## DIVISION OF SURVEYS AND ENGINEERING

Southern Ontario, with a population of about four million people, representing about ninety per cent of the total population of the Province, contains 50,482 square miles. With the exceptions of the Townships of Sproule and Preston and an area west of Mowat Township, this part of the Province was completely surveyed into 588 township subdivisions, over a period of about one hundred years after the first township was surveyed in the year 1783.

In the vast territory of Northern Ontario, with its 362,100 square miles and a population of some 350,000 people, about twenty-three per cent of the area has been surveyed or blocked out into townships. These townships were surveyed primarily for land settlement purposes, and to facilitate the disposition of Crown Lands in areas where developments occurred in the mining and lumbering industries. For exploration and mapping purposes, and to provide ground control for aerial photography, some 3,775 miles of base and meridian lines have been surveyed on the ground, and over 15,000 miles of lake and river survey traverses have been completed.

This division is charged with the administration of ground surveys affecting Crown Lands, aerial surveys and engineering in relation to water power development, water storage and water control on navigable lakes and rivers in the Province. In controlling the water level of our lakes and streams, every effort is made to meet the requirements of the power companies, the lumbermen, and the tourists, who, by their own individual needs, require the use of the water at different seasons of the year.

In conjunction with The Hydro-Electric Power Commission of Ontario, plans were formulated for the survey of some 11,000 acres of lands adjacent to the Ottawa River which will be flooded when the power dam at the Des Joachims rapids is constructed to raise the water of the Ottawa River to the head-water elevation of 500 feet above mean sea level. The initial development, which will supply an additional 360,000 horse power, will necessitate the relocation of portions of the Canadian Pacific Railway and the King's Highway.

At the present time, there is a dearth of qualified Ontario Land Surveyors who are in a position to undertake surveys required by this Department. Due to this condition, and the increasing demand for Crown Lands for summer resort purposes, there is a back-log of surveys to be made. It is expected, however, that the situation will soon be relieved, as many ex-members of the Armed Services are taking required academic courses so that they may take out articles of apprenticeship to become land surveyors.

Negotiations were entered into for the photography, mapping, and timber typing of approximately 150,000 square miles in the Northern Portion of the Province. This will provide an accurate inventory of the forest resources, and it is anticipated that this work will be completed in the next five years.

The following aerial and ground surveys were undertaken during the fiscal year ending March 31, 1946.

## GROUND SURVEYS SECTION

Survey instructions were issued for the following surveys:—

*Crown Surveys*

1. Additional Summer Resort Locations in Rondeau Provincial Park.
2. Summer Resort Locations on Silver Queen Lake, Lot 8, Concession 5, Township of Leitch, District of Cochrane.
3. Extension to Whitney Town Plot, Township of Airy, District of Nipissing.
4. Water front lots, Red Lake, Township of Dome, District of Kenora (Patricia Portion).
5. Timber limit lines, Township of Clement, Belfast and Scholes, District of Nipissing.
6. Retracement survey, part of the north boundary of township of Abinger, County of Lennox and Addington.

*Municipal Surveys*

- No. 816—Line between Concessions X and XI across Lots 1 to 20 inclusive, Township of Lake, County of Hastings.
- No. 817—Line between Concessions III and IV and between Concessions IV and V across Lots 16 to 25, inclusive, Township of Lake, County of Hastings and the south boundary of the Township of Lake across Concessions I to IV inclusive.

*Private Survey on Crown Lands*

Under authority of Section 37 of the Public Lands Regulations, 358 summer resort locations were surveyed, and the returns of survey filed in the Department. One hundred and forty-three surveys of this number were surveyed under direct departmental instructions to the surveyor, where the applicant paid in the sixty dollar fee as specified in Section 37 of the Public Lands Regulations.

*Townsite Subdivisions*

The following subdivisions were surveyed on privately owned lands subject to the provisions of the Townsites Act. A cash consideration was accepted by the Crown in lieu of selecting one quarter of the number of lots as surveyed.

1. Village of Moonbeam—being part of Lot II, Concession 3, Township of Fauquier, District of Cochrane.
2. Marathon Townsite—being part of Lot 21, Concession 9, and part of Lot 21, Concession 10, Township of Pic, District of Thunder Bay.

*Maps and Publications*

The following maps and booklets were revised and printed:—

- Map 20A—Province of Ontario revised reprint. 30,000 copies, lithographed.
- Map 32C—Lake Timagami Area, revised. 4,000 copies lithographed.
- Booklet—"List of Townships" revised and reprinted. 500 copies.

## AERIAL SURVEYS SECTION

During the fiscal year the Aerial Surveys Section covered 9,255 square miles with vertical photography.

Of this total, 8,699 square miles were done for Departments of the Provincial Government, including the Hydro-Electric Power Commission. The remainder, 556 square miles, was for timber and pulp companies which had the right to cut on Crown Lands.

The following table illustrates the breakdown of these figures:—

WINTER BUSH TRAIL IN THE FORESTS OF TIMAGAMI

## DIVISION OF TIMBER MANAGEMENT

A strong post-war demand for all kinds of forest products continued during the year 1945-46 which was reflected in increased timber operations throughout the Province. The shortage of labor was alleviated by the continued use of prisoners-of-war, and with a somewhat easier situation regarding equipment and materials, overall production was considerably increased. While there was some reduction in the quantities of sawlogs and ties produced, there was a substantial increase in pulpwood production, resulting in an increase in the amount of stumpage charged of nearly 20% over the previous year. An early spring breakup, somewhat similar to the previous year, again prevented a quantity of logs and pulpwood reaching the mills.

A statement of timber cut during 1944-45 and returned in 1945 is shown on page 121. Statements showing production by Administrative Districts of the Province for 1944-45 are also shown on pages 122 to 139 inclusive.

*Timber Sales—1945-46*

During the season there were 50 new sales of timber, 120.25 square miles of timber being sold. Details of the sales are given on pages 143 to 152 inclusive.

In the same period, 39 timber licenses comprising 314.50 square miles were abandoned, details being given on pages 154 to 157 inclusive.

As at March 31st, 1946 the status of the timber licensed areas in Ontario, was as follows:

	No.	Area Sq. Miles
Licenses and Renewals Issued 1945-46:.....	893	11,978.50
Licenses in suspense:.....	43	264.50
	936	12,243.00

This is 1631.50 square miles less than that under license at the end of the previous fiscal year.

*Pulpwood and Timber Agreements*

As at March 31st, 1946, the area held under pulpwood concession and timber agreement was 53,754 square miles.

During the season 15 new agreements were entered into.

Details of the 15 new agreements are reproduced on pages 163 to 258 inclusive.

## MILLS LICENSED—1945-46

The mills licensed during the season, under the regulations of the Mills Licensing Act, were as follows:

Less than 5,000 feet.....	515
5,000 to 30,000 feet.....	589
Over 30,000 feet.....	36
Number of Paper Mills.....	31

1171

## PULPWOOD EXPORTS

During the calendar year, January 1 to December 31, 1945, 594,355 cords of pulpwood, all species, were exported from Ontario. Of this total, 395,441 cords were exported from Ontario Crown lands, the balance of 153,914 cords from private lands. This represents an increase of 164,776 cords compared to the previous year, of which 145,220 cords is an increase in Crown lands exports.

Detailed statements of pulpwood exports are shown on pages 140 and 141.

### SCALING

Scaling examinations were held during 1945 as follows:

- (1) Algonquin Park.....October 12th
- (2) Fort William.....September 1st
- (3) Minden.....May 11th
- (4) Thessalon.....June 1st

The results were as follows:

	Algonquin Park	Fort William	Minden	Thessalon
Number of Candidates.....	29	56	39	34
Number obtaining full licenses.....	20	9	15	20
Number obtaining Pulpwood license..	3	11	8	2

The remainder of the candidates were either recommended for licenses after further experience, or were unsuccessful.

### AREA UNDER PULPWOOD AND TIMBER AGREEMENT

AGREEMENT made the 29th day of March, 1946:

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario  
as represented by the Minister of Lands and Forests (herein  
referred to as "the Crown")

OF THE FIRST PART

—and—

ABITIBI POWER & PAPER COMPANY, LIMITED, a company  
incorporated under the laws of the Dominion of Canada,  
herein acting and represented by GEOFFREY TEIGNMOUTH  
CLARKSON, Receiver and Manager of the undertaking, property  
and assets thereof, and ROY SHARVELL McPHERSON, the  
Liquidator thereof (herein referred to as "the Company")

OF THE SECOND PART.

THIS AGREEMENT WITNESSETH that in consideration of the covenants and agreements on the part of the Company herein contained:

1. The Crown with the consent and approval of the Lieutenant-Governor-in-Council and subject to the provisions of Clause 6

(a) Doth grant to the Company for a period of twenty-one years commencing on the 1st day of April, 1946, the right to cut and remove all spruce, balsam and other pulpwood on and from the lands described in Schedule "A" hereto;

(b) Doth grant to the Company for a like period of twenty-one years commencing on the 1st day of April, 1946 (subject to the granting or renewal of a yearly license if and so long as such be required by The Crown Timber Act, R.S.O. 1937, Chapter 36 and amendments thereto) the right to cut and remove all other kinds and classes of timber on and from the said lands described in Schedule "A" hereto.

2. The lands described in Schedule "A" hereto are hereinafter referred to as "the Concession Area".

3. In addition, the Company shall have the right for a period of one year from the date hereof or for such further period as the Minister may de-

termine to examine the lands described in Schedule "B" hereto and to select the whole or any part or parts thereof and thereupon the lands so selected shall be added to and form part of the Concession Area, and all the terms and conditions hereof shall apply to such additional lands.

4. If, during the term of this Agreement or any renewal thereof, the Company shall establish to the satisfaction of the Minister that the pulpwood on the Concession Area is insufficient for the future operation of the Company's mill at Fort William at present capacity, the Crown agrees, to the extent that it may have the same available, to provide additional areas in support of such mill on like terms and conditions as herein set forth.

5. The Crown does not guarantee any quantity of timber on the Concession Area.

6. The rights granted by this Agreement to the Company are subject to any presently existing commitments of the Crown to Great Lakes Lumber & Shipping, Limited, but otherwise shall be exclusive subject to the terms and conditions hereof.

7. The Company shall pay to the Treasurer of the Province of Ontario the following prices:

(a) For pulpwood cut on the Concession Area the following:

Spruce.....	\$1.65 per cord	Inclusive
Balsam.....	\$ .75 " "	of
Jackpine.....	\$ .50 " "	Crown Dues.
Other pulpwood—Crown dues.		

(b) For timber cut on the Concession Area for use for purposes other than as pulpwood:

Such prices as the Minister may from time to time determine, to be consistent with prices on adjacent or similarly situated concession areas.

8. The above prices shall be subject only to such variation in Crown dues that may hereafter be generally effected by regulation for timber cut for domestic manufacture and applicable throughout the Province of Ontario.

9. At the written direction of the Minister the Company shall cut and remove merchantable damaged timber on the Concession Area at such lesser rates, based on the value in the damaged timber, as the Minister may determine; but the Company shall not be required or be obligated to cut and remove more of such damaged timber in any year than it can reasonably produce and use in its operations.

10. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the regulations under The Crown Timber Act and accounts shall be due and payable on the 1st day of October for the preceding season and on all accounts which remain unpaid after the 31st day of October in the same year, interest shall be charged at the rate of Six per centum (6%) per annum calculated from the 1st day of October in the same year.

11. Pulpwood taken out in four or eight foot lengths shall be measured, returned and paid for on the basis of one hundred and twenty-eight cubic feet in each stacked cord. Pulpwood taken out in lengths in excess of eight feet shall be measured in the log on the cubic basis and each 100 cubic feet shall constitute a cord. Timber other than pulpwood shall be measured in accord-

ance with the provisions of the Manual of Scaling Instructions now or hereafter approved by the Crown.

12. For the purpose of calculating ground rent and fire protection charges, the Concession Area shall be deemed to comprise 1,822 square miles and the Company shall pay annually in advance, commencing with the First day of April, 1946, fire protection charges at the rate of \$6.40 per square mile on the said area of 1,822 square miles and ground rent at the rate of \$5.00 per square mile on one-tenth ( $1/10$ th) of the said area of 1,822 square miles. Interest at the rate of Six per centum (6%) per annum shall be charged on accounts which remain unpaid after 30 days from the due date.

If, pursuant to the foregoing provisions of Clause 3 hereof, the whole or any portion of the lands described in Schedule "B" are added to the Concession Area, then the aforesaid area of 1,822 square miles shall be increased by such number of square miles in the lands so added as shall be determined by the Minister.

While the rights of the Company under this Agreement are subject to any existing commitments of the Crown referred to in Clause 6, the aforesaid area shall be deemed to be reduced to such an extent as the Minister may determine.

If and whenever it is ascertained that any part or parts of the Concession Area are non-productive of merchantable timber, the aforesaid area may be reduced to such extent as the Minister may determine.

13. If, and whenever, otherwise than by reason of default on the part of the Company, there shall be removed from the Concession Area any part thereof which the Company desires to retain, then the amounts thereafter payable by the Company to the Crown under the provisions of this Agreement shall be abated and be reduced by the amount of the fire protection charges and ground rent theretofore paid by the Company to the Crown in respect of the area of such part or by such proportion of such charges and rent as the Minister shall determine to be fair and reasonable and the Company shall be relieved thereafter from payment of fire protection charges and ground rent in respect of the area of such part.

14. The deposit of the Company in the aggregate amount of \$173,725 for the due performance by the Company of its obligations under agreements or licenses now in force between the Crown and the Company shall be considered as a deposit by the Company hereunder and be held by the Crown for the due performance by the Company of its obligations under this Agreement and all other agreements entered into between the Crown and the Company of even date; provided that the surplus beyond One hundred thousand Dollars (\$100,000) may be used by the Company for the payment of dues and charges including fire protection charges and ground rent which accrue hereunder (or under other agreements between the Crown and the Company of even date) in respect of the Company's operations during the first three years of the term of this agreement but in no event shall more than one-third of the said surplus be so applied in any one year.

Provided that the Company, at its option, shall be entitled at any time to substitute for the said cash deposit bonds of the Dominion of Canada or Province of Ontario of a par value of \$100,000 as security for the due performance of its obligations under this Agreement and other agreements of even date, whereupon the said cash deposit shall be applied as the Company requires in satisfaction of dues and charges, including fire protection charges and ground rent, which become payable by the Company to the Crown under this or any other agreement.

For the purposes of this Clause 14 only, the word Company shall include both Abitibi Power & Paper Company, Limited, and Thunder Bay Paper Co., Limited.

15. The Company hereby agrees that within five years from the date of this agreement

- (a) It will provide the Minister with an estimated inventory or inventories of the timber on the Concession Area by species and size classes and information with respect to the forest types and general age classes of such timber;
- (b) It will deliver to the Minister for his information a map dividing the Concession Area into such operational units as the Company shall deem to be appropriate having regard to the locations thereof, the types and characteristics of the timber thereon and the estimated future requirements of the Company, which map shall be subject to modification by the Company from time to time;

provided that in respect of the lands described in Schedule "B" hereto or the part or parts thereof selected by the Company, the period of five years shall run only from the date upon which the Company shall make its selection under Clause 3 hereof.

For the foregoing purposes the Company will proceed forthwith with a forest survey of the Concession Area and all other areas, whether Crown or private lands, upon which it holds cutting rights, in such order as the Minister may direct so long as the same does not unreasonably interfere with the Company's plans relative thereto. In each year the Company will survey as large an area as it can reasonably do in that year. It shall report the results to the Minister as the work progresses, and not less frequently than annually.

On the basis of the above surveys and inventories, the Company shall from time to time submit plans for utilizing the timber on the Concession Area in keeping with the requirements of the Company for pulpwood, the classes and sizes of timber found thereon and the market demands for timber for use other than as pulpwood, the first of such plans to be submitted as soon as practicable after the completion of the survey of the Concession Area, and in any event within the said five-year period. Each plan shall become operative only after being approved by the Minister.

Sixty days before commencing operation in any season the Company shall give such particulars as the Minister may require as to the proposed operation and shall obtain the consent in writing of the Minister to proceed with such operation (which consent shall not be unreasonably withheld or delayed) and within four months after the completion of the authorized operation shall file with the Minister a map indicating the cut-over areas and the kinds and quantities of each class of timber taken therefrom.

Except as may be herein otherwise provided, the Company shall cut and remove from the area actually cut over in each season all the merchantable timber thereon, save that the Company shall not be required to cut any timber not provided to be cut in the particulars of the proposed operations for such season to which the Minister has consented as aforesaid. In addition, the Minister may at any time and from time to time excuse the Company from cutting any one or more species of timber or any quantity or quantities thereof, notwithstanding that the same may have been included in the particulars of the proposed operations to which he has given his consent.

The pulpwood from the Concession Area shall be utilized in the Company's mill at Fort William save that the Minister from time to time may permit the Company to use or dispose of the said pulpwood in such other manner as he may determine; provided that the Port Arthur mill of the Company's subsidiary company, Thunder Bay Paper Co., Limited, shall be considered as part of the said mill of the Company so long as the mills are owned by a parent and a subsidiary or both by one company.

16. The Minister or any officer or officers of the Department of Lands and Forests shall have the right to inspect the timber operations on the Concession Area at any time. If such inspection shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed under the provisions of this Agreement is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement. The Company may thereafter remove any such timber without further charge. The cutting and removing of the timber on and from the Concession Area shall not be deemed to have been completed until the Concession Area has been examined by an officer of the Crown (which examination shall not be unreasonably delayed) and the operation has been declared satisfactory by the Minister.

17. The Company shall be entitled to carry out all or any of its operations either by its own employees or by contractors or jobbers. The Company shall not grant to any other person the right to cut on the Concession Area without the consent in writing of the Minister.

18. The Company will not place or deposit in any river, stream or other waters any refuse, sawdust, chemicals or matter of any other kind which shall be or may be injurious to game or fish life.

19. The Company will exercise reasonable diligence in ascertaining whether or not the timber on the Concession Area is being infected by insects or disease, and shall furnish the Minister with such information as it is able to obtain in respect thereof, as often as the Minister may so require.

20. The Company will co-operate in the purchase of pulpwood produced by bona fide settlers and pulpwood produced by and available from the operations of adjacent licensees.

21. The Company at its expense will provide suitable accommodation and board for all officers of the Crown, including supervisors, scalers, scalers' assistants and check-scalers, who are designated to work on the operations of the Company.

22. Should the Company establish in connection with its operations on the Concession Area any community not intended to be of a permanent character, the Company if and when requested by the Minister in writing and at its expense will remove all dwellings and other buildings erected in connection therewith at the conclusion of the particular operation in respect of which such community was established. As a guarantee that such removal will be completed to the satisfaction of the Minister, the Company, before the establishment of such community, shall deposit with the Crown in the Department of Lands and Forests Five Thousand Dollars (\$5,000) in cash or bonds of the Dominion of Canada or Province of Ontario of a principal amount of Five Thousand Dollars (\$5,000).

23. The Crown grants the Company the right to use the waters of all rivers, lakes and streams within the Concession Area for the term of this Agreement for the driving of timber and also the right to make, construct, operate

and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the Concession Area and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and regulations made thereunder and in common with any rights for the use of the said waters heretofore granted by the Crown.

24. Without prejudice to the existing water power leases and water storage rights and privileges of the Company, all water powers and privileges within the Concession Area are reserved to the Crown.

25. The Company is granted under this Agreement no right to the soil or freehold of the Concession Area, or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto. The Crown, however, agrees from time to time to grant to the Company for terms co-terminous with the term of this Agreement, including its right of renewal, leases of such Crown lands in the Concession Area as the Company may require for saw-mills and other facilities and to issue such licenses and permits as may be required for the operation thereof.

26. The Crown reserves and excepts from the Concession Area all lands held under License-of-Occupation, leased, located or applied for, in respect of which such proceedings have been taken or shall hereafter be taken as in the opinion of the Minister entitles the applicants to a lease or patent of such lands; and the Crown further reserves the right to sell, lease, locate or otherwise dispose of, subject to the rights of the Company hereunder, any lands within the concession Area allocated for settlement, mining or summer resort purposes on such terms and conditions as may be deemed advisable.

27. In case of disagreement as to the true intent and meaning of this Agreement the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

28. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

29. In this Agreement "Minister" shall mean the Minister of Lands and Forests for the time being of the Province of Ontario, and "season" or "operating season" shall be as defined by the Regulations under The Crown Timber Act.

30. This Agreement shall be binding upon and enure to the benefit of the Company, its successors and assigns, but shall not be assigned without the consent of the Minister.

31. If upon the termination of the said period of twenty-one years the Company shall have fully performed the obligations imposed upon it as herein set forth, it shall be entitled at its option to an extension of its rights under this Agreement for a further period of twenty-one years at such prices and upon such terms and conditions as may then be fixed by the Minister.

32. In the event of the Company failing at any time to perform any of its obligations hereunder, the Minister may give written notice to the Company which shall be sent to it by registered mail addressed to it at 408 University Avenue, Toronto 2, Ontario, stating in detail the default complained of and requiring the Company to make good such default and at the expiration of twelve months from the giving of such notice the Minister may, if authorized so to do by the Lieutenant-Governor-in-Council and if the default complained

of has not been made good by the Company, declare forfeited all the rights of the Company under this Agreement.

The right of forfeiture by this clause provided shall be additional to and without limitation of every other right or remedy of the Crown arising by reason of the default, and the giving of or failure to give any such notice by the Minister shall not preclude the exercise by the Crown of any other such right or remedy.

33. Any default or delay on the part of the Company in the performance or observance of any of the terms and provisions of this Agreement occasioned in whole or in part through shortage of labour or materials, extended interruption to power supply, strikes, fire, tempest, war, action by princes or sovereign states, act of God or other cause beyond the control of the Company shall not be or be deemed to be a default on the part of the Company under this Agreement.

34. The Minister shall be entitled to waive all rights of forfeiture arising under this Agreement by reason of any default if in the opinion of the Minister the cause of such default justifies the waiving of such right and, in such event, the Company's rights hereunder shall continue as though no such default had occurred.

35. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall be binding upon and enure unto the Company and shall apply to its operations under this Agreement as fully and effectually as if they had been set forth herein.

36. IT IS UNDERSTOOD AND AGREED that all personal liability hereunder of Geoffrey Teignmouth Clarkson, Receiver and Manager of Abitibi Power & Paper Company, Limited and of Roy Sharvell McPherson, Liquidator thereof, shall cease and determine upon their discharge by Order of the Supreme Court of Ontario from the said offices respectively and until such discharge shall be limited to the assets of the Company from time to time in their respective hands as such and available for their indemnification.

IN WITNESS WHEREOF the parties hereto have executed these presents.

SIGNED, SEALED AND DELIVERED  
in the presence of:

LIQUIDATOR.

#### SCHEDULE "A"

Referred to in the annexed Agreement made the 29th day of March, 1946, between His Majesty the King in right of the Province of Ontario, of the First Part, and Abitibi Power & Paper Company, Limited, of the Second Part.

## FORT WILLIAM CONCESSION

ALL AND SINGULAR that certain territory situate lying and being in the District of Thunder Bay in the Province of Ontario and partly within the Nipigon Provincial Forest, containing 1,822 square miles, be the same more or less and more particularly described as follows:—

COMMENCING at a point in the west boundary of the Nipigon Provincial Forest where it is intersected by a base line run by Ontario Land Surveyors, Phillips & Benner, in the year 1922, said point of commencement being distant 6 miles, 53 chains and 35 links from the northwest angle of the Black Sturgeon River pulp and timber limit; thence westerly along the said base line 18 miles more or less to its intersection with a meridian line run by the said Ontario Land Surveyors in the year 1922; thence southerly along the said meridian line 12 miles more or less to a base line run by Ontario Land Surveyors, Phillips & Benner, in the year 1922; thence westerly along the said base line 20 miles more or less to the 4 mile post planted on the said base line, thence north astronomically 44 miles; thence east astronomically 52 miles more or less to the west shore of Lake Nipigon; thence in a general easterly and southerly direction following the shore of Lake Nipigon to a point where it is intersected by the north boundary of Indian Reserve No. 55; thence westerly to the northwest corner of the said Indian Reserve; thence southerly to the southwest corner of the said Indian Reserve; thence easterly along the southerly boundary of the said Indian Reserve to the shore of Lake Nipigon; thence in a general southerly direction following the shore of Lake Nipigon to a point on the west shore of Chief Bay where it is intersected by a line drawn east astronomically from the point of commencement; thence west astronomically 9 miles more or less to the point of commencement.

The territory described herein is shown coloured yellow on the map hereto annexed.

## SCHEDULE "B"

Referred to in the annexed Agreement made the 29th day of March, 1946, between His Majesty the King in right of the Province of Ontario, of the First Part, and Abitibi Power & Paper Company, Limited, of the Second Part.

## FORT WILLIAM RESERVE

ALL AND SINGULAR that certain territory situate, lying and being in the Districts of Kenora and Thunder Bay in the Province of Ontario, containing a total area of 1,012 square miles, more or less, more particularly described as follows:—

## FIRSTLY:

COMMENCING at the intersection of the southwestern limit of the right of way of the Canadian Pacific Railway and the west boundary of the Township of Ignace; thence south astronomically to the boundary between the Districts of Kenora and Rainy River; thence easterly along the last mentioned boundary to the western boundary of the District of Thunder Bay; thence northerly thereon 33 miles more or less to the southern boundary of the Great Lakes Paper Company, Limited, Concession; thence west astronomically a distance of 22 miles more or less to the eastern limit of Parcel 7, Area "B", of the Great Lakes Paper Company, Limited, Concession; thence southerly 1 mile more or less to an angle in the said Parcel 7; thence westerly to the production northerly of the east boundary of Township 21; thence southerly to and along the east boundary of Township 21 to the southeast corner thereof; thence westerly along the south boundary of the said Township 21 to the southwestern limit of

the right of way of the Canadian Pacific Railway; thence northwesterly along the last mentioned limit to the point of commencement.

SAVING AND EXCEPTING the rights of the Licensees under the herein-after mentioned Crown Timber Licenses:

1. License Number: 112 of 1941-42.  
Licensee: Emil Sorenson.  
Area: Township 22, west of Agimac Lake and west of Locations L.K. 83, 84 and 86—1½ square miles more or less.  
Species: Jackpine logs, spruce 11" and up and pulp wood.
2. License Number: 80 of 1937-38.  
Licensee: Ontario-Minnesota Pulp and Paper Co.  
Area: East and west of Agimac Lake, South of Ignace Stn. on C.P.R. Berth M. 24—4 square miles.  
Species: White pine, and spruce pulpwood.
3. License Number: 41 of 1942-43.  
Licensee: J. A. Mathieu, Ltd.  
Area: Rea Lake—Parcel 1—36 square miles.  
Species: Red and white pine logs.
4. License Number: 93 of 1943-44.  
Licensee: Great Lakes Paper Co. Ltd.  
Area: Scotch River area—219 square miles.  
Species: Logs and spruce and balsam pulpwood.
5. License Number: 138 of 1937-38 (part).  
Licensee: Ontario-Minnesota Pulp and Paper Co.  
Area: 1½ square miles, more or less.  
Species: All kinds.
6. License Number: 142 of 1937-38 (part).  
Licensee: Ontario-Minnesota Pulp and Paper Co.  
Area: 34½ square miles more or less.  
Species: All kinds.

ALSO SAVING AND EXCEPTING the rights of the permit holder in respect of part of a permit area operated for all species by Earle Greer containing 93 square miles more or less.

The portion described as FIRSTLY herein contains an area of 705 square miles, more or less.

## SECONDLY:

COMMENCING at the intersection of the boundary between the Districts of Thunder Bay and Kenora with the southwestern limit of the right of way of the Canadian Pacific Railway Company, distant 1 mile more or less, north of the northwest corner of the Township of Pyramid; thence southeasterly following the said southwestern limit of the right-of-way to a line drawn north astronomically from a point in the south limit of the Township of Pyramid distant 1½ miles measured westerly thereon from the southeast corner of the said Township, thence south astronomically to the south boundary of the Township of Pyramid; thence east astronomically to the northeast corner of the west half of the Township of Colliver; thence south astronomically 8 miles; thence east astronomically 10 miles; thence south astronomically 3 miles; thence east astronomically 2 miles; thence south astronomically 1 mile more or less to the

south boundary of the Township of Inwood; thence west astronomically 14 miles; thence south astronomically a distance of  $6\frac{1}{2}$  miles more or less to the highwater mark on the southern shore of Relief Lake; thence westerly following the said highwater mark of Relief Lake; the southern bank of the river draining Relief Lake into Bedivere Lake; the highwater mark on the southern shore of Bedivere Lake, the river draining Bedivere Lake into Union Lake, and along the northern shore of Union Lake to the boundary between the Districts of Rainy River and Thunder Bay; thence northerly along the west boundary of the District of Thunder Bay to the point of commencement;

SAVE AND EXCEPTING therefrom the Indian Reserve No. 22A2 containing  $13\frac{1}{4}$  square miles more or less;

ALSO SAVING AND EXCEPTING the rights of the Licensee under the hereinafter mentioned Crown Timber License:

License Number:	97 of 1939-40 (part).
Licensee:	J. C. Greer.
Area:	Pyramid Township, 15 square miles, more or less.
Species:	Jackpine logs.

The portion described as SECONDLY herein contains an area of 181 square miles more or less.

#### THIRDLY:

COMMENCING at the northwest corner of G.T.P. Block No. 5; thence west astronomically 4 miles; thence north astronomically a distance of 6 miles, more or less, to a base line surveyed by K. G. Ross, O.L.S. in 1921; thence east astronomically along the said base line, 11 miles; thence south astronomically a distance of 6 miles more or less to the north boundary of G.T.P. Block No. 5; thence westerly along the last mentioned boundary to the point of commencement; containing an area of 66 square miles more or less.

#### FOURTHLY:

COMMENCING at the northeast corner of the Township of Trewartha; thence west astronomically 2 miles; thence south astronomically 3 miles; thence east astronomically to the western bank of Firesteel River; thence northeasterly following the said bank of Firesteel River to the intersection with its West Branch; thence northwesterly and northeasterly following the westerly bank of the said West Branch of Firesteel River to the south boundary of G.T.P. Block No. 5; thence west astronomically to the point of commencement, containing an area of 17 square miles, more or less.

#### FIFTHLY:

The Northeast Quarter of the Township of Stedman, containing an area of 9 square miles, more or less.

#### SIXTHLY:

COMMENCING at the northeast corner of the Township of Upsala; thence west astronomically to the northwest corner of the Township of Upsala; thence north astronomically to the south boundary of G.T.P. Block No. 5; thence east astronomically to the most westerly corner of the township of Hogarth; thence southeasterly along the southwestern boundary of the last mentioned Township to the most southerly corner thereof; thence southwesterly in a straight line to the northeast corner of the Township of Upsala and being the point of commencement, containing an area of 34 square miles, more or less.

The territory herein described is shown coloured red on the map hereto annexed.

It is understood that wherever it appears from the attached map that the boundary of the territory above described is the established boundary of a township or district, such township or district boundary shall constitute the boundary of the Concession Area notwithstanding that it does not follow precisely the astronomical course set forth in the above description.

AGREEMENT made the 29th day of March, 1946:

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests (herein referred to as "the Crown")

OF THE FIRST PART,

—and—

ABITIBI POWER & PAPER COMPANY, LIMITED, a company incorporated under the laws of the Dominion of Canada, herein acting and represented by GEOFFREY TEIGNMOUTH CLARKSON, Receiver and Manager of the undertaking, property and assets thereof, and ROY SHARVELL McPHERSON, the Liquidator thereof (herein referred to as "the Company")

OF THE SECOND PART.

THIS AGREEMENT WITNESSETH that in consideration of the covenants and agreements on the part of the Company herein contained:

1. The Crown with the consent and approval of the Lieutenant-Governor-in Council

(a) Doth grant to the Company for a period of twenty-one years commencing on the 1st day of April, 1946, the right to cut and remove all spruce, balsam and other pulpwood on and from the lands described in Schedule "A" hereto;

(b) Doth grant to the Company for a like period of twenty-one years commencing on the 1st day of April, 1946 (subject to the granting or renewal of a yearly license if and so long as such be required by The Crown Timber Act, R.S.O. 1937, Chapter 36 and amendments thereto) the right to cut and remove all other kinds and classes of timber on and from the said lands described in Schedule "A" hereto.

2. The lands described in Schedule "A" hereto are hereinafter referred to as "the Concession Area".

3. In addition, the Company shall have the right for a period of seven years from the date hereof or for such further period as the Minister may determine to examine the lands described in Schedule "B" hereto and to select the whole or any part or parts thereof and thereupon the lands so selected shall be added to and form part of the Concession Area, and all the terms and conditions hereof shall apply to such additional lands.

4. If, during the term of this Agreement or any renewal thereof, the Company shall establish to the satisfaction of the Minister that the pulpwood on the Concession Area is insufficient for the future operation of the Company's mill at Iroquois Falls at present capacity, the Crown agrees, to the extent that

it may have the same available, to provide additional areas in support of such mill on like terms and conditions as herein set forth.

5. The Crown does not guarantee any quantity of timber on the Concession Area.

6. The Company shall pay to the Treasurer of the Province of Ontario the following prices:

(a) For pulpwood cut on the Concession Area the following:

Spruce.....	\$1.75	per cord	Inclusive
Balsam.....	\$ .75	" "	of
Jackpine.....	\$ .50	" "	Crown Dues.
Other pulpwood—Crown dues.			

(b) For timber cut on the Concession Area for use for purposes other than as pulpwood:

Such prices as the Minister may from time to time determine, to be consistent with prices on adjacent or similarly situated concession areas.

7. The above prices shall be subject only to such variation in Crown dues that may hereafter be generally effected by regulation for timber cut for domestic manufacture and applicable throughout the Province of Ontario.

8. At the written direction of the Minister the Company shall cut and remove merchantable damaged timber on the Concession Area at such lesser rates, based on the value in the damaged timber, as the Minister may determine; but the Company shall not be required or be obligated to cut and remove more of such damaged timber in any year than it can reasonably produce and use in its operations.

9. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the regulations under The Crown Timber Act and accounts shall be due and payable on the 1st day of October for the preceding season and on all accounts which remain unpaid after the 31st day of October in the same year, interest shall be charged at the rate of Six per centum (6%) per annum calculated from the 1st day of October in the same year.

10. Pulpwood taken out in four or eight foot lengths shall be measured, returned and paid for on the basis of one hundred and twenty-eight cubic feet in each stacked cord. Pulpwood taken out in lengths in excess of eight feet shall be measured in the log on the cubic basis and each 100 cubic feet shall constitute a cord. Timber other than pulpwood shall be measured in accordance with the provisions of the Manual of Scaling Instructions now or hereafter approved by the Crown.

11. For the purpose of calculating ground rent and fire protection charges, the Concession Area shall be deemed to comprise 4,383 square miles and the Company shall pay annually in advance, commencing with the First day of April, 1946, fire protection charges at the rate of \$6.40 per square mile on the said area of 4,383 square miles and ground rent at the rate of \$5.00 per square mile on one-tenth (1/10th) of the said area of 4,383 square miles. Interest at the rate of Six per centum (6%) per annum shall be charged on accounts which remain unpaid after 30 days from the due date.

If, pursuant to the foregoing provisions of Clause 3 hereof, the whole or any portion of the lands described in Schedule "B" are added to the Concession

Area, then the aforesaid area of 4,383 square miles shall be increased by such number of square miles in the lands so added as shall be determined by the Minister.

If and whenever it is ascertained that any part or parts of the Concession Area are non-productive of merchantable timber, the aforesaid area may be reduced to such extent as the Minister may determine.

12. If and whenever, otherwise than by reason of default on the part of the Company, there shall be removed from the Concession Area any part thereof which the Company desires to retain, then the amounts thereafter payable by the Company to the Crown under the provisions of this Agreement shall be abated and be reduced by the amount of the fire protection charges and ground rent theretofore paid by the Company to the Crown in respect of the area of such part or by such proportion of such charges and rent as the Minister shall determine to be fair and reasonable and the Company shall be relieved thereafter from payment of fire protection charges and ground rent in respect of the area of such part.

13. The deposit of the Company in the aggregate amount of \$173,725 for the due performance by the Company of its obligations under agreements or licenses now in force between the Crown and the Company shall be considered as a deposit by the Company hereunder and be held by the Crown for the due performance by the Company of its obligations under this Agreement and all other agreements entered into between the Crown and the Company of even date; provided that the surplus beyond One hundred thousand Dollars (\$100,000) may be used by the Company for the payment of dues and charges including fire protection charges and ground rent which accrue hereunder (or under other agreements between the Crown and the Company of even date) in respect of the Company's operations during the first three years of the term of this agreement but in no event shall more than one-third of the said surplus be so applied in any one year.

Provided that the Company, at its option, shall be entitled at any time to substitute for the said cash deposit bonds of the Dominion of Canada or Province of Ontario of a par value of \$100,000 as security for the due performance of its obligations under this Agreement and other agreements of even date, whereupon the said cash deposit shall be applied as the Company requires in satisfaction of dues and charges, including fire protection charges and ground rent which become payable by the Company to the Crown under this or any other agreement.

For the purposes of this Clause 13 only, the word Company shall include both Abitibi Power & Paper Company, Limited and Thunder Bay Paper Co., Limited.

14. The Company hereby agrees that within five years from the date of this agreement

- (a) It will provide the Minister with an estimated inventory or inventories of the timber on the Concession Area by species and size classes and information with respect to the forest types and general age classes of such timber;
- (b) It will deliver to the Minister for his information a map dividing the Concession Area into such operational units as the Company shall deem to be appropriate having regard to the locations thereof, the types and characteristics of the timber thereon and the estimated future requirements of the Company, which map shall be subject to modification by the Company from time to time;

provided that in respect of the lands described in Schedule "B" hereto or the part or parts thereof selected by the Company, the period of five years shall run only from the date upon which the Company shall make its selection under Clause 3 hereof.

For the foregoing purposes the Company will proceed forthwith with a forest survey of the Concession Area and all other areas, whether Crown or private lands, upon which it holds cutting rights, in such order as the Minister may direct so long as the same does not unreasonably interfere with the Company's plans relative thereto. In each year the Company will survey as large an area as it can reasonably do in that year. It shall report the results to the Minister as the work progresses, and not less frequently than annually.

On the basis of the above surveys and inventories, the Company shall from time to time submit plans for utilizing the timber on the Concession Area in keeping with the requirements of the Company for pulpwood, the classes and sizes of timber found thereon and the market demands for timber for use other than as pulpwood, the first of such plans to be submitted as soon as practicable after the completion of the survey of the Concession Area, and in any event within the said five year period. Each plan shall become operative only after being approved by the Minister.

Sixty days before commencing operation in any season the Company shall give such particulars as the Minister may require as to the proposed operation and shall obtain the consent in writing of the Minister to proceed with such operation (which consent shall not be unreasonably withheld or delayed) and within four months after the completion of the authorized operation shall file with the Minister a map indicating the cut-over areas and the kinds and quantities of each class of timber taken therefrom.

Except as may be herein otherwise provided, the Company shall cut and remove from the area actually cut over in each season all the merchantable timber thereon, save that the Company shall not be required to cut any timber not provided to be cut in the particulars of the proposed operations for such season to which the Minister has consented as aforesaid. In addition, the Minister may at any time and from time to time excuse the Company from cutting any one or more species of timber or any quantity or quantities thereof, notwithstanding that the same may have been included in the particulars of the proposed operations to which he has given his consent.

The pulpwood from the Concession Area shall be utilized in the Company's mill at Iroquois Falls save that the Minister from time to time may permit the Company to use or dispose of the said pulpwood in such other manner as he may determine.

15. The Minister or any officer or officers of the Department of Lands and Forests shall have the right to inspect the timber operations on the Concession Area at any time. If such inspection shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed under the provisions of this Agreement is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement. The Company may thereafter remove any such timber without further charge. The cutting and removing of the timber on and from the Concession Area shall not be deemed to have been completed until the Concession Area has been examined by an officer of the Crown (which examination shall not be unreasonably delayed) and the operation has been declared satisfactory by the Minister.

16. The Company shall be entitled to carry out all or any of its operations either by its own employees or by contractors or jobbers. The Company shall not grant to any other person the right to cut on the Concession Area without the consent in writing of the Minister.

17. The Company will not place or deposit in any river, stream or other waters any refuse, sawdust, chemicals or matter of any other kind which shall be or may be injurious to game or fish life.

18. The Company will exercise reasonable diligence in ascertaining whether or not the timber on the Concession Area is being infected by insects or disease, and shall furnish the Minister with such information as it is able to obtain in respect thereof, as often as the Minister may so require.

19. The Company will co-operate in the purchase of pulpwood produced by bona fide settlers and pulpwood produced by and available from the operations of adjacent licensees.

20. The Company, at its expense will provide suitable accommodation and board for all officers of the Crown, including supervisors, scalers, scalers' assistants and check-scalers, who are designated to work on the operations of the Company.

21. Should the Company establish in connection with its operations on the Concession Area any community not intended to be of a permanent character, the Company if and when requested by the Minister in writing and at its expense will remove all dwellings and other buildings erected in connection therewith at the conclusion of the particular operation in respect of which such community was established. As a guarantee that such removal will be completed to the satisfaction of the Minister, the Company, before the establishment of such community, shall deposit with the Crown in the Department of Lands and Forests Five Thousand Dollars (\$5,000) in cash or bonds of the Dominion of Canada or Province of Ontario of a principal amount of Five Thousand Dollars (\$5,000).

22. The Crown grants the Company the right to use the waters of all rivers, lakes and streams within the Concession Area for the term of this Agreement for the driving of timber and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the Concession Area and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and regulations made thereunder and in common with any rights for the use of the said waters heretofore granted by the Crown.

23. Without prejudice to the existing water power leases and water storage rights and privileges of the Company, all water powers and privileges within the Concession Area are reserved to the Crown.

24. The Company is granted under this Agreement no right to the soil or freehold of the Concession Area, or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto. The Crown, however, agrees from time to time to grant to the Company for terms co-terminous with the term of this Agreement, including its right of renewal, leases of such Crown lands in the Concession Area as the Company may require for saw-mills and other facilities and to issue such licenses and permits as may be required for the operation thereof.

25. The Crown reserves and excepts from the Concession Area all lands held under License-of-Occupation, leased, located or applied for, in respect of which such proceedings have been taken or shall hereafter be taken as in the opinion of the Minister entitles the applicants to a lease or patent of such lands; and the Crown further reserves the right to sell, lease, locate or otherwise dispose of, subject to the rights of the Company hereunder, any lands within the Concession Area allocated for settlement, mining or summer resort purposes on such terms and conditions as may be deemed advisable.

26. In case of disagreement as to the true intent and meaning of this Agreement the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

27. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

28. In this Agreement "Minister" shall mean the Minister of Lands and Forests for the time being of the Province of Ontario, and "season" or "operating season" shall be as defined by the Regulations under The Crown Timber Act.

29. This Agreement shall be binding upon and enure to the benefit of the Company, its successors and assigns, but shall not be assigned without the consent of the Minister.

30. If upon the termination of the said period of twenty-one years the Company shall have fully performed the obligations imposed upon it as herein set forth, it shall be entitled at its option to an extension of its rights under this Agreement for a further period of twenty-one years at such prices and upon such terms and conditions as may then be fixed by the Minister.

31. In the event of the Company failing at any time to perform any of its obligations hereunder, the Minister may give written notice to the Company which shall be sent to it by registered mail addressed to it at 408 University Avenue, Toronto 2, Ontario, stating in detail the default complained of and requiring the Company to make good such default and at the expiration of twelve months from the giving of such notice the Minister may, if authorized so to do by the Lieutenant-Governor-in Council and if the default complained of has not been made good by the Company, declare forfeited all the rights of the Company under this Agreement.

The right of forfeiture by this clause provided shall be additional to and without limitation of every other right or remedy of the Crown arising by reason of the default, and the giving of or failure to give any such notice by the Minister shall not preclude the exercise by the Crown of any other such right or remedy.

32. Any default or delay on the part of the Company in the performance or observance of any of the terms and provisions of this Agreement occasioned in whole or in part through shortage of labour or materials, extended interruption to power supply, strikes, fire, tempest, war, action by princes or sovereign states, act of God or other cause beyond the control of the Company shall not be or be deemed to be a default on the part of the Company under this Agreement.

33. The Minister shall be entitled to waive all rights of forfeiture arising under this Agreement by reason of any default if in the opinion of the Minister the cause of such default justifies the waiving of such right and, in such event, the Company's rights hereunder shall continue as though no such default had occurred.

34. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall be binding upon and enure unto the Company and shall apply to its operations under this Agreement as fully and effectually as if they had been set forth herein.

35. IT IS UNDERSTOOD AND AGREED that all personal liability hereunder of Geoffrey Teignmouth Clarkson, Receiver and Manager of Abitibi Power & Paper Company, Limited and of Roy Sharvell McPherson, Liquidator thereof, shall cease and determine upon their discharge by Order of the Supreme Court of Ontario from the said offices respectively and until such discharge shall be limited to the assets of the Company from time to time in their respective hands as such and available for their indemnification.

IN WITNESS WHEREOF the parties hereto have executed these presents.

SIGNED, SEALED AND DELIVERED in the presence of:	"W. G. THOMPSON" (SEAL) MINISTER OF LAND AND FORESTS FOR THE PROVINCE OF ONTARIO.
"F. J. SULLIVAN"	ABITIBI POWER & PAPER COM- PANY, LIMITED
"GORDON McMILLAN"	By: "G. T. CLARKSON" (SEAL) RECEIVER AND MANAGER. And: "R. S. McPHERSON" LIQUIDATOR.

#### SCHEDULE "A"

referred to in the annexed Agreement made the 29th day of March, 1946, between His Majesty the King in right of the Province of Ontario, of the First Part, and Abitibi Power & Paper Company, Limited, of the Second Part.

#### IROQUOIS FALLS CONCESSION

ALL AND SINGULAR that certain territory situate lying and being in the Districts of Cochrane and Temiskaming in the Province of Ontario, more particularly described as follows:—

#### FIRSTLY:

COMMENCING at the northeast corner of the Township of Clive, being on the inter-provincial boundary between the Province of Ontario and the Province of Quebec; thence west astronomically 24 miles; thence south astronomically 12 miles; thence west astronomically 12 miles; thence north astronomically 6 miles; thence west astronomically 6 miles; thence north astronomically 15 miles; thence east astronomically 12 miles; thence north astronomically 9 miles more or less to the north boundary of the Township of Blakelock; thence west astronomically 12 miles; thence north astronomically 6 miles; thence east astronomically 12 miles; thence north astronomically 18 miles; thence west astronomically 24 miles; thence north astronomically 6 miles; thence west astronomically 24 miles; thence south astronomically 24 miles; thence east astronomically 12 miles; thence south astronomically 12 miles; thence east astronomically 6 miles more or less to the production northerly of Speight's meridian line run in the year 1904; thence south astronomically 21 miles more or less to the

north boundary of the Township of Kennedy; thence east astronomically 6 miles more or less to the northeast corner of the Township of Kennedy; thence south astronomically to the southwest corner of the Township of Teefty; thence east astronomically to the southeast corner of the Township of Teefty; thence south astronomically to the southwest corner of the Township of Wilkie; thence east astronomically to the southeast corner of the Township of Coulson; thence south astronomically to the southwest corner of the Township of Munro; thence east astronomically to the southeast corner of the Township of Munro; thence south astronomically to the southwest corner of the Township of Melba; thence east astronomically to the inter-provincial boundary between the Province of Ontario and the Province of Quebec; thence north astronomically 72 miles more or less to the point of commencement.

SAVE AND EXCEPTING the following described areas:—

The Townships of Milligan and Warden.  
The Waters of Lake Abitibi and the islands therein.  
Indian Reserve No. 70.

ALSO SAVING AND EXCEPTING the rights of the Licensee under the hereinafter mentioned Crown Timber License:

License Number:	88 of 1943-44.
Licensee:	A. Boisvert.
Area:	5 square miles.
Species:	Red and white pine sawlogs on mainland; all species on Deer Island.

The territory firstly described herein contains a net area of 4,370 square miles more or less, and is shown coloured yellow on the map hereto annexed.

SECONDLY:

2 parcels in Laughton Township shown coloured green on the map hereto annexed, containing 13 square miles more or less.

It is understood that wherever it appears from the attached map that the boundary of the territory above described is the established boundary of a township or district, such township or district boundary shall constitute the boundary of the Concession Area notwithstanding that it does not follow precisely the astronomical course set forth in the above description.

#### SCHEDULE "B"

referred to in the annexed Agreement made the 29th day of March, 1946, between His Majesty the King in right of the Province of Ontario, of the First Part, and Abitibi Power & Paper Company, Limited, of the Second Part.

#### IROQUOIS FALLS RESERVE

ALL AND SINGULAR that certain territory situate lying and being in the District of Cochrane in the Province of Ontario, containing 4,260 square miles, be the same more or less and more particularly described as follows:—

COMMENCING at the northeast corner of the Township of Clive, being on the inter-provincial boundary between the Province of Ontario and the Province of Quebec; thence west astronomically 24 miles; thence south astronomically 12 miles; thence west astronomically 12 miles; thence north astronomically 6 miles; thence west astronomically 6 miles; thence north astrono-

mically 15 miles; thence east astronomically 12 miles; thence north astronomically 9 miles more or less to the north boundary of the Township of Blakelock; thence west astronomically 12 miles; thence north astronomically 6 miles; thence east astronomically 12 miles; thence north astronomically 18 miles; thence west astronomically 24 miles; thence north astronomically 6 miles; thence west astronomically 17 miles more or less to the east boundary of the Township of Harewood; thence north astronomically to the northeast corner of the Township of Carss; thence east astronomically 70 miles more or less to the inter-provincial boundary between the Province of Ontario and the Province of Quebec; thence south astronomically 82 miles more or less to the point of commencement.

The territory described herein is shown outlined in red on the map hereto annexed.

It is understood that wherever it appears from the attached map that the boundary of the territory above described is the established boundary of a township or district, such township or district boundary shall constitute the boundary of the Concession Area notwithstanding that it does not follow precisely the astronomical course set forth in the above description.

AGREEMENT made the 29th day of March, 1946;

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests (herein referred to as "the Crown")

OF THE FIRST PART

—and—

ABITIBI POWER & PAPER COMPANY, LIMITED, a company incorporated under the laws of the Dominion of Canada, herein acting and represented by GEOFFREY TEIGNMOUTH CLARKSON, Receiver and Manager of the undertaking, property and assets thereof, and ROY SHARVELL McPHERSON, the Liquidator thereof (herein referred to as "the Company")

OF THE SECOND PART.

THIS AGREEMENT WITNESSETH that in consideration of the covenants and agreements on the part of the Company herein contained:

1. The Crown with the consent and approval of the Lieutenant-Governor-in-Council and subject to the provisions of Clause 4

- (a) doth grant to the Company for a period of twenty-one years commencing on the 1st day of April, 1946, the right to cut and remove all spruce, balsam and other pulpwood on and from the lands described in Schedule "A" hereto;
- (b) doth grant to the Company for a like period of twenty-one years commencing on the 1st day of April, 1946 (subject to the granting or renewal of a yearly license if and so long as such be required by The Crown Timber Act, R.S.O. 1937, Chapter 36 and amendments thereto) the right to cut and remove all other kinds and classes of timber on and from the said lands described in Schedule "A" hereto.

2. The lands described in Schedule "A" hereto are hereinafter referred to as "the Concession Area".

3. The Crown does not guarantee any quantity of timber on the Concession Area.

4. The rights granted by this Agreement to the Company are subject to any presently existing commitments of the Crown to Pineland Timber Company Limited but otherwise shall be exclusive subject to the terms and conditions hereof.

5. The Company shall pay to the Treasurer of the Province of Ontario the following prices:

(a) For pulpwood cut on the Concession Area the following:

Spruce.....	\$1.50	per cord	} Inclusive of Crown Dues.
Balsam.....	\$.75	" "	
Jackpine.....	\$.50	" "	
Other pulpwood—Crown dues.			

(b) For timber cut on the Concession Area for use for purposes other than as pulpwood:

Such prices as the Minister may from time to time determine, to be consistent with prices on adjacent or similarly situated concession areas.

6. The above prices shall be subject only to such variation in Crown dues that may hereafter be generally effected by regulation for timber cut for domestic manufacture and applicable throughout the Province of Ontario.

7. At the written direction of the Minister the Company shall cut and remove merchantable damaged timber on the Concession Area at such lesser rates, based on the value in the damaged timber, as the Minister may determine; but the Company shall not be required or be obligated to cut and remove more such damaged timber in any year than it can reasonably produce and use in its operations.

8. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the regulations under The Crown Timber Act and accounts shall be due and payable on the 1st day of October for the preceding season and on all accounts which remain unpaid after the 31st day of October in the same year, interest shall be charged at the rate of Six per centum (6%) per annum calculated from the 1st day of October in the same years.

9. Pulpwood taken out in four or eight foot lengths shall be measured, returned and paid for on the basis of one hundred and twenty-eight cubic feet in each stacked cord. Pulpwood taken out in lengths in excess of eight feet shall be measured in the log on the cubic basis and each 100 cubic feet shall constitute a cord. Timber other than pulpwood shall be measured in accordance with the provisions of the Manual of Scaling Instructions now or hereafter approved by the Crown.

10. For the purpose of calculating ground rent and fire protection charges, the Concession Area shall be deemed to comprise 1,273 square miles and the Company shall pay annually in advance, commencing with the First day of April, 1946, fire protection charges at the rate of \$6.40 per square mile on the said area of 1,273 square miles and ground rent at the rate of \$5.00 per square mile on one-tenth (1/10th) of the said area of 1,273 square miles. Interest at the rate of Six per centum (6%) per annum shall be charged on accounts which remain unpaid after 30 days from the due date.

While the rights of the Company under this Agreement are subject to any existing commitments of the Crown referred to in Clause 4, the aforesaid area shall be deemed to be reduced to such an extent as the Minister may determine.

If and whenever it is ascertained that any part or parts of the Concession Area are non-productive of merchantable timber, the aforesaid area may be reduced to such extent as the Minister may determine.

11. If and whenever, otherwise than by reason of default on the part of the Company, there shall be removed from the Concession Area any part thereof which the Company desires to retain, then the amounts thereafter payable by the Company to the Crown under the provisions of this Agreement shall be abated and be reduced by the amount of the fire protection charges and ground rent therefore paid by the Company to the Crown in respect of the area of such part or by such proportion of such charges and rent as the Minister shall determine to be fair and reasonable and the Company shall be relieved thereafter from payment of fire protection charges and ground rent in respect of the area of such part.

12. The deposit of the Company in the aggregate amount of \$173,725 for the due performance by the Company of its obligations under agreements or licenses now in force between the Crown and the Company shall be considered as a deposit by the Company hereunder and be held by the Crown for the due performance by the Company of its obligations under this Agreement and all other agreements entered into between the Crown and the Company of even date; provided that the surplus beyond One hundred thousand Dollars (\$100,000) may be used by the Company for the payment of dues and charges including fire protection charges and ground rent which accrue hereunder (or under other agreements between the Crown and the Company of even date) in respect of the Company's operations during the first three years of the term of this agreement but in no event shall more than one-third of the said surplus be so applied in any one year.

Provided that the Company, at its option, shall be entitled at any time to substitute for the said cash deposit bonds of the Dominion of Canada or Province of Ontario of a par value of \$100,000 as security for the due performance of its obligations under this Agreement and other agreements of even date, whereupon the said cash deposit shall be applied as the Company requires in satisfaction of dues and charges, including fire protection charges and ground rent, which become payable by the Company to the Crown under this or any other agreement.

For the purposes of this Clause 12 only, the word Company shall include both Abitibi Power & Paper Company, Limited and Thunder Bay Paper Co., Limited.

13. The Company hereby agrees that within five years from the date of this agreement

- (a) It will provide the Minister with an estimated inventory or inventories of the timber on the Concession Area by species and size classes and information with respect to the forest types and general age classes of such timber;
- (b) It will deliver to the Minister for his information a map dividing the Concession Area into such operational units as the Company shall deem to be appropriate having regard to the locations thereof, the types and characteristics of the timber thereon and the estimated future requirements of the Company, which map shall be subject to modification by the Company from time to time.

For the foregoing purposes the Company will proceed forthwith with a forest survey of the Concession Area and all other areas, whether Crown or private lands, upon which it holds cutting rights, in such order as the Minister

may direct so long as the same does not unreasonably interfere with the Company's plans relative thereto. In each year the Company will survey as large an area as it can reasonably do in that year. It shall report the results to the Minister as the work progresses, and not less frequently than annually.

On the basis of the above surveys and inventories, the Company shall from time to time submit plans for utilizing the timber on the Concession Area in keeping with the requirements of the Company for pulpwood, the classes and sizes of timber found thereon and the market demands for timber for use other than as pulpwood, the first of such plans to be submitted as soon as practicable after the completion of the survey of the Concession Area, and in any event within the said five-year period. Each plan shall become operative only after being approved by the Minister.

Sixty days before commencing operation in any season the Company shall give such particulars as the Minister may require as to the proposed operation and shall obtain the consent in writing of the Minister to proceed with such operation (which consent shall not be unreasonably withheld or delayed) and within four months after the completion of the authorized operation shall file with Minister a map indicating the cut-over areas and the kinds and quantities of each class of timber taken therefrom.

Except as may be herein otherwise provided, the Company shall cut and remove from the area actually cut over in each season all the merchantable timber thereon, save that the Company shall not be required to cut any timber not provided to be cut in the particulars of the proposed operations for such season to which the Minister has consented as aforesaid. In addition, the Minister may at any time and from time to time excuse the Company from cutting any one or more species of timber or any quantity or quantities thereof, notwithstanding that the same may have been included in the particulars of the proposed operations to which he has given his consent.

The pulpwood from the Concession Area shall be utilized in the Company's mill at Smooth Rock Falls or in its mill at Sault Ste. Marie or in part in one and in part in the other save that the Minister from time to time may permit the Company to use or dispose of the said pulpwood in such other manner as he may determine.

14. The Minister or any officer or officers of the Department of Lands and Forests shall have the right to inspect the timber operations on the Concession Area at any time. If such inspection shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed under the provisions of this Agreement is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement. The Company may thereafter remove any such timber without further charge. The cutting and removing of the timber on and from the Concession Area shall not be deemed to have been completed until the Concession Area has been examined by an officer of the Crown (which examination shall not be unreasonably delayed) and the operation has been declared satisfactory by the Minister.

15. The Company shall be entitled to carry out all or any of its operations either by its own employees or by contractors or jobbers. The Company shall not grant to any other person the right to cut on the Concession Area without the consent in writing of the Minister.

16. The Company will not place or deposit in any river, stream or other waters any refuse, sawdust, chemicals, or matter of any other kind which shall be or may be injurious to game or fish life.

17. The Company will exercise reasonable diligence in ascertaining whether or not the timber on the Concession Area is being infected by insects or disease, and shall furnish the Minister with such information as it is able to obtain in respect thereof, as often as the Minister may so require.

18. The Company will co-operate in the purchase of pulpwood produced by bona fide settlers and pulpwood produced by and available from the operations of adjacent licensees.

19. The Company at its expense will provide suitable accommodation and board for all officers of the Crown, including supervisors, scalers, scalers' assistants and check-scalers, who are designated to work on the operations of the Company.

20. Should the Company establish in connection with its operations on the Concession Area any community not intended to be of a permanent character, the Company if and when requested by the Minister in writing and at its expense will remove all dwellings and other buildings erected in connection therewith at the conclusion of the particular operation in respect of which such community was established. As a guarantee that such removal will be completed to the satisfaction of the Minister, the Company, before the establishment of such community, shall deposit with the Crown in the Department of Lands and Forests Five Thousand Dollars (\$5,000) in cash or bonds of the Dominion of Canada or Province of Ontario of a principal amount of Five Thousand Dollars (\$5,000).

21. The Crown grants the Company the right to use the waters of all rivers, lakes and streams within the Concession Area for the term of this Agreement for the driving of timber and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the Concession Area and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and regulations made thereunder and in common with any rights for the use of the said waters heretofore granted by the Crown.

22. Without prejudice to the existing water power leases and water storage rights and privileges of the Company, all water powers and privileges within the Concession Area are reserved to the Crown.

23. The Company is granted under this Agreement no right to the soil or freehold of the Concession Area, or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto. The Crown, however, agrees from time to time to grant to the Company for terms co-terminous with the term of this Agreement, including its right of renewal, leases of such Crown lands in the Concession Area as the Company may require for saw-mills and other facilities and to issue such licenses and permits as may be required for the operation thereof.

24. The Crown reserves and excepts from the Concession Area all lands held under License-of-Occupation, leased, located or applied for, in respect of which such proceedings have been taken or shall hereafter be taken as in the opinion of the Minister entitles the applicants to a lease or patent of such lands; and the Crown further reserves the right to sell, lease, locate or otherwise dispose of, subject to the rights of the Company hereunder, any lands within the Concession Area allocated for settlement, mining or summer resort purposes on such terms and conditions as may be deemed advisable.

25. In case of disagreement as to the true intent and meaning of this Agreement the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

26. The Company hereby covenant and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

27. In this Agreement "Minister" shall mean the Minister of Lands and Forests for the time being of the Province of Ontario, and "season" or "operating season" shall be as defined by the Regulations under The Crown Timber Act.

28. This Agreement shall be binding upon and enure to the benefit of the Company, its successors and assigns, but shall not be assigned without the consent of the Minister.

29. If upon the termination of the said period of twenty-one years the Company shall have fully performed the obligations imposed upon it as herein set forth, it shall be entitled at its option to an extension of its rights under this Agreement for a further period of twenty-one years at such prices and upon such terms and conditions as may then be fixed by the Minister.

30. In the event of the Company failing at any time to perform any of its obligations hereunder, the Minister may give written notice to the Company which shall be sent to it by registered mail addressed to it at 408 University Avenue Toronto 2, Ontario, stating in detail the default complained of and requiring the Company to make good such default and at the expiration of twelve months from the giving of such notice the Minister may, if authorized so to do by the Lieutenant-Governor-in-Council and if the default complained of has not been made good by the Company, declare forfeited all the rights of the Company under this Agreement.

The right of forfeiture by this clause provided shall be additional to and without limitation of every other right or remedy of the Crown arising by reason of the default, and the giving of or failure to give any such notice by the Minister shall not preclude the exercise by the Crown of any other such right or remedy.

31. Any default or delay on the part of the Company in the performance or observance of any of the terms and provisions of the Agreement occasioned in whole or in part through shortage of labour or materials, extended interruption to power supply, strikes, fire, tempest, war, action by princes or sovereign states, act of God or other cause beyond the control of the Company shall not be or be deemed to be a default on the part of the Company under this Agreement.

32. The Minister shall be entitled to waive all rights of forfeiture arising under this Agreement by reason of any default if in the opinion of the Minister the cause of such default justifies the waiving of such right and, in such event, the Company's rights hereunder shall continue as though no such default had occurred.

33. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall be binding upon and enure unto the Company and shall apply to its operations under this Agreement as fully and effectually as if they had been set forth herein.

34. IT IS UNDERSTOOD AND AGREED that all personal liability hereunder of Geoffrey Teignmouth Clarkson, Receiver and Manager of Abitibi

Power & Paper Company, Limited and of Roy Sharvell McPherson, Liquidator thereof, shall cease and determine upon their discharge by Order of the Supreme Court of Ontario from the said offices respectively and until such discharge shall be limited to the assets of the Company from time to time in their respective hands as such and available for their indemnification.

IN WITNESS WHEREOF the parties hereto have executed these presents.

SIGNED, SEALED AND DELIVERED  
in the presence of:

"F. J. SULLIVAN"

"GORDON McMILLAN"

"W. G. THOMPSON" (SEAL)

#### SCHEDULE "A"

referred to in the annexed Agreement made the 29th day of March, 1946, between His Majesty the King in right of the Province of Ontario, of the First Part, and Abitibi Power & Paper Company, Limited, of the Second Part.

#### MISSINAIBI CONCESSION

ALL AND SINGULAR that certain territory situate lying and being in the Districts of Algoma and Sudbury in the Province of Ontario, more particularly described as follows:—

COMMENCING at the northwest corner of the Township of Walls; thence south astronomically to the southwest corner of the Township of Marjorie; thence east astronomically to the southeast corner of the Township of Marjorie; thence south astronomically to the southeast corner of the Township of Mildred; thence west astronomically to the southwest corner of the Township of Mildred; thence south astronomically to the southwest corner of the Township of Makawa; thence east astronomically to the northwest corner of the Township of Amik; thence south astronomically to the southwest corner of the Township of Amik; thence east astronomically to the west boundary of former Indian Reserve No. 76; thence north astronomically, 4 miles more or less, to the northwest corner of the said Indian Reserve; thence east astronomically along the north boundary of the said Indian Reserve to the northeast corner thereof; thence south astronomically to the intersection with the southeastern shore of Missinaibi Lake; thence in a southwesterly direction following the said shore of Missinaibi Lake to the intersection with the west boundary of the Township of Calais; thence south astronomically to the southwest corner of the Township of Busby; thence east astronomically to the southeast corner of the Township of Busby; thence south astronomically to the southwest corner of the Township of Lipsett; thence east astronomically to the southeast corner of the Township of Lipsett; thence north astronomically to the northeast corner of the Township of Lloyd; thence east astronomically to the southeast corner of the Township of Kirkwall; thence north astronomically to the northeast corner of the Township of Stefansson; thence west astronomically to the northwest corner of the Township of Coderre; thence north astronomically to the northeast corner of the Township of Hayward; thence west astronomically to the northwest corner of the

Township of Hayward; thence north astronomically to the northeast corner of the Township of Legge; thence west astronomically to the northwest corner of the Township of Legge; thence north astronomically to the northeast corner of the Township of Walls; thence west astronomically to the northwest corner of the Township of Walls, and being the point of commencement.

SAVING AND EXCEPTING the rights of the Licensees under the herein-after mentioned Crown Timber Licenses:—

1. License Number: 12 of 1944-45.  
Licensee: Pineland Timber Company.  
Area: Part Lloyd Township—6 $\frac{1}{4}$  square miles.  
Species: Jackpine sawlogs (12" and over).
2. License Number: 13 of 1944-45.  
Licensee: Pineland Timber Company.  
Area: Part Lloyd Township—17 $\frac{3}{4}$  square miles.  
Species: Jackpine sawlogs (12" and over).

The territory described herein contains a net area of 1,273 square miles more or less, and is shown coloured yellow on the map hereto annexed.

It is understood that whenever it appears from the attached map that the boundary of the territory above described is the established boundary of a township or district, such township or district boundary shall constitute the boundary of the Concession Area notwithstanding that it does not follow precisely the astronomical course set forth in the above description.

AGREEMENT made the 29th day of March, 1946:

BETWEEN:

HIS MAJESTY THE KING, in the right of the Province of Ontario as represented by the Minister of Lands and Forests (herein referred to as "the Crown")

OF THE FIRST PART,

—and—

ABITIBI POWER & PAPER COMPANY, LIMITED, a company incorporated under the laws of the Dominion of Canada, herein acting and represented by GEOFFREY TEIGNMOUTH CLARKSON, Receiver and Manager of the undertaking, property and assets thereof, and ROY SHARVELL McPHERSON, the Liquidator thereof (herein referred to as "the Company")

OF THE SECOND PART.

THIS AGREEMENT WITNESSETH that in consideration of the covenants and agreements on the part of the Company herein contained:

1. The Crown with the consent and approval of the Lieutenant-Governor-in-Council and subject to the provisions of Clause 5

- (a) doth grant to the Company for a period of twenty-one years commencing on the 1st day of April, 1946, the right to cut and remove all spruce, balsam and other pulpwood on and from the lands described in Schedule "A" hereto;
- (b) doth grant to the Company for a like period of twenty-one years commencing on the 1st day of April, 1946, (subject to the granting or renewal of a yearly license if and so long as such be required by The

Crown Timber Act, R.S.O. 1937, Chapter 36 and amendments thereto) the right to cut and remove all other kinds and classes of timber on and from the said lands described in Schedule "A" hereto.

2. The lands described in Schedule "A" hereto are hereinafter referred to as "the Concession Area".

3. If, during the term of this Agreement or any renewal thereof, the Company shall establish to the satisfaction of the Minister that the pulpwood on the Concession Area is insufficient for the future operation of the Company's mill at Sault Ste. Marie at present capacity, the Crown agrees, to the extent that it may have the same available, to provide additional areas in support of such mill on like terms and conditions as herein set forth.

4. The Crown does not guarantee any quantity of timber on the Concession Area.

5. The rights granted by this Agreement to the Company are subject to any presently existing commitments of the Crown to Austin Lumber (Dalton) Limited but otherwise shall be exclusive subject to the terms and conditions hereof.

6. The Company shall pay to the Treasurer of the Province of Ontario the following prices:

(a) For pulpwood cut on the Concession Area the following:

Spruce.....	\$1.50 per cord	Inclusive
Balsam.....	\$ .75 " "	of
Jackpine.....	\$ .50 " "	Crown Dues.
Other pulpwood—Crown dues.		

(b) For timber cut on the Concession Area for use for purposes other than as pulpwood:

Such prices as the Minister may from time to time determine, to be consistent with prices on adjacent or similarly situated concession areas.

7. The above prices shall be subject only to such variation in Crown dues that may hereafter be generally effected by regulation for timber cut for domestic manufacture and applicable throughout the Province of Ontario.

8. At the written direction of the Minister the Company shall cut and remove merchantable damaged timber on the Concession Area at such lesser rates, based on the value in the damaged timber, as the Minister may determine; but the Company shall not be required or be obligated to cut and remove more of such damaged timber in any year than it can reasonably produce and use in its operations.

9. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the regulations under The Crown Timber Act and accounts shall be due and payable on the 1st day of October for the preceding season and on all accounts which remain unpaid after the 31st day of October in the same year, interest shall be charged at the rate of Six per centum (6%) per annum calculated from the 1st day of October in the same year.

10. Pulpwood taken out in four or eight foot lengths shall be measured, returned and paid for on the basis of one hundred and twenty-eight cubic feet in each stacked cord. Pulpwood taken out in lengths in excess of eight feet shall be measured in the log on the cubic basis and each 100 cubic feet shall constitute a cord. Timber other than pulpwood shall be measured in accordance with the

provisions of the Manual of Scaling Instructions now or hereafter approved by the Crown.

11. For the purpose of calculating ground rent and fire protection charges, the Concession Area shall be deemed to comprise 6,972 square miles and the Company shall pay annually in advance, commencing with the First day of April, 1946, fire protection charges at the rate of \$6.40 per square mile on the said area of 6,972 square miles and ground rent at the rate of \$5.00 per square mile on one-tenth (1/10th) of the said area of 6,972 square miles. Interest at the rate of Six per centum (6%) per annum shall be charged on accounts which remain unpaid after 30 days from the due date.

While the rights of the Company under this Agreement are subject to any existing commitments of the Crown referred to in Clause 5, the aforesaid area shall be deemed to be reduced to such an extent as the Minister may determine.

If and whenever it is ascertained that any part or parts of the Concession Area are non-productive of merchantable timber, the aforesaid area may be reduced to such extent as the Minister may determine.

12. If and whenever, otherwise than by reason of default on the part of the Company, there shall be removed from the Concession Area any part thereof which the Company desires to retain, then the amounts thereafter payable by the Company to the Crown under the provisions of this Agreement shall be abated and be reduced by the amount of the fire protection charges and ground rent theretofore paid by the Company to the Crown in respect of the area of such part or by such proportion of such charges and rent as the Minister shall determine to be fair and reasonable and the Company shall be relieved thereafter from payment of fire protection charges and ground rent in respect of the area of such part.

13. The deposit of the Company in the aggregate amount of \$173,725 for the due performance by the Company of its obligations under agreements or licenses now in force between the Crown and the Company shall be considered as a deposit by the Company hereunder and be held by the Crown for the due performance by the Company of its obligations under this Agreement and all other agreements entered into between the Crown and the Company of even date; provided that the surplus beyond One hundred thousand Dollars (\$100,000) may be used by the Company for the payment of dues and charges including fire protection charges and ground rent which accrue hereunder (or under other agreements between the Crown and the Company of even date) in respect of the Company's operations during the first three years of the term of this agreement but in no event shall more than one-third of the said surplus be so applied in any one year.

Provided that the Company, at its option, shall be entitled at any time to substitute for the said cash deposit bonds of the Dominion of Canada or Province Ontario of a par value of \$100,000 as security for the due performance of its obligations under this Agreement and other agreements of even date, whereupon the said cash deposit shall be applied as the Company requires in satisfaction of dues and charges, including fire protection charges and ground rent, which become payable by the Company to the Crown under this or any other agreement.

For the purposes of this Clause 13 only, the word Company shall include both Abitibi Power & Paper Company, Limited and Thunder Bay Paper Co., Limited.

14. The Company hereby agrees that within five years from the date of this agreement

- (a) It will provide the Minister with an estimated inventory or inventories of the timber on the Concession Area by species and size classes and information with respect to the forest types and general age classes of such timber;
- (b) It will deliver to the Minister for his information a map dividing the Concession Area into such operational units as the Company shall deem to be appropriate having regard to the locations thereof, the types and characteristics of the timber thereon and the estimated future requirements of the Company, which map shall be subject to modification by the Company from time to time.

For the foregoing purposes the Company will proceed forthwith with a forest survey of the Concession Area and all other areas, whether Crown or private lands, upon which it holds cutting rights, in such order as the Minister may direct so long as the same does not unreasonably interfere with the Company's plans relative thereto. In each year the Company will survey as large an area as it can reasonably do in that year. It shall report the results to the Minister as the work progresses, and not less frequently than annually.

On the basis of the above surveys and inventories, the Company shall from time to time submit plans for utilizing the timber on the Concession Area in keeping with the requirements of the Company for pulpwood, the classes and sizes of timber found thereon and the market demands for timber for use other than as pulpwood, the first of such plans to be submitted as soon as practicable after the completion of the survey of the Concession Area, and in any event within the said five-year period. Each plan shall become operative only after being approved by the Minister.

Sixty days before commencing operation in any season the Company shall give such particulars as the Minister may require as to the proposed operation and shall obtain the consent in writing of the Minister to proceed with such operation (which consent shall not be unreasonably withheld or delayed) and within four months after the completion of the authorized operation shall file with the Minister a map indicating the cut-over areas and the kinds and quantities of each class of timber taken therefrom.

Except as may be herein otherwise provided, the Company shall cut and remove from the area actually cut over in each season all the merchantable timber thereon, save that the Company shall not be required to cut any timber not provided to be cut in the particulars of the proposed operations for such season to which the Minister has consented as aforesaid. In addition, the Minister may at any time and from time to time excuse the Company from cutting any one or more species of timber or any quantity or quantities thereof, notwithstanding that the same may have been included in the particulars of the proposed operations to which he has given his consent.

The pulpwood from the Concession Area shall be utilized in the Company's mill at Sault Ste. Marie save that the Minister from time to time may permit the Company to use or dispose of the said pulpwood in such other manner as he may determine.

15. The Minister or any officer or officers of the Department of Lands and Forests shall have the right to inspect the timber operations on the Concession Area at any time. If such inspection shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed under the provisions of this Agreement is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually

removed pursuant to the terms of this Agreement. The Company may thereafter remove any such timber without further charge. The cutting and removing of the timber on and from the Concession Area shall not be deemed to have been completed until the Concession Area had been examined by an officer of the Crown (which examination shall not be unreasonably delayed) and the operation has been declared satisfactory by the Minister.

16. The Company shall be entitled to carry out all or any of its operations either by its own employees or by contractors or jobbers. The Company shall not grant to any other person the right to cut on the Concession Area without the consent in writing of the Minister.

17. The Company will not place or deposit in any river, stream or other waters any refuse, sawdust, chemicals or matter of any other kind which shall be or may be injurious to game or fish life.

18. The Company will exercise reasonable diligence in ascertaining whether or not the timber on the Concession Area is being infected by insects or disease, and shall furnish the Minister with such information as it is able to obtain in respect thereof, as often as the Minister may so require.

19. The Company will co-operate in the purchase of pulpwood produced by bona fide settlers and pulpwood produced by and available from the operations of adjacent licensees.

20. The Company at its expense will provide suitable accommodation and board for all officers of the Crown, including supervisors, scalers, scalers' assistants and check-scalers, who are designated to work on the operations of the Company.

21. Should the Company establish in connection with its operations on the Concession Area any community not intended to be of a permanent character, the Company if and when requested by the Minister in writing and at its expense will remove all dwellings and other buildings erected in connection therewith at the conclusion of the particular operation in respect of which such community was established. As a guarantee that such removal will be completed to the satisfaction of the Minister, the Company, before the establishment of such community, shall deposit with the Crown in the Department of Lands and Forests Five Thousand Dollars (\$5,000) in cash or bonds of the Dominion of Canada or Province of Ontario of a principal amount of Five Thousand Dollars (\$5,000).

22. The Crown grants the Company the right to use the waters of all rivers' lakes and streams within the Concession Area for the term of this Agreement for the driving of timber and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the Concession Area and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and regulations made thereunder and in common with any rights for the use of the said waters heretofore granted by the Crown.

23. Without prejudice to the existing water power leases and water storage rights and privileges of the Company, all water powers and privileges within the Concession Area are reserved to the Crown.

24. The Company is granted under this Agreement no right to the soil or freehold of the Concession Area, or to the use thereof, except as may be necessary

for cutting and removing the said timber as aforesaid, and operations incidental thereto. The Crown, however, agrees from time to time to grant to the Company for terms co-terminous with the term of this Agreement, including its right of renewal, leases of such Crown lands in the Concession Area as the Company may require for saw-mills and other facilities and to issue such licenses and permits as may be required for the operation thereof.

25. The Crown reserves and excepts from the Concession Area all lands held under License-of-Occupation, leased, located or applied for, in respect of which such proceedings have been taken or shall hereafter be taken as in the opinion of the Minister entitles the applicants to a lease or patent of such lands; and the Crown further reserves the right to sell, lease, locate or otherwise dispose of, subject to the rights of the Company hereunder, any lands within the Concession Area allocated for settlement, mining or summer resort purposes on such terms and conditions as may be deemed advisable.

26. In case of disagreement as to the true intent and meaning of this Agreement the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

27. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

28. In this Agreement "Minister" shall mean the Minister of Lands and Forests for the time being of the Province of Ontario, and "season" or "operating season" shall be as defined by the Regulations under The Crown Timber Act.

29. This Agreement shall be binding upon and enure to the benefit of the Company, its successors and assigns, but shall not be assigned without the consent of the Minister.

30. If upon the termination of the said period of twenty-one years the Company shall have fully performed the obligations imposed upon it as herein set forth, it shall be entitled at its option to an extension of its rights under this Agreement for a further period of twenty-one years at such prices and upon such terms and conditions as may then be fixed by the Minister.

31. In the event of the Company failing at any time to perform any of its obligations hereunder, the Minister may give written notice to the Company which shall be sent to it by registered mail addressed to it at 408 University Avenue, Toronto 2, Ontario, stating in detail the default complained of and requiring the Company to make good such default and at the expiration of twelve months from the giving of such notice the Minister may, if authorized so to do by the Lieutenant-Governor-in-Council and if the default complained of has not been made good by the Company, declare forfeited all the rights of the Company under this Agreement.

The right of forfeiture by this clause provided shall be additional to and without limitation of every other right or remedy of the Crown arising by reason of the default, and the giving of or failure to give any such notice by the Minister shall not preclude the exercise by the Crown, of any other such right or remedy.

32. Any default or delay on the part of the Company in the performance or observance of any of the terms and provisions of this Agreement occasioned in whole or in part through shortage of labour or materials, extended interruption to power supply, strikes, fire, tempest, war, action by princes or sovereign states, act of God or other cause beyond the control of the Company shall not be or be deemed to be a default on the part of the Company under this Agreement.

33. The Minister shall be entitled to waive all rights of forfeiture arising under this Agreement by reason of any default if in the opinion of the Minister the cause of such default justifies the waiving of such right and, in such event, the Company's rights hereunder shall continue as though no such default had occurred.

34. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the cutting, measuring, removing and driving of timber on and from the Crown lands throughout the Province, and the same shall be binding upon and enure unto the Company and shall apply to its operations under this Agreement as fully and effectually as if they had been set forth therein.

35. IT IS UNDERSTOOD AND AGREED that all personal liability hereunder of Geoffrey Teignmouth Clarkson, Receiver and Manager of Abitibi Power & Paper Company, Limited and of Roy Sharvell McPherson, Liquidator thereof, shall cease and determine upon their discharge by Order of the Supreme Court of Ontario from the said offices respectively and until such discharges shall be limited to the assets of the Company from time to time in their respective hands as such and available for their indemnification.

IN WITNESS WHEREOF the parties hereto have executed these presents.

SIGNED, SEALED AND DELIVERED  
in the presence of:

"W. G. THOMPSON" (SEAL)  
MINISTER OF LANDS AND FORESTS  
FOR THE PROVINCE OF ONTARIO.

"F. J. SULLIVAN"

PANY, LIMITED

"GORDON McMILLAN"

By: "G. T. CLARKSON" (SEAL)  
RECEIVER AND MANAGER.  
AND: "R. S. MCPHERSON"  
LIQUIDATOR.

#### SCHEDULE "A"

referred to in the annexed Agreement made the 29th day of March, 1946, between His Majesty the King in right of the Province of Ontario, of the First Part, and Abitibi Power & Paper Company, Limited, of the Second Part.

#### SAULT STE. MARIE CONCESSION

ALL AND SINGULAR that certain territory situate lying and being in the districts of Thunder Bay, Algoma and Sudbury in the Province of Ontario, containing 6,972 square miles, be the same more or less and more particularly described as follows:—

#### FIRSTLY:

COMMENCING at the southeast corner of Township 4H in the District of Algoma; thence north astronomically to the southwest corner of Township 10G; thence east astronomically to the southeast corner of Township 10G; thence north astronomically to the northeast corner of Township 10G; thence west astronomically to the southeast corner of Township 11G; thence north astronomically to the northeast corner of Township 13G; thence west astronomically

to the southwest corner of Township 32; thence north astronomically to the northeast corner of Township 36; thence west astronomically to the northwest corner of Township 23, Range 23, and being on the limit between the Districts of Algoma and Sudbury; thence south astronomically to the southwest corner of Township 23, Range 23; thence west astronomically to the line between the east and west halves of Township 24, Range 22; thence south astronomically to the south boundary of the last mentioned Township; thence east astronomically to the southeast corner of Township 24, Range 22; thence south astronomically to the southeast corner of Township 24, Range 21; thence west astronomically to the southwest corner of the said Township; thence north astronomically to the northeast corner of Township 25, Range 22; thence west astronomically to the northwest corner of Township 25, Range 22; thence south astronomically to the southwest corner of the said Township; thence west astronomically to the southeast corner of Township 27, Range 22; thence north astronomically to the northeast corner of Township 27, Range 22; thence west astronomically to the northwest corner of Township 27, Range 22; thence south astronomically to the southwest corner of Township 27, Range 21; thence east astronomically to the northwest corner of Township 25, Range 20; thence south astronomically to the southwest corner of Township 25, Range 19; thence east astronomically to the southeast corner of Township 24, Range 19; thence south astronomically being along the limit between the Districts of Algoma and Sudbury and its production southerly to the southwest corner of Township 23, Range 13; thence east astronomically to the northwest corner of Township 5H; thence south astronomically to the southwest corner of Township 4H; thence east astronomically to the southeast corner of 4H, and being the point of commencement.

SAVING AND EXCEPTING the rights of the Licensees under the herein-after mentioned Crown Timber Licenses:

1. License Number: 134 of 1935-36.  
 Licensee: Austin Lumber (Dalton) Ltd.  
 Area: Berth W.D. 5—southwest of Windermere Lake, near Windermere Station on C.P.R. (Pt. Twp. 35).  
 21 square miles.  
 Species: Pine logs and pulpwood.
2. License Number: 146 of 1935-36.  
 Licensee: Austin Lumber (Dalton) Ltd.  
 Area: Berth W.D. 4 south of Windermere Lake on C.P.R.  
 20 square miles.  
 Species: Jackpine and spruce logs and pulpwood.
3. License Number: 144 of 1935-36.  
 Licensee: Austin Lumber (Dalton) Ltd.  
 Area: Berth W.D. 3 south of Windermere Lake near Windermere Station on C.P.R.  
 20 square miles.  
 Species: Pine logs.

## SECONDLY:

COMMENCING at a point where the south boundary of the Township of Pic in the District of Thunder Bay intersects the shore of Lake Superior; thence in a general southerly and easterly direction following the shore of Lake Superior to a point where it is intersected by the south boundary of Township 31, Range 21, in the District of Algoma; thence east astronomically to the southeast corner

of Township 30, Range 21; thence northerly following the east boundary of Townships 30, Range 21 and 30, Range 22, to the northeast corner of the last mentioned Township; thence east astronomically to the southeast corner of Township 28, Range 23; thence north astronomically to the northeast corner of the said Township; thence west astronomically to the southeast corner of Township 29, Range 24; thence north astronomically to the northeast corner of the last mentioned Township; thence west astronomically to the southwest corner of Township 33, Range 25; thence north astronomically to the northwest corner of Township 33, Range 26; thence east astronomically to the southeast corner of Township 49; thence south astronomically to the southwest corner of Township 48; thence east astronomically to the northwest corner of Township 25, Range 26; thence south astronomically to the southwest corner of the last mentioned Township; thence west astronomically to the northwest corner of Township 26, Range 25; thence south astronomically to the southwest corner of the last mentioned Township; thence east astronomically to the southeast corner of Township 43; thence north astronomically to the northeast corner of the last mentioned Township; thence east astronomically to the southeast corner of Township 44; thence north astronomically to the northeast corner of the last mentioned Township; thence west astronomically to the line between the east and west halves of Township 46; thence north astronomically 3 miles; thence east astronomically to the east boundary of Township 46; thence north astronomically to the north boundary of the Township of Acton; thence west astronomically to the southeast corner of the Township of Simpson; thence north astronomically to the northeast corner of the last mentioned Township; thence west astronomically to the southeast corner of the Township of Mosambik; thence north astronomically 6 miles; thence west astronomically 9 miles more or less to the west boundary of the Township of Mosambik; thence south astronomically to the southwest corner of the last mentioned Township, thence west astronomically  $3\frac{1}{2}$  miles more or less to the intersection with a line drawn north astronomically from the southwest corner of Township 60; thence south astronomically to the southwest corner of Township 60; thence west astronomically to the southeast corner of Township 62; thence north astronomically to the northeast corner of the last mentioned Township and thence west astronomically to the northwest corner of Township 62; thence north astronomically 6 miles; thence west astronomically 6 miles to the northeast corner of Township 66; thence north astronomically 30 miles; thence west astronomically 13 miles more or less to the limit between the District of Thunder Bay and the District of Algoma; thence north astronomically thereon 6 miles; thence west astronomically 8 miles more or less to the eastern limit of the watershed of the Black River; thence following the eastern limit of the watershed of the Black River to the shore of Lake Superior and which limit may be approximately located as being along the following courses: south astronomically 3 miles; thence west astronomically 4 miles; thence south astronomically 8 miles; thence west astronomically 5 miles; thence south astronomically 17 miles; thence west astronomically 3 miles; thence south astronomically 4 miles; thence west astronomically 10 miles more or less to the east boundary of the former Pic River pulp and timber limit; thence south astronomically 6 miles more or less to the production easterly of the south boundary of the Township of Pic; thence west astronomically to and along the south boundary of the Township of Pic to the point of commencement at the shore of Lake Superior.

SAVE AND EXCEPTING the following described areas:

Township 63.

The Township of St. Julien and that part of the Township of Glasgow forming part of the A.C.R. lands.

Indian Reserve No. 49.

ALSO SAVING AND EXCEPTING the rights of the Licensee under the hereinafter mentioned Crown Timber License:

License Number:	143 of 1935-36.
Licensee:	Austin Lumber (Dalton) Ltd.
Area:	Block 5 on C.P.R. West of White River Townships 69, 70 E1½71. 90 square miles.
Species:	Pine logs.

### THIRDLY:

Townships 28, Ranges 19 and 20; Townships 29, Ranges 19 and 20; Townships 26, Ranges 17 and 18; Townships 27, Ranges 17 and 18; Townships 25, Ranges 15 and 16; Townships 28, Ranges 15 and 16, Township 29, Range 16, Townships 30, Ranges 17 and 18; Township 31, Range 18, that part of Township 31, Range 19, exclusive of that part originally forming part of the A.C.R. lands; Township 22, Range 10; Township 24, Range 11; the west half of the Township of Whitman; the east halves of the Townships of Tupper and VanKoughnet; the Townships of Palmer and Ryan; that part of the Township of Marne exclusive of that part originally forming part of the A.C.R. lands.

The territory described herein is shown coloured yellow on the map hereto annexed.

It is understood that wherever it appears from the attached map that the boundary of the territory above described is the established boundary of a township or district, such township or district boundary shall constitute the boundary of the Concession Area notwithstanding that it does not follow precisely the astronomical course set forth in the above description.

AGREEMENT made the 29th day of March, 1946:

### BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests (herein referred to as "the Crown")

OF THE FIRST PART,

—and—

ABITIBI POWER & PAPER COMPANY, LIMITED, a company incorporated under the laws of the Dominion of Canada, herein acting and represented by GEOFFREY TEIGNMOUTH CLARKSON, Receiver and Manager of the undertaking, property and assets thereof, and ROY SHARVELL McPHERSON, the Liquidator thereof (herein referred to as "the Company")

OF THE SECOND PART.

THIS AGREEMENT WITNESSETH that in consideration of the covenants and agreements on the part of the Company herein contained:

1. The Crown with the consent and approval of the Lieutenant-Governor-in-Council

- (a) doth grant to the Company for a period of twenty-one years commencing on the 1st day of April, 1946, the right to cut and remove all spruce, balsam and other pulpwood on and from the lands described in Schedule "A" hereto;

- (b) doth grant to the Company for a like period of twenty-one years commencing on the 1st day of April, 1946 (subject to the granting or renewal of a yearly license if and so long as such be required by The Crown Timber Act, R.S.O. 1937, Chapter 36 and amendments thereto) the right to cut and remove all other kinds and classes of timber on and from the said lands described in Schedule "A" hereto.

2. The lands described in Schedule "A" hereto are hereinafter referred to as "the Concession Area".

3. If, during the terms of this Agreement or any renewal thereof, the Company shall establish to the satisfaction of the Minister that the pulpwood on the Concession Area is insufficient for the future operation of the Company's mill at Smooth Rock Falls at present capacity, the Crown agrees, to the extent that it may have the same available, to provide additional areas in support of such mill on like terms and conditions as herein set forth.

4. The Crown does not guarantee any quantity of timber on the Concession Area.

5. The Company shall pay to the Treasurer of the Province of Ontario the following prices:

- (a) For pulpwood cut on the Concession Area the following:
- |                            |                 |             |
|----------------------------|-----------------|-------------|
| Spruce.....                | \$1.90 per cord | Inclusive   |
| Balsam.....                | \$ .75 " "      | of          |
| Jackpine.....              | \$ .50 " "      | Crown Dues. |
| Other pulpwood—Crown dues. |                 |             |

- (b) For timber cut on the Concession Area for use for purposes other than as pulpwood:

Such prices as the Minister may from time to time determine, to be consistent with prices on adjacent or similarly situated concession areas.

6. The above prices shall be subject only to such variation in Crown dues that may hereafter be generally effected by regulation for timber cut for domestic manufacture and applicable throughout the Province of Ontario.

7. At the written direction of the Minister the Company shall cut and remove merchantable damaged timber on the Concession Area at such lesser rates, based on the value in the damaged timber, as the Minister may determine; but the Company shall not be required or be obligated to cut and remove more of such damaged timber in any year than it can reasonably produce and use in its operations.

8. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the regulations under The Crown Timber Act and accounts shall be due and payable on the 1st day of October for the preceding season and on all accounts which remain unpaid after the 31st day of October in the same year, interest shall be charged at the rate of Six per centum (6%) per annum calculated from the 1st day of October in the same year.

9. Pulpwood taken out in four or eight foot lengths shall be measured, returned and paid for on the basis of one hundred and twenty-eight cubic feet in each stacked cord. Pulpwood taken out in lengths in excess of eight feet shall be measured in the log on the cubic basis and each 100 cubic feet shall constitute a cord. Timber other than pulpwood shall be measured in accordance with the provisions of the Manual of Scaling Instructions now or hereafter approved by the Crown.

10. For the purpose of calculating ground rent and fire protection charges, the Concession Area shall be deemed to comprise 1,508 square miles and the Company shall pay annually in advance, commencing with the First day of April, 1946, fire protection charges at the rate of \$6.40 per square mile on the said area of 1,508 square miles and ground rent at the rate of \$5.00 per square mile on one-tenth (1/10) of the said area of 1,508 square miles. Interest at the rate of Six per centum (6%) per annum shall be charged on accounts which remain unpaid after 30 days from the due date.

If and whenever it is ascertained that any part or parts of the Concession Area are non-productive of merchantable timber, the aforesaid area may be reduced to such extent as the Minister may determine.

11. If and whenever, otherwise than by reason of default on the part of the Company, there shall be removed from the Concession Area any part thereof which the Company desires to retain, then the amounts thereafter payable by the Company to the Crown under the provisions of this Agreement shall be abated and be reduced by the amount of the fire protection charges and ground rent theretofore paid by the Company to the Crown in respect of the area of such part or by such proportion of such charges and rent as the Minister shall determine to be fair and reasonable and the Company shall be relieved thereafter from payment of fire protection charges and ground rent in respect of the area of such part.

12. The deposit of the Company in the aggregate amount of \$173,725 for the due performance by the Company of its obligations under agreements or licenses now in force between the Crown and the Company shall be considered as a deposit by the Company hereunder and be held by the Crown for the due performance by the Company of its obligations under this Agreement and all other agreements entered into between the Crown and the Company of even date; provided that the surplus beyond One hundred thousand Dollars (\$100,000) may be used by the Company for the payment of dues and charges including fire protection charges and ground rent which accrue hereunder (or under other agreements between the Crown and the Company of even date) in respect of the Company's operations during the first three years of the term of this agreement but in no event shall more than one-third of the said surplus be so applied in any one year.

Provided that the Company, at its option, shall be entitled at any time to substitute for the said cash deposit bonds of the Dominion of Canada or Province of Ontario of a par value of \$100,000 as security for the due performance of its obligations under this Agreement and other agreements of even date, whereupon the said cash deposit shall be applied as the Company requires in satisfaction of dues and charges, including fire protection charges and ground rent, which become payable by the Company to the Crown under this or any other agreement.

For the purposes of this Clause 12 only, the word Company shall include both Abitibi Power & Paper Company, Limited and Thunder Bay Paper Co., Limited.

13. The Company hereby agrees that within five years from the date of this agreement

- (a) It will provide the Minister with an estimated inventory or inventories of the timber on the Concession Area by species and size classes and information with respect to the forest types and general age classes of such timber;

- (b) It will deliver to the Minister for his information a map dividing the Concession Area into such operational units as the Company shall deem to be appropriate having regard to the locations thereof, the types and characteristics of the timber thereon and the estimated future requirements of the Company, which map shall be subject to modification by the Company from time to time.

For the foregoing purposes the Company will proceed forthwith with a forest survey of the Concession Area and all other areas, whether Crown or private lands, upon which it holds cutting rights, in such order as the Minister may direct so long as the same does not unreasonably interfere with the Company's plans relative thereto. In each year the Company will survey as large an area as it can reasonably do in that year. It shall report the results to the Minister as the work progresses, and not less frequently than annually.

On the basis of the above surveys and inventories, the Company shall from time to time submit plans for utilizing the timber on the Concession Area in keeping with the requirements of the Company for pulpwood, the classes and sizes of timber found thereon and the market demands for timber for use other than as pulpwood, the first of such plans to be submitted as soon as practicable after the completion of the survey of the Concession Area, and in any event within the said five-year period. Each plan shall become operative only after being approved by the Minister.

Sixty days before commencing operation in any season the Company shall give such particulars as the Minister may require as to the proposed operation and shall obtain the consent in writing of the Minister to proceed with such operation (which consent shall not be unreasonably withheld or delayed) and within four months after the completion of the authorized operation shall file with the Minister a map indicating the cut-over areas and the kinds and quantities of each class of timber taken therefrom.

Except as may be herein otherwise provided, the Company shall cut and remove from the area actually cut over in each season all the merchantable timber thereon, save that the Company shall not be required to cut any timber not provided to be cut in the particulars of the proposed operations for such season to which the Minister has consented as aforesaid. In addition, the Minister may at any time and from time to time excuse the Company from cutting any one or more species of timber or any quantity or quantities thereof, notwithstanding that the same may have been included in the particulars of the proposed operations to which he has given his consent.

The pulpwood from the Concession Area shall be utilized in the Company's mill at Smooth Rock Falls save that the Minister from time to time may permit the Company to use or dispose of the said pulpwood in such other manner as he may determine.

14. The Minister or any officer or officers of the Department of Lands and Forests shall have the right to inspect the timber operations on the Concession Area at any time. If such inspection shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed under the provisions of this Agreement is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement. The Company may thereafter remove any such timber without further charge. The cutting and removing of the timber on and from the Concession Area shall not be deemed to have been completed until the Concession Area has been examined by an officer of the Crown (which

examination shall not be unreasonably delayed) and the operation has been declared satisfactory by the Minister.

15. The Company shall be entitled to carry out all or any of its operations either by its own employees or by contractors or jobbers. The Company shall not grant to any other person the right to cut on the Concession Area without the consent in writing of the Minister.

16. The Company will not place or deposit in any river, stream or other waters any refuse, sawdust, chemicals or matter of any other kind which shall be or may be injurious to game or fish life.

17. The Company will exercise reasonable diligence in ascertaining whether or not the timber on the Concession Area is being infected by insects or disease, and shall furnish the Minister with such information as it is able to obtain in respect thereof, as often as the Minister may so require.

18. The Company will co-operate in the purchase of pulpwood produced by bona fide settlers and pulpwood produced by and available from the operations of adjacent licensees.

19. The Company at its expense will provide suitable accommodation and board for all officers of the Crown, including supervisors, scalers, scalers' assistants and check-scalers, who are designated to work on the operations of the Company.

20. Should the Company establish in connection with its operations on the Concession Area any community not intended to be of a permanent character, the Company if and when requested by the Minister in writing and at its expense will remove all dwellings and other buildings erected in connection therewith at the conclusion of the particular operation in respect of which such community was established. As a guarantee that such removal will be completed to the satisfaction of the Minister, the Company, before the establishment of such community, shall deposit with the Crown in the Department of Lands and Forests Five Thousand Dollars (\$5,000) in cash or bonds of the Dominion of Canada or Province of Ontario of a principal amount of Five Thousand Dollars (\$5,000).

21. The Crown grants the Company the right to use the waters of all rivers, lakes and streams within the Concession Area for the term of this Agreement for the driving of timber and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the Concession Area and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and regulations made thereunder and in common with any rights for the use of the said waters heretofore granted by the Crown.

22. Without prejudice to the existing water power leases and water storage rights and privileges of the Company, all water powers and privileges within the Concession Area are reserved to the Crown.

23. The Company is granted under this Agreement no right to the soil or freehold of the Concession Area, or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto. The Crown, however, agrees from time to time to grant to the Company for terms co-terminous with the term of this Agreement, including its right of renewal, leases of such Crown lands in the Concession Area as the Company may

require for saw-mills and other facilities and to issue such licenses and permits as may be required for the operation thereof.

24. The Crown reserves and excepts from the Concession Area all lands held under License-of-Occupation, leased, located or applied for, in respect of which such proceedings have been taken or shall hereafter be taken as in the opinion of the Minister entitles the applicants to a lease or patent of such lands; and the Crown further reserves the right to sell, lease, locate or otherwise dispose of, subject to the rights of the Company hereunder, any lands within the Concession Area allocated for settlement, mining or summer resort purposes on such terms and conditions as may be deemed advisable.

25. In case of disagreement as to the true intent and meaning of this Agreement the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

26. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

27. In this Agreement "Minster" shall mean the Minister of Lands and Forests for the time being of the Province of Ontario, and "season" or "operating season" shall be as defined by the Regulations under The Crown Timber Act.

28. This Agreement shall be binding upon and enure to the benefit of the Company, its successors and assigns, but shall not be assigned without the consent of the Minister.

29. If upon the termination of the said period of twenty-one years the Company shall have fully performed the obligations imposed upon it as herein set forth, it shall be entitled at its option to an extension of its rights under this Agreement for a further period of twenty-one years at such prices and upon such terms and conditions as may then be fixed by the Minister.

30. In the event of the Company failing at any time to perform any of its obligations hereunder, the Minister may give written notice to the Company which shall be sent to it by registered mail addressed to it at 408 University Avenue, Toronto 2, Ontario, stating in detail the default complained of and requiring the Company to make good such default and at the expiration of twelve months from the giving of such notice the Minister may, if authorized so to do by the Lieutenant-Governor-in-Council and if the default complained of has not been made good by the Company, declare forfeited all the rights of the Company under this Agreement.

The right of forfeiture by this clause provided shall be additional to and without limitation of every other right or remedy of the Crown arising by reason of the default, and the giving of or failure to give any such notice by the Minister shall not preclude the exercise by the Crown of any other such right or remedy.

31. Any default or delay on the part of the Company in the performance or observance of any of the terms and provisions of this Agreement occasioned in whole or in part through shortage of labour or materials, extended interruption to power supply, strikes, fire, tempest, war, action by princes or sovereign states, act of God or other cause beyond the control of the Company shall not be or be deemed to be a default on the part of the Company under this Agreement.

32. The Minister shall be entitled to waive all rights of forfeiture arising under this Agreement by reason of any default if in the opinion of the Minister the cause of such default justifies the waiving of such right and, in such event,

the Company's rights hereunder shall continue as though no such default had occurred.

33. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall be binding upon and enure unto the Company and shall apply to its operations under this Agreement as fully and effectually as if they had been set forth herein.

34. IT IS UNDERSTOOD AND AGREED that all personal liability hereunder of Geoffrey Teignmouth Clarkson, Receiver and Manager of Abitibi Power & Paper Company, Limited and of Roy Sharvell McPherson, Liquidator thereof, shall cease and determine upon their discharge by Order of the Supreme Court of Ontario from the said offices respectively and until such discharge shall be limited to the assets of the Company from time to time in their respective hands as such and available for their indemnification.

IN WITNESS WHEREOF the parties hereto have executed these presents.

#### SCHEDULE "A"

referred to in the annexed Agreement made the 29th day of March, 1946, between His Majesty the King in right of the Province of Ontario, of the First Part, and Abitibi Power & Paper Company, Limited, of the Second Part.

#### SMOOTH ROCK FALLS CONCESSION

ALL AND SINGULAR that certain territory situate lying and being in the Districts of Sudbury and Cochrane in the Province of Ontario, more particularly described as follows:—

COMMENCING at the southwest corner of the Township of Regan; thence north astronomically to the northwest corner of the Township of Frey; thence west astronomically to the southwest corner of the Township of Enid; thence north astronomically to the south boundary of Indian Reserve No. 73; thence east astronomically to the southeast corner of the said Indian Reserve; thence north astronomically along the east boundary of the said Indian Reserve to the north-east corner thereof; thence west astronomically to the west boundary of the said Township of Enid; thence north astronomically to the northwest corner of the Township of Enid; thence east astronomically to the southeast corner of the Township of Fortune; thence north astronomically to the north boundary of the 1st concession of the Township of Machin; thence west astronomically to the southeast corner of Lot 13 in the 2nd concession of the said Township of Machin; thence north astronomically to the north boundary of the 3rd concession of the

said Township of Machin; thence west astronomically along the said north boundary of the 3rd concession of the Township of Machin and its production to the eastern bank of Groundhog River; thence in a northerly direction following the said bank of Groundhog River to the intersection with the north boundary of the said Township of Machin; thence east astronomically to the line between the east and west halves of the Township of Adanac; thence north astronomically along the last mentioned line to the north boundary of the Township of Adanac; thence east astronomically to the northeast corner of the Township of Adanac; thence south astronomically to the northwest corner of the Township of Colquhoun; thence east astronomically to the northeast corner of the Township of Colquhoun; thence south astronomically to the south boundary of the 4th concession of the said Township of Colquhoun; thence west astronomically along the said south boundary of the 4th concession to the west boundary of the Township of Colquhoun; thence south astronomically to the southeast corner of the Township of Bradburn; thence west astronomically to the northeast corner of the Township of Laidlaw; thence south astronomically to the southeast corner of the Township of Kirkland; thence east astronomically to the northeast corner of the Township of Mahaffy; thence south astronomically to the northwest corner of the Township of Jessop; thence east astronomically to the northeast corner of the Township of Jessop; thence south astronomically to the southeast corner of the Township of Jessop; thence west astronomically to the southwest corner of the Township of Jamieson; thence south astronomically to the southeast corner of the Township of Carscallen; thence west astronomically to the southwest corner of the Township of Whitesides; thence south astronomically to the southeast corner of the Township of Regan; thence west astronomically to the southwest corner of the Township of Regan, and being the point of commencement.

#### SAVE AND EXCEPTING THEREFROM:

In the Township of Kendrey—

Lots 19 to 28 (both inclusive) in Concessions 5 to 10 (both inclusive).

In the Township of Haggart:

Lots 1, 2 and 3 in Concessions 6 and 7.

Lots 1 to 28 (both inclusive) in Concessions 8 and 9.

Lots 13 to 28 (both inclusive) in Concession 10.

Lots 18 to 28 (both inclusive) in Concession 11.

ALSO SAVING AND EXCEPTING the rights of the Licensees under the hereinafter mentioned Crown Timber Licenses:

1. License Number: 14 of 1941-42.  
 Licensee: E. Gravel.  
 Area: Lots 1-6, Cons. 1-2, Alexandra.  
 Lots 4-5, Con. 10, Haggart.  
 3½ square miles—approximately.  
 Species: Spruce and balsam pulpwood (not exportable).
2. License Number: 15 of 1939-40.  
 Licensee: P. Guevremont.  
 Area: Lots 12-13, Con. 12, Haggart.  
 ½ square mile—approximately.  
 Species: Spruce and balsam.

3. License Number: 38 of 1940-41.  
Licensee: Filion and Guevremont.  
Area: Lots 10-12, Con. 11, Haggart.  
Lots 10-11, Con. 12, Haggart.  
1 $\frac{1}{4}$  square miles—approximately.  
Species: Spruce and balsam.
4. License Number: 15 of 1941-42.  
Licensee: Filion and Guevremont.  
Area: Lots 19-28, Cons. 1-2, Haggart.  
Lots 13-28, Cons. 3-5, Haggart.  
16 square miles—approximately.  
Species: Spruce and balsam.
5. License Number: 74 of 1945-46.  
Licensee: P. Guevremont.  
Area: Lot 15, Con. 8, Kendrey.  
Lots 15-16, Con. 9, Kendrey.  
 $\frac{3}{4}$  square mile—approximately.  
Species: Spruce and balsam (not exportable).
6. License Number: 76 of 1944-45.  
Licensee: P. Guevremont.  
Area: Lots 13-14, cons. 7-8, Kendrey.  
1 square mile—approximately.  
Species: Spruce and balsam.
7. License Number: 119 of 1944-45.  
Licensee: L. Ouellette.  
Area: Lots 9-10, Con. 7 Kendrey.  
 $\frac{1}{2}$  square mile—approximately.  
Species: Spruce and balsam (not exportable).
8. License Number: 61 of 1942-43.  
Licensee: P. Guevremont.  
Area: Lots 11-16, Con. 6 Kendrey.  
1 $\frac{1}{2}$  square miles—approximately.  
Species: Spruce and balsam.
9. License Number: 57A of 1941-42.  
Licensee: Chartrand and Shirley.  
Area: Lots 7-18, Cons. 1-4, Kendrey.  
11 $\frac{1}{2}$  square miles—approximately.  
Species: Spruce, balsam and poplar.
10. License Number: 13 of 1941-42.  
Licensee: J. M. Charpentier.  
Area: Lots 1-6, Con. 1, Kendrey.  
1 $\frac{1}{2}$  square miles—approximately.  
Species: Spruce and balsam.
11. License Number: 16 of 1944-45.  
Licensee: Pineland Timber Co. Ltd.  
Area: Kenogaming Twp.  
48 square miles—approximately.  
Species: Pine and spruce logs.

The territory described herein contains a net area of 1508 square miles more or less, and is shown coloured yellow on the map hereto annexed.

It is understood that wherever it appears from the attached map that the boundary of the territory above described is the established boundary of a township or district, such township or district boundary shall constitute the boundary of the Concession Area notwithstanding that it does not follow precisely the astronomical course set forth in the above description.

AGREEMENT made the 29th day of March, 1946:

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests (herein referred to as "the Crown")

OF THE FIRST PART,

—and—

ABITIBI POWER & PAPER COMPANY, LIMITED, a company incorporated under the laws of the Dominion of Canada, herein acting and represented by GEOFFREY TEIGNMOUTH CLARKSON, Receiver and Manager of the undertaking, property and assets thereof, and ROY SHARVELL McPHERSON, the Liquidator thereof (herein referred to as "the Company")

OF THE SECOND PART:

THIS AGREEMENT WITNESSETH that in consideration of the covenants and agreements on the part of the Company herein contained:

1. The Crown with the consent and approval of the Lieutenant-Governor-in-Council doth grant to the Company for a period of twenty-one years commencing on the 1st day of April, 1946, the right to cut and remove all spruce, balsam and other pulpwood on and from the lands described in Schedule "A" hereto.

2. The lands described in Schedule "A" hereto are hereinafter referred to as "the Concession Area".

3. If, during the term of this Agreement or any renewal thereof, the Company shall establish to the satisfaction of the Minister that the pulpwood on the Concession Area is insufficient for the future operation of the Company's mill at Sturgeon Falls at present capacity, the Crown agrees, to the extent that it may have the same available, to provide additional areas in support of such mill on like terms and conditions as herein set forth.

4. The Crown does not guarantee any quantity of timber on the Concession Area.

5. The Company shall pay to the Treasurer of the Province of Ontario the following prices for pulpwood cut on the Concession Area:

Spruce.....	\$1.50	per cord	} Inclusive of Crown Dues.
Balsam.....	\$ .75	" "	
Jackpine.....	\$ .50	" "	
Other pulpwood—Crown Dues.			

6. The above prices shall be subject only to such variation in Crown dues that may hereafter be generally effected by regulation for pulpwood cut for domestic manufacture and applicable throughout the Province of Ontario.

7. At the written direction of the Minister the Company shall cut and remove merchantable damaged pulpwood on the Concession Area at such lesser

rates, based on the value in the damaged pulpwood, as the Minister may determine; but the Company shall not be required or be obligated to cut and remove more of such damaged pulpwood in any year than it can reasonably produce and use in its operations.

8. Proper sworn returns of the quantity of pulpwood cut in each season shall be made to the Crown in conformity with the regulations under The Crown Timber Act and accounts shall be due and payable on the 1st day of October for the preceding season and on all accounts which remain unpaid after the 31st day of October in the same year, interest shall be charged at the rate of Six per centum (6%) per annum calculated from the 1st day of October in the same year.

9. Pulpwood taken out in four or eight foot lengths shall be measured, returned and paid for on the basis of one hundred and twenty-eight cubic feet in each stacked cord. Pulpwood taken out in lengths in excess of eight feet shall be measured in the log on the cubic basis and each 100 cubic feet shall constitute a cord.

10. For the purpose of calculating fire protection charges, the Concession Area shall be deemed to comprise 2,483 square miles and the Company shall pay annually in advance, commencing with the First day of April, 1946, fire protection charges at the rate of \$6.40 per square mile on the said area of 2,483 square miles. Interest at the rate of Six per centum (6%) per annum shall be charged on accounts which remain unpaid after 30 days from the due date.

If and whenever it is ascertained that any part or parts of the Concession Area are non-productive of merchantable pulpwood, the aforesaid area may be reduced to such extent as the Minister may determine.

11. If and whenever, otherwise than by reason of default on the part of the Company, there shall be removed from the Concession Area any part thereof which the Company desires to retain, then the amounts thereafter payable by the Company to the Crown under the provisions of this Agreement shall be abated and be reduced by the amount of the fire protection charges theretofore paid by the Company to the Crown in respect of the area of such part or by such proportion of such charges as the Minister shall determine to be fair and reasonable and the Company shall be relieved thereafter from payment of fire protection charges in respect of the area of such part.

12. The deposit of the Company in the aggregate amount of \$173,725 for the due performance by the Company of its obligations under agreements or licenses now in force between the Crown and the Company shall be considered as a deposit by the Company hereunder and be held by the Crown for the due performance by the Company of its obligations under this Agreement and all other agreements entered into between the Crown and the Company of even date; provided that the surplus beyond One hundred thousand Dollars (\$100,000) may be used by the Company for the payment of dues and charges including fire protection charges and ground rent which accrue hereunder (or under other agreements between the Crown and the Company of even date) in respect of the Company's operations during the first three years of the term of this agreement but in no event shall more than one-third of the said surplus be so applied in any one year.

Provided that the Company, at its option, shall be entitled at any time to substitute for the said cash deposit bonds of the Dominion of Canada or Province of Ontario of a par value of \$100,000 as security for the due performance of its obligations under this Agreement and other agreements of even date, whereupon the said cash deposit shall be applied as the Company requires in satisfaction of

dues and charges, including fire protection charges and ground rent, which become payable by the Company to the Crown under this or any other agreement.

For the purposes of this Clause 12 only, the word Company shall include both Abitibi Power & Paper Company, Limited, and Thunder Bay Paper Co., Limited.

13. Sixty days before commencing operation in any season the Company shall give such particulars as the Minister may require as to the proposed operation and shall obtain the consent in writing of the Minister to proceed with such operation (which consent shall not be unreasonably withheld or delayed) and within four months after completion of the authorized operation shall file with the Minister a map indicating the cut-over areas and the kinds and quantities of each class of timber taken therefrom.

The pulpwood from the Concession Area shall be utilized in the Company's mill at Sturgeon Falls save that the Minister from time to time may permit the Company to use or dispose of the said pulpwood in such other manner as he may determine.

14. The Minister or any officer or officers of the Department of Lands and Forests shall have the right to inspect the timber operations on the Concession Area at any time. If such inspection shall show that the timber operations are carried on in such a way that any merchantable or valuable pulpwood which should be removed under the provisions of this Agreement is being left or destroyed, the Minister shall have the right to have the said pulpwood estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement. The Company may thereafter remove any such pulpwood without further charge. The cutting and removing of the pulpwood on and from the Concession Area shall not be deemed to have been completed until the Concession Area has been examined by an officer of the Crown (which examination shall not be unreasonably delayed) and the operation has been declared satisfactory by the Minister.

15. The Company shall be entitled to carry out all or any of its operations either by its own employees or by contractors or jobbers. The Company shall not grant to any other person the right to cut on the Concession Area without the consent in writing of the Minister.

16. The Company will not place or deposit in any river, stream or other waters any refuse, sawdust, chemicals or matter of any other kind which shall be or may be injurious to game or fish life.

17. The Company will exercise reasonable diligence in ascertaining whether or not the timber on the Concession Area is being infected by insects or disease, and shall furnish the Minister with such information as it is able to obtain in respect thereof, as often as the Minister may so require.

18. The Company will co-operate in the purchase of pulpwood produced by bona fide settlers and pulpwood produced by and available from the operations of adjacent licensees.

19. The Company at its expense will provide suitable accommodation and board for all officers of the Crown, including supervisors, scalers, scalers' assistants and check-scalers, who are designated to work on the operations of the Company.

20. Should the Company establish in connection with its operations on the Concession Area any community not intended to be of a permanent character,

the Company if and when requested by the Minister in writing and at its expense will remove all dwellings and other buildings erected in connection therewith at the conclusion of the particular operation in respect of which such community was established. As a guarantee that such removal will be completed to the satisfaction of the Minister, the Company, before the establishment of such community, shall deposit with the Crown in the Department of Lands and Forests Five Thousand Dollars (\$5,000) in cash or bonds of the Dominion of Canada or Province of Ontario of a principal amount of Five Thousand Dollars (\$5,000).

21. The Crown grants the Company the right to use the waters of all rivers, lakes and streams within the Concession Area for the term of this Agreement for the driving of timber and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the Concession Area and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and regulations made thereunder and in common with any rights for the use of the said waters heretofore granted by the Crown.

22. Without prejudice to the existing water power leases and water storage rights and privileges of the Company, all water powers and privileges within the Concession Area are reserved to the Crown.

23. The Company is granted under this Agreement no right to the soil or freehold of the Concession Area, or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto.

24. The Crown reserves and excepts from the Concession Area all lands held under License-of-Occupation, leased, located or applied for, in respect of which such proceedings have been taken or shall hereafter be taken as in the opinion of the Minister entitles the applicants to a lease or patent of such lands; and the Crown further reserves the right to sell, lease, locate or otherwise dispose of, subject to the rights of the Company hereunder, any lands within the Concession Area allocated for settlement, mining or summer resort purposes on such terms and conditions as may be deemed advisable.

25. In case of disagreement as to the true intent and meaning of this Agreement the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

26. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

27. In this Agreement "Minister" shall mean the Minister of Lands and Forests for the time being of the Province of Ontario, and "season" or "operating season" shall be as defined by the Regulations under The Crown Timber Act.

28. This Agreement shall be binding upon and enure to the benefit of the Company, its successors and assigns, but shall not be assigned without the consent of the Minister.

29. If upon the termination of the said period of twenty-one years the Company shall have fully performed the obligations imposed upon it as herein set forth, it shall be entitled at its option to an extension of its rights under this Agreement for a further period of twenty-one years at such prices and upon such terms and conditions as may then be fixed by the Minister.

30. In the event of the Company failing at any time to perform any of its obligations hereunder, the Minister may give written notice to the Company which shall be sent to it by registered mail addressed to it at 408 University Avenue, Toronto 2, Ontario, stating in detail the default complained of and requiring the Company to make good such default and at the expiration of twelve months from the giving of such notice the Minister may, if authorized so to do by the Lieutenant-Governor-in-Council and if the default complained of has not been made good by the Company, declare forfeited all the rights of the Company under this Agreement.

The right of forfeiture by this clause provided shall be additional to and without limitation of every other right or remedy of the Crown arising by reason of the default, and the giving of or failure to give any such notice by the Minister shall not preclude the exercise by the Crown of any other such right or remedy.

31. Any default or delay on the part of the Company in the performance or observance of any of the terms and provisions of this Agreement occasioned in whole or in part through shortage of labour or materials, extended interruption to power supply, strikes, fire, tempest, war, action by princes or sovereign states, act of God or other cause beyond the control of the Company shall not be or be deemed to be a default on the part of the Company under this Agreement.

32. The Minister shall be entitled to waive all rights of forfeiture arising under this Agreement by reason of any default if in the opinion of the Minister the cause of such default justifies the waiving of such right and, in such event, the Company's rights hereunder shall continue as though no such default had occurred.

33. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall be binding upon and enure unto the Company and shall apply to its operations under this Agreement as fully and effectually as if they had been set forth herein.

34. The Crown has entered into this agreement with a view to facilitating the reopening and bringing into operation of the Company's mill at Sturgeon Falls for the conversion of pulpwood into some product whether newsprint or otherwise. The Company, therefore, covenants and agrees with the Crown that, after the consummation of its Plan of Reorganization dated May 10, 1945, it will cause to be completed with all reasonable despatch all engineering studies, investigations and researches that may be required by the Company to enable it to reach a conclusion on the reopening of the said mill and that it will advise the Minister of its decision as soon as it is reached. If the Company's decision be not to reopen the mill it will co-operate with the Crown toward procuring a purchaser for the said mill who will as a term of the purchase covenant and agree to reopen and bring the mill into operation for the conversion of pulpwood into some product. The Crown will not withhold its consent to the assignment of this agreement to such a purchaser who will so covenant and agree with the Crown.

If by the 1st day of April, 1951, the Company or a successor or assign shall not have brought the said mill into operation for the conversion of pulpwood into some product the Minister may by notice in writing to the Company or its successor or assign forthwith terminate this agreement; and if this agreement is terminated by operation of this Clause the Company shall not be entitled to

receive any abatement or repayment of fire protection charges under Clause 11 hereof.

35. IT IS UNDERSTOOD AND AGREED that all personal liability hereunder of Geoffrey Teignmouth Clarkson, Receiver and Manager of Abitibi Power & Paper Company, Limited and of Roy Sharvell McPherson, Liquidator thereof, shall cease and determine upon their discharge by Order of the Supreme Court of Ontario from the said offices respectively and until such discharge shall be limited to the assets of the Company from time to time in their respective hands as such and available for their indemnification.

IN WITNESS WHEREOF the parties hereto have executed these presents.

#### SCHEDULE "A"

referred to in the annexed Agreement made the 29th day of March, 1946, between His Majesty the King in right of the Province of Ontario, of the First Part, and Abitibi Power & Paper Company, Limited, of the Second Part.

#### STURGEON FALLS CONCESSION

ALL AND SINGULAR that certain territory situate, lying and being partly in the Districts of Timiskaming, Sudbury and Nipissing in the Province of Ontario, containing 2,483 square miles be the same more or less and more particularly described as follows:—

COMMENCING at the northwest corner of the Township of North Williams; thence south astronomically to the southwest corner of the said Township; thence east astronomically 3 miles; thence south astronomically 6 miles more or less to the south boundary of the Township of Dufferin; thence east astronomically 3 miles more or less to the northeast corner of the Township of Stull; thence south astronomically to the southeast corner of the Township of Valin; thence east astronomically to the northeast corner of the Township of Howey; thence south astronomically to the southwest corner of the Township of Telfer; thence east astronomically to the southeast corner of the Township of Telfer; thence south astronomically to the intersection with the northern shore of Wanapitei Lake; thence in a general southerly direction following the northern and eastern shore of Wanapitei Lake to its intersection with the west boundary of the Township of Scadding; thence south astronomically to the southwest corner of the Township of Scadding; thence east astronomically to the southeast corner of the Township of Thistle; thence south astronomically to the southwest corner of the Township of Grant; thence east astronomically to a point in the western limit of the right-of-way of the Temiskaming and Northern Ontario Railway; thence in a general northwesterly direction following the western limit of the said right-of-way to the point of intersection with the north

boundary of the Township of Askin; thence west astronomically to the southwest corner of the Township of Joan; thence north astronomically to the northeast corner of the Township of Belfast; thence west astronomically to a point distant 3 miles east of the southwest corner of the Township of LeRoche; thence north astronomically to the south boundary of the Township of Medina; thence west astronomically to the southwest corner of the Township of Medina; thence north astronomically to the northeast corner of the Township of Sladen; thence west astronomically to the southeast corner of the Township of Corley; thence north astronomically to the northeast corner of the Township of Corley; thence west astronomically to the southeast corner of the Township of Ray; thence north astronomically to the northeast corner of the Township of Ray; thence west astronomically to the northwest corner of the Township of North Williams and being the point of commencement.

The territory described herein is shown coloured yellow on the map hereto annexed.

It is understood that wherever it appears from the attached map that the boundary of the territory above described is the established boundary of a township or district, such township or district boundary shall constitute the boundary of the Concession Area notwithstanding that it does not follow precisely the astronomical course set forth in the above description.

AGREEMENT made the 28th day of June, A.D. 1945.

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

—and—

DON. A. CLARK LIMITED, hereinafter called the "Company",

OF THE SECOND PART:

THIS AGREEMENT WITNESSETH THAT:

1. The Crown, with the consent and approval of the Lieutenant-Governor in-Council, and through the granting of a yearly license pursuant to The Crown Timber Act, Chapter 36, R.S.O. 1937, doth grant to the Company, for a period expiring the 7th day of October, 1962 and commencing on the 1st day of April, 1945, the right to cut, remove and export the kinds and classes of timber specified in Clause 2 of this Agreement, on the lands described in Schedule "A" hereto.

2. The Company shall pay to the Treasurer of the Province of Ontario for timber cut on the said area under the terms hereof the following prices until the 1st day of April, 1950:

For timber cut and exported under the terms of this Agreement,—

Spruce pulpwood.....	\$1.45 per cord
Balsam ".....	.70 " "

The above rates are inclusive of Crown dues.

The Company shall pay an additional charge for permission and authority to export pulpwood at the rate of sixty-five cents (65c.) per cord until the 31st day of December, 1946, and thereafter the said charge shall be as determined by the Minister.

3. Wherever on the said area there is marketable timber suitable for conversion into products other than pulpwood, the Company may, or at the written direction of the Minister shall, cut the same at such prices as he may determine. Such timber shall be utilized as directed by the Minister, but such operation shall be only on those portions of the said area not under timber license; provided that if the Company does not desire to utilize such timber it may notify the Minister within six (6) months of the date of this Agreement, in writing. In such event the Minister may authorize any person, firm or corporation to so utilize such timber.

4. If and as the Minister shall direct, the Company will furnish for domestic use up to 20% of the pulpwood cut from the said area during any operating season, and the price to be paid by the purchaser to the Company for such pulpwood shall be the prevailing market price in the district for pulpwood of the same quality produced in the same year and supplied in similar quantities for domestic use, and in any event the price shall not be less than the cost of production.

5. The rates in Clause 2 hereof shall be as determined by the Minister from and after the 1st day of April, 1950 for the balance of the term set out in Clause 1 hereof.

6. The Company shall have the privilege of exporting the pulpwood cut on the area in Schedule "A" hereto, and such other area as may be reserved for the Company as provided for in Clause 8 hereof, until the 7th day of October, 1962, notwithstanding the provisions of any Act or Regulations from time to time in force respecting the exportation of pulpwood, provided that the Company shall be permitted to remove and export until the end of the shipping season 1963 the balance, if any, of the pulpwood cut by it on the said area prior to the said 7th day of October, 1962.

7. The Crown does not guarantee any quantity of timber on the area hereby granted to the Company.

8. A forest survey of the said area shall be conducted and prepared by the Company, before the 1st day of July, 1946, which shall show the forest types, forest age classes, and the estimated quantity of timber by forest types. If in the opinion of the Minister the said area does not appear to contain sufficient Spruce and Balsam pulpwood to meet the requirements of this Agreement, an additional area lying East of Sturgeon Lake and South of the Canadian National Railway will be held in reserve by the Crown until the 1st day of August, 1946 for the use of the Company, so that the said Company may cut such additional pulpwood from the said reserve area during the currency of this Agreement, as determined by the Minister, in order to make up a total cut from the area in Schedule "A" and the said reserve area to meet the requirements of this Agreement. If the Company elects to utilize such reserve area, written notification shall be given to the Minister by the Company before the 1st day of August, 1946.

9. The Company shall operate in accordance with good forestry practice, and within three (3) years from the date hereof shall file in the Department a working plan prepared by the said Company, which shall be satisfactory to the Minister, providing a general scheme for the operation and management of the said area, to the end that it will be kept productive and in accordance with The Pulpwood Conservation Act.

10. Sixty (60) days before commencing operations in any season the Company shall give such particulars as the Minister may require as to the proposed operation, and shall obtain the consent in writing of the Minister to proceed

with such operation, and within sixty (60) days from the completion of the authorized operation shall file with the Minister a map indicating the cut-over areas and the kinds and quantities of each class of timber taken therefrom.

11. At the direction of the Minister, the Company shall cut merchantable damaged Spruce and Balsam timber, at rates to be determined by the Minister.

12. For the purpose of calculating ground rent and fire protection charges, the area described in Schedule "A" hereto shall be deemed to comprise 150 square miles, and the Company shall pay annually in advance ground rent and fire protection charges at the rate of \$11.40 per square mile on an area of 150 square miles, commencing from the 1st day of April, 1945. Interest at the rate of Six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty (30) days from the due date.

13. The Company shall cut a minimum of 7,500 cords and not exceed a maximum of 25,000 cords of Spruce and Balsam pulpwood for export in each operating season during the currency of this Agreement.

14. The Company upon the execution of this Agreement shall deposit with the Crown the sum of Ten Thousand Dollars (\$10,000.00) of lawful money of Canada, or such other security as the Minister may approve, to be held by the Crown for the due performance of its obligations hereunder.

15. For the purpose of forest management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Company.

16. The right is reserved by the Crown to deal with the lands covered by this Agreement, and the timber standing, growing and being thereon, for reforestation or such other purposes which, in the opinion of the Minister, may be necessary for the development and maintenance of any industry or industries other than timber and kindred industries.

17. The Crown reserves and excepts from the cutting areas all lands held under License-of-Occupation, leased, located or applied for, in respect of which such proceedings have been taken or shall hereafter be taken as in the opinion of the Minister entitles the applicants to a lease or patent of such lands, together with the right to sell, lease, locate or otherwise dispose of, subject to the rights of the Company hereunder, any lands within the area allocated for settlement, mining or summer resort purposes on such terms and conditions as may be deemed advisable.

18. Proper sworn returns of the quantity of timber cut each season shall be made to the Crown in conformity with the Regulations under The Crown Timber Act, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum.

19. Timber shall be measured in accordance with the provisions of The Manual of Scaling Instructions now or hereafter approved by the Crown.

20. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspection shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which

should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on and from the territory, or any part thereof, shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the operation has been declared satisfactory by the Minister.

21. It is understood and agreed that no operations other than those conducted by and for the Company shall be permitted on the said area without the consent in writing of the Minister.

22. No refuse, sawdust, chemicals or matter of any other kind which shall be or may be injurious to game and fish life shall be placed in or deposited in any river, stream or other waters.

23. The Crown agrees to permit the Company to use the waters of all rivers, lakes and streams within the areas covered by this Agreement for the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and regulations made thereunder, and subject to any rights previously authorized by the Crown to use the waters within the area or areas covered by this Agreement.

24. All water powers and privileges on the said areas, together with the right of the Crown to raise, hold, lower or maintain the waters of the rivers, streams and lakes in the said areas at such height and in such condition as may be found necessary and expedient for the development of the said water powers and privileges, are reserved to the Crown.

25. This Agreement shall be subject to The Forest Fires Prevention Act, R.S.O. 1937, Chapter 325, and Amendments thereto, and to all Regulations thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto, and all Regulations and Orders made thereunder, concerning forest fires prevention; and the foregoing shall govern the operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

26. This Agreement shall be subject to all Acts of the legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the protection, cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall apply to operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

27. The Company shall exercise due diligence in ascertaining whether or not the timber on the areas therein specified is being infected by insects or disease, and shall furnish the Minister with such information as it is able to obtain in respect thereof, as often as the Minister may so require.

28. The Company covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements provided by The Industrial Standards Act

or such other statutory enactments in that behalf as are now or may hereafter be in force.

29. In the event of the Company making default in the performance of its obligations under the terms of this Agreement, the Minister may upon sixty (60) days' notice in writing to the Company at its Head Office at Port Arthur, Ontario, declare the rights of the Company hereunder forfeited, and declare the cash deposits and other collateral securities deposited herein forfeited to the Crown. Provided, however, that any default on the part of the Company in the performance or observance of any of the provisions of this Agreement, occasioned in whole or in part through strikes, fire, tempest, war, sabotage, action by Princes or Sovereign States, acts of God, or other causes beyond the control of the Company, shall not be deemed to be a default on the part of the Company.

30. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default if, in the opinion of the Minister, the cause of such default justifies the waiving of such right, and thereupon this Agreement shall be construed and the Company's rights hereunder shall continue as though no such default had occurred.

31. The Company is granted under this Agreement no right to the soil or freehold of the said areas, or to the use thereof except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto.

32. The Company shall co-operate to the satisfaction of the Minister in the purchase of pulpwood produced by bona-fide settlers and pulpwood available and produced from the operations of adjacent licensees. All bona-fide accounts due for settlers' pulpwood purchased by the Company shall constitute a first claim against the Company.

33. All officers of the Crown, including supervisors, scalers, scalers' assistants, and check-scalers, who are designated to work on the operation of the Company shall be provided with accommodation and board to the satisfaction of the Minister and at the expense of the Company.

34. Immediately upon the execution of these presents, the Company shall have the right to commence the construction of logging roads and other improvements necessary to its proposed operations on the area hereby granted to it.

35. Should the Company establish any community for the purpose of utilizing the timber on the areas set out in this Agreement, such community shall be removed at the conclusion of the operation at the expense of the Company. As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Company shall before establishment of such community deposit with the Crown in the Department of Lands and Forests \$5,000.00 in cash or a bond approved by the Minister in the said sum of \$5,000.00.

36. If, in consequence of scientific or economic developments, Hammermill Paper Company shall abandon the operation of its pulp mill at Erie, Pennsylvania, the Company shall surrender to the Crown its rights hereunder, and its rights, title and interest in the pulpwood shall revert to the Crown without the Company being subject to any penalty other than the payment of all current Crown dues, bonuses and export charges as might then be due and payable by the Company.

37. In case of disagreement as to the true intent and meaning of this Agreement, the case shall be referred to arbitration under The Arbitration Act (Ontario), R.S.O. 1937, Chapter 109.

38. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

39. In this Agreement "Minister" shall mean the Minister of Lands and Forests for the time being of the Province of Ontario, and "operating season" shall be defined by the Regulations under The Crown Timber Act.

40. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the rights of the Company hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

SECRETARY.

#### SCHEDULE "A"

To Agreement made the 28th day of June, A.D. 1945 between His Majesty the King and Don. A. Clark, Limited, being description of the area mentioned in the said Agreement.

ALL AND SINGULAR that certain territory situate in the Districts of Kenora and Thunder Bay, containing an area of 221 square miles, be the same more or less, and which may be more particularly described as follows:

COMMENCING at a point in the eastern boundary of Block No. 8 of The Grand Trunk Pacific Railway land grant where it is intersected by the 6th baseline run by Ontario Land Surveyor Niven in 1897;

THENCE north astronomically to the intersection with the southern limit of the right of way of the Canadian National Railway;

THENCE in a general easterly direction following the southern limit of the right of way of the Canadian National Railway to a road running southerly to Sturgeon Lake from Savant Lake Station;

THENCE in a general southerly direction following the said road to the intersection with the Northwestern Arm of Sturgeon Lake;

THENCE continuing in a general southerly direction following the western shore of Sturgeon Lake to the intersection with the 6th baseline, mentioned aforesaid;

THENCE west astronomically along the said baseline  $19\frac{1}{2}$  miles, more or less, to the point of commencement.

TOGETHER with the two large islands in Sturgeon Lake lying near the west shore thereof, designated as A and B on sketch hereto annexed;

SAVE AND EXCEPTING thereout and therefrom the area under Crown Timber License No. 97 of the years 1934-1935 containing 2 square miles, more or less.

AGREEMENT made the 16th day of August, A.D. 1945,

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

—and—

FELDMAN TIMBER COMPANY, LIMITED, hereinafter called the "Company",

OF THE SECOND PART:

THIS AGREEMENT WITNESSETH THAT:

1. Subject to the approval of the Lieutenant-Governor-in-Council, and subject to the granting of a yearly license pursuant to The Crown Timber Act, Chapter 36, R.S.O. 1937, and to the terms and conditions hereof, the Crown, with the consent of the Lieutenant-Governor-in-Council, doth grant to the Company for a period of ten (10) years from the First day of April, A.D. 1945, the right to cut and remove the timber specified in Clause 2 of this Agreement on the lands described in Schedule "A" hereto, and being part of the Timagami Provincial Forest.

2. The Company shall pay to the Treasurer of the Province of Ontario on behalf of the Crown the following rates for timber cut:

(a) Red and White Pine.....	\$8.50	per M. ft. B.W., Doyle Rule,
Spruce ".....	7.50	" " " " " "
Jackpine ".....	7.00	" " " " " "

inclusive of Crown dues and Forest Management charges.

(b) Spruce and Balsam Pulpwood—at rates to be set by the Minister.

3. For the purpose of calculating ground rent and fire protection charges, the area described in Schedule "A" hereto shall be deemed to comprise One hundred and Twenty-five (125) square miles, and the Company shall pay annually in advance ground rent and fire protection charges at the rate of Eleven Dollars and Forty Cents (\$11.40) per square mile on an area of 125 square miles, commencing the First day of April, A.D. 1945. Interest at the rate of six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty (30) days from the due date.

4. At the direction of the Minister, the Company shall cut merchantable damaged timber at rates to be determined by the Minister.

5. The Company shall operate so that there shall be an orderly utilization of all timber, including pulpwood, consistent with market requirements, and on or before the Thirtieth (30th) day of June in each operating season the Company will estimate the approximate production of Spruce and Balsam pulpwood for the operating season next following, and the Abitibi Power & Paper Company, Limited shall have the first opportunity to purchase the said pulpwood which the Company will produce from year to year.

6. The right is reserved by the Crown to deal with the lands covered by this Agreement, and the timber standing, growing and being thereon, for reforestation or such other purposes which, in the opinion of the Minister, may be necessary for the development and maintenance of any industry or industries other than timber and kindred industries, but in no case will authorization be given until after failure on the part of the Company to deal, and in no event

shall the total quantity cut exceed in any one year seventy-five thousand feet (75,000 ft.) of timber, log scale, or its equivalent in other products.

7. As security for the due performance by the Company of its obligations hereunder, the Company shall deposit with the Crown the sum of Ten Thousand Dollars (\$10,000.00). The deposit of the Company in the amount of Fifty-three Hundred Dollars (\$5,300.00) cash with respect to Agreements between the Crown and the Company for the licensed areas in the Townships of Keefer and Gouin shall form and be part of the said deposit of Ten Thousand Dollars (\$10,000.00.)

8. In the event of the Company making default in the performance of its obligations under the terms of this Agreement, the Minister may upon sixty (60) days' notice in writing to the Company at its Head Office at Schumacher, Ontario, declare the rights of the Company hereunder forfeited and declare the cash deposits and other collateral securities herein deposited forfeited to the Crown. Provided, however, that any default on the part of the Company in the performance or observance of any of the provisions of this Agreement, occasioned in whole or in part through strikes, fire, tempest, war, sabotage, action by Princes or Sovereign States, acts of God, or other causes beyond the control of the Company, shall not be deemed to be a default on the part of the Company.

9. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default, if, in the opinion of the Minister, the cause of such default justifies the waiving of such right.

10. The Company is granted under this Agreement no right to the soil or freehold of the said area or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto, and it is distinctly understood that the right is hereby reserved to the Crown to deal with the lands above-described, and the timber standing, growing and being thereon, for forest management and other purposes as the Minister may see fit.

11. Within three (3) years from the date of this Agreement the Company shall file with the Department a plan which shall be satisfactory to the Minister for the operation and management of the area granted, to the end that the area will be kept productive and in accordance with the provisions of The Provincial Forests Act.

12. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the Crown Timber Regulations, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum, calculated from the First day of October in the same year.

13. The Crown does not guarantee any quantity of timber on the area hereby granted to the Company.

14. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspections shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The

cutting and removing of the timber on and from the territory, or any part thereof, shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the operation has been declared satisfactory by the Minister.

15. No refuse, sawdust, chemicals or matter of any other kind shall be placed in or deposited in any river, stream or other waters which shall be or may be injurious to game and fish life.

16. This Agreement shall be subject to The Forest Fires Prevention Act, R.S.O. 1937, Chapter 325, and Amendments thereto, and to all Regulations thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto and all Regulations and Orders made thereunder concerning forest fires prevention; and the foregoing shall govern the operations of the Company under this Agreement as fully as if they had been set forth herein.

17. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the protection, cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall apply to the operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

18. The Crown agrees to permit the Company to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and Regulations made thereunder, and subject to any rights previously authorized by the Crown to use the waters within Schedule "A" hereto.

19. The Company covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements as may be provided by The Industrial Standards Act or such other Statutory enactments in that behalf as are now or may hereafter be in force.

20. The Company covenants and agrees that it will manufacture in the Province of Ontario all log timber cut on the area above-described into lumber, ties, or other manufactured products, to the satisfaction of the Minister.

21. It is understood and agreed that no operations other than those conducted by and for the Company shall be permitted on the said area without the consent in writing of the Minister.

22. For the purpose of forest management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Company.

23. The timber cut from the area in Schedule "A" hereto in any one year will be limited so that the production of the Company's mill presently estab-

lished will not exceed 50,000 feet, mill scale, per diem during the currency of this Agreement.

24. Should the Company establish any community for the purpose of utilizing the timber on the area set out in this Agreement, such community shall be removed at the conclusion of the operation at the expense of the Company. As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Company shall before the establishment of such a community deposit with the Crown in the Department of Lands and Forests Five Thousand Dollars (\$5,000.00) in cash or a bond approved by the Minister in the said sum of Five Thousand Dollars (\$5,000.00).

25. Before commencing operations in each year during the currency of this Agreement, the Company shall, on or before the First day of August in each year, submit to the Department a map showing the location of the operation proposed for the next following operating season.

26. All officers of the Crown, including supervisors, scalers, scalers' assistants and check-scalers, who are designated to work on the operation of the Company shall be provided with accommodation and board to the satisfaction of the Minister and at the expense of the Company.

27. If, upon the termination of the said period of ten (10) years, the Company shall have fully performed the obligations imposed upon it, as set forth, to the satisfaction of the Minister, it shall be entitled to an extension of its rights under this Agreement for a further period of ten (10) years, or such period as the Minister may approve, at such prices and upon such terms and conditions as may then be fixed by the Minister.

28. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

29. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

30. In this Agreement "Minister" shall mean the Minister of Lands and Forests, for the time being, of the Province of Ontario.

31. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the rights of the Company hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

## SCHEDULE "A"

This is Schedule "A" referred to in the Agreement between His Majesty the King and the Feldman Timber Company, Limited, dated the 16th day of August, A.D. 1945.

The Townships of Sothman, Nursey, Moher and that portion of Beemer Township west of Peter Long Lake.

THIS AGREEMENT made this 20th day of July, A.D. 1945,

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

--and--

FIELD LUMBER COMPANY, LIMITED, hereinafter called the "Company",

OF THE SECOND PART:

THIS AGREEMENT WITNESSETH THAT:

1. Subject to the approval of the Lieutenant-Governor-in-Council, and subject to the granting of a yearly license pursuant to The Crown Timber Act, Chapter 36, R.S.O. 1937, and to the terms and conditions hereof, the Crown, with the consent of the Lieutenant-Governor-in-Council, doth grant to the Company for a period of ten (10) years from the First day of April, 1945 the right to cut and remove the timber specified in Clause 2 of this Agreement on the lands described in Schedules "A" and "B" hereto.

2. The Company shall pay to the Treasurer of the Province of Ontario, on behalf of the Crown, the following rate for timber cut on the area described in Schedule "A";

Red and White Pine Sawlogs . . . . . \$9.50 per M.B.M., Doyle Rule.

The above rate includes Crown dues and charges in the amount of One Dollar (\$1.00) per thousand with respect to Forest Management which, if carried out by the Company pursuant to instructions of the Crown, will be credited to the Company's account for dues for the amount expended in Forest Management by the Company from year to year, but not to exceed in any one year an amount equal to One Dollar (\$1.00) per thousand for red and white pine cut on the area in the said Schedule "A" in such year.

The Company shall pay to the Treasurer of the Province of Ontario, on behalf of the Crown, the following rate for timber cut on the area described in Schedule "B";

Red and White Pine Sawlogs — \$7.50 per M.B.M., Doyle Rule,  
inclusive of Crown dues.

3. The Company shall pay annually in advance ground rent and fire protection charges at the rate of \$11.40 per square mile on an area of 137 square miles, commencing from the First day of April, 1945. Interest at the rate of Six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty days from the due date.

4. At the direction of the Minister, the Company shall cut merchantable damaged timber, at rates to be determined by the Minister.

5. Wherever there is mixed with Pine on the areas operated by the Company timber which is, in the opinion of the Minister, suitable for pulpwood, the Company shall be required to cut such timber as the Minister shall direct, providing a market for such pulpwood exists.

6. The deposit of the Company in the amount of Ten Thousand Dollars (\$10,000.00) for the due performance by the Company of its obligations under Agreements now in effect between the Crown and the Company shall be considered a deposit by the Company and be held by the Crown for the due performance by the Company of its obligations under this Agreement.

7. In the event of the Company making default in the performance of its obligations under the terms of this Agreement, the Minister may, upon 60 days' notice in writing given to the Company, at its Head Office at Field, Ontario, declare the rights of the Company hereunder forfeited and declare the cash deposit and other securities herein forfeited to the Crown. Provided, however, that any default on the part of the Company in the performance or observance of any of the provisions of this Agreement occasioned in whole or in part through strikes, fire, tempest, war, sabotage, action by Princes or Sovereign States, Acts of God, or other causes beyond the control of the Company, shall not be deemed to be a default on the part of the Company.

8. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default, if, in the opinion of the Minister, the cause of such default justifies the waiving of such rights.

9. The Company is granted under this Agreement no right to the soil or freehold of the said area or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto, and it is distinctly understood that the right is hereby reserved to the Crown to deal with the lands above-described, and the timber standing, growing and being thereon, for forest management and other purposes as the Minister may see fit.

10. Within three (3) years from the date of this Agreement the Company shall file with the Department a plan which shall be satisfactory to the Minister for the operation and management of the area granted, to the end that the area will be kept productive and in accordance with the provisions of The Provincial Forests Act.

11. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the Crown Timber Regulations, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum, calculated from the First day of October in the same year.

12. The Crown does not guarantee any quantity of timber on the area hereby granted to the Company.

13. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspection shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on and from the territory, or any part

thereof, shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the operation has been declared satisfactory by the Minister.

14. No refuse, sawdust, chemicals or matter of any other kind which shall be or may be injurious to game and fish life shall be placed in or deposited in any river, stream or other waters.

15. This Agreement shall be subject to The Forest Fires Prevention Act, R.S.O. 1937, Chapter 325, and Amendments thereto, and to all Regulations thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto, and all Regulations and Orders made thereunder concerning forest fires prevention; and the foregoing shall govern the operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

16. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force, and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the protection, cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall apply to operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

17. The Crown agrees to permit the Company to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and Regulations made thereunder, and subject to any rights previously authorized by the Crown to use the waters within Schedules "A" and "B" hereto.

18. The Company covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements as may be provided by The Industrial Standards Act or such other statutory enactments in that behalf as are now or may hereafter be in force.

19. The Company covenants and agrees that it will manufacture all log timber cut on the area above-described into lumber, ties, or other manufactured products, to the satisfaction of the Minister, in the Province of Ontario.

20. It is understood and agreed that no operations other than those conducted by the Company shall be permitted on the said areas without the consent in writing of the Minister.

21. For the purpose of forest management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Company.

22. The Company shall be required during the currency of this Agreement to operate a sawmill or sawmills and manufacture yearly a minimum of 4,000,000 ft. B.M., mill scale.

23. Should the Company establish any community for the purpose of utilizing the timber on the area set out in this Agreement, such community shall be removed at the conclusion of the operation at the expense of the Company. As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Company shall before establishment of such community deposit with the Crown in the Department of Lands and Forests \$5,000.00 in cash or a bond approved by the Minister in the said sum of \$5,000.00.

24. If, upon the termination of said period of ten (10) years, the Company shall have fully performed the obligations imposed upon it, as set forth, to the satisfaction of the Minister, it shall be entitled to an extension of its rights under this Agreement for a further period of ten years, or such period as the Minister may approve, at such prices and upon such terms and conditions as may then be fixed by the Minister.

25. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

26. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

27. In this Agreement "Minister" shall mean the Minister of Lands and Forests, for the time being, of the Province of Ontario.

28. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the rights of the Company hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

FIELD LUMBER COMPANY,  
LIMITED,

By: "J. A. LABERGE",

PRESIDENT

AND: "A. QUENNEVILLE" (SEAL)

This is Schedule "A" referred to in the Agreement between His Majesty the King and Field Lumber Company, Limited, dated this 20th day of July, A.D. 1945.

ALL AND SINGULAR that certain territory situate in the District of Nipissing and partly in the Timagami Provincial Forest in the Province of Ontario, and being composed of the Township of Kenny and parts of the Townships of Clement, Vogt, Pardo, Hobbs, Sisk, Loughrin and Fell, containing a total area of 119 square miles, be the same more or less, and which may be more particularly described as follows:

PART OF THE TOWNSHIP OF CLEMENT containing 14 square miles, more or less, described as follows:

BEING COMPOSED of all that part of the said Township lying east of the southeastern limit of the watershed of Manitopipagi Lake (formerly known

as Devil's Lake) and south of a line drawn east and west astronomically from a point distant 3 miles measured south astronomically from the 3-mile post on the north boundary of the said Township of Clement.

PART OF THE TOWNSHIP OF VOGT containing 3 square miles, more or less, described as follows:

COMMENCING at the southwest corner of the Township of Vogt;

THENCE easterly along the south boundary thereof three-quarters of a mile, more or less, to the intersection with the western shore of the southwestern arm of Lake Timagami;

THENCE in a general northerly direction following the said western shore of the southwestern arm of Lake Timagami to the intersection with a line drawn east astronomically from a point distant 3 miles measured south astronomically from the 3-mile post on the north boundary of the Township of Clement;

THENCE west astronomically along the said line to the west boundary of the Township of Vogt;

THENCE south astronomically along the last-mentioned boundary 3 miles, more or less, to the point of commencement.

NORTH HALF, TOWNSHIP OF HOBBS, containing 48 square miles:

PART OF THE TOWNSHIP OF SISK, containing 1 square mile, more or less, described as follows:

COMMENCING at a point in the east boundary of the Township of Sisk distant 1 mile measured southerly thereon from the northeast corner of the said Township;

THENCE west astronomically 2 miles;

THENCE south astronomically to the intersection with the northern shore of Marian Lake;

THENCE in a general easterly direction following the said shore to the east boundary of the said Township Sisk;

THENCE northerly thereon to the point of commencement.

THE WHOLE OF THE TOWNSHIP OF KENNY, containing 36 square miles, more or less.

PART OF THE TOWNSHIP OF LOUGHRIE, containing 24 square miles, more or less, described as follows:

BEING COMPOSED of Lots 1-14 inclusive in Concessions 4, 5 and 6.

PART OF THE TOWNSHIP OF PARDO, containing 17 square miles, more or less, described as follows:

BEING COMPOSED of Lots 4 and 5, Concession 2 and 3;

Lots 4-12 inclusive, Concessions 4 and 5;

Lots 1-12 inclusive, Concession 6.

PART OF THE TOWNSHIP OF FELL, containing 9 square miles, more or less, described as follows:

BEING COMPOSED of Lots 7-12 inclusive in Concessions 4, 5 and 6.

This is Schedule "B" referred to in the Agreement between His Majesty the King and Field Lumber Company, Limited, dated this 20th day of July, A.D. 1915.

ALL AND SINGULAR that certain territory situate in the Township of Hobbs in the District of Nipissing containing a total area of 18 square miles, more or less, and which may be more particularly described as follows:

BEING COMPOSED of the south half of the Township of Hobbs in the District of Nipissing, containing an area of 18 square miles more or less.

THIS AGREEMENT, made the 4th day of April, A.D. 1945.

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

- and -

GILLIES BROS. & CO. LTD., hereinafter called the "Company",

OF THE SECOND PART:

THIS AGREEMENT WITNESSETH THAT:

1. Subject to the approval of the Lieutenant-Governor in Council and subject to the granting of a yearly license pursuant to The Crown Timber Act, Chapter 36, R.S.O. 1937, and to the terms and conditions hereof, the Crown, with the consent of the Lieutenant-Governor in Council, doth grant to the Company for a period of ten (10) years from the First day of April, A.D. 1945, the right to cut and remove the timber specified in Clause 2 of this Agreement on the lands described in Schedule "A" attached hereto.

2. The Company shall pay to the Treasurer of the Province of Ontario on behalf of the Crown the following rates for timber cut:

(a) White and Red Pine.....	\$9.50 per M. ft. B.M. Doyle rule
Spruce.....	6.50 per M. ft. B.M. Doyle rule
Jack Pine.....	6.00 per M. ft. B.M. Doyle rule
Poplar.....	4.50 per M. ft. B.M. Doyle rule
Cedar.....	4.50 per M. ft. B.M. Doyle rule

inclusive of Crown Dues and Forest Management charges. The above rates include as to red and white pine only, one dollar (\$1.00) per thousand for Forest Management, which if carried out by the Company pursuant to instructions of the Crown, will be credited to the Company's account for dues for the amount expended in Forest Management by the Company from year to year, but not to exceed in any one year an amount equal to one dollar (\$1.00) per thousand for red and white pine cut in such year.

(b) Spruce Pulpwood.....	\$1.65 a cord
Balsam Pulpwood.....	.70 a cord
Cedar Poles—30' and less.....	.40 each
31' to 40 feet.....	.75 each
41' to 50 feet.....	1.25 each
51' and over.....	1.75 each
Fuelwood (soft).....	.40 a cord
Fuelwood (hard).....	.65 a cord

3. For the purpose of calculating ground rent and fire protection charges, the area described in Schedule "A" hereto shall be deemed to comprise One Hundred and Fifty (150) square miles, and the Company shall pay annually in advance ground rent and fire protection charges at the rate of Eleven Dollars

and Forty Cents (\$11.40) per square mile on an area of 150 square miles, commencing the First day of April 1945, A.D. Interest at the rate of six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty (30) days from the due date.

4. On the termination of the cutting rights of the present Licensee on twelve-and one-half ( $12\frac{1}{2}$ ) square miles of the Township of Askin, the said  $12\frac{1}{2}$  square mile area shall be and become subject to all the terms hereof.

5. At the direction of the Minister, the Company shall cut merchantable damaged timber at rates to be determined by the Minister.

6. Wherever there is mixed with Pine on the areas operated by the Company timber which is, in the opinion of the Minister, suitable for pulpwood, the Company shall be required to cut such timber as the Minister shall direct, providing a market for such pulpwood exists.

7. The right is reserved by the Crown to deal with the lands covered by this Agreement, and the timber standing, growing and being thereon, for reforestation or such other purposes which, in the opinion of the Minister, may be necessary for the development and maintenance of any industry or industries other than timber and kindred industries, but in no case will authorization be given until after failure on the part of the Company to deal, and in no event shall the total quantity cut exceed in any one year seventy-five thousand feet (75,000 ft.) of timber, log scale, or its equivalent in other products.

8. The deposit of the Company in the amount of Sixty-five thousand dollars (\$65,000.00) for the due performance by the Company of its obligations under Agreements now in effect between the Crown and the Company on licensed areas in the Timagami Area and McLaren Township shall be considered a deposit by the Company herein, and shall be held by the Crown for the due performance of the Company of its obligations under this Agreement provided that after the mill referred to in Clause 25 has been constructed, twenty-five percent (25%) of the annual amount owing the Crown with respect to stumpage rates shall be deducted from the said deposit of Sixty-five Thousand Dollars (\$65,000.00).

9. In the event of the Company making default in the performance of its obligations under the terms of this Agreement, the Minister may upon sixty (60) days' notice in writing to the Company at its Head Office at Brakeside, Ontario, declare the rights of the Company hereunder forfeited and declare the cash deposits and other collateral securities herein deposited forfeited to the Crown. Provided, however, that any default on the part of the Company in the performance or observance of any of the provisions of this Agreement, occasioned in whole or in part through strikes, fire, tempest, war sabotage, action by Princes or Sovereign States, acts of God, or other causes beyond the control of the Company, shall not be deemed to be a default on the part of the Company.

10. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default, if, in the opinion of the Minister, the cause of such default justifies the waiving of such right.

11. The Company is granted under this Agreement no right to the soil or freehold of the said area or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto, and it is distinctly understood that the right is hereby reserved to the Crown to deal with the lands above-described, and the timber standing, growing

and being thereon, for forest management and other purposes as the Minister may see fit.

12. Within three (3) years from the date of this Agreement the Company shall file with the Department a plan which shall be satisfactory to the Minister for the operation and management of the area granted, to the end that the area will be kept productive and in accordance with the provisions of the Provincial Forest Act.

13. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the Crown Timber Regulations, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum, calculated from the First day of October in the same year.

14. The Crown does not guarantee any quantity of timber on the area hereby granted to the Company.

15. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspections shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on and from the territory, or any part thereof, shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the operation has been declared satisfactory by the Minister.

16. No refuse, sawdust, chemicals or matter of any other kind shall be placed in or deposited in any river, stream or other waters which shall be or may be injurious to game and fish life.

17. This Agreement shall be subject to The Forest Fires Prevention Act, R.S.O. 1937, Chapter, 325, and Amendments thereto, and to all Regulations thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto and all Regulations and Orders made thereunder concerning forest fires prevention; and the foregoing shall govern the operations of the Company under this Agreement as fully as if they had been set forth herein.

18. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the protection, cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall apply to the operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

19. The Crown agrees to permit the Company to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and Regulations made thereunder.

20. The Company covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements as may be provided by The Industrial Standards Act or such other Statutory enactments in that behalf as are now or may hereafter be in force.

21. The Company covenants and agrees that it will manufacture in the Province of Ontario all log timber cut on the area above-described into lumber, ties, or other manufactured products, to the satisfaction of the Minister.

22. It is understood and agreed that no operations other than those conducted by and for the Company shall be permitted on the said area without the consent in writing of the Minister.

23. If, upon the termination of the said period of ten (10) years the Company shall have fully performed the obligations imposed upon it, as set forth, to the satisfaction of the Minister, it shall be entitled to an extension of its rights under this Agreement for a further period of ten (10) years, or such period as the Minister may approve, at such prices and upon such terms and conditions as may then be fixed by the Minister.

24. For the purpose of forest management, watershed protection preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Company.

25. To ensure greater permanency of the Company's mill located on Cassels Lake, the timber cut from the allocated area in any one year will be limited so that the production of the mill will not exceed Fifteen million feet (15,000,000 ft.), mill scale, annually during the currency of this Agreement.

26. Should the Company establish any community for the purpose of utilizing the timber on the area set out in this Agreement, such community shall be removed at the conclusion of the operation at the expense of the Company. As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Company shall before establishment of such a community deposit with the Crown in the Department of Lands and Forests (\$5,000.00) Five Thousand Dollars in cash or a bond approved by the Minister in the said sum of Five Thousand Dollars (\$5,000.00).

27. Before commencing operations in each year during the currency of this Agreement, the Company shall, on or before the First day of August in each year, submit to the Department a map showing the location of the operation proposed for the next following operating season.

28. All officers of the Crown, including scalers, scalers' assistants, and check-scalers, who are designated to work on the operation of the Company shall be provided with accommodation and board to the satisfaction of the Minister and at the expense of the Company.

29. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

30. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

31. In this Agreement "Minister" shall mean the Minister of Lands and Forests, for the time being, of the Province of Ontario.

32. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the rights of the Company hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

#### SCHEDULE "A"

This is Schedule "A" to the Agreement between the Crown and Gillies Bros. & Co. Ltd., made the fourth day of April, A.D. 1945:

ALL AND SINGULAR that certain territory situate, lying and being in the District of Nipissing and partly within the Timagami Provincial Forest, containing a total area of 204½ square miles, be the same more or less, and which may be more particularly described as follows,

#### FIRSTLY:

The Township of McLaren in the District of Nipissing containing an area of 36 square miles, more or less.

#### SECONDLY:

The Townships of Askin and Riddell and parts of the Townships of Strathy, Cassels, South Lorrain, Eldridge, Hartle, Burnaby and Hebert, all in the Timagami Provincial forest, District of Nipissing, containing a total area of 168½ square miles, more or less, and which may be more particularly described as follows;

COMMENCING at the southwest corner of the Township of Askin;

THENCE northerly along the west limit of the Township of Askin and Riddell to the northwest corner of Riddell Township;

THENCE westerly along the south limit of the Township of Strathy to the east limit of the Timagami Townsite;

THENCE northeasterly, easterly, northerly, northwesterly and westerly following the boundaries of the said Townsite to the intersection with the eastern limit of the right-of-way of the Temiskaming and Northern Ontario Railway;

THENCE northeasterly following the said limit of the said right-of-way to the intersection with a line distant 1 mile north of the south limit of Strathy Township;

THENCE easterly along the said line, being a line surveyed by Ontario Land Surveyor Moore in 1928, to the intersection with the west limit of the Township of Cassels;

THENCE northerly along the last-mentioned limit to the intersection with the south shore of Net Lake;

THENCE in a general southeasterly direction following the south shore of Net Lake to the southeastern extremity thereof;

THENCE continuing in a southeasterly direction following the connecting stream between Net Lake and Cassels Lake to a point on the northwestern shore of Cassels Lake;

THENCE in a general northeasterly direction following the said shore of Cassels Lake to the northeastern extremity of the said lake;

THENCE continuing in a general northeasterly direction following the connecting stream into Cassels Lake to a point in the eastern boundary line of the Timagami Provincial Forest;

THENCE in a general southeasterly direction following the eastern boundary line of the Timagami Provincial Forest to its intersection with the south boundary of the Township of Hebert;

THENCE westerly along the last-mentioned boundary to the intersection with a timber line run by Ontario Land Surveyor Mooney in the year 1920 and of record in the Department of Lands and Forests, the said timber limit line being distant about 1 mile and 30 chains east of the northwest corner of the Township of Burnaby;

THENCE south astronomically along the said timber limit line as surveyed by Ontario Land Surveyor Mooney a distance of four miles;

THENCE west astronomically to a point in the east boundary of the Township of Askin;

THENCE southerly along the last-mentioned boundary to the southeast corner of the said Township of Askin;

THENCE westerly along the south boundary of the said Township of Askin a distance of 6 miles, more or less, to the point of commencement.

#### AREAS

Township of McLaren.....	36	square miles
Township of Askin.....	36	square miles
Township of Riddell.....	36	square miles
Township of Hartle.....	24	square miles
Township of Eldridge.....	34	square miles
Township of Hebert.....	5	square miles
Township of Burnaby.....	5 $\frac{1}{4}$	square miles
Township of Cassels.....	16	square miles
Township of South Lorrain.....	11 $\frac{1}{4}$	square miles
Township of Strathy.....	1	square mile

TOTAL AREA.....204 $\frac{1}{2}$  square miles

THIS AGREEMENT, made the 19th day of September, A.D. 1945.

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

—and—

GEO. GORDON & CO. LIMITED, hereinafter called the Company",

OF THE SECOND PART:

THIS AGREEMENT WITNESSETH THAT:

1. Subject to the approval of the Lieutenant-Governor in Council and subject to the granting of a yearly license pursuant to The Crown Timber Act Chapter 36, R.S.O. 1937, and to the terms and conditions hereof, the Crown, with the consent of the Lieutenant-Governor in Council, doth grant to the Company for a period of ten (10) years from the First day of April, A.D. 1944 the right to cut and remove the timber specified in Clause 2 of this Agreement on the lands described in Schedule "A" attached hereto.

2. The Company shall pay to the Treasurer of the Province of Ontario on behalf of the Crown the following rates for timber cut:

Red and White Pine—\$8.75 per M. ft. B.M. Doyle rule inclusive of brush-burning charges and inclusive of Crown dues.

3. For the purpose of calculating ground rent and fire protection charges, the area described in Schedule "A" hereto shall be deemed to comprise 200 square miles, and the Company shall pay annually in advance ground rent and fire protection charges at the rate of \$11.40 per square mile on an area of 200 square miles, commencing the First day of April, A.D. 1944. Interest at the rate of six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty (30) days from the due date.

4. At the direction of the Minister, the Company shall cut merchantable damaged timber at rates to be determined by the Minister.

5. Wherever there is mixed with Pine on the areas operated by the Company timber which is, in the opinion of the Minister, suitable for pulpwood the Company shall be required to cut such timber as the Minister shall direct, providing a market for such pulpwood exists.

6. The right is reserved by the Crown to deal with the lands covered by this Agreement, and the timber standing, growing and being thereon, for reforestation or such other purposes which, in the opinion of the Minister, may be necessary for the development and maintenance of any industry or industries other than timber and kindred industries.

7. The deposit of the Company in the amount of Forty-thousand Dollars (\$40,000.00) for the due performance of the Company of its obligations under Agreements now in effect between the Crown and the Company on licensed areas in the Townships of Olive, Armagh, Sheppard, Clement and Scholes shall be considered a deposit by the Company herein, and, together with an additional Seven Thousand Dollars (\$7,000.00) to be deposited by the Company, shall be held by the Crown for the due performance by the Company of its obligations under this agreement.

8. In the event of the Company making default in the performance of its obligations under the terms of this Agreement, the Minister may upon sixty (60) days' notice in writing to the Company at its Head Office at Cache Bay, Ontario, declare the rights of the Company hereunder forfeited and declare the cash deposits and other collateral securities herein deposited forfeited to the Crown. Provided, however, that any default on the part of the Company in the performance or observance of any of the provisions of this Agreement, occasioned in whole or in part through strikes, fire, tempest, war, sabotage, action by Princes or Sovereign States, acts of God, or other causes beyond the control of the Company, shall not be deemed to be a default on the part of the Company.

9. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default, if, in the opinion of the Minister, the cause of such default justifies the waiving of such right.

10. The Company is granted under this Agreement no right to the soil or freehold of the said area or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto, and it is distinctly understood that the right is hereby reserved to the Crown to deal with the lands above-described, and the timber standing, growing and being thereon, for forest management and other purposes as the Minister may see fit.

11. Within three (3) years from the date of this Agreement the Company shall file with the Department a plan which shall be satisfactory to the Minister for the operation and management of the area granted, to the end that the area will be kept productive and in accordance with the provisions of The Provincial Forest Act.

12. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the Crown Timber Regulations, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum, calculated from the First day of October in the same year.

13. The Crown does not guarantee any quantity of timber on the area hereby granted to the Company.

14. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspections shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on and from the territory, or any part thereof, shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the operation has been declared satisfactory by the Minister.

15. No refuse, sawdust, chemicals or matter of any other kind shall be placed in or deposited in any river, stream or other waters which shall be or may be injurious to game and fish life.

16. This Agreement shall be subject to The Forest Fires Prevention Act, R.S.O. 1937, Chapter 325, and Amendments thereto, and to all Regulations

thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto and all Regulations and Orders made thereunder concerning forest fires preventions; and the foregoing shall govern the operations of the Company under this Agreement as fully as if they had been set forth herein.

17. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the protection, cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall apply to the operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

18. The Crown agrees to permit the Company to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and Regulations made thereunder.

19. The Company covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements as may be provided by The Industrial Standards Act or such other Statutory enactments in that behalf as are now or may hereafter be in force.

20. The Company covenants and agrees that it will manufacture in the Province of Ontario all log timber cut on the area above-described into lumber, ties, or other manufactured products, to the satisfaction of the Minister.

21. It is understood and agreed that no operations other than those conducted by and for the Company shall be permitted on the said area without the consent in writing of the Minister.

22. If, upon the termination of said period of ten (10) years the Company shall have fully performed the obligations imposed upon it, as set forth, to the satisfaction of the Minister, it shall be entitled to an extension of its rights under this Agreement for a further period of ten (10) years, or such period as the Minister may approve, at such prices and upon such terms and conditions as may then be fixed by the Minister.

23. For the purpose of forest management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Company.

24. To ensure greater permanency of the Company's mill located at Cache Bay, the Pine cut from the allocated area in any one year will be limited so that the production of the mill will not exceed Twenty million feet (20,000,000 ft.), mill scale, annually during the currency of this Agreement.

25. Should the Company establish any community for the purpose of utilizing timber on the area set out in this Agreement, such community shall be removed at the conclusion of the operation at the expense of the Company.

As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Company shall before establishment of such community deposit with the Crown in the Department of Lands and Forests \$5,000.00 in cash or a bond approved by the Minister in the said sum of \$5,000.00.

26. The Company shall not erect lumber camps on the area described in Schedule "A" hereto which are visible from the shores of Lake Obabika and Lake Wawigama, and no warehouse or other buildings may be erected without the written approval of the Minister.

27. The Company shall not clear for skidways or rollways any land along the shores of Lake Obabika or Lake Wawigama, nor shall booming or towing operations be carried on by the said Company on the said lakes during the months of July and August in each year of the currency of this Agreement.

28. Before commencing operations in each year during the currency of this Agreement, the Company shall, on or before the First day of August in each year, submit to the Department a map showing the location of the operation proposed for the next following operating season.

29. All officers of the Crown, including scalers, scalers' assistants, and check-scalers, who are designated to work on the operation of the Company shall be provided with accommodation and board to the satisfaction of the Minister and at the expense of the Company.

30. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

31. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

32. In this Agreement "Minister" shall mean the Minister of Lands and Forests, for the time being, of the Province of Ontario.

33. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the rights of the Company hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

AND: "A. B. GORDON"  
VICE-PRESIDENT.

This is Schedule "A" referred to in the Agreement between His Majesty the King and Geo. Gordon & Co. Limited, dated the 19th day of September, A.D. 1945.

ALL AND SINGULAR that certain territory situate in the Townships of Turner, Seagram, Delhi, DeMorest, Clary, Armagh, and Sheppard in the Timagami Provincial Forest in the District of Sudbury, and in the Townships

of Belfast and Scholes in the Timagami Provincial Forest in the District of Nipissing, containing a total area of 271 square miles, more or less, and which may be more particularly described as follows:

THE TOWNSHIPS OF TURNER, SEAGRAM, DELHI AND CLARY, containing an area of 154 square miles, more or less.

DEMOREST TOWNSHIP:

Commencing at a point in the north boundary of the said township distant 1 mile measured easterly thereon from the northwest angle thereof;

THENCE south astronomically 2 miles,

THENCE east astronomically 2 miles;

THENCE south astronomically 1 mile;

THENCE east astronomically 1 mile;

THENCE south astronomically 3 miles, more or less, to the south boundary of the said township;

THENCE easterly thereon 2 miles, more or less, to the southeast angle of the said township;

THENCE northerly along the east boundary thereof 6 miles, more or less, to the northeast angle of the Township of DeMorest;

THENCE westerly along the north boundary of the said township 5 miles, more or less, to the point of commencement and containing an area of 19 square miles, more or less. THE WHOLE OF THE TOWNSHIP OF ARMAGH, Save and Excepting therefrom the northwest quarter of the said township and containing an area of 27 square miles, more or less; THE WHOLE OF THE TOWNSHIP OF SHEPPARD, Save and Excepting therefrom that portion of the southeast quarter of the said township lying to the east of the Sturgeon River and containing an area of 39 square miles, more or less.

BELFAST TOWNSHIP:

All that part of the said township lying west of a line drawn north astronomically from the 3-mile post on the south boundary thereof and containing an area of 18 square miles, more or less.

SCHOLES TOWNSHIP:

All that part of the said township lying west of a line drawn north astronomically from the 3-mile post on the south boundary thereof, Save and Excepting therefrom that portion contained in the Manitou Lake watershed and containing an area of 14 square miles, more or less.

AGREEMENT made the 16th day of August, A.D. 1945,

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

—and—

MOUNTJOY TIMBER COMPANY, LIMITED, hereinafter called the "Company",

OF THE SECOND PART:

THIS AGREEMENT WITNESSETH THAT:

1. Subject to the approval of the Lieutenant-Governor-in-Council, and subject to the granting of a yearly license pursuant to The Crown Timber Act, Chapter 36, R.S.O. 1937, and to the terms and conditions hereof, the Crown, with the consent of the Lieutenant-Governor-in-Council, doth grant to the Company for a period of ten (10) years from the First day of April, A.D. 1945, the right to cut and remove the timber specified in Clause 2 of this Agreement on the lands described in Schedule "A" hereto, and being part of the Timagami Provincial Forest.

2. The Company shall pay to the Treasurer of the Province of Ontario on behalf of the Crown the following rates for timber cut:

(a) Red and White Pine.....	\$8.50	per	M.	ft.	B.M.,	Doyle	Rule.
Spruce.....	7.50	"	"	"	"	"	"
Jackpine.....	7.00	"	"	"	"	"	"

inclusive of Crown dues and Forest Management charges.

(b) Spruce and Balsam Pulpwood—at rates to be set by the Minister.

3. For the purpose of calculating ground rent and fire protection charges, the area described in Schedule "A" hereto shall be deemed to comprise One hundred and twenty-five (125) square miles, and the Company shall pay annually in advance ground rent and fire protection charges at the rate of Eleven Dollars and Forty Cents (\$11.40) per square mile on an area of 125 square miles, commencing the First day of April, A.D. 1945. Interest at the rate of six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty (30) days from the due date.

4. On the termination of the cutting rights of the present Licensees in the Townships of Hassard, Gouin, and Doyle, the said Townships shall be and become subject to all the terms hereof.

5. At the direction of the Minister, the Company shall cut merchantable damaged timber at rates to be determined by the Minister.

6. The Company shall operate so that there shall be an orderly utilization of all timber, including pulpwood, consistent with market requirements, and on or before the Thirtieth (30th) day of June in each operating season the Company will estimate the approximate production of Spruce and Balsam pulpwood for the operating season next following, and the Abitibi Power & Paper Company, Limited shall have the first opportunity to purchase the said pulpwood which the Company will produce from year to year.

7. The right is reserved by the Crown to deal with the lands covered by this Agreement, and the timber standing, growing and being thereon, for reforestation or such other purposes which, in the opinion of the Minister, may be necessary for the development and maintenance of any industry or industries other than timber and kindred industries, but in no case will authorization be given until after failure on the part of the Company to deal, and in no event shall the total quantity cut exceed in any one year seventy-five thousand feet (75,000 ft.) of timber, log scale, or its equivalent in other products.

8. The deposit of the Company in the amount of Fifteen Thousand Dollars (\$15,000.00), for the due performance by the Company of its obligations under agreements now in effect between the Crown and the Company on licensed areas in the Townships of Thornelow, Reynolds and McKeown, shall be considered a deposit by the Company herein, and shall be held by the Crown for the due performance by the Company of its obligations under this Agreement, provided that twenty-five percent (25%) of the annual amount owing the

Crown with respect to stumpage rates shall be deducted from the said deposit of Fifteen Thousand Dollars (\$15,000.00) until the deposit shall have been reduced to the amount of Ten Thousand Dollars (\$10,000.00).

9. In the event of the Company making default in the performance of its obligations under the terms of this Agreement, the Minister may upon sixty (60) days' notice in writing to the Company at its Head Office at Timmins, Ontario, declare the rights of the Company hereunder forfeited and declare the cash deposits and other collateral securities herein deposited forfeited to the Crown. Provided, however, that any default on the part of the Company in the performance or observance of any of the provisions of this Agreement, occasioned in whole or in part through strikes, fire, tempest, war, sabotage, action by Princes or Sovereign States, acts of God, or other causes beyond the control of the Company, shall not be deemed to be a default on the part of the Company.

10. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default, if, in the opinion of the Minister, the cause of such default justifies the waiving of such right.

11. The Company is granted under this Agreement no right to the soil or freehold of the said area or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto, and it is distinctly understood that the right is hereby reserved to the Crown to deal with the lands above-described, and the timber standing, growing and being thereon, for forest management and other purposes as the Minister may see fit.

12. Within three (3) years from the date of this Agreement the Company shall file with the Department a plan which shall be satisfactory to the Minister for the operation and management of the area granted, to the end that the area will be kept productive and in accordance with the provisions of pertinent legislation.

13. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the Crown Timber Regulations, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum, calculated from the First day of October in the same year.

14. The Crown does not guarantee any quantity of timber on the area hereby granted to the Company.

15. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspections shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on and from the territory, or any part thereof, shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the operation has been declared satisfactory by the Minister.

16. No refuse, sawdust, chemicals or matter of any other kind shall be placed in or deposited in any river, stream or other waters which shall be or may be injurious to game and fish life.

17. This Agreement shall be subject to The Forest Fires Prevention Act, R.S.O. 1937, Chapter 325, and Amendments thereto, and to all Regulations thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto and all Regulations and Orders made thereunder concerning forest fires prevention; and the foregoing shall govern the operations of the Company under this Agreement as fully as if they had been set forth herein.

18. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the protection, cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall apply to the operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

19. The Crown agrees to permit the Company to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and Regulations made thereunder, and subject to any rights previously authorized by the Crown to use the waters within Schedule "A" hereto.

20. The Company covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements as may be provided by The Industrial Standards Act or such other Statutory enactments in that behalf as are now or may hereafter be in force.

21. The Company covenants and agrees that it will manufacture in the Province of Ontario all log timber cut on the area above-described into lumber, ties, or other manufactured products, to the satisfaction of the Minister.

22. It is understood and agreed that no operations other than those conducted by and for the Company shall be permitted on the said area without the consent in writing of the Minister.

23. For the purpose of forest management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Company.

24. The timber cut from the area in Schedule "A" hereto in any one year will be limited so that the production of the Company's mill presently established will not exceed 40,000 feet, mill scale, per diem during the currency of this Agreement.

25. Should the Company establish any community for the purpose of utilizing the timber on the area set out in this Agreement, such community shall be removed at the conclusion of the operation at the expense of the Company. As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Company shall before the establishment of such a community deposit with the Crown in the Department of Lands and Forests Five Thousand

Dollars (\$5,000.00) in cash or a bond approved by the Minister in the said sum of Five Thousand Dollars (\$5,000.00).

26. Before commencing operations in each year during the currency of this Agreement, the Company shall, on or before the First day of August in each year, submit to the Department a map showing the location of the operation proposed for the next following operating season.

28. All officers of the Crown, including supervisors, scalers, scalers' assistants, and check-scalers, who are designated to work on the operation of the Company shall be provided with accommodation and board to the satisfaction of the Minister and at the expense of the Company.

29. If, upon the termination of the said period of ten (10) years, the Company shall have fully performed the obligations imposed upon it, as set forth, to the satisfaction of the Minister, it shall be entitled to an extension of its rights under this Agreement for a further period of ten (10) years, or such period as the Minister may approve, at such prices and upon such terms and conditions as may then be fixed by the Minister.

30. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

31. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

32. In this Agreement "Minister" shall mean the Minister of Lands and Forests, for the time being, of the Province of Ontario.

33. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the Rights of the Company hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

SIGNED, SEALED AND DELIVERED  
in the presence of:

"W. G. THOMPSON" (SEAL)  
MINISTER OF LANDS AND FORESTS  
FOR THE PROVINCE OF ONTARIO.  
MOUNTJOY TIMBER COMPANY,  
LIMITED.

SECRETARY

#### SCHEDULE "A"

This is Schedule "A" referred to in the Agreement between His Majesty the King and the Mountjoy Timber Company, Limited, dated the 16th day of August, A.D. 1945.

The Townships of Thorneloe, McKeown, Reynolds, Hillary, and Hazen.

Also the Townships of Hassard and Gouin, upon completion of the operations thereon by the Feldman Timber Company, Limited.

And the Township of Doyle, upon completion of the operations thereon by John W. Fogg, Limited.

AGREEMENT made the 16th day of August, A.D. 1945,

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

—and—

RUDOLPH-McCHESNEY LUMBER COMPANY, LIMITED, hereinafter called the "Company",

OF THE SECOND PART;

THIS AGREEMENT WITNESSETH THAT:

1. Subject to the approval of the Lieutenant-Governor-in-Council, and subject to the granting of a yearly license pursuant to The Crown Timber Act, Chapter 36, R.S.O. 1937, and to the terms and conditions hereof, the Crown, with the consent of the Lieutenant-Governor-in-Council, doth grant to the Company for a period of ten (10) years from the First day of April, A.D. 1945, the right to cut and remove the timber specified in Clause 2 of this Agreement on the lands described in Schedule "A" hereto, and being part of the Timagami Provincial Forest.

2. The Company shall pay to the Treasurer of the Province of Ontario on behalf of the Crown the following rates for timber cut:

(a) Red and White Pine.....	\$8.50	per	M. ft.	B.M., Doyle Rule.
Spruce.....	7.50	"	"	"
Jackpine.....	7.00	"	"	"

inclusive of Crown dues and Forest Management charges.

(b) Spruce and Balsam Pulpwood—at rates to be set by the Minister.

3. For the purpose of calculating ground rent and fire protection charges, the area described in Schedule "A" hereto shall be deemed to comprise One Hundred and Twenty-five square miles (125), and the Company shall pay annually in advance ground rent and fire protection charges at the rate of Eleven Dollars and Forty Cents (\$11.40) per square mile on an area of 125 square miles, commencing the First day of April, A.D. 1945. Interest at the rate of six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty (30) days from the due date.

4. At the direction of the Minister, the Company shall cut merchantable damaged timber at rates to be determined by the Minister.

5. The Company shall operate so that there shall be an orderly utilization of all timber, including pulpwood, consistent with market requirements, and on or before the Thirtieth (30th) day of June in each operating season the Company will estimate the approximate production of Spruce and Balsam pulpwood for the operating season next following, and the Abitibi Power & Paper Company, Limited shall have the first opportunity to purchase the said pulpwood which the Company will produce from year to year.

6. The right is reserved by the Crown to deal with the lands covered by this Agreement, and the timber standing, growing and being thereon, for reforestation or such other purposes which, in the opinion of the Minister, may be necessary for the development and maintenance of any industry or industries other than timber and kindred industries, but in no case will authorization be given until after failure on the part of the Company to deal, and in no event shall the total quantity cut exceed in any one year seventy-five thousand feet (75,000 ft.) of timber, log scale, or its equivalent in other products.

7. As security for the due performance by the Company of its obligations hereunder, the Company shall deposit with the Crown the sum of Ten Thousand Dollars (\$10,000.00). The deposit of the Company in the amount of Five Hundred Dollars (\$500.00) in Dominion of Canada bonds with respect to the Agreement between the Crown and the Company for the licensed area in the Township of Emerald shall form and be part of the said deposit of Ten Thousand Dollars (\$10,000.00).

8. In the event of the Company making default in the performance of its obligations under the terms of this Agreement, the Minister may upon sixty days' notice in writing to the Company at its Head Office at Timmins, Ontario declare the rights of the Company hereunder forfeited and declare the cash deposits and other collateral securities herein deposited forfeited to the Crown. Provided, however, that any default on the part of the Company in the performance or observance of any of the provisions of this Agreement, occasioned in whole or in part through strikes, fire, tempest, war, sabotage, action by Princes or Sovereign States, acts of God, or other causes beyond the control of the Company, shall not be deemed to be a default on the part of the Company.

9. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default, if in the opinion of the Minister the cause of such default justifies the waiving of such right.

10. The Company is granted under this Agreement no right to the soil or freehold of the said area or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto, and it is distinctly understood that the right is hereby reserved to the Crown to deal with the lands above-described, and the timber standing, growing and being thereon, for forest management and other purposes as the Minister may see fit.

11. Within three years (3) from the date of this Agreement the Company shall file with the Department a plan which shall be satisfactory to the Minister for the operation and management of the area granted, to the end that the area will be kept productive and in accordance with the provisions of pertinent legislation.

12. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the Crown Timber Regulations, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum, calculated from the First day of October in the same year.

13. The Crown does not guarantee any quantity of timber on the area hereby granted to the Company.

14. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspections shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which

should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on and from the territory, or any part thereof, shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the operation has been declared satisfactory by the Minister.

15. No refuse, sawdust, chemicals or matter of any other kind shall be placed in or deposited in any river, stream or other waters which shall be or may be injurious to game and fish life.

16. This Agreement shall be subject to The Forest Fires Prevention Act, R.S.O. 1937, Chapter 325, and Amendments thereto, and to all Regulations thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto and all Regulations and Orders made thereunder concerning forest fires prevention; and the foregoing shall govern the operations of the Company under this Agreement as fully as if they had been set forth herein.

17. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the protection, cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall apply to the operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

18. The Crown agrees to permit the Company to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and Regulations made thereunder, and subject to any rights previously authorized by the Crown to use the waters within Schedule "A" hereto.

19. The Company covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements as may be provided by The Industrial Standards Act or such other Statutory enactments in that behalf as are now or may hereafter be in force.

20. The Company covenants and agrees that it will manufacture in the Province of Ontario all log timber cut on the area above-described into lumber, ties, or other manufactured products, to the satisfaction of the Minister.

21. It is understood and agreed that no operations other than those conducted by and for the Company shall be permitted on the said area without the consent in writing of the Minister.

22. For the purpose of forest management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Company.

23. The timber cut from the area in Schedule "A" hereto in any one year will be limited so that the production of the Company's mill presently established will not exceed 40,000 feet, mill scale, per diem during the currency of this Agreement.

24. Should the Company establish any community for the purpose of utilizing the timber on the area set out in this Agreement, such community shall be removed at the conclusion of the operation at the expense of the Company. As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Company shall before the establishment of such a community deposit with the Crown in the Department of Lands and Forests Five Thousand Dollars (\$5,000.00) in cash or a bond approved by the Minister in the said sum of Five Thousand Dollars (\$5,000.00).

25. Before commencing operations in each year during the currency of this Agreement, the Company shall, on or before the First day of August in each year, submit to the Department a map showing the location of the operation proposed for the next following operating season.

26. All officers of the Crown, including supervisors, scalers, scalers' assistants and check-scalers, who are designated to work on the operation of the Company shall be provided with accommodation and board to the satisfaction of the Minister and at the expense of the Company.

27. If, upon the termination of the said period of ten (10) years, the Company shall have fully performed the obligations imposed upon it, as set forth, to the satisfaction of the Minister, it shall be entitled to an extension of its rights under this Agreement for a further period of ten (10) years, or such period as the Minister may approve, at such prices and upon such terms and conditions as may then be fixed by the Minister.

28. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

29. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

30. In this Agreement, "Minister" shall mean the Minister of Lands and Forests, for the time being, of the Province of Ontario.

31. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the rights of the Company hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

## SCHEDULE "A"

This is Schedule "A" referred to in the Agreement between His Majesty the King and the Rudolph-McChesney Lumber Company, Limited, dated the 16th day of August, A.D. 1945.

The Townships of Keefer, Pharand, Childerhose, Crothers, McBride, Roblin and the Crown area in Emerald Township.

AGREEMENT made the 29th day of March, 1946:

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, herein referred to as the "Crown",

OF THE FIRST PART,

—and—

THUNDER BAY PAPER CO., LIMITED, a company incorporated under the laws of the Province of Ontario, herein referred to as the "Company",

OF THE SECOND PART:

THIS AGREEMENT WITNESSETH that in consideration of the covenants and agreements on the part of the Company herein contained:

1. The Crown with the consent and approval of the Lieutenant-Governor-in-Council

(a) doth grant to the Company for a period of twenty-one years commencing on the 1st day of April, 1946, the right to cut and remove all spruce, balsam and other pulpwood on and from the lands described in Schedule "A" hereto;

(b) doth grant to the Company for a like period of twenty-one years commencing on the 1st day of April, 1946 (subject to the granting or renewal of a yearly license if and so long as such be required by The Crown Timber Act, R.S.O. 1937, Chapter 36 and amendments thereto) the right to cut and remove all other kinds and classes of timber on and from the said lands described in Schedule "A" hereto.

2. The lands described in Schedule "A" hereto are hereinafter referred to as "the Concession Area".

3. In addition, the Company shall have the right for a period of one year from the date hereof or for such further period as the Minister may determine to examine the lands described in Schedule "B" hereto and to select the whole or any part or parts thereof and thereupon the lands so selected shall be added to and form part of the Concession Area, and all the terms and conditions hereof shall apply to such additional lands.

4. If, during the term of this Agreement or any renewal thereof, the Company shall establish to the satisfaction of the Minister that the pulpwood on the Concession Area is insufficient for the future operation of the Company's mill at Port Arthur at present capacity, the Crown agrees, to the extent that it may have the same available, to provide additional areas in support of such mill on like terms and conditions as herein set forth.

5. The Crown does not guarantee any quantity of timber on the Concession Area.

6. The Company shall pay to the Treasurer of the Province of Ontario the following prices:

(a) For pulpwood cut on the Concession Area the following:

Spruce.....	\$1.65 per cord	Inclusive
Balsam.....	\$ .75 " "	of
Jackpine.....	\$ .50 " "	Crown Dues.
Other pulpwood—Crown dues.		

(b) For timber cut on the Concession Area for use for purposes other than as pulpwood:

Such prices as the Minister may from time to time determine, to be consistent with prices on adjacent or similarly situated concession areas.

7. The above prices shall be subject only to such variation in Crown dues that may hereafter be generally effected by regulation for timber cut for domestic manufacture and applicable throughout the Province of Ontario.

8. At the written direction of the Minister the Company shall cut and remove merchantable damaged timber on the Concession Area at such lesser rates, based on the value in the damaged timber, as the Minister may determine; but the Company shall not be required or be obligated to cut and remove more of such damaged timber in any year than it can reasonably produce and use in its operations.

9. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the regulations under The Crown Timber Act and accounts shall be due and payable on the 1st day of October for the preceding season and on all accounts which remain unpaid after the 31st day of October in the same year, interest shall be charged at the rate of Six per centum (6%) per annum calculated from the 1st day of October in the same year.

10. Pulpwood taken out in four or eight foot lengths shall be measured, returned and paid for on the basis of one hundred and twenty-eight cubic feet in each stacked cord. Pulpwood taken out in lengths in excess of eight feet shall be measured in the log on the cubic basis and each 100 cubic feet shall constitute a cord. Timber other than pulpwood shall be measured in accordance with the provisions of the Manual of Scaling Instructions now or hereafter approved by the Crown.

11. For the purpose of calculating ground rent and fire protection charges, the Concession Area shall be deemed to comprise 1,354 square miles and the Company shall pay annually in advance, commencing with the First day of April, 1946, fire protection charges at the rate of \$6.40 per square mile on the said area of 1,354 square miles and ground rent at the rate of \$5.00 per square mile on one-tenth (1/10th) of the said area of 1,354 square miles. Interest at the rate of Six per centum (6%) per annum shall be charged on accounts which remain unpaid after 30 days from the due date.

If, pursuant to the foregoing provisions of Clause 3 hereof, the whole or any portion of the lands described in Schedule "B" are added to the Concession Area, then the aforesaid area of 1,354 square miles shall be increased by such number of square miles in the lands so added as shall be determined by the Minister.

If and whenever it is ascertained that any part or parts of the Concession Area are non-productive of merchantable timber, the aforesaid area may be reduced to such extent as the Minister may determine.

12. If and whenever, otherwise than by reason of default on the part of the Company, there shall be removed from the Concession Area any part thereof which the Company desires to retain, then the amounts thereafter payable by the Company to the Crown under the provisions of this Agreement shall be abated and be reduced by the amount of the fire protection charges and ground rent theretofore paid by the Company to the Crown in respect of the area of such part or by such proportion of such charges and rent as the Minister shall determine to be fair and reasonable and the Company shall be relieved thereafter from payment of fire protection charges and ground rent in respect of the area of such part.

13. The deposit of the Company in the aggregate amount of \$173,725 for the due performance by the Company of its obligations under agreements or licenses now in force between the Crown and the Company shall be considered as a deposit by the Company hereunder and be held by the Crown for the due performance by the Company of its obligations under this Agreement and all other agreements entered into between the Crown and the Company of even date; provided that the surplus beyond One hundred thousand Dollars (\$100,000) may be used by the Company for the payment of dues and charges including fire protection charges and ground rent which accrue hereunder (or under other agreements between the Crown and the Company of even date) in respect of the Company's operations during the first three years of the term of this agreement but in no event shall more than one-third of the said surplus be so applied in any one year.

Provided that the Company, at its option, shall be entitled at any time to substitute for the said cash deposit bonds of the Dominion of Canada or Province of Ontario of a par value of \$100,000 as security for the due performance of its obligations under this Agreement and other agreements of even date, whereupon the said cash deposit shall be applied as the Company requires in satisfaction of dues and charges, including fire protection charges and ground rent, which become payable by the Company to the Crown under this or any other agreement.

For the purposes of this Clause 13 only, the word Company shall include both Abitibi Power & Paper Company, Limited and Thunder Bay Paper Co., Limited.

14. The Company hereby agrees that within five years from the date of this agreement

- (a) It will provide the Minister with an estimated inventory or inventories of the timber on the Concession Area by species and size classes and information with respect to the forest types and general age classes of such timber;
- (b) It will deliver to the Minister for his information a map dividing the Concession Area into such operational units as the Company shall deem to be appropriate having regard to the locations thereof, the types and characteristics of the timber thereon and the estimated future requirements of the Company, which map shall be subject to modification by the Company from time to time;

provided that in respect of the lands described in Schedule "B" hereto or the part or parts thereof selected by the Company, the period of five years shall run only from the date upon which the Company shall make its selection under Clause 3 hereof.

For the foregoing purposes the Company will proceed forthwith with a forest survey of the Concession Area and all other areas, whether Crown or

private lands, upon which it holds cutting rights, in such order as the Minister may direct so long as the same does not unreasonably interfere with the Company's plans relative thereto. In each year the Company will survey as large an area as it can reasonably do in that year. It shall report the results to the Minister as the work progresses, and not less frequently than annually.

On the basis of the above surveys and inventories, the Company shall from time to time submit plans for utilizing the timber on the Concession Area in keeping with the requirements of the Company for pulpwood, the classes and sizes of timber found thereon and the market demands for timber for use other than as pulpwood, the first of such plans to be submitted as soon as practicable after the completion of the survey of the Concession Area, and in any event within the said five year period. Each plan shall become operative only after being approved by the Minister.

Sixty days before commencing operation in any season the Company shall give such particulars as the Minister may require as to the proposed operation and shall obtain the consent in writing of the Minister to proceed with such operation (which consent shall not be unreasonably withheld or delayed) and within four months after the completion of the authorized operation shall file with the Minister a map indicating the cut-over areas and the kinds and quantities of each class of timber taken therefrom.

Except as may be herein otherwise provided, the Company shall cut and remove from the area actually cut over in each season all the merchantable timber thereon, save that the Company shall not be required to cut any timber not provided to be cut in the particulars of the proposed operations for such season to which the Minister has consented as aforesaid. In addition, the Minister may at any time and from time to time excuse the Company from cutting any one or more species of timber or any quantity or quantities thereof, notwithstanding that the same may have been included in the particulars of the proposed operations to which he has given his consent.

The pulpwood from the Concession Area shall be utilized in the Company's mill at Port Arthur save that the Minister from time to time may permit the Company to use or dispose of the said pulpwood in such other manner as he may determine; provided that the Fort William mill of the Company's parent company, Abitibi Power & Paper Company, Limited, shall be considered as part of the said mill of the Company so long as the mills are owned by a parent and a subsidiary or both by one company.

15. The Minister or any officer or officers of the Department of Lands and Forests shall have the right to inspect the timber operations on the Concession Area at any time. If such inspection shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed under the provisions of this Agreement is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement. The Company may thereafter remove any such timber without further charge. The cutting and removing of the timber on and from the Concession Area shall not be deemed to have been completed until the Concession Area has been examined by an officer of the Crown (which examination shall not be unreasonably delayed) and the operation has been declared satisfactory by the Minister.

16. The Company shall be entitled to carry out all or any of its operations either by its own employees or by contractors or jobbers. The Company shall not grant to any other person the right to cut on the Concession Area without the consent in writing of the Minister.

17. The Company will not place or deposit in any river, stream or other waters any refuse, sawdust, chemicals or matter of any other kind which shall be or may be injurious to game or fish life.

18. The Company will exercise reasonable diligence in ascertaining whether or not the timber on the Concession Area is being infected by insects of disease, and shall furnish the Minister with such information as it is able to obtain in respect thereof, as often as the Minister may so require.

19. The Company will co-operate in the purchase of pulpwood produced by bona fide settlers and pulpwood produced by and available from the operations of adjacent licensees.

20. The Company at its expense will provide suitable accommodation and board for all officers of the Crown, including supervisors, scalers, scalers' assistants and check-scalers, who are designated to work on the operations of the Company.

21. Should the Company establish in connection with its operations on the Concession Area any community not intended to be of a permanent character, the Company if and when requested by the Minister in writing and at its expense will remove all dwellings and other buildings erected in connection therewith at the conclusion of the particular operation in respect of which such community was established. As a guarantee that such removal will be completed to the satisfaction of the Minister, the Company, before the establishment of such community, shall deposit with the Crown in the Department of Lands and Forests Five Thousand Dollars (\$5,000) in cash or bonds of the Dominion of Canada or Province of Ontario of a principal amount of Five Thousand Dollars (\$5,000).

22. The Crown grants the Company the right to use the waters of all rivers, lakes and streams within the Concession Area for the term of this Agreement for the driving of timber and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the Concession Area and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and regulations made thereunder and in common with any rights for the use of the said waters heretofore granted by the Crown.

23. Without prejudice to the existing water power leases and water storage rights and privileges of the Company, all water powers and privileges within the Concession Area are reserved to the Crown.

24. The Company is granted under this Agreement no right to the soil or freehold of the Concession Area, or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto. The Crown, however agrees from time to time to grant to the Company for terms co-terminous with the term of this Agreement, including its right of renewal, leases of such Crown lands in the Concession Area as the Company may require for saw-mills and other facilities and to issue such licenses and permits as may be required for the operation thereof.

25. The Crown reserves and excepts from the Concession Area all lands held under License-of-Occupation, leased, located or applied for, in respect of which such proceedings have been taken or shall hereafter be taken as in the opinion of the Minister entitles the applicants to a lease or patent of such lands; and the Crown further reserves the right to sell, lease, locate or otherwise dispose of, subject to the rights of the Company hereunder, any lands within the Con-

cession Area allocated for settlement, mining or summer resort purposes on such terms and conditions as may be deemed advisable.

26. In case of disagreement as to the true intent and meaning of this Agreement the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

27. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

28. In this Agreement "Minister" shall mean the Minister of Lands and Forests for the time being of the Province of Ontario, and "season" or "operating season" shall be as defined by the Regulations under The Crown Timber Act.

29. This Agreement shall be binding upon and enure to the benefit of the Company, its successors and assigns, but shall not be assigned without the consent of the Minister.

30. If upon the termination of the said period of twenty-one years the Company shall have fully performed the obligations imposed upon it as herein set forth, it shall be entitled at its option to an extension of its rights under this Agreement for a further period of twenty-one years at such prices and upon such terms and conditions as may then be fixed by the Minister.

31. In the event of the Company failing at any time to perform any of its obligations hereunder, the Minister may give written notice to the Company which shall be sent to it by registered mail addressed to it at 408 University Avenue, Toronto 2, Ontario, stating in detail the default complained of and requiring the Company to make good such default and at the expiration of twelve months from the giving of such notice the Minister may, if authorized so to do by the Lieutenant-Governor-in-Council and if the default complained of has not been made good by the Company, declare forfeited all the rights of the Company under this Agreement.

The right of forfeiture by this clause provided shall be additional to and without limitation of every other right or remedy of the Crown arising by reason of the default, and the giving of or failure to give any such notice by the Minister shall not preclude the exercise by the Crown of any other such right or remedy.

32. Any default or delay on the part of the Company in the performance or observance of any of the terms and provisions of this Agreement occasioned in whole or in part through shortage of labour or materials, extended interruption to power supply, strikes, fire, tempest, war, action by princes or sovereign states, act of God or other cause beyond the control of the Company shall not be or be deemed to be a default on the part of the Company under this Agreement.

33. The Minister shall be entitled to waive all rights of forfeiture arising under this Agreement by reason of any default if in the opinion of the Minister the cause of such default justifies the waiving of such right and, in such event, the Company's rights hereunder shall continue as though no such default had occurred.

34. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall be binding upon and enure unto the Company and shall apply to its operations under this Agreement as fully and effectually as if they had been set forth herein.

IN WITNESS WHEREOF the parties hereto have executed these presents.

SIGNED, SEALED AND DELIVERED

PRESIDENT.  
AND: "T. BROADHURST"  
SECRETARY.

#### SCHEDULE "A"

referred to in the annexed Agreement made the 29th day of March, 1946, between His Majesty the King in right of the Province of Ontario, of the First Part, and Thunder Bay Paper Co., Limited, of the Second Part.

#### THUNDER BAY CONCESSION

ALL AND SINGULAR that certain territory situate lying and being in the Districts of Thunder Bay and Kenora in the Province of Ontario, containing a total area of 1,354 square miles, be the same more or less, more particularly described as follows:—

##### FIRSTLY:

ALL that territory lying within the Onamoon River and the Ombabika River watersheds, including the intervening heights of land and particularly the intervening lands on the shore of Lake Nipigon and South Peninsula, containing 1,123 square miles more or less, and being the territory shown coloured yellow and marked "A1" on the map hereto annexed.

##### SECONDLY:

COMMENCING at the intersection of the east boundary of the Township of Drayton and the northeastern limit of the right of way of the Canadian National Railways (Superior Junction to Port Arthur Branch); thence south-easterly along the last mentioned limit to the west boundary of G.T.P. Block No. 9; thence north astronomically to the north west corner of G.T.P. Block No. 9; thence east astronomically to the northeast corner thereof; thence south astronomically along the east boundary of G.T.P. Block No. 9 a distance of 7 miles; thence east astronomically to the west boundary of G.T.P. Block No. 8; thence north astronomically to the northwest corner of said G.T.P. Block No. 8; thence east astronomically to the northeast corner thereof; thence north astronomically to the northerly bank of the Sturgeon River; thence easterly following the said river bank 1 mile; thence north astronomically to the southern limit of the right of way of the National Transcontinental Railway; thence in a westerly direction following the last mentioned limit to the east boundary of G.T.P. Block No. 10; thence south astronomically along the said east boundary of G.T.P. Block No. 10 and the east boundary of the Township of Drayton to the northeast limit of the Canadian National Railways right of way and being the point of commencement;

SAVING AND EXCEPTING the rights of the Licensee under the herein-after mentioned Crown Timber License:

License Number:	137 of 1941-42.
Licensee:	Patricia Lumber Company.
Area:	13 square miles near Clamshell Lake.
Species:	Jackpine tie timber.

The portion described as secondly herein contains 197 square miles more or less and is shown coloured yellow and marked "A-2" on the map hereto annexed.

#### THIRDLY:

COMMENCING at the northwest corner of the Township of Langworthy; thence south astronomically to the north limit of the 3rd concession of the said Township of Langworthy; thence east astronomically along the said north limit of the 3rd concession to the east boundary of the Township of Langworthy; thence north astronomically to the southwestern limit of the Canadian National Railways right-of-way; thence northwesterly along the last mentioned limit to the southeastern boundary of the Township of Hogarth; thence southwesterly to the most southerly corner of the Township of Hogarth; thence southwesterly in a straight line to the northwest corner of the Township of Langworthy and being the point of commencement, containing 21 square miles more or less and being shown coloured yellow and marked "A-3" on the map hereto annexed.

#### FOURTHLY:

ALL that portion of the Township of Joynt lying south of the right-of-way of the Canadian Pacific Railway and west of the west limits of Lots 9, Concessions I to VI inclusive, containing 9 square miles more or less and being shown coloured yellow and marked "A-4" on the map hereto annexed.

#### FIFTHLY:

THAT part of the Township of Inwood lying in the southeast quarter bounded as follows: Commencing at the southeast corner of the Township of Inwood; thence westerly along the southern boundary of the said Township for a distance of 2 miles; thence north astronomically a distance of 2 miles; thence east astronomically a distance of 2 miles more or less to the east boundary of the Township of Inwood; thence southerly along the east boundary of the said Township 2 miles more or less to the point of commencement, containing 4 square miles more or less and being shown coloured yellow and marked "A-5" on the map hereto annexed.

It is understood that wherever it appears from the attached map that the boundary of the territory above described is the established boundary of a township or district, such township or district boundary shall constitute the boundary of the Concession Area notwithstanding that it does not follow precisely the astronomical course set forth in the above description.

#### SCHEDULE "B"

referred to in the annexed Agreement made the 29th day of March, 1946, between His Majesty the King, in right of the Province of Ontario, of the First Part, and Thunder Bay Paper Co., Limited, of the Second Part.

#### THUNDER BAY RESERVE:

ALL AND SINGULAR that certain territory situate lying and being in the District of Thunder Bay in the Province of Ontario, containing 756 square miles, be the same more or less and more particularly described as follows:—

COMMENCING at the northwest corner of the Township of Paska; thence southerly 6 miles more or less along the westerly boundary of the said Township to its intersection with the northeastern limit of Onaman River watershed; thence in a general westerly and northerly direction following the Onaman River watershed to its intersection with the limit of the Ombabika River watershed; thence continuing in a general northerly, westerly and southerly direction along the eastern, northern and western boundaries of the Ombabika River watershed to the intersection with the northern limit of the right of way of the Canadian National Railways; thence in a general westerly direction following the northern limit of the said right of way to where it is intersected by the eastern limit of the Pikitigushi River watershed and which point of intersection is 3 miles more or less west of Ferland Station; thence in a general northerly direction following the eastern limit of the Pikitigushi River watershed to a point where it is intersected by the north limit of the Nipigon Provincial Forest; thence easterly 48 miles more or less along the last mentioned limit and its production easterly to its intersection with a line drawn north astronomically from the northwest corner of the Township of Paska; thence south astronomically 23 miles more or less to the northwest corner of the Township of Paska, and being the point of commencement.

The territory described herein is shown outlined in red on the map hereto annexed.

AGREEMENT made the 16th day of August, A.D. 1945,

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

— and —

A. E. WICKS, LIMITED, hereinafter called the "Company",

OF THE SECOND PART:

THIS AGREEMENT WITNESSETH THAT:

1. Subject to the approval of the Lieutenant-Governor-in-Council, and subject to the granting of a yearly license pursuant to The Crown Timber Act, Chapter 36, R.S.O. 1937, and to the terms and conditions hereof, the Crown, with the consent of the Lieutenant-Governor-in-Council, doth grant to the Company for a period of ten (10) years from the First day of April, A.D. 1945, the right to cut and remove the timber specified in Clause 2 of this Agreement on the lands described in Schedule "A" hereto, and being part of the Timagami Provincial Forest.

2. The Company shall pay to the Treasurer of the Province of Ontario on behalf of the Crown the following rates for timber cut:

(a) Red and White Pine.....	\$8.50	per	M. ft.	B.M., Doyle Rule,
Spruce.....	7.50	"	"	"
Jackpine.....	7.00	"	"	"

inclusive of Crown dues and Forest Management charges.

(b) Spruce and Balsam Pulpwood—at rates to be set by the Minister.

3. For the purpose of calculating ground rent and fire protection charges, the area described in Schedule "A" hereto shall be deemed to comprise One

hundred and twenty-five (125) square miles, and the Company shall pay annually in advance ground rent and fire protection charges at the rate of Eleven Dollars and Forty cents (\$11.40) per square mile on an area of 125 square miles, commencing the First day of April, A.D. 1945. Interest at the rate of six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty (30) days from the due date.

4. At the direction of the Minister, the Company shall cut merchantable damaged timber at rates to be determined by the Minister.

5. The Company shall operate so that there shall be an orderly utilization of all timber, including pulpwood, consistent with market requirements, and on or before the Thirtieth (30th) day of June in each operating season the Company will estimate the approximate production of Spruce and Balsam pulpwood for the operating season next following, and the Abitibi Power & Paper Company, Limited shall have the first opportunity to purchase the said pulpwood which the Company will produce from year to year.

6. The right is reserved by the Crown to deal with the lands covered by this Agreement, and the timber standing, growing and being thereon, for reforestation or such other purposes which, in the opinion of the Minister, may be necessary for the development and maintenance of any industry or industries other than timber and kindred industries, but in no case will authorization be given until after failure on the part of the Company to deal, and in no event shall the total quantity cut exceed in any one year seventy-five thousand feet (75,000 ft.) of timber, log scale, or its equivalent in other products.

7. The deposit of the Company in the amount of Fourteen Thousand Dollars (\$14,000.00) for the due performance by the Company of its obligations under agreements now in effect between the Crown and the Company on licensed areas in the Township of English and Nursey shall be considered a deposit by the Company herein, and shall be held by the Crown for the due performance by the Company of its obligations under this Agreement, provided that twenty-five percent (25%) of the annual amount owing the Crown with respect to stumpage rates shall be deducted from the said deposit of Fourteen Thousand Dollars (\$14,000.00) until the deposit shall have been reduced to the amount of Ten Thousand Dollars (\$10,000.00).

8. In the event of the Company making default in the performance of its obligations under the terms of this Agreement, the Minister may upon sixty (60) days' notice in writing to the Company at its Head Office at Cochrane, Ontario, declare the rights of the Company hereunder forfeited and declare the cash deposits and other collateral securities herein deposited forfeited to the Crown. Provided, however, that any default on the part of the Company in the performance or observance of any of the provisions of this Agreement, occasioned in whole or in part through strikes, fire, tempest, war, sabotage, action by Princes or Sovereign States, acts of God, or other causes beyond the control of the Company, shall not be deemed to be a default on the part of the Company.

9. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default, if, in the opinion of the Minister, the cause of such default justifies the waiving of such right.

10. The Company is granted under this Agreement no right to the soil or freehold of the said area or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto, and it is distinctly understood that the right is hereby reserved to the

Crown to deal with the lands above-described, and the timber standing, growing and being thereon, for forest management and other purposes as the Minister may see fit.

11. Within three (3) years from the date of this Agreement the Company shall file with the Department a plan which shall be satisfactory to the Minister for the operation and management of the area granted, to the end that the area will be kept productive and in accordance with the provisions of The Provincial Forests Act.

12. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the Crown Timber Regulations, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum, calculated from the First day of October in the same year.

13. The Crown does not guarantee any quantity of timber on the area hereby granted to the Company.

14. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspections shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on and from the territory, or any part thereof, shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the operation has been declared satisfactory by the Minister.

15. No refuse, sawdust, chemicals or matter of any other kind shall be placed in or deposited in any river, stream or other waters which shall be or may be injurious to game and fish life.

16. This Agreement shall be subject to The Forest Fires Prevention Act, R.S.O. 1937, Chapter 325, and Amendments thereto, and to all Regulations thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto and all Regulations and Orders made thereunder concerning forest fires prevention; and the foregoing shall govern the operations of the Company under this Agreement as fully as if they had been set forth herein.

17. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general applications to the protection, cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall apply to the operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

18. The Crown agrees to permit the Company to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the

driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and Regulations made thereunder, and subject to any rights previously authorized by the Crown to use the waters within Schedule "A" hereto.

19. The Company covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements as may be provided by The Industrial Standards Act or such other Statutory enactments in that behalf as are now or may hereafter be in force.

20. The Company covenants and agrees that it will manufacture in the Province of Ontario all log timber cut on the area above-described into lumber, ties, or other manufactured products, to the satisfaction of the Minister.

21. It is understood and agreed that no operations other than those conducted by and for the Company shall be permitted on the said area without the consent in writing of the Minister.

22. For the purpose of forest management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Company.

23. The timber cut from the area in Schedule "A" hereto in any one year will be limited so that the production of the Company's mill presently established will not exceed 50,000 feet, mill scale, per diem during the currency of this Agreement.

24. Should the Company establish any community for the purpose of utilizing the timber on the area set out in this Agreement, such community shall be removed at the conclusion of the operation, at the expense of the Company. As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Company shall before the establishment of such a community deposit with the Crown in the Department of Lands and Forests Five Thousand Dollars (\$5,000.00) in cash or a bond approved by the Minister in the said sum of Five Thousand Dollars (\$5,000.00).

25. Before commencing operations in each year during the currency of this Agreement, the Company shall, on or before the First day of August in each year, submit to the Department a map showing the location of the operation proposed for the next following operating season.

26. All officers of the Crown, including supervisors, scalers, scalers' assistants, and check-scalers, who are designated to work on the operation of the Company shall be provided with accommodation and board to the satisfaction of the Minister and at the expense of the Company.

27. If, upon the termination of the said period of ten (10) years, the Company shall have fully performed the obligations imposed upon it, as set forth, to the satisfaction of the Minister, it shall be entitled to an extension of its rights under this Agreement for a further period of ten (10) years, or such period as the Minister may approve, at such prices and upon such terms and conditions as may then be fixed by the Minister.

28. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

29. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

30. In this Agreement "Minister" shall mean the Minister of Lands and Forests, for the time being, of the Province of Ontario.

31. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the rights of the Company hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

SIGNED, SEALED AND DELIVERED

---

Parliament Buildings,  
Toronto, Ontario

THE HONOURABLE L. E. BLACKWELL, K.C.,  
*Attorney-General, Province of Ontario,*  
Parliament Buildings, Toronto.

SIR:

I have the honour to submit to you my report as Inspector of Legal Offices for the year ending December 31st, 1946.

This has been another busy year in all offices. The Land Titles and Registry Offices have once more touched a new high in volume of business, in gross and net receipts, and in the aggregate of Land Transfer Tax of more than one million dollars collected by the various offices and remitted to the Provincial Treasurer.

Uniformly, the surpluses paid over by the different Land Titles and Registry Offices to the municipalities so entitled have been larger than ever.

With respect to the Court offices, the volume of business is again on the increase. There were only two deficits in operating costs in all the different Court offices, all the remainder returning surpluses of varying amounts.

The aggregate of Magistrates' fines has come up materially, perhaps in view of the fact that gasoline may be obtained freely and new cars are available for a number of individuals.

There have been more actions entered in the Division Courts than last year, and the larger courts have been very active.

The total revenue received from all sources exceeded two and one-half million dollars.

Mr. H. C. Moore has visited most of the Land Titles and Registry Offices during the year. His advice and knowledge has been freely given and has been of value to the various incumbents. Further, he has been of much assistance to many members of the legal profession who have had problems in Registry and Land Titles matters. Mr. W. E. Corey, who joined our staff on September 1st last, has been occupied particularly in checking maps, map indexing, plans and descriptions in Land Titles Offices, and is proving himself a most valuable officer in this work.

Our Auditors have been busier than ever. Messrs. Dignam, Reddin and Gourley, have not only audited all offices in the Province, some more than once, but have made special audits on numerous occasions by request,

and have further undertaken audits in all instances where there has been a change in the incumbent of any office. Their zealous efforts in the proper performance of their duties deserve the greatest praise. Further, the methods adopted in the audits, and their co-operation with, and understanding of the problems of, the different officials merits much commendation.

It is most difficult to keep up with the volume of business in the Land Titles and Registry Offices. Trained personnel is not available and replacements are difficult to obtain. These staffs in the main all work at top speed.

The outside offices in all parts of the Province have again met the situation splendidly. The incumbents and their staff are courteous and painstaking, and give to the public cheerful and willing service, with happy results, and substantially no difficulties.

As a matter of course the larger volume of business makes the work of the staff of this office more intensive, and the same fairness and whole-hearted co-operation, which has characterized it in the past, prevails. All situations have been taken care of as they arose, and what has had to be done has been carried on faithfully and well. I cannot speak too highly of the services rendered by all, nor of my own appreciation of the courtesy and loyalty shown to me.

The following is the total revenue collected by the Legal Offices of the Province and the disposition of such money:

#### TOTAL REVENUE COLLECTED DURING 1946 LEGAL OFFICES, PROVINCE OF ONTARIO

|  |                |
|--|----------------|
| Magistrates' Fines .....   | \$ 294,717.32  |
| Magistrates' Fees .....  | 33,416.92      |
| (The above amounts do not include statutory amounts paid to municipalities, nor fines and fees paid direct by Magistrates to the Federal Government and to the Inspectors under The Liquor Control Act.) |                |
| Registrars of Deeds and Local Masters of Titles Fees .....   | 96,447.94      |
| Registrars of Deeds and Local Masters of Titles, Land Transfer Tax .....   | 1,071,146.16   |
| Local Registrars, S.C.O., County and District Court Clerks and Surrogate Registrars, Cash Fees .....   | 241,091.39     |
| Local Registrars, S.C.O., County and District Court Clerks and Surrogate Registrars, Law Stamps .....  | 566,128.60     |
| Crown Attorneys and Clerks of the Peace, Fees .....  | 63,587.81      |
| Crown Attorneys and Clerks of the Peace, Fines and Estreated Bail .....  | 4,595.50       |
| Sheriffs' Fees .....   | 85,957.12      |
| Division Court Clerks' and Bailiffs' Fees .....  | 16,672.42      |
| Miscellaneous Revenue .....  | 11,609.19      |
|  | \$2,590,370.37 |

#### DISPOSITION

|  |                |
|--|----------------|
| Amount Paid through Inspector of Legal Offices to Treasury Department .....  | \$ 953,095.61  |
| Amount Paid Direct to Treasury Department in Land Transfer Tax .....   | 1,071,146.16   |
| Amount Paid Direct to Treasury Department in Purchase of Law Stamps .....  | 566,128.60     |
|  | \$2,590,370.37 |
| Amount Paid to Inspector of Legal Offices and Transferred to the Treasury Department afterwards Transferred by Journal Entry to other Departments of the Government, as follows: |                |
| Department of Lands and Forests .....  | \$ 44,826.93   |
| Department of Highways .....   | 51,396.68      |
|  | \$ 96,217.61   |

I attach hereto the schedules and statements in reference to the specific details of the offices and administration:

1. Statements—Osgoode Hall Offices (Surrogate Clerk, Administrative Branch, Appellate Division and Master's Office).
2. Financial Statement of Judicial Offices, namely, Sheriff's, Surrogate Judges, Local Masters, S.C.O., County and District Court Clerks and Surrogate Registrars, Crown Attorneys and Clerks of the Peace.
3. Financial Statement respecting Local Masters of Titles and Registrars of Deeds.
4. Financial Statement respecting Magistrates.
5. Statement re Juvenile Courts.
6. Statement re Division Court Clerks and Bailiffs.
7. Appointments.

All of which is respectfully submitted.

I have the honour to be, Sir,

Your obedient servant,

HUGH H. DONALD,

*Inspector of Legal Offices.*

W. C. Fell, Gore Bay, appointed Registrar of Deeds and Local Master of Titles for District of Manitoulin, effective 1st Feb., 1946.

Stuart Beatty, Brampton, appointed Registrar of Deeds for County of Peel, effective 15th Feb., 1946.

Harold L. Bechill, Glencoe, appointed Registrar of Deeds for Middlesex West by Order-in-Council, effective 1st Dec., 1946.

#### CORONERS

Dr. Thomas Edward Flommerfelt of the City of Toronto, to be an Associate Coroner in and for the City of Toronto.—*Gazette, 20th Apr., 1946.*

Dr. Archibald Fleming McIntyre of Grimsby, to be a Coroner in and for the County of Lincoln.—*Gazette, 20th Apr., 1946.*

Dr. Fred Allan Vokes, of Cayuga, Ontario, to be a Coroner in and for the County of Haldimand,—*Gazette 25th May, 1946.*

Dr. Norman William McQuay, of Brechin, Ontario, to be a Coroner in and for the County of Ontario.—*Gazette, 28th Sept., 1946.*

Dr. Ernest Laurence Wrathall, of Port Hope, to be a Coroner in and for the United Counties of Northumberland and Durham.—*Gazette, 28th Sept., 1946.*

Dr. Charles Rogers Marcellus, of Iroquois, Ontario, to be a Coroner in and for the United Counties of Stormont, Dundas and Glengarry.—*Gazette, 23rd Nov., 1946.*

#### DIVISION COURT CLERKS AND BAILIFFS

Joseph McEnery, of Kirkfield, to be Bailiff of the Seventh Division Court of the County of Victoria.—*Gazette, 5th Jan., 1946.*

Elmer Schott, Bamberg, to be Bailiff of the Fifth Division Court of the County of Waterloo, at Linwood, in the room and stead of Mr. Simon P. Friedmann, resigned.—*Gazette, 5th Jan., 1946.*

Wesley Mason, of Lindsay, Ontario, to be Clerk of the Fifth Division Court of the County of Victoria.—*Gazette, 26th Jan., 1946.*

John Robertson Smithson, of Kitchener, Ontario, to be Bailiff of the First Division Court of the County of Waterloo.—*Gazette, 26th Jan., 1946.*

Francis Edward Buchanan, of R.R. No. 1, Comber, Ontario, to be Clerk and Acting Bailiff of the Ninth Division Court of the County of Essex.—*Gazette, 26th Jan., 1946.*

Joseph Howard Mailloux, of Tilbury, Ontario, to be Bailiff of the Seventh Division Court of the County of Kent.—*Gazette, 26th Jan., 1946.*

George W. Ashby, of Delaware, Ontario, to be Clerk of the Fourth Division Court of the County of Middlesex in the room and stead of Mr. J. H. Matthews, deceased.—*Gazette 2nd Mar., 1946.*

William James Cook, Kirkland Lake, Ontario, to be Clerk of the Fourth Division Court of the District of Temiskaming—*Gazette, 2nd Mar., 1946.*

- William Joseph George McNabb, of Peterborough, Ontario, to be Bailiff of the First Division Court of the County of Peterborough in the room and stead of Mr. Nagle E. Phelan, deceased.—*Gazette, 2nd Mar., 1946.*
- William Clive Fell, of Gore Bay, Ontario, to be Clerk and Bailiff of the First Division Court of the District of Manitoulin.—*Gazette, 16th Mar., 1946.*
- Ross Charles Stuart, of Eganville, Ontario, to be Clerk and Bailiff of the Fifth Division Court of the County of Renfrew.—*Gazette, 16th Mar., 1946.*
- Norman John Clayton, of Fort Erie North, Ontario, to be Bailiff of the Third Division Court of the County of Welland.—*Gazette, 30th Mar., 1946.*
- William John Hussey, of Lindsay, Ontario, to be Bailiff of the Fifth Division Court of the County of Victoria.—*Gazette, 30th Mar., 1946.*
- Charles H. Kivell, of Hornepayne, Ontario, to be Bailiff of the Fifth Division Court of the District of Thunder Bay at Hornepayne.—*Gazette, 30th Mar., 1946.*
- Leonard Hall, of Owen Sound, Ontario, to be Bailiff of the First Division Court of the County of Grey in the room and stead of Mr. Herbert G. Foot, deceased.—*Gazette, 6th Apr., 1946.*
- Janet Agnes (Jean) Munroe, of Maxville, Ontario, to be Clerk of the Twelfth Division Court of the United Counties of Stormont, Dundas and Glengarry.—*Gazette, 6th Apr., 1946.*
- William Edward Rathwell, of Owen Sound, Ontario, to be Clerk of the First Division Court of the County of Grey in the room and stead of Mr. Herbert G. Foot, deceased.—*Gazette, 6th Apr., 1946.*
- Dougald Angus Armstrong, of Fenelon Falls, to be Bailiff of the Second Division Court of the County of Victoria.—*Gazette, 13th Apr., 1946.*
- George Cecil Kellam, of R.R. No. 4, Simcoe, to be Clerk and Bailiff of the Third Division Court of the County of Norfolk at Teeterville.—*Gazette, 13th Apr., 1946.*
- Robert C. McMichael, of R.R. No. 3, Waterford, to be Bailiff of the First Division Court of the County of Norfolk.—*Gazette, 13th Apr., 1946.*
- Joseph Curtis Billings, of St. Marys, Ontario, to be Bailiff of the Third Division Court of the County of Perth.—*Gazette, 20th Apr., 1946.*
- Thomas Wilson O'Neil, of Ottawa, Ontario, to be Clerk of the First Division Court of the County of Carleton.—*Gazette, 11th May, 1946.*
- Edgar Allen Rogers, of Minden, Ontario, to be Clerk of the First Division Court of the County of Haliburton.—*Gazette, 11th May, 1946.*
- Philip Williams, of Newcastle, Ontario, to be Bailiff of the Second Division Court of the United Counties of Northumberland and Durham.—*Gazette, 11th May, 1946.*
- Kenneth Bruce Barnstaple, of Cooksville, to be Bailiff of the Second Division Court of the County of Peel.—*Gazette, 1st June, 1946.*
- Leonard Presley, of Riceville, to be Clerk of the Eighth Division Court of the United Counties of Prescott and Russell, at Fournier.—*Gazette, 1st June, 1946.*

- George Alexander Wakeford, of Owen Sound, to be Clerk of the First Division Court of the County of Grey.—*Gazette, 1st June, 1946.*
- George Armstrong Allen, of Sharbot Lake, to be Clerk of the Sixth Division Court of the County of Frontenac.—*Gazette, 29th June, 1946.*
- Edwin Lloyd, of Aylmer, to be Bailiff of the First Division Court of the County of Elgin.—*Gazette, 27th July, 1946.*
- Burt R. Morrison, of Mount Forest, to be Clerk and Bailiff of the Eleventh Division Court of the County of Wellington.—*Gazette, 27th July, 1946.*
- John Evan Burrows, of P. O. Box Number 539, Kingsville, Ontario, to be Clerk of the Third Division Court of the County of Essex.—*Gazette, 24th Aug., 1946.*
- Florence May Flanagan, of Toronto, Ontario, to be Clerk of the First Division Court of the County of York, at the City Hall, Toronto.—*Gazette, 24th Aug., 1946.*
- Russell Wilfred Morrison, of Mill Street, Vankleek Hill, Ontario, to be Clerk of the Second Division Court of the United Counties of Prescott and Russell.—*Gazette, 24th Aug., 1946.*
- James Henry Prosser, of New Lowell, Ontario, to be Bailiff of the Seventh Division Court of the County of Simcoe.—*Gazette, 14th Sept., 1946.*
- Walter John Sherring, of Markdale, Ontario, to be Clerk of the Eighth Division Court of the County of Grey.—*Gazette, 26th Oct., 1946.*
- Herbert Wilson Warren, of Timmins, Ontario, to be Bailiff of the Second Division Court of the District of Cochrane.—*Gazette, 26th Oct., 1946.*
- Ernest Lloyd Snyder, of St. Catharines, to be Clerk of the Second Division Court of the County of Lincoln.—*Gazette, 21st Dec., 1946.*

# SIXTIETH ANNUAL REPORT

## OF THE

# NIAGARA PARKS COMMISSION

TO THE HONOURABLE RAY LAWSON, O.B.E.,  
*Lieutenant-Governor of the Province of Ontario.*

MAY IT PLEASE YOUR HONOUR:

The Niagara Parks Commission begs to submit for the information of the Ontario Legislature, the Sixtieth Annual Report covering the fiscal year ending October 31, 1946.

There was no change in the personnel of the Commission during the above period. The Commission continued under the chairmanship of the Honourable Charles Daley, Minister of Labour for the Province of Ontario.

Commissioner George R. Inglis was re-elected as mayor of the City of Niagara Falls for the year 1946, and Commissioner Secord completed in December, 1945, his year's term as warden of Lincoln County. These items are entered as a matter of record in the minutes of the Commission.

The fiscal year under review in this report is the first complete year clear of travel restrictions and gasoline restrictions since 1939. This was reflected in Niagara Parks by a substantial increase in the number of visitors to the Park, with a corresponding increase in the Park revenues from the various stores, restaurants and scenic attractions, which are operated directly by your Commission. You will note from a comparison of the attached financial statement with previous statements that gross revenues were higher in this fiscal year than in any other year in the history of the Commission. The greatest percentage of increase in revenues occurred at the Park Restaurant. Facilities for serving meals to the public were vastly improved at this point, a year ago. Then again the bus companies operating from Buffalo brought in a greater number of visitors, originating generally from Detroit and arriving in Buffalo via the lake steamers. The taxicab business to the Park, from the United States side of the border, also flourished. From all indications, it is anticipated that this increased influx of tourists will be maintained during the 1947 season.

In this connection, it might be mentioned that your Commission carried on, during the year, a normal amount of publicity work, in order to induce people, from far and near, to visit the Park. This was accomplished by the issuing of Park booklets and folders to visitors, and by press releases. A quantity of the Park booklets and folders are sent, from time to time, to different points in the United States and Canada. Quantities of Park literature go out, consistently, in collaboration with the Department of Travel and Publicity of the Province.

The coloured film of the Park was shown, during the year, to various audiences in the United States and Canada. In connection with the Park film, a copy of this was loaned to Mr. Lynn Franklin, United States Consul, for showing in the Netherlands West Indies, and in parts of South America. This film has since been returned to the Commission. Another copy of the film is presently on loan to the Reverend Captain Rawson for showing on a lecture tour which he is making in the United States.

A great many of our visitors are those who make Niagara Falls a stop enroute, either to or from other points in the Province. Your Commission, in its publicity, acquaints the public with the other points of interest in Niagara Parks as well as the Falls, which, of course, are the main attraction. During the past year the Commission had erected in Queen Victoria Park an illustrated sign seventy-five feet long, graphically showing the points of interest in Niagara Parks from Lake Erie at the south end to Lake Ontario at the north end, a total distance of thirty-five miles.

Approximately 17,500 people attended organized picnics in Queen Victoria Park, and approximately 26,000 people attended organized picnics in Queenston Park. The picnic accommodations at Queenston Park are much more spacious than in Queen Victoria Park. Nothing has been done with regard to estimating the total number of people who visit Niagara Parks during the summer season, but your Commission does have in mind making an effort to establish these approximate figures, feeling that they would be of some benefit as well to the Department of Travel and Publicity of the Province.

Mr. L. B. Spencer, K.C., was re-appointed as solicitor to the Commission. Early in 1946, Laurence Crawford was appointed auditor for the Commission for the current fiscal year. Mr. Crawford was engaged at a fee of \$1,500.00 for the current annual audit covering the activities and the books of the Commission for the fiscal year ending October 31, 1946.

#### AGREEMENTS

A new agreement was made with the Niagara Concessions Limited, who operate the Whirlpool Rapids Elevator and store. Under this agreement, the date at which the Commission becomes the owner of the enterprise was altered from June 1st, 1962 to June 1st, 1967, and the company was also given permission to construct a new walkway along the lower rapids, and a canopy at the entrance to the building at the River Road level. The new canopy was erected early in 1946, but the new walkway has not yet been built.

An agreement was made with the Hydro-Electric Power Commission of Ontario covering the re-location of a telephone cable in Queen Victoria Park, in the area where the new greenhouses are constructed.

An agreement was also made with the City of Niagara Falls covering the construction and operation of a snow chute on the River Road. An agreement was made with Mr. Arthur Schmon regarding the installation of a drain from Mr. Schmon's property in lot No. 23, Township of Niagara.

The only land transaction during the year was the sale of lots 201 and 205 in the Village of Queenston to Mr. Harry Digweed. These lots were part of the property which came to the Commission as a result of the termination of the agreement with the International Railway Company. The lots are entirely separate from the Parks System, and were not considered important as part of the Parks System. The purchase price was \$1,200.00 for the two lots.

The Commission also approved the form of an agreement between the Commission and applicants for boat house and dock privileges. This matter was considered with the object in view of establishing a definite and uniform policy with regard to the granting of dock and boat house privileges. Also of concern has been the establishing of suitable building restrictions along the Parkway, and a meeting was held with the heads of all the municipalities fronting on the Park-

Mather Park

Flower Beds and Entrance to Oakes Gardens

way, with the object of securing the co-operation of the different municipalities, which is necessary before any plan can be worked out. It is felt that something will be accomplished along these lines in the near future because there was general approval of the Commission's objectives.

#### MAINTENANCE AND UPKEEP OF PARKS AND GROUNDS

The usual maintenance work was carried out by the works department and horticultural department covering the entire parks system, from lake to lake. Several stretches of the road from Chippawa to Fort Erie were re-surfaced with an average thickness of three inches of asphalt. These were the areas where the bridges were widened some years ago and any other areas where the roadway showed a bad state of deterioration. This specific work was done by the Law Construction Company, and in addition to this your Commission did, with its own forces, a considerable amount of surface treatment in different areas on the park roadway in Queen Victoria Park and in the stretch of road above mentioned.

The Commission also continued shore protection along the bank of the upper river similar to the work as mentioned in the last report. Some grading work was done in Old Fort Erie Park where settlement occurred along the edges of the entrance roadway.

In connection with maintenance, your Commission follows the policy of replacing worn out equipment with new equipment when the same can be obtained, and also of purchasing any new equipment for the maintenance departments where a saving of labour can be made. In this connection, the purchase of new lawn mowing equipment was approved and the purchase of a traffic line marker. Difficulty is experienced in securing new equipment at this time.

A considerable amount of tree trimming, over the entire Park system, was done during the year, but this will be mentioned later on in this report under horticultural matters.

The construction of the new greenhouses was mentioned in the Commission's last report. These were completed during the fiscal year under review, and at time of writing this report, an official opening has been held. These greenhouses have a glass area of 11,000 square feet, a work room area, including storage space for bulbs, of 3,000 square feet, and a complete description will follow later on in this report.

At Fort Erie your Commission proceeded with the completion of earth fill at the southerly end of Mather Park, and this work is now practically completed. It is intended to complete the sea wall also at this point. The property in Fort Erie which the Commission owns, which is part of Mather Park, and located at the junction of Albany Street and Lakeshore Road, was also graded to a uniform grade and approximately 700 feet of new side walk was constructed. This filling and grading work at Mather Park, Fort Erie, was done by Aiken and MacLachlan, Limited, of St. Catharines, and the funds to pay for the work are part of the Mather legacy funds which have been held in reserve for some years for this particular purpose.

The addition to the Queenston Restaurant kitchen was completed in April 1946, and with the addition of some new pieces of kitchen equipment has proven its value to the operations carried on there. Arrangements have been made to purchase flood lights and have them installed on Brock's Monument. The smaller lights at the top of the monument are presently installed, and four large lamps at the base will be installed as soon as they are available.

Entrance—Administration Building

Niagara Glen Restaurant

At the Park Restaurant in Queen Victoria Park several new pieces of equipment were purchased and installed in the main kitchen and in the cafeteria a new serving counter was installed, including steam tables and a refrigerated display case and these facilities have made it possible to substantially increase the business done at that point. Naturally, there have been a great many other minor alterations in connection with park buildings and replacements and painting, and general upkeep of all the park buildings has proceeded wherever the same was found necessary.

#### HORTICULTURAL DEPARTMENT

The report of the horticultural department, which is under the supervision of John Oakes, follows:

The most particular part of the duties of the horticultural department of the Niagara Parks System is the maintaining of the parks and boulevards at a very high standard so that they will be a credit to the Parks Commission and a source of enjoyment and pleasure to the visiting public. This condition is fully appreciated by the horticultural staff and every effort has been made to fulfill what is expected and to improve where possible.

Fall planting of spring flowering bulbs and flowering plants resulted in a splendid display in the spring of 1946, and the flower beds were well furnished with summer flowering plants that were grown in the greenhouse.

Cut flowers and decorative plants were supplied, during the season, to the restaurants and park buildings.

The work of maintaining the boulevards during the 1946 season has been much easier, as we have been able to obtain more reliable and constant help. As the grass is cut by horse mowers, there has been no difficulty experienced with regard to mowers on the boulevard.

Extensive work was done on the trimming of trees, removal of dead wood and dead trees. Spraying of the trees for insect pests and diseases was carried out throughout the Park System.

Large sections of the lawns were treated with the new weed killer 2-4-D, which proved very effective.

Clearing, dising, and seeding the area of land on the Loughurst property and south of the Oak Grove on the Niagara-on-the-Lake boulevard, was carried out in the early spring. Further work is being done during September and October.

The fence and underbrush on the strip of land in front of the Jackson property on the Niagara-on-the-Lake boulevard was cleared and graded.

The driveway in Butler's Burying Ground was graded and drained, the lawns cleaned and graded so that they could be mown with the lawn mower and the grounds kept in good shape during the summer months.

Tennis courts at Queenston Heights Park were placed and kept in pre-war condition. Playing on these courts is continuous.

Paths in the rose garden in Queen Victoria Park were re-surfaced with a cold patch Tarvia mix. This necessitated the removal of the old surface and a re-grading of the paths.

Niagara Boulevard

At Boys' Training School

During the winter, work was progressing on the erection of the new greenhouses and in the meantime every effort was being made to propagate and grow plants in the old greenhouses. A good display of *Chrysanthemums* was exhibited in the Park Restaurant during the early part of November 1945.

One part of the heating plant of the old greenhouses completely collapsed during the winter but as one house of the new houses was almost completed the plant material was carried over and eventually other houses put into operation, thereby making it possible to save the stock and to continue propagating for spring.

Most of the decorative plants suffered considerably from conditions in the old greenhouses. They are now making satisfactory progress in the new houses.

All the plant material, flower pots, etc., were moved over to the new greenhouses during the summer. The old greenhouses were then dismantled, salvaging all glass of any value along with bricks, pipe, etc. The woodwork was completely rotten and of no use except for firewood.

The cement foundations were broken up and filled into the cold storage and boiler room, the area afterwards being graded uniformly.

During the winter months fill was being trucked in position for the terrace in front of the new greenhouses and on the completion of the stone wall the area was graded and seeded and planted with evergreen shrubs from the Glen Nursery and the greenhouse garden. Two hundred and fifty *Berberis Atropurpurea* were purchased from the Sheridan Nurseries for the planting of the hedge on top of the wall. In the meantime, propagating and growing was being carried on in the new greenhouses. Thirty-five palms (*Kentia Fosteriana*), six *Cibodiums* (Ferns), twelve *Crotons* in variety, one plant of *Eucharis* were purchased from the Dale Estate. A nice collection of exotic plants was sent by Mr. Anderson, Superintendent of Parks for the City of Westmount, Quebec, and many varieties from the Parks Department of the City of Toronto were donated.

All the plant material from the old greenhouses along with new material purchased and donated shows marked improvement in the short time they have been in the new houses. Propagation and growing is most satisfactory both in convenience and results which was fully exemplified in the brilliant show of bloom and foliage with which the greenhouses were furnished when they were formally opened November 9, 1946.

#### TRAINING SCHOOL FOR APPRENTICE GARDENERS

Regular monthly meetings, which are attended by the school committee and the staff, are held at the school, at which pressing problems are considered and dealt with. A used army truck, in good condition, was purchased for the transportation of the students to various places in the parks system. New Photographic equipment has been purchased and installed, and the students are being given a well rounded out course in gardening and horticulture. The majority of the twenty-two students now enrolled are returned men from the armed forces.

On November 1, 1945, there were nineteen apprentices at the school. Eleven were returned men, two of whom returned to the School to resume their training.

Sixteen students were enrolled during 1946. Of these, six were former students who returned to the school after serving in the forces.

At Dufferin Islands

Fort George

Eleven students left the school, four to take up positions, and seven for different reasons.

Two of the instructors are ex-service men and former students of the school, Jack Kimmel and Jim Marlow. Miss Betty Gray, the popular dietician and Miss Mary Procter, who is assistant to Miss Gray, have both served in the forces.

Sports and recreational facilities were provided the students, whereby they could indulge in ping-pong, basketball, skating, tennis, etc. Several enjoyable parties were organized by the student body and very pleasant evenings were spent by students and friends.

Trips were taken to the Dale Estate at Brampton, the Provincial Pathological Laboratory at St. Catharines, the Vineland Experimental Station at St. Catharines, and the Royal Winter Fair at Toronto. These trips were organized and conducted with the idea that the students would benefit by their observations of what was being done by other people in the horticultural field.

The regular schedule of winter lectures was started January the 28th and continued until the early part of April. Evening lectures were conducted during the fall of 1945. In the summer months the students were given practical demonstrations and lectures on the grounds.

Practical demonstrations of work done in other parts of the park system were given and facilities provided whereby the students could exemplify their aptitude and knowledge of what they had learned.

During the erection of the new greenhouses the students were given every opportunity to observe the methods of construction and given explanations and lectures as the work progressed. Practical work was given to the students during the year.

Grading of the rose garden was completed in the fall of 1945, and the area adjacent to the south end of the rose garden was underdrained. North of the residence a large area was underdrained, using a ditching machine. The use of the ditching machine and the drains dug by the students provided a practical demonstration of land drainage.

Trees and shrubs were supplied to other sections of the park system and planting was done from the nursery stock that had become over-crowded. Alongside the driveway at the school entrance the herbaceous border was lifted and planted.

The herb garden and the area in the near proximity to the lecture hall was cleaned up. This area also required considerable work to put it back in shape.

Grading, levelling and seeding and planting of the vistas were done to conform with the general plan of the school area.

Quantities of fresh vegetables and fruit were supplied to the school from early spring to late fall. These were grown on the grounds, and a goodly portion has been stored in the root cellar, for use during the winter months. Further work was found necessary on the root cellar, to keep the frost out. This was done during the fall months.

Construction of a tennis court and the beautification of the pool are now underway. These two projects will provide the students with practical demonstrations of landscape work and construction.

Nine pigs were purchased and fattened from kitchen waste and grain grown at the school, providing fresh meat for the school kitchen. Chickens were raised and fed at the school providing 1113 dozen eggs and 336 pounds of poultry for the table. One hundred and thirty-two dozen eggs were transferred to the res-

taurants along with quantities of vegetables in season. Four hundred and thirty quarts of fruit were canned and ninety put into frozen locker storage.

Facilities and conditions have been greatly improved, both in instruction and working conditions, and every opportunity given the students to become well versed in horticulture.

#### NIAGARA FALLS BRIDGE COMMISSION

Your Commission has had a complete report made by its solicitor with regard to the matter of occupation by the Bridge Commission of certain lands of the Commission, over which the bridge and its approaches pass, and this report has been given to the Chairman in order that he may discuss this whole matter with the Prime Minister and the Ontario Cabinet.

Mention has been made in previous reports about the land area on which are constructed what we call the "Rainbow Gardens". This area lies along the River Road, between the Oakes Garden Theatre and the main wall of the bridge plaza. It extends westerly again to the front wall of the bus terminal and a narrow strip extends from this westerly to Falls Avenue so that the property is roughly "L" shaped. These lands are presently under the title of the Department of Highways and the former Commission agreed to accept responsibility for the original cost of the construction at the gardens, including the flagstone walks, steps, flower beds, balustrades and ornamental stonework. The figure eventually agreed upon, between the Commission and the Department of Highways, was one hundred and forty thousand dollars and the understanding was that the land area would be deeded to the Commission by the Department of Highways. There is, however, a portion of these lands which was acquired by the Department from a former owner and settlement for the same has not yet been finally completed so that the land transfer from the Department to the Commission has not yet been carried out.

At the time of the building of the Bridge, the Department of Highways acquired from your Commission that portion of the River Road lying between what was formerly Newman Hill and Bender Street. This property has not yet been returned to the Commission by the Department of Highways. All of these matters are covered in the report of the investigation by our solicitor, as mentioned above.

An agreement was entered into with regard to policing of the Rainbow Bridge area, and including a portion of the River Road. This agreement is between this Commission, the Department of Highways, the Niagara Falls Bridge Commission and the City of Niagara Falls.

#### GRANTS

The following grants were made during the year:

Grants of \$15.00 and \$10.00 to Niagara Falls Collegiate Vocational Institute students, Ronald Watkinson and William Schlarb, respectively.

Grant of \$3,250.00 to Niagara Falls Illumination Board, under the standing agreement pertaining thereto.

## GUESTS

Itemized below are people and parties of people who were guests of the Commission, during the year:

Police Association of Ontario convention delegates.

Right Honourable Herbert Morrison, British Lord President of the Council, and party.

Field Marshal Lord Maitland Wilson and staff, accompanied by Sir Angus Fletcher, of Buffalo.

Group of labour representatives from the United States.

Liverpool Football Team.

British Naval Cadets.

Lord Mayor of Manchester and party.

Members of South Africa Trade Commission.

Field Marshal Montgomery and party.

Lord Addison, Minister of Dominion Affairs in the United Kingdom, and Lady Addison.

Miss Rhondda Kelly (Miss Australia).

## STAFF

A program of group insurance for the benefit of the employees of the Commission was undertaken, through the Sun Life Assurance Company of Canada and the Zurich General Accident and Liability Insurance Company. Under this program, the employees are covered for sick benefits and accident benefits in connection with accidents not associated with their work and over ninety percent of the staff participated in the scheme. Fifty percent of the cost of the insurance is paid for by the Commission.

The Commission also reviewed the wages of park employees, including labourers and tradesmen, and adjusted these wages to conform, generally, with prevailing wage rates in the Niagara area. Naturally, the advice of the Chairman, the Honourable Charles Daley, who is also Minister of Labour, was a great help in this matter.

The Commission also reviewed the staff with regard to placing as many of the staff who are eligible on the Civil Service list, and made it possible for several additional members of the staff to be placed in line for superannuation. This included several members of the armed forces who have returned to the staff of the Commission, and the Superannuation Board, in accordance with their general policy, have given these employees the option of paying up their back contributions, from the time that they were temporarily appointed to the time of permanent employment. In the case of members of the armed forces, the Commission has agreed, in common with the policy of the Province, to pay the contributions covering the time during which these employees were attached to the armed forces.

All of which is respectfully submitted to Your Honour by:

## THE NIAGARA PARKS COMMISSION

Hon. Charles Daley, Chairman  
Fred M. Cairns, Vice-Chairman  
Wm. B. Rollason  
Harold G. Fox, K.C., Ph.D.  
T. H. Lewis, M.L.A.  
T. F. Forestell, K. C.  
Cecil Secord  
George R. Inglis

Section 123 of The Loan and Trust Corporations Act (R.S.O. 1937, Chapter 257) provides as follows:—

123.—(1) No corporation shall, under the penalty of becoming disentitled to registry or of having its registry suspended or cancelled, make, print, publish, circulate, authorize, or be a party or privy to the making, printing, publishing, or circulating of any statement or representation that its solvency or financial standing is vouched for by the Registrar or that the publication of its statement in his report is a warranty or representation of the solvency of the corporation, or of the truth or accuracy of such statement in any particular.

## DEPARTMENT OF INSURANCE

TO THE HONOURABLE LESLIE E. BLACKWELL, K.C., M.P.P.,

*Minister in charge of the Department of Insurance.*

Sir:

I have the honour to submit herewith, as required by The Loan and Trust Corporations Act, the Fiftieth Annual Report of the Registrar of Loan Corporations. It shows the particulars of the business of each registered loan corporation, loaning land corporation, and trust company doing business in Ontario during 1946, as ascertained from its annual and other returns and from the inspection and enquiries made by the Chief Inspector and his staff. Detailed statements of the individual corporations are grouped herein in accordance with these three classifications recognized by the Act and are further arranged in alphabetical order. In addition, statistical tables, tabulated summaries and comparative statements are included as shown in the Table of Contents.

The annual returns of the corporations covering their 1946 business were filed with the Department at the end of February, 1947. Upon filing, each return was carefully checked and a preliminary Abstract of this Report showing assets, liabilities, revenue accounts, profit and loss accounts and mortgage summaries was prepared and issued under date of May 1st, 1947. The remaining months of the year were required to complete the annual inspection of the corporations, and to determine what changes, if any, should be made in the individual statements of the corporations as a result of such inspections. Any such changes made have not been carried, by reason of the time and expense involved, into the statistical tables and summaries at the end of this report which are reprinted without change as they appeared in the preliminary Abstract.

I have the following registry changes to report:

*"The London and Western Trusts Company, Limited"*

*"The Canada Trust Company"*

An agreement between these companies dated December 20th, 1946, whereby the Assets and Liabilities of The London and Western Trusts Company, Limited

were taken over and assumed by The Canada Trust Company, was approved, ratified and confirmed by the shareholders of both companies on the 4th day of February, 1947, and was approved by Order-in-Council on the 13th day of February, 1947.

*“Capital Trust Corporation, Limited”*

*“Guaranty Trust Company of Canada”*

An agreement between these companies dated 6th day of March, 1947, whereby the Assets and Liabilities of Capital Trust Corporation, Limited were taken over and assumed by Guaranty Trust Company of Canada, was approved, ratified and confirmed by the shareholders of both companies on the 30th day of April, 1947, and was approved by Order-in-Council on the 12th day of June, 1947.

*“Midland Loan and Savings Company”*

*“Canada Permanent Mortgage Corporation”*

An agreement between these companies dated 30th day of August, 1947, whereby the Assets and Liabilities of Midland Loan and Savings Company were taken over and assumed by Canada Permanent Mortgage Corporation, was approved, ratified and confirmed by the shareholders of both companies on the 6th day of November, 1947, and was approved by Order-in-Council on the 4th day of December, 1947.

#### INTRODUCTION :

The Statistical Tables included at the end of this Report have been used for comparative purposes in preparing the following review of 1946 business :

#### LOAN CORPORATIONS :

Total assets of loan corporations have increased \$17,600,000 during 1946 to a total of \$225,370,000. This is the largest increase that has been shown in any single year and continues a trend which started in 1942 when these assets totalled \$194 million. Prior to that time there was an irregular decrease since 1931 when they totalled \$239 million.

The growth in total assets during the past four years has been mainly the result of an increase in Deposits from \$33 million in 1942 to \$62 million in 1946 which is the largest amount shown since statistics have been kept. In 1946 these Deposits increased \$12 million and Debentures payable in Canada also increased \$5 million. As a result of the further redemption of debentures payable in Sterling, debentures payable outside of Canada have continued to decline. These were reduced \$703,000 in 1946 to a total of \$14,195,000 as compared with \$27,-184,000 in 1938.

The following table shows the public liability of loan corporations over the past twenty-two years :

| Year | Deposits     | Debentures Payable           |                  |
|------|--------------|------------------------------|------------------|
|      |              | In<br>Canada                 | Out of<br>Canada |
| 1924 | \$27,757,000 | (\$86,650,000 not separated) |                  |
| 1934 | 31,460,000   | \$83,558,000                 | \$30,085,000     |
| 1938 | 33,589,000   | 74,850,000                   | 27,184,000       |
| 1942 | 33,439,000   | 74,222,000                   | 20,033,000       |
| 1943 | 37,381,000   | 74,737,000                   | 17,872,000       |
| 1944 | 44,384,000   | 73,391,000                   | 15,856,000       |
| 1945 | 50,257,000   | 73,906,000                   | 14,898,000       |
| 1946 | 62,175,000   | 79,141,000                   | 14,195,000       |

Real Estate held for sale has again been reduced in 1946, the decrease being \$1.2 million to a total of \$2.1 million as compared with \$11.7 million in 1939.

In 1931 mortgages held by these companies totalled \$183 million and have steadily declined each year to \$134 million in 1938 and \$107 million in 1945. In 1946 for the first time in this sixteen year period the investment in mortgages has increased; the increase amounting to \$7.6 million to a total of \$114.6 million.

The remainder of the new funds deposited with these companies or invested in their debentures in 1946 has been invested in Dominion Government bonds which increased \$7.3 million, and in stocks which increased \$2.1 million.

The percentage of Dominion of Canada bonds to total assets is 28.69% as compared with 27.63% in 1945 and 6.41% in 1941. Holdings of cash increased \$1,982,000 this year to a total of \$9,321,000 and the percentage of total assets held in cash and Dominion Government bonds has increased from 31.16% in 1945 to 32.83% in 1946, which compares with 11.08% in 1941.

#### TRUST COMPANIES:

Total assets of trust companies (exclusive of those held for estates, trusts and agencies) show an increase of \$26,024,000. Company fund assets of \$64,-020,000 show a decrease of \$2,072,000 in 1946 from the total in 1945. Guaranteed fund assets totalling \$204,381,000 have increased \$28,097,000 due principally to an increase in Trust Deposits of \$17,333,000 and an increase in Guaranteed Certificates of \$10,994,000.

Trust deposits over the past twenty-two years have shown a steady increase and are at the present time at their highest point since statistics have been kept. Guaranteed Receipts have been fluctuating but in the last four years show a substantial increase. The following table of Guaranteed Funds received from the public by trust companies over the past twenty-two years shows the trend of this liability.

| Year | Deposits     | Guaranteed<br>Receipts | Total         |
|------|--------------|------------------------|---------------|
| 1924 | \$11,363,000 | \$42,655,000           | \$ 54,018,000 |
| 1934 | 45,058,000   | 87,493,000             | 132,551,000   |
| 1938 | 56,488,000   | 87,367,000             | 143,855,000   |
| 1942 | 55,033,000   | 80,468,000             | 135,501,000   |
| 1943 | 59,505,000   | 84,056,000             | 143,561,000   |
| 1944 | 69,485,000   | 89,524,000             | 159,009,000   |
| 1945 | 81,968,000   | 94,080,000             | 176,048,000   |
| 1946 | 99,301,000   | 105,074,000            | 204,375,000   |

The increase in total assets of trust companies is mainly represented by an increase of \$18.6 million in Dominion of Canada bonds, \$3.7 million in Canadian Municipal and other bonds and \$3.2 million in mortgages. Dominion of Canada bonds total \$118 million and now represent 27.04% of company funds and 49.31% of guaranteed funds as compared to 22.36% and 48.11% respectively in 1945.

Mortgages on real estate held by these companies have decreased steadily in recent years but in 1946 an increase of \$3.2 million is shown, to a total of \$62,500,000. Real Estate held for sale has again been reduced from \$1,839,000 in 1945 to \$863,000 in 1946 which compares with \$9,367,000 in 1939.

#### PUBLIC LIABILITY — LOAN AND TRUST COMPANIES COMBINED :

The total public liability of both Loan and Trust Companies increased \$44 million in 1946 to a total of \$359 million. This compares with \$168 million in 1924, \$277 million in 1934, \$279 million in 1938. This liability consists of debentures payable by Loan Companies, Guaranteed Investment Receipts issued by Trust Companies and deposits held by both Loan and Trust Companies.

Deposits at December 31st, 1946 were \$161 million as compared with \$132 million at December 31st, 1945, an increase of \$29 million, which compares with an increase during 1945 of \$18 million and an increase of \$17 million in 1944. Deposits have been increasing steadily for the past twenty-two years, being \$39 million in 1924, \$76 million in 1934 and \$90 million in 1938.

#### ESTATES, TRUSTS AND AGENCY FUNDS :

Total assets under administration by all Trust Companies have increased during 1946 by \$60 million to a total figure of \$2,814 million. At December 31st, 1924, the total assets under administration by all companies showed a total of \$823 million.

#### OFFICE PREMISES :

The total investment in office premises for Loan and Trust Corporations amounted to \$10,814,000. This is an increase of \$44,000 from the previous total of \$10,770,000, which is due to the purchase of additional office space.

#### REAL ESTATE HELD FOR SALE :

The following table shows the holdings of real estate during the past twelve years :

| <i>Year</i> | <i>Loan Corporations</i> | <i>Trust Companies</i> |
|-------------|--------------------------|------------------------|
| 1935        | \$ 8,850,000             | \$ 7,151,000           |
| 1936        | 10,146,000               | 8,321,000              |
| 1937        | 12,933,000               | 8,549,000              |
| 1938        | 11,334,000               | 8,938,000              |
| 1939        | 11,731,000               | 9,367,000              |
| 1940        | 12,020,000               | 9,411,000              |
| 1941        | 10,989,000               | 8,379,000              |
| 1942        | 9,617,000                | 6,952,000              |
| 1943        | 8,714,000                | 5,246,000              |
| 1944        | 6,010,000                | 3,172,000              |
| 1945        | 3,296,000                | 1,839,000              |
| 1946        | 2,113,000                | 863,000                |

Real Estate held for sale by all Loan and Trust Corporations shows a substantial decrease of \$2,159,000 during 1946 from a total of \$5,135,000 in 1945 to \$2,976,000 in 1946. In 1940 the total amount of real estate held for sale amounted to \$21,431,000. Holdings of real estate by Loan Corporations now represent .09% of total assets as compared with 6.01% in 1940, while that held by Trust Companies in Company Funds was 1.34% of total Company Assets in 1946 and 15.98% in 1940.

#### MORTGAGE LOANS:

Total mortgages of both Loan and Trust Corporations are carried at balance sheet figures of \$177,200,000, an increase of \$10,820,000 from the total in 1945 of \$166,380,000. Loan Corporations increased their mortgages \$7,632,000 to \$114,664,000, while those of Trust Companies have been increased \$3,188,000 from \$59,348,000 to \$62,536,000.

The summary of mortgages at the end of this Report shows a segregation of farm and urban mortgages by provinces, based on the gross book value before the deduction of special reserves for balance sheet purposes. From this summary the following table has been prepared showing the trend of mortgages of both Loan and Trust Corporations, divided between Western and Eastern holdings for the years 1938 to 1946 inclusive.

| <i>Western</i> | <i>Principal</i> | <i>Interest Charged<br/>and Past Due</i> |
|----------------|------------------|--|
| 1938           | \$80,006,000     | \$5,188,000                              |
| 1939           | 77,632,000       | 5,008,000                                |
| 1940           | 75,072,000       | 5,353,000                                |
| 1941           | 72,086,000       | 5,015,000                                |
| 1942           | 68,680,000       | 5,088,000                                |
| 1943           | 61,102,000       | 3,891,000                                |
| 1944           | 49,155,000       | 1,633,000                                |
| 1945           | 42,837,000       | 869,000                                  |
| 1946           | 41,804,000       | 719,000                                  |
| <i>Eastern</i> |                  |  |
| 1938           | 153,350,000      | 2,042,000                                |
| 1939           | 152,426,000      | 1,834,000                                |
| 1940           | 149,103,000      | 1,581,000                                |
| 1941           | 146,014,000      | 1,222,000                                |
| 1942           | 140,175,000      | 856,000                                  |
| 1943           | 132,970,000      | 615,000                                  |
| 1944           | 128,891,000      | 324,000                                  |
| 1945           | 129,980,000      | 89,000                                   |
| 1946           | 141,922,000      | 76,000                                   |

A segregation between farm and urban mortgage principal owing has been made for the five years since 1942 as follows:

|                | (000 omitted)    |                  |                  |                  |                  |
|----------------|------------------|------------------|------------------|------------------|------------------|
| <i>Western</i> | 1946             | 1945             | 1944             | 1943             | 1942             |
| Farm           | \$ 19,802        | \$ 25,113        | \$ 32,074        | \$ 44,015        | \$ 49,140        |
| Urban          | 22,002           | 17,724           | 17,081           | 17,087           | 19,540           |
| <b>Total</b>   | <b>\$ 41,804</b> | <b>\$ 42,837</b> | <b>\$ 49,155</b> | <b>\$ 61,102</b> | <b>\$ 68,680</b> |

| <i>Eastern</i> | 1946             | 1945             | 1944             | 1943             | 1942             |
|----------------|------------------|------------------|------------------|------------------|------------------|
| Farm           | \$ 8,410         | \$ 7,786         | \$ 7,774         | \$ 7,937         | \$ 8,632         |
| Urban          | 133,512          | 122,194          | 121,117          | 125,033          | 131,543          |
| Total          | <u>\$141,922</u> | <u>\$129,980</u> | <u>\$128,891</u> | <u>\$132,970</u> | <u>\$140,175</u> |
| Total Farm     | \$ 28,212        | \$ 32,899        | \$ 39,848        | \$ 51,952        | \$ 57,772        |
| Total Urban    | 155,514          | 139,918          | 138,198          | 142,120          | 151,083          |
| Grand Total    | <u>\$183,726</u> | <u>\$172,817</u> | <u>\$178,046</u> | <u>\$194,072</u> | <u>\$208,855</u> |

In 1945 it was noted that the decline in mortgages which was evident during the war years had been halted in the case of Eastern mortgages and urban mortgages in Western Provinces. This year there has been a substantial increase in these types of mortgages and only Western farm mortgages have continued to decline.

#### COLLATERAL LOANS:

The total of these loans for both Loan and Trust Corporations is \$13,984,000, which shows a decrease of \$1,484,000 from a total of \$15,468,000 in 1945.

#### BONDS AND DEBENTURES:

Bonds and Debentures held by Loan Corporations total \$76,988,000 and by Trust Companies \$155,250,000, a total for both Loan and Trust Corporations of \$232,238,000, which represents an increase of \$29,868,000 over the previous year's total of \$202,370,000. The investment in Dominion Government bonds has increased \$25,914,000 and Provincial, Municipal and other bonds have increased \$3,954,000 compared to a decrease of \$1,165,000 in 1945.

The following table shows the trend of bonds and debentures of Loan and Trust Corporations for the period from 1941 to 1946:

|                | (000 omitted)    |                  |                  |                  |                  |                  |
|----------------|------------------|------------------|------------------|------------------|------------------|------------------|
|                | 1941             | 1942             | 1943             | 1944             | 1945             | 1946             |
| Dom. of Canada | \$ 41,648        | \$ 51,989        | \$ 81,618        | \$114,059        | \$156,974        | \$182,888        |
| Provincial     | 23,187           | 23,134           | 22,526           | 21,907           | 20,927           | 21,183           |
| Municipal      | 12,162           | 11,188           | 11,267           | 10,744           | 10,897           | 12,106           |
| Other          | 17,441           | 14,355           | 13,483           | 13,910           | 13,572           | 16,061           |
| Total          | <u>\$ 94,438</u> | <u>\$100,666</u> | <u>\$128,894</u> | <u>\$160,620</u> | <u>\$202,370</u> | <u>\$232,238</u> |

During the five years from 1941 to 1946 these corporations have invested \$141.2 million in Dominion of Canada bonds. Dominion of Canada bonds now represent 37.04% of total assets of Loan and Trust Companies as compared with 10.47% in 1941, but with a return to normal conditions we may anticipate that this trend will not continue.

#### STOCKS:

The holdings of stocks by Loan Corporations increased \$2,124,000 in 1946 to a total of \$15,656,000, while Trust Companies' holdings at \$14,575,000 show an increase of \$1,532,000.

#### CASH:

Cash held by Loan Corporations increased \$1,981,000 to a total of \$9,321,000, while total cash of Trust Companies increased \$1,728,000 in 1946 to a total of \$13,223,000.

#### EARNINGS:

Net profits of Loan Corporations (excluding transfers to and from investment reserves) amounted to \$2,871,000 in 1946, as compared to \$3,147,000 in 1945. Trust Companies' net profit on the same basis were \$3,387,000 in 1946, as compared with \$3,199,000 in 1945.

The net amount transferred to investment reserves which have been eliminated from the above figures is \$564,000 for Loan Corporations and \$497,300 for Trust Companies, which compares with \$945,900 and \$453,600 respectively in 1945.

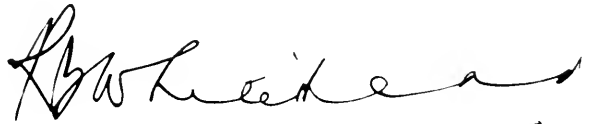

#### DIVIDENDS:

Dividends declared by Loan Corporations in 1946 amounted to \$1,972,000 and by Trust Companies to \$2,007,000 as compared with \$1,948,000 and \$1,876,000 respectively in 1945.

#### LIQUID POSITION:

The percentage of liquid securities held by Loan and Trust Corporations that accept deposits was 110.56% on December 31st, 1946, as compared with 113.50% in 1945, 109.22% in 1944, 80.41% in 1942 and 67.35% in 1939.

All of which is respectfully submitted.

*Registrar of Loan Corporations.*

November 30th, 1947.

Principal 91,414 00  
Interest 39,442 57

**CONSTATING INSTRUMENTS**

This Corporation was incorporated under Special Act of the Dominion of Canada, 62-63 Victoria (1899), c. 101, under the name of "The Canada Permanent and Western Canada Mortgage Corporation," for the purpose of acquiring the assets and business of the Canada Permanent Loan and Savings Company, the Western Canada Loan and Savings Company, the Freehold Loan and Savings Company, and The London and Ontario Investment Company, Limited, which several purchases were confirmed by Special Act of Ontario 63 Victoria, 1900, c. 129. The name was changed to the "Canada Permanent Mortgage Corporation" by 3, Edward VII (1903), c. 94 (D), which Act also amended its lending powers. By 3-4 George V (1913), c. 86 (D), further amendments were made to the Incorporating Act.

Of the constituent companies, the Canada Permanent Loan and Savings Company was incorporated by declaration filed under The Building Societies Act. (Cons. Stat. U.C., c. 53) in 1855, under the name of the Canada Permanent Building and Savings Society, which name was changed to the Canada Permanent Loan and Savings Company by 37 Victoria (Ontario), 1874, c. 100.

The Western Canada Loan and Savings Company was also incorporated by declaration filed under The Building Societies Act in 1863, under the name of the Western Canada Permanent Building and Savings Society, and its name was changed to the Western Canada Loan and Savings Company by 37 Victoria (Ontario), 1874, c. 79.

## CANADA PERMANENT MORTGAGE CORPORATION—Continued

The Freehold Loan and Savings Company was also incorporated by declaration filed under The Building Societies Act in 1859 under the name of The Freehold Permanent Building and Savings Society; the name being changed to The Freehold Loan and Savings Company by 36 Victoria (Ontario), 1873 c. 104.

The London and Ontario Investment Company was incorporated by the Act of Ontario 39 Victoria, 1876, c. 62.

In 1918 the Corporation purchased the assets and business of The Oxford Permanent Loan and Savings Society, which purchase was ratified by Order-in-Council of Ontario, dated July 31, 1918, pursuant to The Loan and Trust Corporations Act.

In 1921, the Corporation purchased the assets and business of The London and Canadian Loan and Agency Company, Limited, which purchase was ratified by Order-in-Council of Ontario, dated September 23rd, 1921, pursuant to The Loan and Trust Corporations Act.

In 1927 the Corporation purchased the assets and business of The Royal Loan and Savings Company, which purchase was ratified by Order-in-Council of Ontario, dated March 4th, 1927, pursuant to The Loan and Trust Corporations Act.

In 1927 the Corporation purchased the assets and business of The British Columbia Permanent Loan Company, Vancouver, B.C.

In 1927 the Corporation purchased the assets and business of The Canada Landed and National Investment Company, Limited, which purchase was ratified by Order-in-Council of Ontario, dated December 30th, 1927, pursuant to The Loan and Trust Corporations Act.

In 1944, the Corporation purchased the assets and business of The Landed Banking and Loan Company, which purchase was ratified by Order-in-Council of Ontario, dated October 18th, 1944, pursuant to The Loan and Trust Corporations Act.

In 1945, the Corporation purchased the assets and business of The Real Estate Loan Company of Canada, Limited, which purchase was ratified by Order-in-Council of Ontario, dated February 2nd, 1945, pursuant to The Loan and Trusts Corporations Act.

In 1946 the Corporation purchased the assets and business of The Montreal Loan and Mortgage Company, Montreal, Que.

  - January, 1946; (b) April 1st; (c) 2%.
  - June, 1946; (b) July 2nd; (c) 2%.
  - September, 1946; (b) October 1st; (c) 2%.
- Date appointed for the Annual Meeting—January 15th, 1947.  
Date of last Annual Meeting—January 16th, 1946.

## CONSTATING INSTRUMENTS

1884—Letters Patent (under the Ontario Government Joint Stock Companies' Letters Patent Act) incorporating The Central Canada Loan and Savings Company of Ontario, with a capital of \$2,000,000, in 20,000 shares of \$100 each, dated 7th March, 1884.

1890—Act (of the Legislature of the Province of Ontario), 53 Vic., c. 129; declares capital to be \$5,000,000, in 50,000 shares of \$100 each; confirms the purchase of the assets of the Peterborough Real Estate Investment Company, Limited; authorizes the issue of debenture stock; authorizes agencies in the United Kingdom; defines the limit of borrowing powers.

1893—Supplementary Letters Patent (of the Province of Ontario), dated 8th June, 1893, extending the Company's purchasing and lending powers with regard to bonds, stocks and debentures to the Province of Manitoba.

1896—Act (of the Legislature of the Province of Manitoba), 59 Vic., c. 33, authorizes Company to exercise in the Province of Manitoba, with respect to real and personal property, all the rights, powers and privileges that it possesses in Ontario.

1897—Supplementary Letters Patent (of Ontario), dated 6th May, 1897, amending the original Letters Patent by expunging therefrom powers of Company to buy and sell land.

1898—Act (of the Parliament of the Dominion of Canada), 61 Vic., c. 97.

1899—Act (of the Legislature of the Province of Manitoba) authorizing Dominion Company to exercise in Manitoba all its rights, powers and privileges; defining the powers of the Company and vesting all the assets of the old company in the new company.

1900—Act (of the Legislature of the Province of Ontario), confirming and validating the conveyance and assignment of 1st December, 1898 (see form of the conveyance and assignment in schedule to 61 Vic., c. 97), and transferring and vesting the assets of the Provincial Company in the Dominion Company.

**CONSTATING INSTRUMENTS**

Incorporated under The Building Societies Act, 9 Vict., c. 90 (Province of Canada), by declaration filed on 27th March, 1847, with the Clerk of the Peace for the Western District. The original corporate name was "The Port Sarnia Building Society." The society was reorganized as "The Lambton Permanent Building and Investment Society" under the said Act and other Acts, all of which became consolidated as Chapter 53 of the Consolidated Statutes of Upper Canada, by declaration filed 19th June, 1855, with the Clerk of the Peace for the County of Lambton. This latter corporate name was changed by Order-in-Council, 4th June, 1880, to The Lambton Loan and Investment Company.

The lending and the borrowing powers are governed by The Loan and Trust Corporations Act, R.S.O. 1937, c. 257.

## CONSTATING INSTRUMENTS

Incorporated under The Building Societies Act, Consol. Sta. U.C., Chap. 53, by declaration filed with the Clerk of the Peace for the United Counties of Northumberland and Durham, 5th July, 1872. (Decl. Book II, 127).

The corporate name was, by Order-in-Council of Ontario, 21st June, 1876 (Ibid.), changed to the Midland Loan and Savings Company.

A by-law altering the amount of the capital stock and par value of the share was, pursuant to The Loan Corporations Act, approved by Order-in-Council of Ontario, 3rd October, 1900.

The borrowing and lending powers are governed by The Loan and Trust Corporations Act, R.S.O. 1937, Chap. 257.

- Date appointed for the Annual Meeting—February 12th, 1947.  
Date of last Annual Meeting—February 13th, 1946.
- Amount of interest permanently capitalized during the year \$ 291 19
- Amount of Company's own Debentures, due and unpaid 40,791 00

**CONSTATING INSTRUMENTS**

Incorporated under The Building Societies Act, Consolidated Statutes of Upper Canada, c. 53, by declaration filed in the office of the Clerk of the Peace for the County of Middlesex, 26th September, 1870. The original corporate name was The Ontario Savings and Investment Society.

By Order-in-Council of Ontario, dated 4th October, 1879, and also by Order-in-Council of Canada, dated 29th October, 1879, the corporate name was changed to The Ontario Loan and Debenture Company.

The Company as now constituted was formed under the provisions of The Loan Corporations Act of Ontario by The Ontario Loan and Debenture Company, taking in by amalgamation the Agricultural Savings and Loan Company under Order-in-Council dated 10th November, 1911, and operates under The Loan and Trust Corporations Act, R.S.O. 1937, chapter 257.

By Order-in-Council of Ontario, dated 12th March, 1930, 20,000 shares twenty per cent. called and paid were converted into 4,000 shares fully paid, the authorized capital thereby being reduced from 100,000 to 84,000 shares.

## CONSTATING INSTRUMENTS

Incorporated as "The Toronto Real Estate Investment Company" by Letters Patent of Ontario (June 15th, 1885), issued under The Ontario Joint Stock Companies' Letters Patent Act, R.S.O. 1877, c. 150. Supplementary Letters Patent of Ontario (December 29th, 1887), were issued under R.S.O. 1887, c. 157, defining the borrowing powers, etc. Further Supplementary Letters Patent of Ontario (September 25th, 1889) were issued under the last mentioned Act, increasing the capital stock from \$400,000 to \$2,000,000. Further Supplementary Letters Patent of Ontario (March 30th, 1891) were issued under the same Act, conferring agency powers on the Company. The corporate name was by Order-in-Council (April 2nd, 1891) changed to "The Toronto Savings and Loan Company."

For the lending and borrowing powers, see the Letters Patent and the Acts, R.S.O. 1877, chap. 150; R.S.O. 1887, chap. 157; R.S.O. 1914, chap. 184; R.S.O. 1927, chap. 223; R.S.O. 1937, chap. 257.

## CONSTATING INSTRUMENTS

Incorporated 20th May, 1905, by special Act of the Legislature of Quebec, 5 Edward VII, chap 78.

Amendments to charter, 9 Edward VII, chap. 114, 7th May, 1909; 5 George V, chap. 125, 5th March, 1915; 7 George V, chap. 102, 22nd December, 1916; 9 George V, chap. 125, 4th March, 1919.

Authorized by special Act of the Legislature of Ontario, 10-11 George V, chap. 156, 4th June, 1920, to transact business therein as specified in Section 5 of the said Act, which enacts as follows:

"(5) The company shall be limited in respect of all business relating to property and civil rights or provincial objects in the Province of Ontario, to the powers mentioned in the schedules to The Loan and Trust Corporations Act, and shall be subject to the general provisions of the said Act and of the general public law of the said Province relating to trust companies and trusts."

The company has a deposit in the Province of Ontario amounting to \$50,000.00. Order-in-Council assented to August 23rd, 1934.

 \$ 14,868 97

## CONSTATING INSTRUMENTS

The British Mortgage Loan Company of Ontario was incorporated by Letters Patent of Ontario, dated October 5th, 1877 (Lib. 5, No. 52), issued under R.S.O. 1877, c. 150, which Act was continued by R.S.O. 1887, c. 157, and was as to Loan Corporations superseded by 60 Vic., c. 38 (O), now R.S.O. 1937, c. 257.

By 16 George V, c. 121, the Company was given trust company powers and its name changed to The British Mortgage and Trust Corporation of Ontario.

The lending and the borrowing powers of the Company are derived from its Letters Patent and the above public general statute.

## CONSTATING INSTRUMENTS

Incorporated by declaration filed May 11th, 1885, with the Clerk of the Peace for the United Counties of Leeds and Grenville. The declaration was made by virtue of "The Building Societies Act," R.S.O. 1877, c. 164, continued by R.S.O. 1887, c. 169, and superseded by 60 Vic., c. 38 (O), now R.S.O. 1897, c. 205. See R.S.O. 1937, c. 257.

The lending and borrowing powers are derived from the above public General Acts.

By a Special Act of the Legislature of Ontario, 19 Geo. V, c. 130, the Company was granted the powers of a trust company and its authorized capital stock was increased from \$500,000 to \$1,000,000. Its name was changed to The Brockville Trust and Savings Company.

**CONSTATING INSTRUMENTS**

The Canada Permanent Trust Company was incorporated in 1913 by a Special Act of Parliament of the Dominion of Canada, 3-4 Geo. V, c. 87.

Authorized by Order-in-Council (May 7th, 1913), to carry on business in the Province of Ontario as a Trust Company, pursuant to the provisions of The Loan and Trust Corporations Act, R.S.O. 1927, c. 223.

In 1927 the Company purchased the assets and business of The Brantford Trust Company, which purchase was ratified by Order-in-Council of Ontario, dated 31st day of August, 1927, pursuant to The Loan and Trust Corporations Act.

**CONSTATING INSTRUMENTS**

The Company was incorporated by Act of Parliament of Canada, Chap. 162, 4-5 Edward VII, assented to 20th July, 1905, under the name of The Title and Trust Company with powers to carry on a general Trust Company business and also title insurance.

By Act of the Legislature of the Province of Ontario, Chap. 118, 7 Edward VII, 1907, assented to April 20, 1907, the Company was empowered to register under the Ontario Insurance Act and under the Loan Corporations Act of the Province.

April 18th, 1914, Amendment to Charter and by further Act of the Parliament of Canada, Chap. 70, 5 George V, assented to April 8th, 1915, the name of the Company was changed from The Title and Trust Company to Chartered Trust and Executor Company, the business of title insurance having been discontinued.

## CHARTERED TRUST AND EXECUTOR COMPANY—Continued

By further Act of the Parliament of Canada, Chap. 98, 9-10 George V, assented to July 7th, 1919, the Company was empowered to acquire the business of any other Company and to sell and dispose of its own business. (The last mentioned Act was preliminary to the acquisition of Guardian Trust Company, Limited.)

By Act of the Parliament of Canada, Chap. 75, 19-20 George V, assented to May 1st, 1929, the capital stock of the Company was increased to \$2,500,000.00.

By Act of the Legislature of the Province of Quebec, 25-26, George V, Chapter 150, the Company acquired the business of Quebec Savings and Trust Company on March 23rd, 1936.

## CONSTATING INSTRUMENTS

Incorporated on the 12th June, 1925, by Special Act of Parliament of Dominion of Canada; registered as a Trust Company in Ontario, 13th day of May, 1926.

*Fidelity Trusts Company of Ontario.* By Order-in-Council dated November 29th, 1940, the Lieutenant-Governor-in-Council formally approved an agreement dated October 8th, 1940, by which "Guaranty Trust Company of Canada" purchased certain assets and assumed the liabilities of the "Fidelity Trusts Company of Ontario". The "Fidelity Trusts Company of Ontario" ceased registry June 30th, 1941.

*Niagara Falls Loan and Savings Company, Guaranty Trust Company of Canada.* An agreement between these companies dated 20th day of December, 1943, ratified by shareholders of both companies on the 29th and 30th days of December, 1943, respectively, whereby the assets and liabilities of the loan corporation were taken over and assumed by the trust company as of the 13th day of January, 1944, was approved by an order-in-council dated the 13th day of January, 1944.

5. Amount of Company's own Guaranteed Investment Receipts and interest thereon, *due* and unpaid 20,617 06

**CONSTATING INSTRUMENTS**

Incorporated under The Building Societies Act., R.S.O. 1887, c. 169, by declaration filed with the Clerk of the Peace for the County of Lambton, 20th August, 1889.

By Order-in-Council approved March 6th, 1907, pursuant to the provisions of Section 4 (6), cap. 27, 63 Victoria, the authorized capital stock of the Company was increased from \$500,000.00 to \$1,000,000.00.

By 18 George V. Chapter 112, the Company was given Trust Company powers and its name changed to The Industrial Mortgage and Trust Company.

By 24 George V, Chapter 79, the Company assumed the liabilities and purchased under agreement the business, assets, etc., of The East Lambton Farmers' Loan and Savings Company.

The lending and borrowing powers are governed by The Loan and Trust Corporations Act R.S.O. 1937, c. 257.

By Order-in-Council approved 22nd April, 1936, the Lieutenant-Governor assented to The Industrial Mortgage and Trust Company assuming the liabilities and purchase under agreement dated 24th December, 1935, of the business, assets, etc., of The Crown Savings and Loan Company.

6. Amount of Company's own Guaranteed Investment Receipts and interest thereon, *due* and unpaid 51,330 00

## CONSTATING INSTRUMENTS

Incorporated on the 17th September, 1896, by Letters Patent of Ontario, issued under The Ontario Joint Stock Companies' Letters Patent Act, R.S.O. 1887, Chap. 157. See also The Loan and Trust Corporations Act, R.S.O. 1937, Chap. 257.

February 18th, 1929—Order-in-Council confirming By-law No. 14 of the Corporation to increase the capital stock from \$500,000.00 to \$1,000,000.00.

August 21st, 1929—Order-in-Council confirming By-law No. 18 of the Corporation to increase the capital stock from \$1,000,000.00 to \$5,000,000.00.

On the 10th day of September, 1929, His Honor the Lieutenant-Governor approved by Order-in-Council the removal of the Head Office of The London and Western Trusts Company, Limited, from the City of London to the City of Toronto.

By an agreement, dated the 15th day of October, 1929, The London and Western Trusts Company, Limited, of London, Ontario, purchased the assets and liabilities, business, rights, property and goodwill, etc., of The Standard Trusts Company with Head Office in Toronto, Ontario. The agreement was ratified and confirmed by the shareholders of both companies and was subsequently approved by the Lieutenant-Governor-in-Council. The transfer became effective on the 18th day of December, 1929. The Standard Trusts Company had, by authority of By-law No. 35, moved its Head Office from Winnipeg to Toronto, and was granted registry in Ontario under date of October 26th, 1929.

June 28th, 1932—Order-in-Council assenting to the conversion of partly paid shares into fully paid shares equivalent to the amount paid in on account of subscriptions not including premiums.

## CONSTATING INSTRUMENTS

The Montreal Trust Company was incorporated on the 21st day of March, 1889, by Special Act of the Province of Quebec, 52 Vic., c. 72 (Q) and the following subsequent special amending Acts, 54 Vic., c. 75; 55-56 Vic., c. 78; 63 Vic., c. 77; 20 Geo. V, c. 139; and 24 Geo. V, c. 121.

By Special Acts the name was changed in 1895 to Montreal Trust and Deposit Company, 59 Vic., c. 70 (Q), and again in 1909 to the Montreal Trust Company, 9 Edw. VII, c. 115 (Q).

Authorized by Order-in-Council to carry on business in the Province of Ontario as from the 11th day of March, 1909, subject to certain conditions and limitations.

Registered in the Trust Companies Register, January 21st, 1913.

By Order-in-Council, dated February 25th, 1928, the Capital Stock was increased from \$1,000,000.00 to \$2,000,000.00.

The Company has a deposit with the Province of Ontario amounting to \$200,000.00. Order-in-Council assented to 6th July, 1909.

3. Date appointed for Annual Meeting—March 12th, 1947.  
    Date of last Annual Meeting—March 13th, 1946.

**CONSTATING INSTRUMENTS**

The Prudential Trust Company, Limited, was incorporated in 1909 by a Special Act of the Parliament of the Dominion of Canada, 8-9 Edward VII, Chapter 124.

Authorized in 1911 by Special Act of the Legislature, 1 Geo. V, Chapter 139, to transact business in the Province of Ontario as specified in Section 1 (5) of the said Act, which enacts as follows:

“(5) The Company shall be limited in respect of all business relating to property, rights or interests in the Province of Ontario, to the powers mentioned in this Act or granted from time to time to trust companies by any Public Act or Order of the Lieutenant-Governor in Council of the said Province and shall be subject to the general public law of the said Province relating to trust companies and trusts.”

In 1922, by Chap. 71, George V, 12-13, the authorized capital was increased from \$1,500,000 to \$2,000,000 representing 20,000 shares of par value \$100.

In 1930, by Chap. 70, George V, 20-21, the capital structure was altered to represent 100,000 shares of stock with a par value of \$20 a share.

In 1934 by Bill No. 11, 5th Session, 17th Parliament 24, George V, the par value of the shares was reduced from \$20 to \$10.

Under the provisions of 1 Geo. V, c. 139, as amended by 10 Geo. V, c. 158, the deposit as security to do business in Ontario may be fixed from time to time by the Lieutenant-Governor in Council. By Order-in-Council, dated June 15th, 1920, the Company's deposit of \$200,000 was reduced to \$50,000.00. By Order-in-Council, dated July 4th, 1933, the deposit required was further reduced to \$30,000.00.

The Company has a deposit in the Province of Ontario amounting to \$30,000.00.

Date of last Annual Meeting—February 12th, 1946.
4. Amount of fees paid to the Company from advances made by it during the year—\$17,000.00 (estimated).

## THE ROYAL TRUST COMPANY—Continued

## CONSTATING INSTRUMENTS

The Royal Trust Company was incorporated in 1892, by Special Act of the Province of Quebec, 55-56 Vict., chap. 79, which was amended by 55-56 Vict. (1892), chap. 80 (Q), and by 59 Vict. (1895), chap. 67 (Q), and by 63 Vict. (1900), chap. 76 (Q), 6 Edw. VII (1906), chap. 73 (Q), 17 Geo. V (1927), chap. 96 (Q), 19 Geo. V (1929), chap. 104 (Q).

Authorized by Special Act of the Legislature of Ontario, 2 Edw. VII. (1902), chap. 103, to transact business therein as specified in Section 1 (5) of the said Act, which enacts as follows:

"(5) The Company shall be limited in respect of all business relating to property, rights or interests in the Province of Ontario, to the powers mentioned in the schedule to The Ontario Trust Companies' Act, and shall be subject to the general provisions of the said Act and of the general public law of the said Province relating to trust companies and trusts."

The Company has a deposit in the Province of Ontario amounting to \$200,000.00.

5. Amount of Company's own Guaranteed Investment Receipts and interest thereon, *due* and unpaid \$ 138,294 76

## CONSTATING INSTRUMENTS

Incorporated under The Building Societies Act, 1887, c. 169, as amended by 56 Vic., c. 31 (O), by declaration filed with the Clerk of the Peace for the County of Victoria, on the 4th September, 1897.

The operations of the Company were for a time by law restricted to the County of Victoria (56 Vic., c. 31), continued by R.S.O. 1897, c. 205, s. 8 (4); but the Company, having fulfilled the statutory requirements, was by Letters Patent of Ontario, bearing date 11th November, 1898, relieved from the above restriction of its operations.

By a Special Act of the Legislature of Ontario, 13 Geo. V, c. 107, the Company was granted the powers of a trust company and the name was changed to The Victoria Trust and Savings Company. (See also The Loan and Trust Corporations Act, R.S.O. 1937, chap. 257).

**CONSTATING INSTRUMENTS**

Originally incorporated as a Loan Corporation by Letters Patent, 7th April, 1913, under The Loan and Trust Corporations Act, 2 Geo. 5, 1912, chap. 34, now R.S.O. 1937, chap. 257. The original corporate name was The Waterloo County Loan and Savings Company.

By a Special Act of the Legislature of Ontario, 12-13 Geo. V, c. 148, the Company was granted the powers of a trust company and the name was changed to the Waterloo Trust and Savings Company.

FILED BY

# Loan and Trust Corporations

DECEMBER 31st, 1946, and JUNE 30th, 1947

Pursuant to Sections 49 or 19 (3) of the Loan and Trust  
Corporations Act.

Sec. 49. Every loan company receiving deposits shall make a sworn return to the Registrar quarterly on the 15th days of January, April, July and October in each year, drawn in accordance with the form prescribed from time to time by the Registrar, showing the amount of such deposits and showing the amount of cash on hand and on deposit and the amount of debentures, bonds, stock or other securities of or guaranteed by the Dominion of Canada, and of or guaranteed by any province of Canada less any incumbrances thereon and the amount of bonds, debentures and other securities of any municipal corporation in Ontario or of any city in Canada, less any incumbrances thereon and the bonds or debentures issued by any incorporated company in respect of which bonds or debentures annual or semi-annual payments sufficient to pay both principal and interest thereof are, by virtue of any general Act of the Dominion of Canada, payable by the Government of the Dominion of Canada to a trust company as trustee for the holders of such bonds or debentures, and the principal amount of any moneys payable to the company on demand the payment of which is secured by the mortgage or pledge of any of the securities hereinbefore in this section mentioned as the said amounts stood at the end of the last preceding month, and stating that the same were at the date mentioned in such return on hand and available for depositors.

Sec. 19.—(3) Every trust company receiving deposits in the manner authorized by subsection 3 of section 19 shall make a sworn return to the Registrar quarterly on the 15th days of January, April, July and October in each year, drawn in accordance with the form prescribed from time to time by the Registrar, showing the amount of such deposits and showing the amount of cash on hand and on deposit, and the amount of debentures, bonds, stock or other securities of or guaranteed by the Dominion of Canada, and of or guaranteed by any province of Canada, less any incumbrances thereon, and the amount of bonds, debentures and other securities of any municipal corporation in Ontario or of any city in Canada, less any incumbrances thereon, and the bonds or debentures issued by any incorporated company in respect of which bonds or debentures annual or semi-annual subsidy payments sufficient to pay both principal and interest thereof are, by virtue of any general Act of the Dominion of Canada, payable by the Government of the Dominion of Canada to a trust company as trustee for the holders of such bonds or debentures, and the principal amount of moneys payable to the company on demand, the payment of which is secured by the mortgage or pledge of any of the securities hereinbefore in this subsection mentioned, as the said amounts stood at the end of the last preceding month, and including in such statement all such cash and securities and loans as defined in this subsection, whether owned by the company or held by it as guaranteed investments under the provision of subsection 2 of section 17, or subsection 4 of section 18, and stating that the same were at the date mentioned in such return on hand and available for depositors.

**REPORT**

**OF THE**

# **Minister of Public Works**

**FOR THE**

**PROVINCE OF ONTARIO**

**FOR THE**

**TWELVE MONTHS ENDING MARCH 31st, 1946**

Printed by Order of  
THE LEGISLATIVE ASSEMBLY OF ONTARIO  
SESSIONAL PAPER No. 8—1947

**T O R O N T O**

Printed and Published by the Printer to the King's Most Excellent Majesty

1947

TO:

THE HONORABLE RAY LAWSON, O.B.E., LL.D.,  
*Lieutenant-Governor of the Province of Ontario.*

MAY IT PLEASE YOUR HONOUR:

As required by law, I submit for the information of Your Honour and the Legislative Assembly, the Annual Report of the works under the control of the Public Works Department, comprising the reports of the Deputy Minister, the Architect, Engineer, Secretary and Accountant for the twelve months ending the 31st of March, 1946.

Respectfully submitted,

GEO. H. DOUCETT,  
*Minister of Public Works.*

Department of Public Works, Ontario,  
Toronto, March 25, 1947.

# R E P O R T

OF THE

## Deputy Minister of Public Works

---

THE HONOURABLE GEORGE H. DOUCETT, M.P.P.,  
Minister of Public Works,  
Toronto, Ontario.  
Parliament Buildings,

SIR:

I have the honour to submit to you the accompanying reports of the Architect, Engineer, Secretary and Accountant for the financial year, April 1, 1945, to March 31, 1946.

### ARCHITECT'S BRANCH

This report shows increasing activity in the preparation of plans for the many projects required to provide the accommodation needed by the various departments of the Government.

The Architect's report fully deals with the various projects started, or brought to completion, and it will be noted that considerable work was done, despite the difficulty of securing labour and materials.

### ENGINEER'S BRANCH

Repairs to the locks and dams in the Northern Districts have been carried out where necessary; the work being done by day labour.

A concrete dam was built on the south channel of the Pickering River, which, together with the dam built in the north channel last year, improves this River for navigation for a distance of approximately 30 miles.

The usual drainage work was done under the appropriation for Municipal Drainage and five Municipalities were granted aid in accordance with the provisions of the Provincial Aid to Drainage Act.

### SECRETARY AND ACCOUNTANT'S BRANCH

The statement of revenue shows a considerable increase over the previous years, but this is on account of monies received from the Dominion to cover the costs of restoring buildings for purposes of the Province after occupancy by the Dominion.

The expenditures for ordinary and capital purposes are summarized as follows:

|  |                       |
|--|-----------------------|
| Main Office .....                                  | \$ 161,537.34         |
| Maintenance and Repairs, Government Buildings..... | 872,078.19            |
| Total Ordinary —.....                              | <u>\$1,033,615.53</u> |
| CAPITAL  |                       |
| Public Buildings and Public Works .....            | \$ 451,723.07         |
| Total Expenditure .....                            | <u>\$1,485,338.60</u> |

In submitting the aforementioned Reports, I desire to point out that the various projects enumerated were carried out under the direction of the late Deputy Minister, Mr. R. A. McAllister, whose decease occurred on August 1, 1946.

Mr. McAllister was appointed Assistant to the Deputy Minister of this Department, effective February 15, 1937, and was promoted to the position of Deputy Minister as of July 1, 1937. His sudden passing was a great loss to this Department.

I have the honour to be, Sir,

Your obedient servant,

G. N. WILLIAMS,

*Chief Architect and Deputy Minister.*

TORONTO, March 25, 1947.

## REPORT OF THE ARCHITECT

THE HONOURABLE GEORGE H. DOUCETT, M.P.P.,  
*Minister of Public Works.*

SIR:

I have the honour to report on the work done by the Architect's Branch of the Department of Public Works, Ontario, during the fiscal year, April 1st, 1945, to March 31st, 1946, as follows:

ONTARIO GOVERNMENT INSTITUTIONS LOANED  
 TO  
 THE DEPARTMENT OF NATIONAL DEFENCE, CANADA

During this fiscal year, the following Ontario Government Institutions, which were previously turned over, all or in part, to the use of the Department of National Defence for purposes of World War II, are still being retained for this purpose, except as specially noted hereinafter, for Ontario Hospital, St. Thomas.

Ontario Hospital, London (portion of lands only).  
 Industrial Farm, Monteith.  
 Normal School, Ottawa.  
 Boys' Training School, Bowmanville.  
 Ontario Hospital, Brampton.  
 Ontario Hospital, St. Thomas (partial return started).

In the case of the Ontario Hospital, St. Thomas, negotiations for the return of this Institution of the Province have been underway for some time and we have been taking over the premises, building by building, as the work of restoration by the Dominion, is completed. The official termination arrangements have not as yet been completed.

The following Institutions have been returned by the Department of National Defence to the Province following termination of lease arrangements:

Returned during this fiscal year:

Girls' Training School, Galt, as of April 20th, 1945.

Returned previous to this fiscal year:

Ontario Hospital, Port Arthur (Administration Building) as of February 15th, 1944.

Ontario Reformatory, Mimico, as of May 1st, 1944.

Agricultural School, Kemptville, as of May 1st, 1944.

Normal School, Toronto, as of July 12th, 1944.

Ontario School for Deaf, Belleville, as of July 15th, 1944.

Training College for Technical Teachers, Hamilton, as of September 1st, 1944.

Ontario Agricultural College, Guelph, as of February 19th, 1945.

Further remarks regarding the return and reconversion of these Institutions will be found in the body of this report under their respective sub-divisions.

A considerable amount of work was rendered by this Branch of the Department in connection with the continued use of the above enumerated Institutions still on loan to the Department of National Defence, as well as in connection

with the above Institutions referred to as being returned to the use of the Province during this fiscal year.

The stringent conditions affecting the construction industry with regard to material and skilled labour supply and the acute housing problem which prevailed throughout this fiscal year, made it extremely difficult for this Department to undertake much work and many projects planned for this year were, of necessity, set aside awaiting more favourable conditions. The preparation of the working drawings for many projects, however, was continued, but this work also was greatly hampered by the shortage of skilled technical personnel.

### LEGISLATIVE AND DEPARTMENTAL BUILDINGS

The working drawings for the proposed two-wing extension to the East Block were further developed.

Working drawings for the initial stages of remodelling the East Wing of the Parliament Buildings were started and included plans for a new fire tower stair at the north end of the east wing and new fire tower stairs and elevator shafts at the east entrance and at the grand staircase of the same wing. Plans for remodelling the lavatories at the north end of the east wing were also prepared for inclusion in this initial programme.

General routine repairs, replacements and changes were carried out in all trade branches, but this work also was restricted by the material and labour supply situation referred to above.

The work in this category for this group of buildings included repairs, replacements or changes, as required, in each instance in connection with roofs, plastering, masonry, windows, doors and other interior wooden trim and other finishes.

General repairs and replacements were also carried out in connection with furniture, furniture upholstery, linoleum, blinds and other such equipment.

A considerable amount of interior painting was done and extra shelving provided for the various departments.

Repairs, replacements and changes were carried out in connection with plumbing, heating, ventilation, refrigeration and electrical systems and the elevators were regularly inspected and repairs made as required.

The electric lighting system was improved in some offices and this work will be extended as materials become available.

Numerous sectional partitions were installed in various offices throughout the Parliament Buildings and East Block to divide existing offices.

Included in the general work, as above described, the following items were considered to be of sufficient interest to warrant mention for purposes of record, in this report:

#### *Parliament Buildings:*

The south elevator in the North Wing, which was out of commission during the war years, was repaired and put into operation.

Owing to the serious scarcity of sheet metal, the need for new and additional ballot boxes was met by the conversion of surplus ammunition boxes to

suit the requirements of the Election Officer. This work was done by our maintenance mechanics.

Lighting of the Press Gallery desks was improved by the installation of individual desk lamps.

Office Directories were installed in the corridors of the North Wing, (Education Department) for the convenience of the public.

New asphalt paving was laid over the subsurface portion of the Treasury Vault in the North Wing.

Separate transformers were placed on the operating mechanisms on the doors of the two East Wing elevators, so that they could be continued in operation in the event of a power failure in the lighting circuits.

#### *East Block:*

The work of repointing the exterior stonework of the building started in the previous year, was continued throughout this fiscal year, but progress was still limited by shortages of material and labour.

Installation of office directories and illuminated directional signs, started in the previous year, was completed during this fiscal year.

The entrance steps and sidewalk at the north entrance to the East Block were rebuilt and the lamp standards relocated, following the widening of St. Alban's Street by the City of Toronto.

The sidewalk at the coal vault on Surrey Place was relaid and the ramp extended six feet to the south.

A new dishwashing machine and dish tables were installed in the Civil Service Cafeteria, the cold storage rooms were enlarged and separate refrigeration machines provided. A new travelling type, gas operated toaster was provided.

The vault door on the bond vault was overhauled.

New wash sinks and counters were installed in the central washup room in the Department of Health Laboratories.

A special electric generator was installed in the Industrial Hygiene Division for operating special apparatus.

Accoustical ceilings were applied to various rooms throughout the Buildings, where large groups of business machines were in operation and the noise level was found to be distracting.

General repairs were made to the boiler plant, including complete overhaul of stokers and boiler feed pumps, new soot blower elements were installed in the boilers and the ammonia compressor on the refrigeration system was overhauled. Extensive replacements were made of radiator traps.

#### *Subsidiary Buildings:*

Minor general repairs in various trade branches were carried out in the following buildings:

Numbers 11, 15 and 39 Queen's Park.

112 College Street.

454 University Avenue (Liquor Control Board).

807 Richmond Street West (Sewage Laboratory).

Department of Highways' Garages, Surrey Place and Leaside.

Department of Health, Serology Laboratory Annex, Mimico.

Department of Health, Office Annex, 1011 Queen Street West.

The following items are listed for purposes of record:

At 112 College Street, the old heating boiler was removed and the heating system connected up with the steam distribution mains originating at the East Block boiler plant. The interior of the building was redecorated throughout and extensive repairs were made to the roofs, downpipes and eavestroughing.

At 454 University Avenue, the hot water generator was retubed, the furnace linings repaired and general repairs made to the elevator.

At 11 Queen's Park, repairs were made to floors and woodwork following a minor fire which was confined to one office.

#### *Osgoode Hall:*

General routine repairs, replacements and minor changes were carried out at these premises. The following items are mentioned for purposes of record:

A new flagpole was set up in the grounds, replacing the old flagpole which was located on the peak of the centre pediment at the roof level and was found to be inaccessible when the roofs were ice covered.

A rest room for women members of the staff was installed.

Extensive changes were made to the heating distribution piping, a large number of traps were placed on radiators and general repairs made to boilers, stokers and pumps.

### EDUCATIONAL BUILDINGS

#### *Normal and Model School, Toronto:*

These premises were continued in use as a Rehabilitation Centre by the Department of Education under a Dominion-Provincial Training Programme.

Minor repairs only were carried out by this Department, as the school took care of the buildings generally as a part of the Vocational Training Programme.

The use of the former Earl Kitchener School on Pape Avenue, Toronto, as temporary quarters for Normal School work was continued during this fiscal year and general routine repairs and maintenance carried out, including repairs to boilers and mechanical equipment. Some new tubes were installed in the heating boiler, the hydraulic ash hoist was overhauled and the temperature control apparatus repaired and adjusted.

#### *Normal and Model School, Ottawa:*

These premises are still on loan to the Dominion Government and, as noted in my previous annual report, were loaned as of November 1st, 1939.

The Normal School classes are being carried on in temporary quarters located in the Mutchmor School, Ottawa.

A strip of the land forming the grounds of this school, fronting on Elgin

Street, was deeded by the Province to the Federal District Commission, Ottawa, for street widening purposes.

*Normal School, London:*

Minor routine repairs were made to this building and to the master clock system and minor stoker replacements were made.

*Normal School, Hamilton:*

Minor repairs, as required, were made to this building; repairs were made to the programme clock system and the temperature controls were overhauled.

An unused steam engine was removed and given to the Re-Establishment Institute, Toronto, for teaching purposes.

New grates were installed in the heating boiler and the water main in the engine room repaired.

*Normal School, North Bay:*

Minor repairs, were made to this building, including repairs to plumbing, piping and a new radiator installed in basement, replacing pipe coils. The flag pole was taken down and painted. A safe was provided for the Principal's office.

*Normal School, Peterborough:*

Minor repairs, generally, were made and in addition, a new motor drive was installed on the ventilation system to allow ventilating fan to be operated when steam plant is not in use. Classrooms No. 1 and No. 4, the main hall and entrance vestibules, and the hall on the second floor were painted.

The ash hoist was overhauled and new drains installed in this area.

Boiler repairs were carried out, including installation of 58 new tubes.

*Normal School, Stratford:*

Routine repairs made at this building: included repairs to the main stair-case and, in addition, the large storage cabinet in the sewing room was removed and rebuilt to provide smaller portable cabinets for the other classrooms. The fixed seats in the Assembly Hall were removed and reassembled in groups of four, to allow for their easy removal so that this room could be used for other purposes, as required. The floor of the Assembly Hall was repaired.

Boiler No. 2 was completely retubed, repairs made to the firebrick linings and the fire door arches were rebuilt. General repairs were made to the heating system and temperature controls.

*Ontario School for Deaf, Belleville:*

The restoration work undertaken by this Department, following the return of this Institution by the Dominion Government to the Province on July 15th, 1944, was, for the most part, completed. The guard house left by the R.C.A.F. at the entrance gates was disposed of and the grounds restored.

A model domestic science suite was installed, including: four model kitchens, laundry, living and bedroom units for teaching purposes.

The hallways and main kitchen in the school building were painted, 10 new ironing boards were provided for the laundry, and a new reversing switch installed in the washing machine.

In addition, general routine repairs, as required, were carried out, including renovation of stokers and the installation of a new refractory front wall in No. 3 boiler.

*Ontario School for Blind, Brantford:*

General routine repairs were made at this School and the programme clocks were repaired and adjusted.

Extensive repairs and renewals were made to window shades in classrooms, repairs to heating system, included rebuilding of No. 3 boiler front, repairs to stokers and renewal of 200 radiator traps.

*Ontario Technical Teachers' Training College, Hamilton:*

The restoration work at the College, following its return to the sole use of the Department of Education, after joint use with the Dominion Government, for the most part was completed and during this fiscal year, routine general repairs were made, as required.

*Provincial Institute of Mining, Haileybury:*

The former, town-owned, Mining School building and land at Haileybury was purchased by this Department on September 17th, 1945, and the premises turned over to the Department of Education for operation as a Mining Institute.

## AGRICULTURAL BUILDINGS

*Ontario Agricultural College, Guelph:*

As noted in my previous annual report, the portion of the premises and buildings at this College, which had formerly been on loan to the Department of National Defence, were returned to the use of the Province as of February 19th, 1945. After this date, the work of restoring the building and grounds to their former condition, as required to meet the needs of the College, was undertaken by this Department, after completion of arrangements, under the agreement with the Dominion Government whereby the cost of such restoration was reimbursed to the Province.

The work of restoration was carried on during the year, limited only by material and labour supply conditions, and at the end of the financial year, the work was completed, or substantially completed, in the following buildings:

- Administration and Students' Residence.
- MacDonald Hall.
- MacDonald Institute
- Mills Hall
- Watson Hall
- Maids' Dormitory
- Trent Institute
- Ault Farm
- Skating Rink

To cope with a greatly increased post-war student enrolment, the Department of Agriculture made an urgent request for widespread extension of acco-

modation, of a temporary nature, in all main departments of the College, including student dormitory accommodation, and this work was undertaken by the Department of Public Works. Some progress was made before the end of this financial year, but, as in the case of the restoration work referred to above, this work was also limited by the general shortage of labour and materials.

The work under this heading, included:

A former R.C.A.F. outstation building was altered to provide new accommodation for the Bacteriological Department of the College.

A large addition to provide greatly increased laboratory and classroom facilities for the Chemistry Department was started.

A large laboratory and classroom addition to the Soils Building was started.

A start was made on the work of converting previously unused spaces in Mills Hall and the Horticultural Building, to obtain the much needed added residence accommodation for students.

In addition to the foregoing items of restoration work, alterations and extensions, this Department also carried out general maintenance and repair and replacement work in all branches of construction on the various buildings of the College, beyond the scope of the staff maintenance mechanics at the College.

#### *Ontario Veterinary College, Guelph:*

Increased accommodation at this College was requested to meet the needs of greatly increased student enrolment, and in this case, permanent extensions were considered necessary. Plans and specifications were prepared, contracts awarded and the work started on a large three-storey addition, of fire-resisting construction, to the Main College building; considerable alteration and renovation work in the present building is also included in the programme. The accommodations of all departments of this College will be much enlarged and improved by these operations.

Construction work was also started at this College, on the following new outbuildings:

A new Hog Clinic, with special equipment for heating and ventilation to permit isolation of each pen.

A new building for fox and mink.

A new laboratory building with separate laboratories for poultry and small fur-bearing animals.

In addition to the foregoing, general routine repairs were made to the existing buildings.

#### *Agricultural School, Kemptville:*

The restoration work, following return of this School to the Province from the Dominion Government, was substantially completed during the financial year, and other general improvements and repairs made, including installation of a new dishwasher in the main kitchen, a new extractor in the laundry, and general overhaul of the lock and keying system.

New roofs were applied on four staff houses and repairs were made to slate roofs of main building.

*Experimental Farm, Ridgeway:*

Routine repairs were made to various buildings as required.

*Demonstration Farm, Hearst:*

A small parcel of land which protruded into the Demonstration Farm area was purchased, to complete the block of property.

*Horticultural Experiment Station, Vineland:*

The new sewage disposal system started in the previous fiscal year, was completed and connections made to the various buildings, replacing the old and obsolete separate septic tanks.

Construction work on the proposed Horticultural Products Processing Laboratory Building was postponed, owing to the urgent need for building materials for housing purposes.

Routine general repairs were made to the various buildings, including heating and plumbing repairs and repairs to roofs. A new hot water boiler was installed in the Kelley Cottage and kitchen cabinets and other shelving were built in the boarding house.

*Demonstration Farm, New Liskeard:*

General repairs were made to the various buildings.

## DISTRICT BUILDINGS

*Algoma:*

*Court House, Sault Ste. Marie.* Routine repairs were made, including repairs to chimney brickwork.

*Gaol, Sault Ste. Marie.* Routine repairs were made. Nine new prison locks were installed on the exterior doors and a safety screen installed in the visiting room.

*Cochrane:*

*Court House, Cochrane.* Routine repairs were carried out.

*Lock-up, Hearst.* Minor repairs were carried out.

The Constables' quarters were enlarged by the addition of one bedroom and clothes closets.

*Lock-up and Office Building, Matheson.* Routine repairs were made.

*Kenora:*

*Court House, Kenora.* Routine repairs were carried out.

*Gaol, Kenora.* Routine repairs were made, metal weather stripping was applied to windows and exterior doors, a vault door, removed from the Court House, North Bay, was built in to provide a vault for gaoler.

*Gaoler's Residence, Kenora.* Routine repairs were made.

*Government Office Building and Lock-up, Sioux Lookout.* Routine repairs were made, including redecorating of about 75% of the interior of the building.

*Manitoulin:*

Routine repairs were made at the Gaol and some minor alterations carried out to allow this building to be used as a lock-up by the Provincial Police.

*Muskoka:*

*Court House, Bracebridge.* Routine repairs were carried out, including new linoleum laid in Police Office and Clerk's Office.

*Gaol, Bracebridge.* Routine repairs were made, including repairs to roof. A canopy was erected over the side entrance and safety screens provided for gaol winds.

*Registry Office, Bracebridge.* Routine repairs were made.

*Nipissing:*

*Court House, North Bay.* General routine repairs were carried out, as required.

*Gaol, North Bay.* Routine repairs were made and a safety screen purchased for later installation in the visiting room.

*Registry Office, North Bay.* Routine repairs were made.

*Parry Sound:*

*Court House, Parry Sound.* Routine repairs were made.

*Gaoler's House, Parry Sound.* Routine repairs were made.

*Lock-up, Burk's Falls.* Routine repairs were made.

*Rainy River:*

*Court House, Fort Frances.* Routine repairs were made, including repairs to plaster work in Court Room and four offices.

*Gaol, Fort Frances.* Routine repairs were made and safety screens installed on gaol windows.

*Lock-up, Atikokan.* A four-room cottage was purchased and moved to a site adjoining the Lock-up, to provide living quarters for the Constable, a bedroom and office were added.

*Sudbury:*

*Court House, Sudbury.* General routine repairs were carried out. Three rooms were fitted out for Juvenile Court and Offices, the work included plaster-work, mastic tile floors, new lighting, new furniture and a raised dais for the Judge.

*Gaol, Sudbury.* Routine repairs were made and alterations carried out to provide a visiting room with safety screen.

*Registry Office, Sudbury.* Routine repairs were made.

*Temiskaming:*

*Court House, Haileybury.* Routine repairs were made.

*Gaol, Haileybury.* Routine repairs were made.

*Lock-up, Elk Lake.* Routine repairs were made.

*Lock-up, Englehart.* Routine repairs were made and the exterior of the building painted.

*Mining Recorder's Office, Szeastika.* Routine repairs were made.  
*Thunder Bay:*

*Court House, Port Arthur.* General routine repairs were carried out and a general programme of renovation was started, including, extensive replastering work, improvements to electric lighting system, Venetian blinds provided for large Court Room windows and additional office space was provided for the Registrar.

*Gaol, Port Arthur.* Routine repairs were made and 64 new prison locks were provided and installed.

*Registry Office, Port Arthur.* Routine repairs were made.

*Registry Office, Fort William.* Routine repairs were made.

### ONTARIO HOSPITALS

#### *Ontario Hospital, Brampton:*

This Institution, as noted in my previous report, is still on loan to the Department of National Defence and its occupancy was continued during this fiscal year.

#### *Ontario Hospital, Brockville:*

General routine repairs were carried out, including some roof repairs and repairs to greenhouse.

Alterations were made to the former Hydro-Therapy units to provide medical examination rooms in each admission ward, and a former storeroom on the main floor of the main building was fitted out for the same purpose.

An order was placed for a new stainless steel pasteurizing machine.

#### *Ontario Hospital, Cobourg:*

General routine repairs were made, including extensive repairs to roofs of Patients' Dininghall, Dormitories 3, 4, 5 and 6 and connecting passageways, eavestroughing and downpipes were replaced and a new roof was laid over the pump house.

#### *Ontario Hospital, Fort William:*

Routine repairs were made and the incoming Hydro power line was renewed to improve power distribution.

The kitchen in the Superintendent's Residence was completely remodelled.

#### *Ontario Hospital, Hamilton:*

General routine repairs were made, including extensive repairs to roofs, eavestroughing and downpipes on the buildings, generally. The underground water supply pipe to two staff residences at the main entrance was renewed and a new hot water heating system was installed in the Chief Attendant's Resi-

dence, replacing the old stove heating. A large chimney on the East House was removed and the roof repaired. New steel suspensions were installed for Boilers Nos. 5 and 6 and a new safety valve provided for No. 6 Boiler.  
*Ontario Hospital, Kingston:*

(*Rockwood*). General routine repairs were carried out, including repairs to roof of Superintendent's Residence, which required extensive remodelling of cornices to eliminate further deterioration at old built-in gutters. An unused chimney at the main kitchen was taken down and kitchen ventilation was improved by installation of two exhaust fans.

Three new fire escapes were erected on the Nurses' Residence and one at the Assembly Hall in the main building; exit doors were provided, leading to these escapes and proper exit illumination was installed. Stairways were renewed in the New Court Cottage and the Vocational Building. The Power House chimney stonework was repointed and extensive repointing done on building stonework generally.

A reconditioned steam boiler was provided for the Piggery. A new hot water tank was installed in the pump house and the layout of this room generally revised to allow for improved servicing arrangements. A new water softening unit was provided for the laundry, replacing an old worn out unit.

(*Mowat*). Routine repairs were made and a new hot water tank was installed in the heating plant and the piping revised.  
*Ontario Hospitals, Langstaff and Concord:*

*At Langstaff*—General routine repairs and renewals were made, including repairs to roofs. The cold storage room in the main kitchen was renovated including new cork insulation and plaster interior finish.

Defective tubes were removed and replaced with new tubes in the piggery boiler.

*At Concord*—General routine repairs and renewals were carried out, including renovation of cold storage room. The sewage disposal plant was completely overhauled, including renovation of building.

*Ontario Hospital, London:*

Routine repairs were made and new roofs were laid over two sunrooms in Examination Building and over Ward 4 of the Main Building.

Safety valves on Boiler No. 6 were overhauled.

*Ontario Hospital, New Toronto:*

General routine repairs were carried out, including repairs to eavestroughing and downpipes generally throughout the patients' buildings. Unused chimneys were removed from Cottage 5 and the roofs repaired. Alterations were made to the Administration Building, to provide separate consultation offices for medical staff. An underground pipe trench was built between the main group of buildings and the Superintendent's Residence; steam and return piping installed and the residence heated from the central boiler plant. A new bathroom was installed in the Superintendent's Residence, replacing obsolete fittings and fixtures. A survey was made of the sanitary and storm water drainage systems and storm water pipes found to be connected to the sanitary drains, were diverted to the storm drain system.

A complete set of dry tubes were installed in No. 2 boiler.

*Ontario Hospital, Orillia:*

General routine repairs were carried out, particularly to brickwork, plaster-work, eavestroughing and down pipes throughout the Institution.

The new 300-bed hospital unit, mentioned in my previous report, was completed during this fiscal year and turned over to the Department of Health on September 1st, 1945.

Plans were prepared and work started on a 30-stall addition to the cow stable to provide for the milk needs for the new 300 bed unit. Two new bull pens were built into the former root storage space and separate exercising yards erected.

Plans were prepared for remodelling the old natural ice cold storage rooms at the central stores, and a mechanical refrigeration system was installed complete with ice-making unit.

New roofs were laid over the Piggery and one-half of the Infirmary Building.

Three new stop and check valves were provided for steam boilers.

*Ontario Hospital, Penetanguishene:*

Routine repairs were made, including repairs to the roofs of staff houses. A new storm drain was laid in the farmyard.

*Ontario Hospital, Port Arthur:*

Routine repairs were carried out as required.

*Ontario Hospital, Toronto (999 Queen Street West):*

General routine repairs were carried out and a new bathroom was installed in the Superintendent's Apartment in the Main Building.

A new hot water storage tank was installed in the boiler plant.

*Psychiatric Hospital:*

General routine repairs were carried out by Parliament Buildings' staff Mechanics.

*Ontario Hospital, Whitby:*

General routine repairs were made, including extensive repairs to tile roofs, roofs were laid over parts of Infirmary Building and on Grove House. Repairs were made to sidewalks at Women's Cottages and Administration Building.

*Ontario Hospital, Woodstock:*

General routine repairs were made, including extensive repairs to plaster-work.

*Ontario Hospital, St. Thomas:*

Arrangements were made during the fiscal year for the return of this Institution to the Province from the Department of National Defence. In this case, the work of restoration was undertaken by the Dominion Government and the buildings taken over progressively as the restoration work was completed in each unit.

General routine repairs were carried out in the buildings as taken over by

the Province and orders placed for furniture, furnishings, laundry equipment and other items of equipment required to re-equip this Hospital for use by the Department of Health.

The work of repointing exterior stonework started the previous year, was continued during this fiscal year.

## EXAMINATION OF PLANS FOR THE DEPARTMENT OF HEALTH

Generally, plans were examined and recommendations forwarded to the Department of Health in connection with new construction, alterations and additions to General Hospitals, Hospitals for Incurables, Red Cross Hospitals, Sanatoria and Private Hospitals.

Proposals of various kinds were dealt with this fiscal year in connection with the following:

### *General Hospitals:*

### ONTARIO REFORMATORIES

*Andrew Mercer Reformatory Toronto:*

Routine repairs were made, including repairs to cavestroughing and down-pipes and the electric lighting was improved in the Bursar's Office and stores.

*Ontario Reformatory, Mimico:*

Preliminary sketches and studies were made of the Brick Making Plant and equipment in preparation for its complete overhaul and modernization, to increase the quality and production rate, as required to meet the needs of this Department's future building programme.

A new walk-in refrigerator with mechanical refrigeration was installed in the main kitchen.

*Ontario Reformatory, Monticith:*

This Institution, as noted in my previous report is still on loan to the Department of National Defence and its occupancy was continued during this fiscal year.

*Industrial Farm, Burwash:*

Co-operation was given to the Superintendent of this Institution in the matter of their building programme, which included the erection of staff residences built from plans previously prepared by this Department.

*Ontario Reformatory, Guelph:*

The farm lands at this Institution were extended by the purchase of a 100-acre farm lying to the northeast of the present Reformatory property.

### ONTARIO TRAINING SCHOOLS

*Boys' Training School, Boxmanville:*

The buildings and lands of this School were vacated by the Dominion Government during this fiscal year and the restoration work required to be carried out prior to their return to the Province was undertaken by the Dominion Government. The School, however will not be returned to the use of the Province until restoration work has been completed.

The Department of Public Works carried out repairs to the flat roofs over the main school buildings, the Herdsman's house and the Engineer's house.

Alterations were made to the Superintendent's House to improve the bedroom arrangements.

*Boys' Training School, Galt Division:*

This School (formerly known as the Girls' Training School, Galt) was returned by the Department of National Defence to the use of the Province on April 20th, 1945, and the work required to adapt the buildings for use as a Boys' School was undertaken during this fiscal year.

*Girls' Training School, Cobourg:*

General routine repairs were carried out, including repairs to roofs generally, and a new sewage disposal bed was laid at the former Haas residence. Wire guards were installed on gymnasium windows.

Fire escape stairs were erected on the former McCook and Haas Residences and a new Hydro service was brought into these residences.

## DEPARTMENT OF HIGHWAYS BUILDINGS

Co-operation was given to the Department of Highways in the matter of the preparation of working drawings and specifications for new Highways' buildings, and alteration to existing Highways' buildings. Supervision of the erection of these buildings was also undertaken by this Department and inspections were made of divisional headquarters and other buildings in connection with alteration work as required.

During this fiscal year, working drawings and specifications were prepared and the work supervised in connection with:

A new paint shop and laboratory building at Leaside.

A new snowplow shed for two plows at Pembroke.

## ONTARIO GOVERNMENT OFFICE BUILDINGS

*Ontario Government Building, Kingston:*

Minor repairs were carried out at this building, including repairs and replacements to heating, plumbing and electrical systems.

*Ontario Government Building, New Liskeard:*

Minor repairs were made to this building, the office of the Public Health nurse was redecorated and a small storage cupboard provided. The heating system was repaired and replacements made, as required.

DRAWINGS AND REPORTS PREPARED AND OTHER WORK  
RENDERED FOR THE VARIOUS DEPARTMENTS  
OF THE GOVERNMENT

In addition to the preparation of working drawings and specifications required for the various items of work carried out by this Department and recorded hereinbefore, the following items of work, of a special nature, and for projects not proceeded with during this fiscal year, are listed as a matter of record:

*For Department of Lands and Forests:*

Working drawings were prepared for a Superintendent's Residence and a workshop and garage at the Forestry Research Station, Maple, and supervision

of the construction of these buildings, and a Files Storage Building at the same location was provided.

Sketch plans were prepared for a Fish Culture Laboratory Building, also at Maple.

Sketch plans were prepared for a large extension to the Air Service Division Hangar Building at Sault Ste. Marie and included, extensions to workshops, fabric shop, heating plant and other departments at the Station. A new engine test house was also studied.

Sketch plans were prepared for new entrances and gate lodges at east and west approaches to Algonquin Park.

*For Department of Agriculture:*

A site for the proposed Food Terminal Warehouse at the westerly approach to the City of Toronto was purchased.

Sketch plans were prepared for a proposed new Students' Dormitory building at the Agricultural School, Ridgetown.

Working plans were prepared for a potato storage building for the Cochrane District.

Working drawings were prepared for the following buildings and other work at the Ontario Agricultural College, Guelph:

New steam generating unit for Power Plant and

Extensions to chimney and coal hopper and conveyor system.

Sketch plans were prepared for the following proposed building work at the Ontario Veterinary College, Guelph:

Autopsy and Incinerator Building.

Residence for Principal.

Sketch plans were prepared for proposed conversion of R.C.A.F. Hangar at Cayuga to suit requirements of Rural Youth Training Centre.

Plans were examined and reported upon for proposed Community Centre at Port Lambton.

*For Department of Attorney-General:*

Working drawings were prepared for the following:

Alterations to Court House, Kenora.

Alterations to Court House, Port Arthur.

New Lock-up and Magistrate's Court Room, Red Lake.

Addition to Lock-up, Hearst.

*For Department of Education:*

Plans were examined and reported upon for:

Addition to Collegiate and Vocational School, Kirkland Lake.

Addition to Collegiate and Vocational School, Welland.

Leases were drawn up for rented accommodation in the Canadian Car and Foundry premises at Fort William and Canadian National Railway Building at London, as required for the Canadian Vocational Training Centres at these points.

*For Department of Health:*

Sketch plans were prepared and working drawings started for a proposed new Hospital for Mental Defectives for Eastern Ontario.

Sketch plans were also prepared for the following:

Health Department Laboratory, Timmins.

Health Department Laboratory, Sault Ste. Marie.

Health Department Laboratory, Windsor.

Typical X-ray Department layout.

New lavatories for attendants, Ontario Hospital, Toronto.

Typical health centres for elementary schools.

Typical plans for mental hospitals.

Working drawings were prepared for the following:

New underground Hydro-Electric service, Ontario Hospital, New Toronto.

Standard detail for Serological bath, Health Laboratories.

New lighting system for Health Laboratories, Ontario Government Building, Kingston.

*For Department of Highways:*

Working drawings were prepared for the following:

Garage and workshop, Stratford.

New lighting, Divisional Offices, Chatham.

*For Department of Legislation:*

Revised seating plans were prepared for House Galleries.

*For Department of Labour:*

Sketch drawings were prepared for the Factory Inspection Branch for use in connection with investigation into explosion in grain elevator at Port Arthur.

*For Department of Prime Minister:*

Departmental organization charts were revised as required and photostatic copies arranged for.

*For Department of Provincial Secretary*

Working drawings were prepared for the following:

Alterations to boiler room, Ontario Reformatory, Mimico.

New boiler settings, Ontario Reformatory, Mimico.

Sketch plans were prepared for the following:

Alterations to Triple Dormitory Building, Boys' Training School, Bowmanville.

Alterations to Cottage C, Boys' Training School, Galt.

Alterations and modernization of the brick and tile making plant, Ontario Reformatory, Mimico.

Plans were examined and reported upon for new buildings at St. Joseph's Training School, Alfred.

*For Department of Provincial Treasurer:*

#### PROVINCE OF ONTARIO SAVINGS OFFICES

Co-operation was given in the usual manner to the Head Office management of the Savings Offices in the matter of general routine maintenance and repair work at the branches where such work was requested and renewals of expiring leases were negotiated and arranged as directed.

*For Department of Welfare:*

Sketch plans were prepared for study purposes for a proposed Home for the Aged.

Inspections were made of heating systems at Day Nurseries at Parliament Street, Weston Road and Dawes Road in Toronto District.

#### BOILER INSPECTIONS

The boiler inspection work of this Department was carried out by the Heating Engineer, as an addition to his duties as Chief Stationary Engineer for the Parliament Buildings, assisted by the Inspector of Mechanical Services.

Excluding the plants which have been loaned to the Department of National Defence for their own operations and responsibility in connection with the Institutions loaned for purposes of World War II, the inspection work covered this year under the above heading may be described as follows:

The boilers and boiler equipment and heating equipment of the Legislative and Departmental Buildings, Osgoode Hall, Educational Buildings, Agricultural Buildings, District Buildings, Ontario Government Hospitals, Ontario Training Schools and Ontario Reformatories were inspected and reported upon for safety and proper operation and to determine the extent of the repairs and materials needed for such repairs to properly maintain and operate the power and heating plants in the various building groups referred to. In the case of the Ontario Hospitals and the Ontario Reformatories, the reports, as referred to, were sent to the Department of Health and Provincial Secretary, respectively, for their attention in the matter of making repairs recommended.

The recommendations contained in these reports regarding plants in all the other building groups, referred to in this section, were attended to by the Department of Public Works.

I have the honour to be, Sir,

Your obedient servant,

GEORGE N. WILLIAMS,

*Chief Architect.*

Toronto, March 31st. 1946.

## REPORT OF THE ENGINEER

THE HONOURABLE GEORGE H. DOUCETT, M.P.P.,

*Minister of Public Works.*

Parliament Buildings.

SIR :

I have the honour to report on the work done by the Engineer's Branch of the Department of Public Works, Ontario, during the fiscal year April 1, 1945, to March 31, 1946.

As usual, all work was done by day labour under local foremen employing local men wherever possible.

The maintenance of locks, dams, docks and navigable channels was carried out. The south Dollars Dam was built in concrete. Drainage work was done in nine districts. Aid was granted to five drainage schemes under the Provincial Aid to Drainage Act.

Maintenance work was as follows :

*Buoys :*

All buoys on navigable channels taken out by ice and spring floods were replaced to make channels safe for navigation.

*Port Carling Locks :*

A lot of the planking in the docks at the locks was very badly decayed and unsafe. This was renewed with new 3" plank. Some repairs were also made to the locks to put them in proper working order.

*Bala Dams :*

The decks of these dams were badly decayed and unsafe. New 2" plank was put in to replace the decayed timber.

*Deer Lake Dam :*

This old timber dam was leaking badly due to the decayed condition of the timber in it. Wooden sheeting was driven along the face of the dam and gravel was placed against this sheeting to stop this leakage.

*Clearwater Lake Dam :*

This dam is in the Rainy River District and backs water up on a chain of lakes to provide navigation for tourists and for commercial purposes. It is an old timber dam, and the upper part had become badly decayed and it was liable to be washed away by the spring floods. This would have caused considerable damage to cottages on the lower lakes as well as ruining the navigation above.

The decayed timbers were removed and new timbers put in. Some new sheeting was put on the face of the dam and gravel put in to stop any leakage through it. It will now be safe for several years.

*Pickeral River Dam :*

This is a concrete dam, and there is an earth dam on a ravine to the

west of the main dam which had partly washed away and was liable to ruin navigation on the lakes above. This earth dam was strengthened by filling in on the upper face with earth and gravel so that it is now safe.

#### *Dollars Dam :*

Last year the concrete dam on the north channel of the Pickerel River was completed. This year a concrete dam was built on the south channel to replace the old timber dam which had become badly decayed and unsafe.

This dam is 65 feet long at the top and 25 feet high at the centre. It is built on solid rock. It has a sluiceway 18 feet wide by 10 feet deep which is provided with 12" x 12" timber stop logs to control the water level. Winches are provided to handle the stop logs. It has a timber deck 16 feet wide extending all across the top to enable workmen to operate the stop logs.

These dams make navigation possible on the Pickerel River from Loring to the dams, a distance of about 30 miles. This is a very scenic route for tourists, and the fishing and hunting are excellent on these waters.

#### *Municipal Drainage :*

Drainage work was carried out in the following districts: Addington, Parry Sound, Nipissing, Victoria and Haliburton, East Simcoe, North Renfrew, South Renfrew, Peterborough, and Sudbury.

#### *Provincial aid to Drainage :*

#### *Holland Marsh Drainage Scheme :*

This scheme comprises about 7,000 acres of low-lying land which is too low for natural drainage and so has to be drained by embankments and pumping. The scheme was started over twenty years ago, and the two pumps had become badly worn and inefficient, so it was decided to install two new pumps. Two new Pomona centrifugal pumps were installed, one of 30,000 Imperial gallons per minute driven by a 100 h.p. electric motor and the other of 15,000 gallons per minute driven by a 50 h.p. electric motor. The motors are of the vertical type, directly connected to the shafts of the pumps, thus eliminating any belts or gears.

New intake flumes and pump wells were built of reinforced concrete, and these serve as a foundation for the pump house, which is 16 feet by 32 feet. The pump house is of frame construction, lined on the inside with V-sheeting and on the outside with one-inch lumber covered with cedar grain asbestos shingles. The walls are insulated with rock wool. The roof is covered with asbestos shingles, and the floor is of reinforced concrete.

The dykes surrounding the marsh had settled, thereby endangering the marsh to flooding during spring floods. These dykes were built up to make them safe against floods.

All this work was examined and found to be completed in a very satisfactory manner.

The total cost of the work was \$32,421.06 and on a report of a grant of \$6,484.21, being 20% of the cost, was paid to the Township of West Gwillimbury, in accordance with the Provincial Aid to Drainage Act.

*Burke Drainage Works, Harwich Township:*

This is a pumping scheme in which about 1,500 acres of low-lying land is drained by embankments and pumping. It is situated on the north shore of Lake Erie, and the embankment along the lake shore has been a source of trouble and expense since the scheme was started in 1914.

In the spring of 1943 the high water of the lake and the wave action broke through the embankment and a lot of emergency repair work had to be done to prevent flooding the whole area. Mr. George A. McCubbin, Civil Engineer, of Chatham, was consulted and the embankment was repaired according to his report, plans and specifications.

In 1930 a timber sea wall was built for a distance of 3,000 feet along the shore at the east end of the dyke. Groynes were built from this wall extending 50 feet out into the lake and spaced 50 feet apart. The sea wall and groynes were built by driving timber piles 6 feet apart, bolting 6" x 8" walings to the piles and driving 6" sheet piling along the walings. During the high water of the lake in the spring of 1943 most of this sea wall proved to be too low, and Mr. McCubbin recommended raising it and the groynes 20 inches higher for a distance of 2,000 feet. This was done by driving new round piles half-way between the old piles and bolting 6" x 8" longitudinal timbers to the new piles. Three new groynes were built to the west of the sea wall and were similar to the old one.

In addition to the work done on the sea wall a new pump house was built and a new Pomona centrifugal pump of 30,000 Imperial gallons per minute driven by an International Harvester Co. Diesel engine of 120 h.p. was installed. The pump house is 16 feet by 22 feet, built of concrete blocks, resting on a concrete foundation with metal roof.

The total cost of all this work was \$39,519.29. The work was examined and found completed in a satisfactory manner. On report a grant of \$7,903.86, being 20% of the cost of the work, was paid to the Township of Harwich.

*McGregor Creek Drain, Howard Township:*

This drain was repaired in accordance with the report, plans and specifications prepared by Mr. G. A. McCubbin, Civil Engineer, of Chatham.

The repairs consisted of deepening and widening the old drain from King's Highway No. 21 between lots 12 and 13 just north of the 5th Concession road westerly across lots 12 to 1, Concession 5, Howard Township, then crossing into Harwich Township and continuing west to lot 21, Concession 12 in that Township. The total length of drain improved was a little over 7 miles. It was widened to a bottom width of 4 feet at the upper end, gradually widening to 24 feet at the lower end. The depth of cut averaged about 2 feet and the side slopes were 1 to 1.

The cost of this work was \$17,642.00. The work was examined and found completed in a satisfactory manner and on report a grant of \$3,528.40, being 20% of the cost, was paid to the Township of Howard.

*Little Bear Creek Drain, Camden Township:*

This drain was repaired in accordance with the report, plans and specifications prepared by Mr. G. A. McCubbin, Civil Engineer, of Chatham.

The repairs consisted of deepening, widening and straightening the old

drain from the boundary road between Camden and Zone Townships on lot 3, westerly across Camden Township to lot 1, Concession 6, a total distance of 7 miles. It was widened to a bottom width of 4 feet at the upper end and 14 feet at the lower end. The depth of cut averaged about 2 feet and the side slopes are 1 to 1.

The cost of the work was \$11,579.00. The drain was examined and found completed in a satisfactory manner. On report a grant of \$2,315.80, being 20% of the cost, was paid to the Township of Camden.

*Duck Creek Drain, Rochester Township:*

This drain was repaired in accordance with the report, plans and specifications prepared by Mr. C. B. Allison, Civil Engineer, of Belle River, Ontario.

The repairs consisted of cleaning out the old drain by deepening and widening it from the line between lots 29 and 30, Concession 2, north of Lake St. Clair, a distance of a little over  $4\frac{1}{2}$  miles. It has a bottom width of 3 feet at the upper end, gradually widening to 25 feet at the lower end. The depth of cut averaged about 2 feet and the side slopes are 1 to 1.

The cost of these repairs was \$19,957.77. The work was examined and found completed in a satisfactory manner, and on report a grant of \$3,991.55, being 20% of the cost, was paid to the Township of Rochester.

I have the honour to be, Sir,

Your obedient servant,

J. W. HACKNER.

*Engineer of Public Works.*

Toronto, March 31, 1946.

Department of Public Works, Ontario.  
TORONTO, March 31st, 1946.

THE HONOURABLE GEORGE H. DOUCETT, M.P.P.,  
*Minister of Public Works.*

SIR:

I have the honour to submit detailed statements of Ordinary Expenditure of Civil Government and Maintenance and Repairs of Government Buildings and Public Works; also Capital Expenditure on Provincial Public Buildings and Public Works during the fiscal year which ended on the 31st of March, 1946.

I have the honour to be, Sir,

Your obedient servant,

S. WOOD,

*Secretary and Accountant.*

SUMMARY OF EXPENDITURE  
FOR FISCAL YEAR APRIL 1st., 1945 to MARCH 31st., 1946

| SERVICE                                       | ORDINARY       | CAPITAL      | TOTAL          |

TO HIS HONOUR

THE LIEUTENANT-GOVERNOR IN COUNCIL

May It Please Your Honour:

The undersigned has the honour to present to Your Honour the twenty-seventh Report of the Department of Labour of the Province of Ontario for the fiscal year ending March 31, 1946.

All of which is respectfully submitted,

CHARLES DALEY,

Minister of Labour.

# **ANNUAL REPORT OF THE DEPARTMENT OF LABOUR**

## **For the Fiscal Year Ending March 31, 1946**

### **FACTORY INSPECTION BRANCH**

CHIEF INSPECTOR, DEPARTMENT OF LABOUR: J. R. PRAIN

The sixtieth annual report of the Factory Inspection Branch covers the fiscal year ending March 31, 1946. The cessation of hostilities in Europe in May, 1945, and later in the Pacific, showed immediate effect in the industries of Ontario. A lay-off of large numbers of workers in munitions plants followed the removal of pressure in the production of war materials. Consequently the numbers of employees in all industries reported by the inspectors during the fiscal year showed a considerable decrease, as practically all munitions plants were visited during the lay-off period. However, many of these released workers were absorbed later in peacetime production and a great improvement in the employment situation was noted for the last four months of the year.

### **INDUSTRIAL HAZARDS**

The heavy accident toll, always present in the metal trades and particularly so in war industries, dropped approximately twenty-five per cent during the year. Similar reductions in the numbers of accidents reported were noted in the chemical industry and conveyances and rubber groups, which were active in the production of war materials until recently. On the other hand, increases in accidents were recorded in the pulp and paper trades, woodworking, leather goods and wearing apparel industries, all of which have increased production in the reconversion period.

With the prospect of increased output after the shuffle from wartime to peacetime production is completed and ex-service men have been absorbed back into industry, the need for special care in accident prevention work increases. The inspectors have been instructed to cover their territory in a thorough manner to see that safeguarding practices are maintained and to ensure, if possible, that these men who have survived the hazards of battle may be preserved intact in the peace they have earned for us.

Pressure of production to replace commodity shortages in every line will approach the stress of wartime for an extended period, but the long hours of labour and overtime, which are one of the main causes of the high accident rate, are now restricted by the provisions of The Hours of Work and Vacations with Pay Act, 1944.

### **HOURS OF WORK**

The results of the administration of this Act were apparent in the hours of work recorded for workers in industry. Approximately 90 per cent of the total number employed in the establishments visited by the inspectors during the year were working not more than forty-nine hours per week, as compared with approximately 50 per cent the preceding year.

With the general reduction in daily and weekly working hours, there was a decided decrease in the numbers of women working under overtime permits later than 6.30 p.m. During the year overtime permits were issued to 530 firms for overtime work for 6,320 women on 8,094 occasions, as compared with 509 firms affecting 14,898 women on 10,516 occasions.

## SPECIAL AUTHORITIES

The policy of issuing special authorities for the employment of women on multiple shifts during the twenty-four hour period was continued during the closing months of the war and authorities for this purpose were issued to thirty-three firms in connection with the employment of 4,415 female workers.

As these authorities were issued to continue effective during the war period and the manpower shortage, and no date of termination was set, it was considered likely that many of these firms had discontinued night shift operations without notifying the Factory Inspection Branch, while others continued night shifts. Accordingly all firms issued with special authorities were informed in writing of their cancellation to take effect March 31, 1946.

The following table indicates the numbers of firms to whom authorities were granted during the war period for the various shifts and the numbers of women affected:

|   | Shifts       | Number of firms | Number of female employees affected |
|---|--------------|-----------------|-------------------------------------|
| 2 | 8-hour.....  | 34.....         | 3,068                               |
| 2 | 9-hour.....  | 51.....         | 8,512                               |
| 2 | 10-hour..... | 236.....        | 33,927                              |
| 3 | 8-hour.....  | 159.....        | 31,658                              |

A special committee appointed for the purpose considered applications from industries active in essential war production for the extension of working hours for women beyond the limitations of The Factory, Shop and Office Building Act. It is the consensus that the concessions granted under these authorities assisted materially in the war effort of the Province during the dark days of the war.

Consideration has been given to a limited extension of night shifts for women where firms engaged in the manufacture of food products and other essential industries are experiencing difficulty in replacement with skilled male help.

## RESTAURANTS

Ninety-five permits were issued to restaurant proprietors for the employment of female workers over eighteen years of age up to but not later than 2 a.m. While these permits extend the closing hour for employment of women in restaurants, they do not permit an increase in their daily or weekly working hours, which are limited under The Hours of Work and Vacations with Pay Act, 1944.

Special authorities for the employment of women in industrial cafeterias located in factories on night shifts were cancelled as of March 31, 1946, in a manner similar to the cancellation of authorities applying in industry.

## CHILD LABOUR

There was a great decrease in the number of violations of the section of the Act prohibiting child labour. The prosecutions undertaken under this section in the previous year proved effective in curbing the employment of boys and girls under fourteen years of age. Most of these violations occurred during the summer recess from school and in practically every instance incorrect ages were given by the children in order to obtain employment, and proof of age was not required by the employers. These violations were corrected immediately in all cases without recourse to prosecution.

### HOMework

During the year 2,200 permits were issued to homeworkers to undertake the manufacture or assembly of household articles or wearing apparel in their homes, and 501 permits were issued to firms to give out this type of work. To prevent abuses in the matter of wages, the prices paid for this work were approved by the Minimum Wage Branch before permits were issued.

### GENERAL

During the winter the inspectors were called in to the Branch for the usual one-week conference, and opportunity was afforded for thorough discussion of the many problems which confront them in carrying out inspections in their respective districts. In order to ensure more frequent inspections of all industries in the Province, five additional inspectors were appointed and plans are under way to revise territorial boundaries for inspection districts.

Appreciation is again expressed for the efficient services of the staff of the Industrial Hygiene Division of the Department of Health made available to this Department in the prevention of accidents and industrial diseases.

### PLANS FOR BUILDINGS

The Examiner of Reports and Designs approved the plans of 913 new factory, shop and office buildings, or additions and alterations to such buildings during the fiscal year. Their total estimated construction cost amounted to \$33,151,685. During the previous fiscal year 735 projects costing \$17,607,685 had been approved. The number of expansion projects costing more than \$100,000 greatly increased, particularly since the cessation of hostilities.

The graph on page nine depicts the total estimated values of buildings approved by the Factory Inspection Branch during the fiscal years nineteen twenty-seven to nineteen forty-six inclusive.

The increase of this fiscal year over the two preceding years was directly due to the cessation of hostilities and relaxation of building restrictions. The maximum values of the war years and this fiscal year were duplicated only during the nineteen twenty-eight and nineteen twenty-nine fiscal years but many non-productive buildings, such as large office buildings, were erected during the latter period. Thus the productive capacity of this province has increased more during the last six years than during any equal period and the possibilities for employment are proportionately greater.

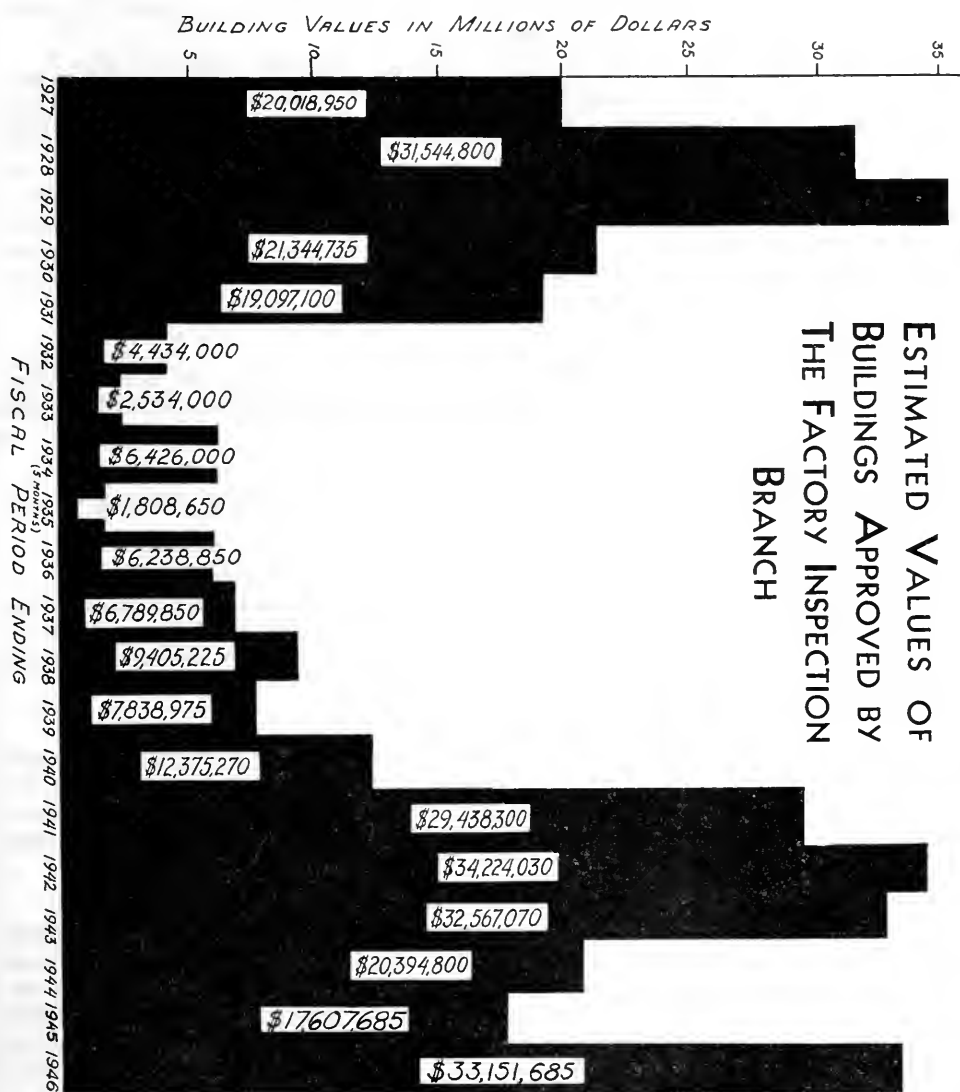

Employers who operated a factory comprising both old and new buildings during the war were able to measure the benefits in increased production and to observe that employees were attracted by buildings of recent design. Many such employers are now endeavouring to replace the old inefficient buildings as soon as practicable.

To compare the growth of the various industries and trades in the Province during the year, the following table has been prepared.

#### CLASSIFICATION OF APPROVED BUILDING PLANS

| Trade or industry            | Number of plans | Value of buildings  | Percentage of total value |
|------------------------------|-----------------|---------------------|---------------------------|
| Bakeshops.....               | 6               | \$ 114,000          | .34                       |
| Chemicals.....               | 93              | 7,417,600           | 22.41                     |
| Clay, glass and stone.....   | 26              | 563,435             | 1.70                      |
| Clothing.....                | 12              | 302,250             | .91                       |
| Conveyances.....             | 10              | 255,200             | .77                       |
| Food.....                    | 143             | 2,718,200           | 8.20                      |
| Garages.....                 | 44              | 937,200             | 2.82                      |
| Laundries and cleaners.....  | 20              | 199,350             | .60                       |
| Leather.....                 | 8               | 132,800             | .40                       |
| Lumber.....                  | 8               | 139,000             | .42                       |
| Metals.....                  | 253             | 7,931,500           | 23.94                     |
| Offices.....                 | 29              | 1,033,100           | 3.12                      |
| Paper trades.....            | 18              | 3,538,300           | 10.69                     |
| Plastic working.....         | 3               | 365,000             | 1.10                      |
| Printing and publishing..... | 36              | 582,650             | 1.76                      |
| Rubber.....                  | 12              | 1,375,100           | 4.14                      |
| Restaurants.....             | 5               | 22,000              | .07                       |
| Shops.....                   | 12              | 361,800             | 1.09                      |
| Textiles.....                | 37              | 1,378,250           | 4.15                      |
| Tobacco.....                 | 4               | 1,616,300           | 4.88                      |
| Warehouse.....               | 61              | 1,323,350           | 3.94                      |
| Wholesale.....               | 9               | 155,100             | .47                       |
| Woodworking.....             | 54              | 576,200             | 1.74                      |
| Unclassified.....            | 10              | 114,000             | .34                       |
| <b>TOTAL.....</b>            | <b>913</b>      | <b>\$33,151,685</b> | <b>100.00</b>             |

The metals group, for the second successive year, had more plans approved and also spent more on building construction than any other group. The expansion was not limited to any particular sub-group although the demand for agricultural implements and the rehabilitation of many very old buildings were contributing factors. Some foundry employers have undertaken extensive improvements of working conditions to attract better types of employees and the Department has provided a great deal of assistance in the design of ventilation systems. The first factory for the manufacture of roller bearings in Canada was erected. Some of the large single-occupancy war plants have already been converted to multiple-occupancy plants with many varied types of factories under one roof. As preference was given to those which would not create nuisances, no ill-effects have been observed and many small firms obtained modern work-rooms which would otherwise not have been available to them.

The chemical industry expended the second largest amount of money on buildings for many diverse processes. Large factories were erected for the manufacture of paint and varnish, chemical drugs, plastics and nylon fibres. A plant for the study and production of nuclear fission products was almost completed at the end of the fiscal year and will require specialized attention to the health of its employees when operations begin.

A new pulp and paper mill was approved and its construction has caused the erection of a planned community where only bushland previously existed. This mill was among the three windowless structures approved during the year on the grounds of necessity due to the high moisture-content of the air inside the buildings.

This Department has followed a policy of refusing to approve the plans of windowless buildings unless the applicants can prove sufficient necessity for that type of building due to the nature of the proposed operations. The majority of employees definitely prefer to work where it is possible for them to view the outdoors, even if very remotely, from their work benches.

The world-wide demand for increased food production has resulted in that industry having the second highest number of plan approvals. A large plant for the processing of soy beans was erected in Toronto.

One new tobacco processing plant accounted for almost all of the expenditures by that group.

Since the end of hostilities and particularly since December when all Dominion construction controls were limited, the number and value of industrial and commercial plan approvals increased so the actual rate of construction slowed to a greater extent than even in wartime and costs thereby increased.

A dust explosion in a grain elevator at Port Arthur caused the loss of twenty-two lives and injury to over thirty other workers. The Examiner of Reports and Designs was one of the official investigators and prepared a lengthy report for submission at the inquiry. The exact cause of ignition could not be determined definitely but unprotected electrical equipment was placed highest in the likely causes.

While Ontario has had only two grain elevator explosions which resulted in loss of life in over twenty years, the fact that about one-half of the terminal elevators in Canada are located in Ontario, and the serious results of this explosion were among the factors which resulted in the drafting of extensive regulations. Meetings were held with representatives of the industry and recognized experts in the prevention of dust explosions, and the early adoption of the regulations is assured. The installation of additional steel fire escapes has been ordered and the designs of all such exits were submitted for approval.

Revised regulations for exterior steel fire escapes on factories, shops and office buildings were passed by Order-in-Council early in the fiscal year and have proved very satisfactory.

One thousand and three office interviews with owners, engineers and architects were held to discuss the designs of proposed buildings and suitable equipment to safeguard the safety, health and welfare of employees. This number represents a gain of 368 over last year and is an all-time maximum. The advantages resulting from preliminary discussions of proposed projects are

now well-known to designers and management and the arrangements for the majority of interviews no longer need originate within the Department. The use of well-designed mechanical ventilation to control industrial health and safety hazards, particularly in the chemical industry, has shown a steady increase. The Industrial Hygiene Division has assisted greatly in the examination of drawings, particularly those of ventilation systems.

A total of 101 field inspections were made by the Examiner of Reports and Designs, chiefly to facilitate the approval of plans and to investigate special hazards due to lack of exits, particularly in grain elevators, ventilation, floor overloads and dangerous processes reported by the inspectors. The number of such field inspections was curtailed due to pressure of office-work but the recent appointment of a professional engineer as Assistant Examiner will permit the making of more frequent visits with the district inspectors.

### INSPECTION STATISTICS

The following is the distribution of the services rendered by the inspectors of the Composite Inspection Branch:

| FACTORY INSPECTION BRANCH:            | 1945         | 1946         |
|---------------------------------------|--------------|--------------|
| First inspections . . . . .           | 15,359       | 17,070       |
| Second inspections . . . . .          | 4,031        | 5,604        |
| Visits re fruit camps . . . . .       | 43           | 42           |
|                                       | <hr/> 19,433 | <hr/> 22,716 |
| Apprenticeship Branch . . . . .       | 1,377        | 1,158        |
| Industrial Standards Branch . . . . . | 266          | 361          |
| Main Office . . . . .                 | 740          | 1,169        |
| Minimum Wage Branch . . . . .         | 406          | 384          |
| Operating Engineers' Branch . . . . . | 146          | 773          |
| Steam Boiler Branch . . . . .         | 2,246        | 2,346        |
|                                       | <hr/> 5,181  | <hr/> 6,191  |
| TOTALS . . . . .                      | 24,614       | 28,907       |

In addition there were investigations of accidents and the usual visits, office calls and conferences incidental to inspections.

The number of orders issued relating to various requirements of The Factory, Shop and Office Buildings Act, totalled 17,017 as compared with 14,282 during the previous year.

Employees in the above-visited industries, mercantile establishments and office buildings numbered 622,380, classified as follows:

| Fiscal years | Males over 16 | Males 14-16 | Females over 18 | Females 14-18 | Totals  | Children under 14 dismissed |
|--------------|---------------|-------------|-----------------|---------------|---------|-----------------------------|
| 1945         | 449,368       | 5,483       | 259,212         | 5,945         | 720,008 | 444                         |
| 1946         | 400,946       | 3,287       | 214,194         | 3,953         | 622,380 | 238                         |

These figures show a decrease in the numbers of both male and female employees in the industries visited.

## WEEKLY HOURS OF LABOUR

## Male Employees

| Hours              | Up to 49 | 50 to 53 | 54 to 57 | 58 and over | Totals  |
|--------------------|----------|----------|----------|-------------|---------|
| Firms 1945.....    | 5,477    | 2,923    | 1,759    | 1,644       | 11,803  |
| Firms 1946.....    | 10,075   | 1,011    | 204      | 633         | 11,923  |
| Employees 1945.... | 201,502  | 160,132  | 36,593   | 37,645      | 435,872 |
| Employees 1946.... | 357,591  | 18,902   | 7,911    | 11,551      | 395,955 |

## Female Employees

| Hours              | Up to 49 | 50 to 53 | 54 to 57 | 58 and over | Totals  |
|--------------------|----------|----------|----------|-------------|---------|
| Firms 1945.....    | 6,382    | 2,051    | 387      | 275         | 9,095   |
| Firms 1946.....    | 8,152    | 155      | 42       | 94          | 8,443   |
| Employees 1945.... | 143,681  | 77,312   | 17,225   | 16,537      | 254,755 |
| Employees 1946.... | 201,562  | 5,712    | 1,912    | 5,081       | 214,267 |

## Total Employees

| Hours     | Up to 49 | 50 to 53 | 54 to 57 | 58 and over | Totals  |
|-----------|----------|----------|----------|-------------|---------|
| 1945..... | 345,183  | 237,444  | 53,818   | 54,182      | 690,627 |
| 1946..... | 559,153  | 24,614   | 9,823    | 16,632      | 610,222 |

Also 12,158 employees, male and female, employed by 663 firms were working approximately fifty hours per week.

## Special authorities granted for the employment of women on multiple shifts

| Shifts         | Number of firms | Number of female employees affected |
|----------------|-----------------|-------------------------------------|
| 2 8-hour.....  | 6.....          | 100                                 |
| 2 9-hour.....  | 7.....          | 1,318                               |
| 2 10-hour..... | 16.....         | 2,611                               |
| 3 8-hour.....  | 4.....          | 486                                 |
| Totals.....    | 33              | 4,515                               |

**Overtime permits, employment of females until 9 p.m.  
Section 30 of The Factory, Shop and Office Building Act**

| Fiscal Years                             | 1943   | 1944   | 1945   | 1946  |
|--|--------|--------|--------|-------|
| Number of firms using permits.....       | 775    | 545    | 509    | 530   |
| Number of permits issued.....            | 2,569  | 2,079  | 1,634  | 1,602 |
| Number of nights worked.....             | 15,892 | 12,497 | 10,516 | 8,094 |
| Number of females employed overtime..... | 12,858 | 24,267 | 14,898 | 6,320 |

**Double shift permits, employment of females between 6 a.m. and 11 p.m.  
Section 31 of The Factory, Shop and Office Building Act**

| Fiscal Years                       | 1943 | 1944 | 1945 | 1946 |
|------------------------------------|------|------|------|------|
| Number of firms using permits..... | 135  | 116  | 93   | 108  |
| Number of permits issued.....      | 251  | 215  | 193  | 233  |

**VIOLATIONS**

Violations of the acts in the enforcement of which the inspectors have a responsibility were reported as follows:

|                                       | 1945         | 1946         |
|---------------------------------------|--------------|--------------|
| Adolescent School Attendance Act..... | 119          | 44           |
| Minimum Wage Act.....                 | 2,347        | 2,394        |
| Operating Engineers Act.....          | 194          | 145          |
| Steam Boiler Act.....                 | 19           | 5            |
| <b>Totals.....</b>                    | <b>2 679</b> | <b>2 588</b> |

Violations of the Minimum Wage Act were chiefly cases of carelessness on the part of employers in neglecting to keep minimum wage cards posted in their establishments.

**COMPLAINTS**

One hundred and forty-six complaints were received during the fiscal year. Upon investigation, sufficient grounds for complaint were found in ninety-one cases, insufficient grounds in thirty-nine cases and sixteen cases concerned matters not under the jurisdiction of the Factory Inspection Branch. Some investigations covered more than one complaint. Subjects of complaint were as follows:

|                               | 1945 | 1946 |
|-------------------------------|------|------|
| Adolescents.....              | 10   | 8    |
| Child labour.....             | 31   | 14   |
| Dust.....                     | 5    | 3    |
| Elevators.....                | 9    | 6    |
| Fire hazards.....             | 13   | 6    |
| Fumes.....                    | 13   | 9    |
| Guarding machinery.....       | —    | 6    |
| Lack of heat.....             | 7    | 13   |
| Long hours.....               | 29   | 15   |
| Lunch period.....             | 2    | 3    |
| Lunch and dressing rooms..... | 2    | 2    |
| Miscellaneous.....            | 33   | 23   |

## PROSECUTIONS

Proceedings were taken against two firms for violations of The Factory, Shop and Office Building Act. Conviction was recorded in one case under section 26 and the other case was adjourned and will be recorded in the next report. This charge was laid under section 29 of the Act.

|   | Convictions | Adjourned |

| Totals.....   | 1           | 1         |

## ACCIDENTS

During the year 13,466 accidents were reported to the Factory Inspection Branch, as compared with 16,344 in 1945. Sixty-two of the accidents proved fatal, the same number as reported for the preceding year, and 1,320 of the total accidents happened to female workers.

Fatalities were due to:—

## EXPLOSIONS

Fifty-nine explosions were reported during the year, one of which took place toward the close of the previous fiscal year. Fifty-four of these explosions caused injuries to 101 employees, and injuries proved fatal to eighteen employees.

Explosions causing injuries were as follows:

- March 29, 1945... Moisture from slag pot caused explosion.
- April 1..... As fire builder was lighting up engine, an explosion occurred.
- April 4..... While box of limestone was being put in furnace, box was turned fast, causing explosion.
- April 5..... Acetylene generator exploded.
- April 9..... Gas from coal blew through open fire-door.
- April 14..... An explosion occurred when a basket of bolts was being dipped in zinc.
- April 18..... While a tray of detonators was being lifted, one of them blew.
- April 27..... A detonator fired during crimping operations.
- May 4..... New cast iron boiler exploded.
- May 4..... A bottle being removed from pasteurizer exploded.
- May 14..... While a burnt out 200W bulb was being replaced, it exploded.
- May 22..... Pressure valve exploded.
- May 25..... Solution in drawing furnace exploded.
- June 1..... Refuse being thrown into fire, created an explosion.
- June 10..... Explosion took place in core room.
- June 14..... Residue of alcohol in drum exploded.
- June 14..... Match was lit to see contents of tank and fumes exploded.
- June 22..... Pocket of steam in ash bed exploded when stirred.
- June 26..... Ring gear was being placed in hot machine, and when electricity was turned on, it exploded.
- June 27..... Shorted battery while trying to check a starting motor and battery exploded.
- July 7..... Faulty valve of the air conditioning system caused explosion.
- July 14..... While bottles were being lifted from pasteurizer, one exploded.
- July 17..... When degreaser was being lit, gas exploded.
- July 25..... Brick or sand in cupola was apparently wet, and exploded when the molten iron hit it.
- August 2..... Pressure caused an explosion when nuts on gauge glass were being tightened, without opening drip cock at bottom of line.
- August 7..... Dust explosion.
- August 10..... Motor lead arced to ground of press-cutter, switch door opened by arc explosion.
- August 24..... When molten metal was being poured into moulds, metal exploded.
- August 24..... Break-out occurred at tap hole of electric furnace. Hot metal striking the water caused explosion.
- August 25..... Heat from welding torch caused can of paint to explode.
- August 28..... When slag pot was being dumped and slag was still in liquid form, it exploded when slag hit damp pot.
- September 26..... While burning top of carbide can, the torch touching can caused it to explode.
- September 28..... Bottle of beer exploded.
- October 19..... When the skimming device was put into the hot metal, it exploded.
- October 29..... Bottle of ale exploded.
- November 8..... Road oil tank exploded.
- November 22..... Cigarette lighter exploded when workman tried to light it after it had been dropped in gasoline.

**BOARD OF EXAMINERS OF OPERATING ENGINEERS****CHAIRMAN: JOHN SHARP****MEMBERS OF THE BOARD: W. J. SCOTT. A. L. LACEY**

In compliance with subsection 3 of section 2 of The Operating Engineers Act, the Board of Examiners presents the thirty-seventh annual report of this Branch of the Department for the fiscal year ending March 31, 1946.

During the year Mr. S. G. Rose, who had been a member of the Board since 1923, retired from the Service and on July 16, 1945, Mr. Arthur Lacey was appointed to fill the vacancy.

The net revenue of \$33,810.20, shown in the statement of revenue on the following page, is the largest in the history of the Branch, being \$2,625.35 over that of the previous year. Engineering text books for sale in the Department are in steady demand in Ontario and the other provinces, as indicated by the revenue from this source. The number of examinations conducted at the Toronto office and other centres of examination exceeded any previous year. Certificates issued without payment of fee to engineers returning from active service totalled 677. The forty-eight hour working week and industrial expansion have created a situation of increased demand, to meet which there were not sufficient certificated engineers, and enforcement of the Act has to be governed accordingly.

Applications for examination reviewed by the Board totalled 1,105, of which 120 did not comply with the requirements of the Act and were rejected. The number of plant registration certificates issued was 285 and 17,433 current certificates were issued to operating engineers.

At the Toronto office 1,325 candidates wrote examinations and 1,157 at other centres throughout the Province. Forty-nine per cent of the candidates failed to pass the examination. The Ontario Training and Re-establishment Institute's six months' course in stationary engineering for returned veterans has proved of definite value in the status and qualifications of candidates entering the field of stationary engineering, as shown by examination results.

During the year 187 violations of the regulations were reported and 576 inspections were made by the inspector of the Branch. Enforcement of the regulations was accomplished to a great extent through the co-operation and assistance of the operating engineers, for which assistance the Board of Examiners express their appreciation and acknowledgement with thanks.

## REPORT OF REVENUE FOR FISCAL YEAR

APRIL 1, 1945, TO MARCH 31, 1946

**Fees collected for:**

|                               |             |  |
|-------------------------------|-------------|--|
| Examinations.....             | \$29,215.27 |  |
| Re-examinations.....          |             |  |
| Renewals.....                 |             |  |
| Penalty renewal fees.....     |             |  |
| Provisional certificates..... |             |  |
| Duplicate certificates.....   |             |  |
| Plant registrations.....      | 285.00      |  |

**Moneys refunded on:**

**BOILER INSPECTION BRANCH**

CHIEF INSPECTOR: J. N. BRIGGS

The thirty-third report of the Boiler Inspection Branch for the fiscal year ending March 31, 1946, presents an all-time record of activity in all phases of work coming within the jurisdiction of the Branch.

Industry turning from war to peace time production, and the lifting of restrictions on materials are contributing factors to mounting revenue and upward trend of inspection service rendered. Compared with the statistics of last year, the percentage of increase for the fiscal year 1946 is summarized as follows:

|  |               |
|--|---------------|
| Monies transferred to the Treasury Department.....                       | 27.2 per cent |
| Designs and specifications surveyed and registered.....                  | 48.3 per cent |
| Inspections under Steam Boiler Act and Regulations.....                  | 32.4 per cent |
| Annual inspection of uninsured boilers and pressure vessels, Section 56, |               |
| The Factory, Shop and Office Building Act.....                           | 13.6 per cent |
| Vessels accepted on affidavit of manufacturer.....                       | 44.9 per cent |
| Examinations of welding operators.....                                   | 10.0 per cent |

The appointment of three additional boiler inspectors to the staff was made during this period.

Industrial expansion in anticipation of post-war needs made apparent the high peak of production in boiler manufacturing plants. To cope with this phase of activity required the concentrated efforts of the inspection personnel, particularly during the latter part of the fiscal year. Also the marked increase in specific designs and specifications submitted for survey and registration reflects the trend of thought in the use of new materials entering into the construction of pressure vessels, some of which involve complicated structures made necessary for special process work.

The Province of Ontario continues to rank highest in the production of boilers and unfired pressure vessels of every description in Canada. Records indicate that throughout the Province there are thirty-eight manufacturers engaged in the industry, of whom three leading manufacturers have expended millions of dollars for equipment necessary to meet the most exacting requirements of the A.S.M.E. Boiler Code specifications. The modern welded drum intended for service under elevated pressures and temperature, fabricated to Code Rules, has developed a highly specialized field requiring great accuracy of manufacture. The advances made in metallurgy and welding technique are outstanding factors in this development. The first boiler in Canada to operate at 900# w.p. at 750°F. was prepared for erection in Hamilton at the close of the fiscal year.

With the exception of the Province of British Columbia, all provinces enforcing boiler laws are today operating under the A.S.M.E. Boiler Code, either by direct adoption of the Code or through the facilities of the Canadian Standards Association. The Province of Ontario continues to support the definite need for a national standard specifications for boilers and unfired pressure vessels by representation on the Canadian Boiler Code Committee. This Committee, seven years ago, formulated regulations which, with the exception of one, include all sections of the A.S.M.E. Boiler Code, and in 1940 these, under the title of "Canadian Regulations for the Construction of Boilers and Pressure Vessels, C.S.A. Standard B 51", were given the force of law. In keeping pace with modern trend, boiler regulations as published today have expanded into voluminous material compared with the thin pocket edition of a few years ago.

The manual application of arc and gas welding processes used exclusively in the fabrication of pressure parts and repairs has advanced rapidly. In this respect the Boiler Code Committee

has been instrumental in broadening the field of application and establishing rules for qualifying welding procedures and also for the testing of welding operators. Observance of these rules has made necessary the transfer of an inspector from boiler inspection to full time activity in conducting qualifying tests. These tests are usually held in the premises of the employer who is required to provide all facilities and materials necessary for the examination. To correct any erroneous impression that may exist, it is emphasized that this Branch does not issue certificates or any kind of diploma to operators who have qualified. The fact that an operator has qualified virtually permits his employer to fabricate according to Boiler Code Rules. All operators are examined once during the calendar year except that when they change their place of employment during this period, re-qualification is necessary in their new place of employment. The work involved in connection with qualifying welding procedures and operators for the calendar year ending December 31, 1945, is summarized as follows:

|   |       |
|---|-------|
| Total number of firms in which welding procedures were established..... | 196   |
| Total number of welding operators examined.....                         | 1,157 |
| Number of operators examined in—  |       |
| Metallic arc process.....   | 1,037 |
| Operators qualified.....  | 741   |
| Operators failed.....   | 296   |
| Number of operators examined in—  |       |
| Oxygen-acetylene process.....   | 120   |
| Operators qualified.....  | 67    |
| Operators failed.....   | 53    |

The following explosions were investigated during the fiscal year by the Branch:—

On May 4, 1945, in London, a new cast iron sectional hot water heating boiler was blown into fragments shortly after being put into service for the first time. The explosion caused serious injuries to the owner and an employee of the contractor responsible for installing the boiler. There was also considerable property damage. Cause of the explosion was found due to improper installation of a check valve between boiler and relief valve.

Through the bursting of a 300# standard valve on May 22, 1945, an employee of aqua ammonia plant in Welland died of injuries received. The cause of the rupture was attributed to the deceased closing the valve when trying to locate a leak in the system and thus permitting pressure to build up against the valve far in excess of its pressure rating of 300#.

An estimated damage of \$50,000 was caused by furnace explosion of a separately gas fired superheater unit on September 14, 1945, in Sarnia. Investigations revealed that the explosion was caused by an accumulation of gas in the furnace when the flame at the burner extinguished itself through being operated too low. The heat from the brick setting was sufficient to ignite the unburnt gas escaping from the burner. The damage was confined to the foundation of the unit.

On December 3, 1945, in Toronto, considerable property damage was caused by fire resulting from an explosion of a small cast iron jacket heater connected to an open tank. The tank, used for washing machine parts in a strong chemical solution, was connected to the heater by direct flow and return pipes. Investigation revealed that the pipes had become choked with solids causing pressure to build up in the heater until the bursting point was reached.

In London, on December 4, 1945, owing to a manual controlled gas burner having been left on over night, a cast iron jacket heater exploded in the early hours of the morning, which fortunately happened when no one was on the premises. Excess pressure in the system prevented the

city water pressure from entering and replacing the loss of water caused by the continuous operation of the relief valve throughout the night. Under this condition the jacket heater had practically become a steam vessel and overheated.

In Toronto on February 21, 1945, considerable property damage was done and two persons sent to hospital following an explosion of a cast iron sectional hot water heating boiler connected to a closed system. This boiler had a new rear section installed the previous day and the system was properly filled with water prior to lighting the fire. Investigation disclosed the fact that the boiler was operated with the stop valve on the city feed line closed tight. Had this valve been left open the system would have been automatically fed with water and prevented the boiler from being changed over into a steam generating unit. The  $\frac{1}{2}$ " water relief valve intended to relieve water pressure under normal conditions proved to be inadequate to relieve all steam pressure generated and prevent excess pressure.

#### SUMMARY OF WORK FOR FISCAL YEAR ENDING MARCH 31, 1946

##### Drawings and specifications surveyed, registered and re-registered:

|   | Designs | Fees       |

## CONCILIATION AND ARBITRATION

CHIEF CONCILIATION OFFICER: LOUIS FINE

CONCILIATION OFFICERS: JAMES HUTCHEON, G. L. FENWICK

The conciliation staff of the Province of Ontario consists of the Chief Conciliation Officer and two conciliation officers. During the fiscal year three federal Labour Relations Officers co-operated with the Conciliation Branch of Ontario in carrying out the greatly increased work coming under its jurisdiction.

The duties of the officers of this Branch include the following:

- (1) Assignments with reference to mediation, conciliation and arbitration;
- (2) Act as referees and returning officers in plant elections as directed by the Ontario Labour Relations Board;
- (3) Make arrangements for, and act as returning officers in plant elections held with the consent of all parties;
- (4) Investigate and report on all cases referred to this office by the Regional War Labour Board in connection with wages, hours of work, etc.;
- (5) Conduct conferences under The Industrial Standards Act.

### CONCILIATION

During the fiscal year 138 conciliation cases were referred to this Branch. In eighty-eight of these cases the unions were certified as collective bargaining agents but were unable to reach an agreement with the company concerned within the stipulated thirty-day period as provided for in P.C. 1003. In thirty-eight cases the conciliation officer appointed was able to bring about a mutually satisfactory agreement between the parties concerned. In the other fifty cases the conciliation officer, while recommending the appointment of a Board of Conciliation, was able to settle many points at issue between the parties and thus reduce the number of matters to be placed before the Board of Conciliation.

Cases of dismissal for alleged union activity or union membership, grievances, other labour difficulties and misunderstandings accounted for the remaining fifty cases. Forty-one of these cases came direct to the Department and nine were referred by the federal Department of Labour. In thirty-six cases a satisfactory settlement was reached, and in twelve cases a commissioner was recommended under P.C. 4020. In two cases by agreement an arbitrator was appointed, the parties agreeing to abide by the decision of the arbitrator.

### ARBITRATION

Practically every agreement between management and labour provides for arbitration as the final stage of the grievance procedure. In many cases, after the initial stages had been carried out without disposing of the matter at issue, the Minister of Labour was called upon to appoint an arbitrator. Twenty-eight cases were handled during the fiscal year involving 115 grievances, and in almost all of these cases a conciliation officer was the arbitrator, either by way of agreement between the parties or by appointment by the Minister of Labour.

### PLANT VOTES AND REFEREES' REPORTS

Conciliation officers acted as referees in seventy cases submitted by the Ontario Labour Relations Board.

Fifty plant votes were taken by conciliation officers who acted as returning officers. Forty-nine of these were referred by the Board and one was a consent vote. Ten thousand six hundred and fifty-three employees were involved in these votes.

## INDUSTRIAL STANDARDS CONFERENCES

There has been renewed activity this year under The Industrial Standards Act. Twenty-three conferences were held throughout the Province and a schedule was agreed to and approved by the Minister of Labour in each case. The industries covered by schedules included the following: barbering, bricklaying and stonemasonry, carpentry, hard furniture, painting and decorating, plumbing and heating, retail gasoline and taxicab.

Two hundred and twenty-nine investigations were made during the year. Two hundred and twenty of these assignments were from the Regional War Labour Board and necessitated visits to plants in various parts of the Province to investigate and report to the Board on wages, working hours, etc. Four investigations were made for the Industry and Labour Board, one for the Ontario Labour Relations Board and the remaining four were referred for investigation by the Deputy Minister's Office.

## STRIKES

The services of the officers were requested to assist in the settlement of twenty-four strikes during the year, involving 5,931 employees.

## OFFICE WORK

There has been a tremendous increase in the number of telephone inquiries and personal calls to this office during the year. These are made by employers and employees with reference to matters in dispute. As a result of these inquiries, this Branch has been able to advise, counsel and assist in settling many matters at issue without reference to any other branch of the Department or Board.

**ONTARIO REGIONAL WAR LABOUR BOARD****CHIEF EXECUTIVE OFFICER: J. B. METZLER**

In the Annual Report of the Department of Labour for the fiscal year 1944 a resumé of the activities of the Regional War Labour Board was given. This included a discussion of the various developments which had taken place in connection with wage control.

The Ontario Regional War Labour Board has continued its functions during the fiscal year ending March 31, 1946. The activities of the Board have not abated during the year notwithstanding the fact that the period of decontrol has been under way for some time.

Shortly before the end of the fiscal year the Wartime Wages Control Order P.C. 9384 was amended and the power to grant increases in wages was extended. In addition, several matters which were subject to control, such as pension schemes, vacations with pay, off-shift differentials, hospitalization plans and group insurance were released and returned to the field of collective bargaining.

It is anticipated that the pace towards complete removal of wage control will be accelerated in the immediate future and that with the presentation of the next Annual Report of the Department of Labour it will be possible to present a final report on this phase of the wartime activities of the Department.

## INDUSTRY AND LABOUR BOARD

CHAIRMAN: ERIC BILLINGTON

MEMBERS: E. G. GIBB, J. F. NUTLAND

The Industry and Labour Board administers The Hours of Work and Vacations with Pay Act, 1944, The Industrial Standards Act, The Apprenticeship Act and The Minimum Wage Act.

The Hours of Work and Vacations with Pay Act, 1944.

This Act provides that in any industrial undertaking the working hours of an employee shall not exceed eight in the day and forty-eight in the week, and that every employee shall be given a vacation of at least one week with pay after each year of employment.

### NEW REGULATIONS—EXEMPTIONS

On November 20, 1945, regulations replacing those in effect since July 1944 were approved by Order-in-Council. The principal changes made by these new regulations were the exemption from the Act of members, students and apprentices of certain professions, the business of funeral directing and embalming, farming and domestic service, and the exemption from the provisions of the Act relating to hours of work of employees of a municipal fire department, of steamship and railway companies, stevedores and others loading and unloading ships, persons working in grain elevators and persons employed in commercial fishing.

### NEW REGULATIONS—OVERTIME

Changes relating to overtime were also made. With the approval of the Board, an employer may provide for overtime of not more than twelve hours per week for each employee in the case of engineers, watchmen, firemen, shippers and other persons engaged in non-productive work, and in the case of all other employees, overtime of not more than one hundred hours per year for each employee, commencing with the year 1946. Overtime of not more than thirty hours for each employee may be worked without the Board's approval between November 1 and December 31, 1945.

### EMERGENCIES

Overtime may be worked by employees in an industry in cases of accident or work urgently required to be done to machinery or plant which cannot be completed during the eight-hour day or the forty-eight hour week and which would otherwise interfere with the ordinary working of the undertaking. Where work of this nature is undertaken the employer shall, within thirty days of the performance of the work, report it to the Board, stating the reasons therefor, and the emergency overtime work so required shall not be deductible from that authorized by a 1946 overtime permit.

### SPECIAL CIRCUMSTANCES

The Board may authorize overtime in respect of an industrial undertaking where the Board is satisfied that overtime work is necessary because of the nature of the work or the perishable nature of the raw material being processed.

### CANCELLATION OF POSTPONEMENT RULING

As a result of the termination of hostilities during the year, the Industry and Labour Board cancelled postponements relating to working hours granted to war industries. Effective Novem-

ber 1, 1945, the Board required that working hours of not more than forty-eight per week be established for employees in any industrial undertaking.

#### VACATIONS WITH PAY

Every employee granted a vacation with pay under the Act shall be entitled to receive a minimum of two per cent of his total annual earnings.

An amendment to the Act passed at the 1946 session of the Legislature authorized the making of regulations providing for the payment of vacation credits on a pro rata basis to employees who do not complete a year of employment with an industrial undertaking.

#### CONSTRUCTION INDUSTRY

A similar provision in effect since July 1944 for employees in the construction industry has proved very satisfactory. An employee who is employed for less than a year by an employer may obtain a vacation-with-pay stamp book from his employer, association of employees or from the Department of Labour at a charge of twenty-five cents.

The employer may purchase at any provincial savings office vacation-with-pay credit stamps in denominations ranging from one cent to one dollar, and at the end of each working day, week or regular pay period he is required to affix these stamps in an amount equivalent to two per cent of each employee's total earnings during the working period to the employee's vacation-with-pay stamp book. In this manner the employer contributes his proper share of vacation pay of his employees and employees build up a vacation-with-pay credit in proportion to their earnings and irrespective of the number of employers from whom they have worked during the year.

On and after June 30th in each year employees may present their books at any branch of a chartered bank or provincial savings office and, upon proper identification, shall be entitled to receive the cash equivalent of the stamps contained therein.

Under this plan of vacations-with-pay credits for employees in the construction industry, the sale to employers in the industry of vacation credit stamps amounted to \$1,346,602.82, as follows:

|  |                |
|--|----------------|
| July 1, 1944, to March 31, 1945.....   | \$ 429,156.22  |
| Fiscal year ending March 31, 1946..... | 917,446.60     |
|  | <hr/>          |
| Total for period.....                  | \$1,346,602.82 |

During the same period 119,692 vacation-with-pay stamp books were sold to employees in the construction industry.

#### PROSECUTIONS

One employer was charged in the courts for permitting seven employees to work more than forty-eight hours weekly. In each of five cases the magistrate imposed a penalty by way of fine amounting to \$175. The charges in two cases were withdrawn by the Crown.

## INDUSTRIAL STANDARDS ACT

## INDUSTRY AND LABOUR BOARD

The Industrial Standards Act provides a definite procedure for collective bargaining in any industry by providing a legal means for calling a conference of employers and employees in any designated industry within a pre-defined zone. A schedule of wages and hours and days of labour agreed upon by the conference may be approved by the Minister, if, in his opinion, the schedule has been agreed to by a proper and sufficient representation of those engaged in the industry concerned. Upon recommendation of the Minister, the schedule may be approved by Order-in-Council, and ten days after publication in the Ontario Gazette it becomes effective in law and binding on all persons engaged in the industry within the zone.

Conferences were held during the fiscal year ending March 31, 1946, as follows:

| INDUSTRY AND ZONE            | DATE OF CONFERENCE | DATE SCHEDULE EFFECTIVE |
|------------------------------|--------------------|-------------------------|
| Barbering industry:          |                    |                         |
| Hamilton                     | April 20, 1945     | November 7, 1945        |
| Smith's Falls                | June 12, 1945      | February 19, 1946       |
| Carleton Place and Perth     | June 13, 1945      | February 5, 1946        |
| Pembroke                     | June 14, 1945      | February 5, 1946        |
| Oshawa                       | January 23, 1946   | April 3, 1946           |
| Woodstock                    | January 30, 1946   | April 2, 1946           |
| Trenton                      | February 6, 1946   | April 2, 1946           |
| Guelph                       | March 6, 1946      | April 23, 1946          |
| Bricklaying and stonemasonry |                    |                         |
| Ottawa                       | May 17, 1945       | July 24, 1945           |
| Carpentry:                   |                    |                         |
| Timmins                      | April 27, 1945     | July 24, 1945           |
| Ottawa                       | May 17, 1945       | July 24, 1945           |
| Brockville                   | August 10, 1945    | February 5, 1946        |

| Taxicab:                     |                    |                         |
| Toronto                      | March 11, 1946     | May 14, 1946            |

## PAYROLL ASSESSMENT OF INDUSTRIES

Under the Act, the Industry and Labour Board has designated the cloak and suit industry and the men's and boys' clothing industry as interprovincially competitive, and has approved provisions in the respective schedules regarding the collection of assessment from employers and employees. The purpose of this assessment is to provide revenue for the enforcement of the schedule.

## ARREARS OF WAGES

Arrears of wages amounting to \$71.51 were collected from three employers and after investigation by the Industry and Labour Board were paid direct to the three employees affected.

There were no court cases during the fiscal year.

## SCHEDULES IN FORCE

At the close of the fiscal year there were 103 schedules in effect in Ontario under The Industrial Standards Act, as follows:

| TRADES AND INDUSTRIES:                         | Number of<br>schedules | Zone   |
|--|------------------------|--|
| (a) Schedules covering local zones:            |                        |  |
| Baking .....                                   | 1                      | Ottawa   |
| Barbering .....                                | 59                     | Covering 105 separate municipalities   |
| Bricklaying and stonemasonry .....             | 1                      | Ottawa   |
| Bricklaying, stonemasonry and plastering ..... | 1                      | Galt   |
| Building industry .....                        | 1                      | Kitchener-Waterloo   |
| Carpentry .....                                | 14                     | Belleville, Brantford, Brockville, Cornwall, Galt, Goderich, Kirkland-Larder Lake, Ottawa, Owen Sound, Peterborough, St. Catharines, St. Thomas, Sault Ste. Marie, Timmins |
| Coal .....                                     | 1                      | Toronto  |
| Coal hoisting .....                            | 1                      | Toronto  |
| Common labourers, construction industry .....  | 2                      | Ottawa, Windsor  |
| Electrical repair and construction .....       | 5                      | Kingston, Kirkland-Larder Lake, London, Ottawa, Windsor  |
| Gasoline service .....                         | 1                      | Toronto  |
| Painting and decorating .....                  | 3                      | Hamilton, Kingston, Ottawa   |
| Plastering .....                               | 2                      | Ottawa, Toronto  |
| Plumbing and heating .....                     | 5                      | Hamilton, Ottawa, St. Thomas, Township of Teck, Windsor  |

## APPRENTICESHIP BRANCH

DIRECTOR OF APPRENTICESHIP: FRED J. HAWES

The fiscal year 1946 was the year of greatest responsibility for the Apprenticeship Branch since The Apprenticeship Act was passed in 1928. Opportunities for boys to learn trades were found in far greater numbers than for many years and more boys were anxious to become indentured in the designated trades.

### BUILDING TRADES

Good results were obtained from the efforts put forth to obtain apprentices in the building trades, and the number of contracts registered showed an increase over previous years. This increase in the numbers of apprentices caused considerable anxiety because of the school accommodation, which was limited to that available in the vocational schools throughout the Province. With the co-operation of the Director of Vocational Training for Ontario, the Director of Canadian Vocational Training, the vocational school principals and the committees in Toronto, Hamilton, St. Catharines, Windsor and Ottawa, training classes were organized and conducted successfully during the four months from January to April, 1946, for apprentices of the first and second years. In the first two months 273 apprentices were in attendance at classes located in ten schools, and in the second two months 240 apprentices were in attendance at classes in nine schools. At the conclusion of these classes a prize distribution was held at each centre.

The training programme established by the Provincial Advisory Committee for Building Trades at the request of and with the approval of the Department of Veterans' Affairs was in full operation and 403 trainees finished their school training and were placed under signed contracts to complete their training on the job and gain the experience necessary for them to become competent mechanics. Seventy-eight trainees were placed on a probationary basis to be registered later under signed contract. In addition to school graduates, many ex-service men who already had some experience in the building trades were placed in jobs for further training and experience.

In order to provide the numbers of skilled mechanics required to keep pace with the development of the building programme in Ontario once the shortage of materials has been overcome, apprenticeship training must expand greatly and continue to expand for several years. This pressing need for competent building tradesmen has aroused considerable interest and many employers are realizing more fully what a valuable contribution is made to their industry by an orderly apprenticeship system, with careful selection and proper trade school instruction in the training of mechanics.

### PROVINCIAL ADVISORY COMMITTEE FOR THE BUILDING TRADES

The members of the Provincial Advisory Committee for the Building Trades devoted considerable time to the supervision of school training and job placement, and, with the increase in the registrations of apprentices, a total of 330, and in the numbers of ex-service men entering the building trades and the training schools, a total of 1,917, meetings of the whole committee were necessary every month, as well as frequent meetings of subcommittees. This committee is composed of equal numbers of employer and employee representatives, as follows:

CHAIRMAN: JOS. M. PIGOTT

MEMBERS: Employers' Representatives

H. J. Ball  
J. Kenyon  
H. C. Nicholls  
P. C. Mansell  
E. F. Longfellow

Employees' Representatives

A. J. Crawford  
Cecil M. Shaw  
John W. Bruce  
A. Cooper  
Wm. Jenoves

REPRESENTING THE DEPARTMENT OF EDUCATION: A. M. Moon, Assistant Director of Vocational Education

SECRETARY: FRED J. HAWES

## MOTOR VEHICLE REPAIR TRADE

Under the amendment of 1944 to The Apprenticeship Act, the regulations for the motor vehicle repair trade were amended to require mechanics engaged in the trade to hold certificates of qualification. This new requirement resulted in a considerable increase in activity and interest on the part of those engaged in the trade. The number of certificates of qualification issued during the year totalled 12,520, of which 616 were issued upon examination, 2,722 were issued without examination to mechanics who had satisfied the Provincial Advisory Committee of their ability to continue in the trade as competent mechanics, and 9,182 were renewal certificates.

With the exception of discharged members of the armed forces, the only persons who may now enter the trade are minors who are required to become registered apprentices. It will therefore be necessary for the trade to employ apprentices in far greater numbers and to provide greater opportunities for them to learn the trade thoroughly, so that they may be prepared at the end of their apprenticeship to take the examination for certificates of qualification. During the year 280 apprentices were registered, and, while this number shows an increase of 155 as compared with the preceding year, it is entirely inadequate to provide for the requirements of the trade.

In agreement with the Department of Veterans' Affairs and in co-operation with the Canadian Vocational Training, the Apprenticeship Branch assisted 516 ex-service men to enter the trade, of whom 104 school trainees were placed in employment as trainees with employers who signed contracts to provide them the opportunity of obtaining the experience necessary to become fully competent.

## PROVINCIAL ADVISORY COMMITTEE FOR THE MOTOR VEHICLE REPAIR TRADE

The Provincial Advisory Committee for the Motor Vehicle Repair Trade held numerous meetings during the year. The personnel of the committee is as follows:

## CHAIRMAN: FRED J. HAWES

## MEMBERS: Employers' Representatives

Howard B. Moore  
J. L. Stewart  
H. W. Harper  
George Beattie  
Ed. Wadham  
W. Forsyth  
J. A. Hearn  
R. D. Salmond

## Employees' Representatives

John Munro  
William Farley  
D. Lyons  
B. Lozon

## BARBER TRADE

During the year the barbers carried on an active campaign to have the regulations amended to make it compulsory for all persons engaged in the trade, other than registered apprentices, to obtain certificates of qualification. Their petition is still under consideration.

Fourteen apprentices received training during the year and thirty-one civilians were trained in the barber school. Training in the barber school has become the accepted method of learning the trade, but the one licensed school in Ontario can accommodate a limited number only. It will therefore be necessary for large numbers to become registered apprentices in the trade, if a supply of trained barbers sufficient to meet the needs of the trade is to be provided. Several schools have been established for the training of ex-service men and have trained and placed thirty-five barbers during the year.

## PROVINCIAL ADVISORY COMMITTEE FOR THE BARBER TRADE

The members of the Provincial Advisory Committee for the Barber Trade are as follows:

CHAIRMAN: FRED J. HAWES

MEMBERS: Employers' Representatives

C. D. Stevenson  
Hilliard Bruce  
Otto Maluske

Employees' Representatives

P. C. Hollier  
Wm. Stickles  
George Macdonald

## HAIRDRESSING TRADE

Eighty-one apprentices registered in the hairdressing trade during the year, and sixty-three completed their training. The hairdressing schools were filled to capacity. The students in these schools who took the examinations conducted by the Apprenticeship Branch totalled 604, of whom 547 were successful. All competent operators were placed in employment. The rehabilitation training centres trained and placed twenty-nine hairdressers.

## PROVINCIAL ADVISORY COMMITTEE FOR THE HAIRDRESSING TRADE

The Provincial Advisory Committee for the Hairdressing Trade held four meetings during the year. The members of this committee are as follows:

CHAIRMAN: FRED J. HAWES

MEMBERS: Employers' Representatives

W. O. Wiegand  
J. D. Adams

Employees' Representatives

Jean McKay  
G. Duncan

## ASSISTANCE IN REHABILITATION

The rehabilitation plan drawn up in co-operation with the Department of Veterans' Affairs and the federal Department of Labour was put into effect in May 1945, and, under the supervision of the Director of Apprenticeship, a rehabilitation division was established in this Branch with a staff appointed for this special work. Large numbers of discharged personnel made use of the division and were advised in the matter of entering designated trades and the type of training best suited to their previous experience. Many of them attended trade training schools, and on completion of their school training, 997 of them were placed in jobs for further training under trainee agreement or pending agreement. During the year 595 ex-service men were evaluated as to experience prior to, during and subsequent to war service and were placed in jobs to complete their training. Thirty-five trainees in the motor vehicle repair trade from the training schools were placed under signed contract. Practically all ex-service men who took training in designated trades were found employment so that they could complete their training on the job.

## GENERAL

The first industry to take advantage of the training programme under The Vocational Training Co-ordination Act, 1942, was the planing mill, sash and door manufacturing industry, and a group of registered apprentices attended the class at the Central Technical School in Toronto from September to December, 1945. The committee for this industry has taken an active interest in the apprenticeship plans. These have been fully endorsed by the Ontario Retail Lumber Dealers' Association and considerable expansion is anticipated. A new mill is being equipped in Toronto for the training of ex-service men who will be placed as trainees in this industry. It is anticipated this equipment will be used in the future for the training of civilian apprentices.

The International Association of Machinists, Tool and Die Makers petitioned to have the trade brought within the scope of The Apprenticeship Act. Employers in the trade, while

subscribing to apprenticeship in principle, were not in favour of provincial direction by regulation, and the petition was therefore not granted by the Industry and Labour Board.

An application to have the air conditioning and refrigeration trade brought within the scope of the Act is still under consideration, and progress was made after several meetings with representatives of the trade.

The increasing interest in apprenticeship throughout the Province was indicated by the fact that forty-eight contracts of apprenticeship were registered by employers in trades other than designated trades and also by the numbers of meetings with representatives of various industries held for the purpose of discussing apprenticeship plans. Employers in one large industry drafted an apprenticeship programme which will be put into effect shortly with the full co-operation of the employees in the industry, and it is expected that other programmes will develop from these meetings and discussions.

The following tables indicate the activities of the Apprenticeship Branch for the fiscal year:

TABLE No. 1  
Registration of Apprentices by Trades  
as at March 31, 1946

| Trade                                  | Registrations |       | Cancellations |       | Completions |       | Active |

| Barbering.....                             | 2             | 4              | 8             | —              | —             | 14    |
| Grand total.....                           | 333           | 608            | 631           | 317            | 151           | 2,040 |

Plumbing, steamfitting and motor vehicle repair trade are the three designated trades with an apprenticeship period of five years.

Hairdressing and barbering have an apprenticeship period of three years.

TABLE No. 3

## Registration of Apprentices by Trades

For the Fiscal Year Ending March 31, 1946

| Trade                                 | Active at beginning of year | Registration during year | Cancellation of registration | Unsatisfactory completions | Diplomas awarded | Active at close of year |
|---------------------------------------|-----------------------------|--------------------------|------------------------------|----------------------------|------------------|-------------------------|
| Building trades:                      |                             |                          |                              |                            |                  |                         |
| Bricklaying.....                      | 38                          | 24                       | 1                            | —                          | 3                | 58                      |
| Masonry.....                          | 2                           | 1                        | —                            | —                          | —                | 3                       |

| Totals .....                     | \$28,433.38   | \$678.00 | \$27,755.38 |

## MINIMUM WAGE BRANCH

### INDUSTRY AND LABOUR BOARD

The Minimum Wage Act was first passed in 1920 and the first order was put into force in May 1921. All orders under the original Minimum Wage Act affected female employees only.

In 1937 a new Minimum Wage Act was passed permitting the issuance of orders covering male employees as well as female employees, and on March 1, 1938, a new order was issued covering the textile industry and providing for minimum wage rates for both male and female employees.

Since the first order became effective in May 1921, statistics have been collected covering the rates of wages paid to employees, and these statistics have been incorporated in the Annual Report of the Department of Labour each year.

### WAGE RETURNS

Wage information is collected also for the purpose of checking compliance with the provisions of the various orders issued under the Act. Employers are divided into groups and for further consolidation these groups are placed in nineteen classes which are given in the tables appended to this report.

The total number of employers reporting for the fiscal year 1946 was slightly lower than the totals in the last three years. The total of employees reported was lower than the totals for 1945 and 1943, and the total of female employees reported was lower than the totals for the three preceding years. These decreases, and especially that of approximately 20,000 in the number of female employees reported, indicate changes taking place in industry during the early months of the reconversion period.

|  | Fiscal years |         |         |         |         |         |
|--|--------------|---------|---------|---------|---------|---------|
|  | 1941         | 1942    | 1943    | 1944    | 1945    | 1946    |
| Employers reporting.....                 | 16,967       | 16,264  | 22,781  | 21,798  | 21,404  | 20,874  |
| Employees of reporting firms.....        | 535,906      | 631,631 | 714,451 | 578,442 | 682,836 | 674,142 |
| Female employees of reporting firms..... | 151,278      | 210,257 | 224,879 | 224,459 | 243,234 | 223,175 |

### WAGE ADJUSTMENTS

Increases in wage rates were ordered for twenty-five employees in twenty establishments as compared with wage increases ordered for thirty-six employees in twenty-four establishments during the previous year.

### ARREARS OF WAGES

Arrears of wages amounting to \$147.27 were collected from five employers on behalf of twelve employees as compared with \$123.13 collected from three employers on behalf of three employees in 1945.

### COMPLAINTS AND PROSECUTIONS

Five complaints of failure to pay the required minimum wage rate were received, as compared with three complaints during the previous year.

One employer was prosecuted under two sections of the Act. The case was dismissed. There were no prosecutions the previous year.

## HOMEWORK

Rates of pay for homework submitted by 422 employers were approved, as compared with 420 employers in 1945. For approval rates must in no case be lower than the minimum rates prescribed in the order under the Minimum Wage Act.

## HANDICAPPED WORKERS

Permits to employers authorizing the employment of handicapped workers at rates lower than the prescribed minimum rates were issued to thirty-five employers for forty-six employees. In 1945 the corresponding figures were forty-five employers and sixty-two employees.

## Analyses of Wage Returns for Fiscal Year Ending March 31, 1946

# REPORT

OF THE

# Minister of Education

FOR THE YEAR 1946

---

TO THE HONOURABLE RAY LAWSON, O.B.E., LL.D.,  
*Lieutenant-Governor of the Province of Ontario.*

Your Honour,

I beg leave to present to your Honour the Report of the Department of Education for the year 1946.

A Royal Commission on Education is investigating the whole educational system of the Province. Its recommendations will be of the utmost importance in the determination of the future policy of the Department of Education, and most major changes must await the receipt of the Commission's Report. It has, however, been considered advisable to proceed with certain developments for which the need is urgent.

One of these changes is in the extent of Legislative grants to school authorities. In 1945 these grants were increased from approximately 8.5 million dollars to over twenty-six million. Payment on the new scale was continued in 1946 and the amount paid was over twenty-nine million dollars, of which more than nineteen million went to elementary schools. In a period of rising costs the assistance thus afforded to all school boards has been substantial, although in many cases an increase in general municipal expenditures has prevented the ratepayers from receiving the full benefit of the increased school grants. Another feature of the increased grants is the system of allotment which has been designed to provide the greatest aid to those areas which experience the greatest difficulty in maintaining satisfactory educational services. Rural areas with low assessments are given grants amounting to as much as ninety per cent. of the approved cost of operating elementary schools, while urban areas receive amounts varying from thirty to sixty per cent.

In proportion to population Ontario has a much greater number of local educational authorities than are to be found in most comparable systems elsewhere. Under earlier conditions the establishment and support of schools was undoubtedly facilitated by having each school operated by its own board of trustees, but under modern conditions greater efficiency is attained by combining these smaller units for purposes of administration. The resources of the small school area seldom permit the provision of an adequate educational programme. A steady reorganization of school administrative units has been in progress in the field of elementary education for some time. The amalgamation of small school sections into township areas has now reached a point at which practically one-half of the original number of school sections have been organized into larger units. There are now 455 of these areas, made up of 2,840 former school sections, and the improvement in the work of the schools has been marked. Similarly in the field of secondary education a movement towards enlarged high school

districts, although it is of more recent origin, is making noteworthy progress. Thirty-one enlarged high school districts have been formed in 1946. The augmented assessments for these areas, and the increased enrolment of pupils, will permit an expansion and improvement in the school programmes which will more than justify the change.

As a further measure for extending the principle of equality of educational opportunity to pupils in rural areas, provision is made for the transportation of pupils to secondary schools, either by the high school board or by elementary school boards, and grants are payable on the expenses involved. The organization of transportation in this way for more than 10,000 pupils has placed a good secondary education within reach of many who would otherwise have been unable to secure it.

School building programmes throughout the province have been hampered by scarcity of materials and by rapidly rising costs. The Committee on Planning, Construction and Equipment of Schools has given an important lead, and a demonstration school undertaken by the Department of Education embodies a number of the recommendations of the Committee. This should prove helpful to boards seeking ideas for improved school buildings. Despite construction difficulties several modern and well-equipped school buildings have been built and opened during the year.

The total enrolment in all the schools of the provincial system for the year 1945-46 was 707,724. The increase over last year's figure is about 20,000. Recruitment of new teachers through the Normal Schools and the Ontario College of Education has not in recent years kept pace with the normal losses to the profession, and a serious problem is posed for the future. The importance of closing small schools and of consolidating others, as in the case of township areas and high school districts, is emphasized by this condition.

It has been possible to resume the operation of summer courses, which were discontinued during the war. These summer schools play an important part in the improvement of teachers in service and help to supply the demand for teachers with special qualifications required in an expanding curriculum. A large number of teachers have taken advantage of the restored programme of courses.

Provision is being made for higher technical education by the establishment of provincial technical institutes. Besides the Ontario Mining Institute at Haileybury, plans have been made for an Institute of Textiles at Hamilton and for a Technical Institute in the Port Arthur and Fort William area to serve the north-western part of the Province. The work of the largest Training and Re-establishment Institute, located on the old Toronto Normal School site, reached in 1946 its peak in the training of former members of the armed services for their re-establishment in civil life. Consideration is being given to the possible future use of this school as a Provincial Technical Institute and as a centre for apprenticeship training.

Provision has been made for a revised system of grants to public libraries. The new grants are designed to promote increased municipal support for the libraries, and at the same time to encourage the employment of trained and certificated librarians.

Respectfully submitted,

GEORGE A. DREW,

*Minister of Education.*

Toronto, November 21, 1947.

George F. Rogers, B.A., LL.D.

Dr. George F. Rogers, who served the Department of Education well as High School Inspector, Chief Inspector of Secondary Schools and Deputy Minister, passed away in Toronto on June 5, 1946.

Dr. Rogers was born in Franklin, Quebec, the son of the Rev. George Rogers, a Methodist minister. He matriculated from Hamilton Collegiate Institute and completed a notable academic career at Victoria University, Toronto, graduating in 1892 with double first class honours in English and Science, and winning the Prince of Wales Gold Medal for General Proficiency and the Silver Medal in Natural Science. He served as Science Master in the Orillia High School and was outstandingly successful as Principal of Seaforth Collegiate Institute and later of London Collegiate Institute.

In 1918 Dr. Rogers was appointed a High School Inspector and later became Chief Inspector. In this capacity he was responsible for a complete revision of secondary school courses, for the extension of vocational education to smaller schools and for improvements in the training and supervision of teachers. As Deputy Minister he discharged the onerous duties of that office faithfully and efficiently, carrying a heavy burden of responsibility and administrative detail until ill-health necessitated his retirement in June, 1945.

Dr. Rogers' outstanding services in the cause of education were recognized by the award of honorary degrees from three universities, Western Ontario, Toronto and McMaster. That his worth was recognized from coast to coast is attested by his election to the presidency of the Canadian Educational Association in 1936. His former pupils remember him as an inspired teacher and a firm, wise and kindly counsellor. The teachers of the Province and his colleagues in the Department of Education retain a grateful memory of his inspiration and encouragement. The Province of Ontario has good cause to be grateful for the long and devoted labours of Dr. Rogers in its educational system.

## ELEMENTARY EDUCATION

---

### Legislative Grants

The scheme for the apportionment of legislative grants to elementary schools in 1946 was similar to that in operation during 1945. The grants paid to urban elementary school boards were calculated on the basis of the population of the municipality concerned, and ranged from 30% to 60% of the approved cost of operation for the year 1945. The grants paid to rural boards were calculated on the basis of assessment per classroom, and ranged from 50% to 90% of the approved cost of operation for the preceding calendar year. The grants were paid in two instalments.

The summary below shows the total amount of legislative grants paid to elementary school boards during the past three calendar years:

|           |              |
|-----------|--------------|
| 1944..... | \$6,591,550  |
| 1945..... | \$17,864,226 |
| 1946..... | \$19,417,224 |

The greatly increased grants have assisted school boards in financing their schools in a period of rapidly increasing costs. Without these substantial grants local tax levies for education would have been greatly increased.

### Larger Units of Administration

For some years a township council has had authority, under The Public Schools Act, to pass a by-law placing two or more school sections of the township under one board of five trustees. The unit so formed is known as a Township School Area. In 1946 The Public Schools Act was amended to clarify the authority of a municipal council to add a school section or a union school section to a school area already established, and to give authority to the council of each of two or more contiguous townships to set apart the whole or any portion of the township to form a township school area with the whole area or any part of the contiguous township or townships. Similar provision was made for the establishment of a township school area to comprise the whole or any part of a township or contiguous townships and the whole of an adjacent village or town. Before 1946, 397 areas had been formed, comprising 2,339 school sections. In 1946, 58 areas were formed and additions were made to 40 of the existing areas. The formation of these 455 Township School Areas has involved the dissolution of 2,840, or approximately one-half of the former school sections. The increase in the formation of larger administrative units is due to the growing recognition of the many advantages of this type of administration.

A further development affecting certain schools in recent years has been the formation of Improvement Districts, organized under recent amendments to The Municipal Act. Most of these are in newly opened areas where municipal organization is required, but where the residents are, as yet, unable to provide it for themselves. The Department of Municipal Affairs appoints a three-trustee board to govern and administer the area, including the public school. These boards have been instrumental in providing school accommodations in some mining and lumbering communities where, without such provision, facilities for education would be lacking.

A list of the Township School Areas formed in 1946 follows:

| Township  | No.<br>School<br>Sections | County or<br>District | Inspector       |
|---|---------------------------|-----------------------|-----------------|
| Airy and Sabing (Un.)                           | 2                         | Hastings              | H. H. Loucks    |

### The Temporary Closing of Small Schools

During 1946, 61 schools were closed temporarily because of low enrolment. In almost all cases the closing was the result of voluntary action by the local

school boards. Provision was made for the attendance of the pupils concerned at nearby schools where they would have more opportunity to associate with pupils of their own age group. The list of schools closed in 1946 follows:

| Inspectorate                   | Inspector             | School                             |

### Transportation of Pupils to Secondary Schools

During the year many enlarged High School Districts were established. In several of these districts the high school boards provided transportation for pupils to secondary schools. Such transportation was provided for approximately 4,000 pupils.

Any two or more school sections may participate in a plan for transportation of high school pupils to secondary schools. During the year 1946, 346 contracts made by elementary school boards received Departmental approval. By these contracts transportation was provided for 6,338 pupils to secondary schools.

When transportation contracts are approved, the expenses are eligible for inclusion in the operation cost of the school budget, and thereby eligible for liberal legislative grants. Thus, approximately 10,338 pupils were assisted in obtaining secondary education by boards making contracts for their transportation to school.

### The Supply of Teachers

A total of 1,661 teachers who were engaged in the elementary schools during the school year September, 1945, to June, 1946, did not seek re-engagement by boards for the school year commencing September, 1946. Approximately 430 of these teachers were married women who gave efficient service in the schools during the years of the War and who returned to carry on the occupation of homemaking. Some 550 women teachers were married during the year and discontinued teaching.

The shortage of teachers necessitated the granting of letters of permission for boards to engage 459 persons who did not possess complete professional qualifica-

tions for elementary schools in the province, but who had attended, at some time, teacher-training schools. The summary below for the school year September, 1946, to June, 1947, indicates the number of these teachers who were employed by boards of trustees:

|  |       |
|--|-------|
| Holders of expired Ontario Third Class certificates..... | 190   |
| Persons who failed at Ontario Normal Schools.....        | 84    |
| Qualified teachers from other provinces.....             | 184   |
| Holders of High School Assistants' certificates.....     | 1     |
|  | — — — |
|  | 459   |

During the school year September, 1946, to June, 1947, it was necessary to issue 752 letters of permission for boards to engage persons without teacher-training experience. The summary below indicates the academic standing of these persons:

|   |       |
|---|-------|
| University graduates.....                   | 16    |
| Some University work.....                   | 31    |
| Persons of Upper School standing.....       | 302   |
| Persons of part Upper School standing.....  | 93    |
| Persons of Middle School standing.....      | 241   |
| Persons of part Middle School standing..... | 31    |
| Persons of Lower School standing.....       | 38    |
|   | — — — |
|   | 752   |

#### Correspondence Courses

During the school year 1945-46 the Correspondence Courses had an enrolment of 2,528, of which 2,147 were in the English course and 381 in the bilingual. In Grades I to VII, 590 promotions were made. Of the 32 candidates for High School Entrance standing 25 were passed on recommendation and 5 wrote the High School Entrance examinations and were successful. In Grades IX and X the results were as follows:

|                        |
|------------------------|
| 4 completed 7 subjects |
| 3    "    6    "       |
| 8    "    5    "       |
| 12   "    4    "       |
| 14   "    3    "       |
| 34   "    2    "       |
| 27   "    1 subject    |

These results were approximately the same as those secured during each of the previous three or four years.

The Correspondence Courses cover the public and high school work from Grade I to Grade X and are extended to all pupils who cannot attend school because of distance, illness or physical disability. Inmates of Sanatoria, Preventoria and Institutions of Correction may be enrolled. In addition, lessons are sent, if required, to former Ontario pupils who are temporarily living outside the province. Several children of missionaries who are resident in South America, Africa and the Far East are enrolled. In all such cases the parents have been former residents of Ontario. The staff consists of 24 teachers and 5 clerks.

In addition to the regular courses carried on in Grades I to X, the Canadian Legion Courses in English, Social Studies and Elementary Arithmetic are super-

vised. During the year 3,850 lessons were received, an increase of 320 over the previous year.

#### Railway School Cars

This is the twentieth year that the School Cars have been in operation. The plan started in 1926, with one car on the C.P.R. from Chapleau and one on the C.N.R. from Capreol. Since then five have been added; four are now serving the lines of the C.N.R., two those of the C.P.R., and the other the Ontario Northland. About 250 boys and girls are receiving an education in this way.

The activities of the teachers are many and varied, as the cars are community centres and serve the people in various ways. Under varying circumstances the School Car teacher becomes a banker, a legal adviser for the adults, a letter-writer, an interpreter, an informal court of appeal and a helper in numerous situations.

#### School Health Supervision

The first Ontario legislation permitting public and separate school boards to make expenditures for medical inspection and health services was passed in 1908. In 1919 the Department of Education set up a School Health branch, and thereafter admitted graduate nurses to annual summer courses leading to the diploma of Approved School Nurse. In 1925 the Department of Health took over the central administration of school health from the Department of Education. Statutory amendments provided that any new health services inaugurated must be administered by local Boards of Health, not school boards. Under this legislation there were, in 1946, 71 municipal Boards of Health employing qualified school nurses for school health work. Acceptable services which had been established under school boards prior to July 31, 1924, were allowed to be continued. In 1946 there were 24 such services still in operation under school boards. In 1940 statutory authority was granted to county councils to employ, at the expense of the county, Public Health Nurses for school health work. In 1946 there were 8 counties which had taken advantage of this legislation, employing a total of 27 Public Health Nurses. The counties are: Haldimand, Halton, Huron, Lennox & Addington, Middlesex, Perth, Simcoe, Wentworth. The necessary direction for this school nursing programme is supplied by the local Medical Officers of Health of the municipalities of the county. Then, in 1943, an amendment to The Ontario Health Act provided for "Health Units," under which full school health services are supplied as part of an overall community health programme. In 1946 the following 15 "Health Units" were in operation:

United Counties of Stormont, Dundas & Glengarry  
Porcupine  
Kirkland-Larder Lake  
Welland and district  
Northumberland and Durham  
Elgin-St. Thomas  
St. Catharines-Lincoln  
Ingersoll-Oxford  
Brant  
Dufferin  
Prescott and Russell  
Prince Edward  
Bruce  
Peel  
Lambton

*Capt. S. B. Coon and Son, Architects, Toronto*

**Hanna Memorial School, Sarnia, Ontario**

The six last named are new Units, established in 1946. These 15 Health Units serve 108 municipalities. In 1946 the total number of nurses employed in school health work in Ontario was 548, most being holders of certificates as Public Health Nurses obtained through a course in a university, but some being holders of the older Approved School Nurse diploma. School Health Services now serve 72.3% of the school population.

#### **Citizenship Instruction**

During the year 1946 two Ontario centres were chosen for experimentation in citizenship instruction through an adaptation of the methods followed successfully in Springfield, Massachusetts. The centres chosen were Welland and Kirkland Lake. Representatives of the school boards of these centres visited Springfield to become acquainted with the plan, and during the year Springfield school officials visited Welland and Kirkland Lake in an advisory capacity. As a result, a special programme of citizenship has been developed for each of these two centres, under the general direction of the public and separate school inspectors. The aim is to cultivate desirable social relationships between the different ethnic groups of the community. The courses of study of the Ontario Programme are being adapted to that end where opportunity offers.

#### **Construction of New Schools**

Approval was given during the year to a large number of school boards throughout the province for the construction of new schools. Many proposed constructions have been delayed because of the high cost of building, but a number of schools have been completed. The Interim Report of the Committee on Planning, Construction and Equipment of Schools in Ontario, which was referred to in the Report of the Minister for the year 1945, has had a marked effect on the design of schools which have been completed.

The Hanna Memorial School in the City of Sarnia is a one-storey building of twelve classrooms, situated on a site of approximately seven acres. The building contains an administration suite, rooms for men and women teachers, and a well-equipped nurse's room. Kindergarten-Primary and Grade I classes are housed in a separate wing. Entrance to these rooms is through a playground surrounded by a hedge which provides play space for the young children apart from the remainder of the school. The school is attractively decorated, brightly lighted, and the walls have been acoustically treated to promote quietness. The grounds have been tastefully landscaped. The building was completed at a cost of \$220,000.00.

The Centennial Road Public School at Highland Creek, Scarborough Township, is situated on a site of five acres. The building contains five classrooms, is one storey in height, and has bilateral lighting. One room is provided with a stage, and may be used as a small auditorium. Nusite boards of green glass replace the traditional slate blackboards. Each room has an emergency door leading to the outside. The school was built at a cost of \$70,000.

Emsdale School, in Perry Township School Area, was completed in 1946 at a cost of \$38,500. It contains two classrooms, smaller rooms for Manual Training and Home Economics, and a small auditorium-playroom. The classrooms have bilateral lighting, the light from the right coming from clerestory windows. Floors are of mastic tile.

A new school was completed at Nolalu, in Thunder Bay District, at a cost

of \$20,000. This school has one main classroom and a Crafts room which could be used, if necessary, as an additional classroom.

It was considered essential that a demonstration school be built by the Department of Education to exemplify the findings of the Committee on Planning, Construction and Equipment of Schools in Ontario, to assist it in appraising those findings, to demonstrate the feasibility of operating rural central schools, and to pave the way for the erection of school buildings with accommodations adapted to more efficient teaching and permitting flexibility in organization and classroom procedure. Consequently, the erection of such a school was undertaken on a suitable site on No. 11 Highway, some thirteen miles north of Bracebridge. As a tribute to the memory of the late Dr. V. K. Greer, former Superintendent of Elementary Education, who throughout his term of office had devoted so much of his time and effort to the establishment of larger units of administration, this school will be called the "V. K. Greer Memorial School." It will consist of four regular classrooms and three special rooms and will accommodate 160 pupils and will replace a number of one-room schools.

#### **The Provincial Inspectoral Staff, 1946**

##### **I. IN MEMORIAM:**

Dr. John Francis Sullivan was born August 30th, 1865, in Ennismore Township, Peterborough County. He attended the local public schools and Peterborough High School, as it was then called. In the Fall of 1883 he took a training course at the former Port Hope Model School, obtaining a Third Class certificate. His first teaching was in his native Ennismore, where, from 1884 to 1893, he taught for more than eight years, but with periods of absence to better his education. Returning to Peterborough High School for terms, he successively obtained Normal Entrance and Senior Leaving, and, going on to Ottawa Normal School, he secured a Second Class certificate in 1895, and in 1897 a First Class certificate and High School Assistant's certificate. From September, 1895, to July, 1897, Dr. Sullivan taught in St. Patrick's Separate School, Ottawa, and from 1897 to 1907 in the Ottawa Normal Model School. Through extra-mural study and part-time attendance he was graduated from Queen's University in 1904 with the degree of B.A. In 1907 Dr. Sullivan was appointed Inspector of Separate Schools with headquarters at London. In 1928 he was transferred to the Hamilton Separate School inspectorate, where he was located until his retirement in 1935. Dr. Sullivan's devoted and efficient service to the cause of education was recognized in 1935 when the University of Western Ontario conferred on him the honorary degree of Doctor of Laws. Subsequent to retirement, Dr. Sullivan lived quietly with his family at their home in London until his death on December 17th, 1946. Dr. Sullivan's kindly and helpful visits to classrooms will long be remembered by those with whom he came in contact.

Mr. E. J. Transom, M.A., B.Paed., died suddenly on April 26th, 1946, while returning to his home after having attended the Ontario Educational Association. He was a native of Milton, but received his elementary and secondary education in the schools of Hamilton. Mr. Transom graduated from Queen's University and secured his Master's degree from Columbia University. He taught in the public schools in Timmins, where he later became Supervising Principal. In September, 1943, he was appointed Inspector of Public Schools for the City of Fort William. Mr. Transom was an authority on educational and child psychology. Owning one of the largest and most comprehensive libraries at the head of the Lakes, he delighted in the company of books. He was frequently consulted by his colleagues on educational matters, and his opinions were highly regarded.

## II. RETIREMENTS:

Mr. W. L. Bowden, B.A., was born at Vittoria, Norfolk County, some two miles from the birthplace of Dr. Egerton Ryerson. He was educated in the village school in Vittoria and in the Simcoe High School. Mr. Bowden received his professional training in the Simcoe Model School and the Ontario Normal School, Hamilton, and graduated from Queen's University in 1919. He began his teaching career in a rural school in Charlotteville, Norfolk County, and later served as Principal at Bealton, Port Colborne Public School, Dresden Continuation School, New Hamburg Continuation School, and Port Rowan High School. In 1925 Mr. Bowden was appointed Public School Inspector for Essex No. 2, with headquarters at Kingsville. In 1940 he became Public School Inspector of Norfolk County and held this position until his retirement on August 31st, 1946. Mr. Bowden served faithfully and efficiently the cause of education, and had especial success in the formation and organization of Township School Areas.

Mr. A. R. Davidson, B.A., Assistant Superintendent of Schools for the City of Windsor from November, 1936, to August, 1946, was born in Middlesex County. Following his elementary education in Adelaide Township and his secondary schooling at Strathroy he attended the London Normal School in 1916-17. The first three years of his teaching experience were acquired in rural schools near his home. Subsequently, he was appointed to the staff of the Public Schools in the town of Walkerville and served there as principal until November, 1936, when he was chosen by the Windsor Board of Education to succeed the late Mr. J. E. Benson as Inspector of Schools. At that time he was also appointed Assistant Superintendent of Schools. In 1946 the business world, which had always held great attraction for Mr. Davidson, beckoned effectively and he left the educational field to become part-owner and executive official of a thriving machine-tool business. During his inspectoral term Mr. Davidson not only served well the school system under his direction, but participated actively in many worthwhile community projects. To him belong those qualities of mind and character which enable an individual to give leadership to any organization with which he is associated. Mr. Davidson was chosen President of Queen's Summer School in 1930, President of the Ontario, Michigan and Ohio division of the Progressive Education Association in 1945. It is to his credit that in his ten years of administrative work he managed to effect steady progress and improvement in the Windsor Public Schools.

Mr. Murray G. Hughson, B.A., B.Paed., resigned from service as Public School Inspector for the City of Kitchener, effective August 31st, 1946. Mr. Hughson was appointed to this position in 1942, his duties beginning on June 28th of that year. Previous to his appointment to this position Mr. Hughson was principal of Aberdeen Public School, London.

Mr. J. C. Smith, B.A., retired as Inspector of Public Schools for the City of St. Thomas and Elgin County on August 31st, 1946, and on his retirement had completed thirty years of service as an inspector. He was born in the City of Kingston and received his elementary education in the public schools of that city. Winning a scholarship in a Fifth Class, he entered the Kingston Collegiate Institute where he completed Honour Matriculation and was awarded the Watkin Scholarship with the honour of the Shultz Scholarship. Mr. Smith graduated from Queen's University in 1898 with Honours and Specialist standing in Classics. He later attended the Hamilton Normal College. He taught in public schools in Frontenac County and was a member of the staffs of the High Schools of Dutton, Dundas and Wingham. While in Wingham he became principal of the

*Courtesy Public School .Argus*

**Centennial School, Scarborough**

High School, and went from Wingham to Ingersoll to assume the principalship of the Collegiate Institute. He resigned in June, 1916, to become Public School Inspector of Elgin East. In September, 1934, he became the Inspector of St. Thomas and Elgin County, in part, and in January, 1939, he was appointed to the inspectorship of St. Thomas and Elgin County. He served also as a member of the Senate of the University of Western Ontario. Before his retirement Mr. Smith had the satisfaction of seeing five Township School Areas established and the whole county organized into three High School Districts. His work and interest in the St. Thomas and Elgin Library Boards, in the Elgin Historical Society, in social and fraternal organizations, and in church work have brought him many executive duties and enlarged his sphere of usefulness.

### III. APPOINTMENTS:

The following appointments were made to the provincial staff of inspectors during the year 1946:

1. *Department of Education:* Mr. G. A. Pearson, B.A., Public School Inspector for Kent County, appointed Assistant Superintendent of Elementary Education, duties beginning January 1st.
2. *Department of Education:* Lt.-Col. S. A. Watson, B.A., Principal of the Ottawa Normal School, appointed Assistant Superintendent of Elementary Education, duties beginning January 1st.
3. *City of Kitchener:* Mr. R. M. Buie, B.A., B.Paed., Principal of Hartman Jones Memorial School, York East, appointed Public School Inspector, duties beginning November 1st.
4. *City of Sault Ste. Marie:* (New city inspectorate) Mr. Leonard Boyce, B.A., B.Paed., from the staff of Brockville Collegiate Institute, appointed Director of Education, duties beginning September 1st.
5. *Elgin:* Mr. A. D. McColl, B.A., Assistant Public School Inspector for Elgin, appointed Public School Inspector, duties beginning September 1st.
6. *Elgin:* Mr. K. F. Prueter, B.A., Supervising Principal of Oakville Public Schools, Army Service, appointed Assistant Public School Inspector, duties beginning September 1st.
7. *Peel:* Mr. J. C. McClelland, B.A., Kitchener Public School staff, Army Service, appointed Assistant Public School Inspector, duties beginning September 1st.
8. *Prescott & Russell No. 1:* Mr. W. C. VanderBurgh, B.A., Walkerton Public School staff, Army Service, appointed Public School Inspector, duties beginning September 1st.
9. *Renfrew North:* Mr. W. G. Chatterton, B.A., Chatham Public School staff, Army Service, appointed Public School Inspector, duties beginning September 1st.
10. *Stormont:* Mr. R. J. McNaughton, B.A., B.Paed., Assistant Public School Inspector for Wentworth, appointed Public School Inspector, duties beginning January 1st.
11. *Wentworth:* Mr. M. A. Craig, B.A., B.Paed., Principal of Hilson Avenue Public School, Westboro, Carleton County, Army Service, appointed Assistant Public School Inspector, duties beginning March 1st.

12. *District Division IV*: Mr. R. R. Steele, B.A., Supervising Principal of Fort Frances Public Schools, Air Force service, appointed Public School Inspector, duties beginning September 1st.
13. *District Division X*: Mr. H. A. Blanchard, B.A., Simcoe County rural schools, Army service, appointed Public School Inspector, duties beginning September 1st.
14. *District Division XI*: Mr. J. R. M. Peat, B.A., B.Paed., Toronto Public School staff, Army service, appointed Public School Inspector, duties beginning September 1st.
15. *R.C.S.S. Division VII*: Mr. W. H. Bulger, B.A., Penetanguishene High School staff, Army and Air Force service, appointed Separate School Inspector, duties beginning March 1st.

#### IV. TRANSFERS:

The following transfers were made in the provincial staff of inspectors during the year 1946:

1. Mr. F. L. Barrett, B.A., B.Paed., from Stormont to Kent, January 1st.
2. Mr. H. W. Brown, B.A., from District Division XI to Welland East, September 1st.
3. Mr. W. J. McLeod, B.A., B.Paed., from Carleton to Norfolk, September 1st.
4. Mr. T. C. White, B.A., B.Paed., from Welland East to City of Windsor, September 1st.
5. Mr. J. C. Wilker, B.A., B.Paed., from Prescott & Russell No. 1 to Carleton, September 1st.

#### V. NORMAL SCHOOLS:

1. Mr. F. S. Rivers, B.A., B.Paed., appointed Assistant Director of Professional Training. January 1st.
2. Mr. F. B. Smitheram, B.A., returned to Peterborough Normal School from Peterborough East; and Mr. K. O. Birkin, M.A., B.Paed., returned to Peterborough East from Peterborough Normal School. September 1st.
3. Mr. C. A. Mustard, B.A., transferred to Toronto Normal School from Renfrew North. September 1st.
4. Mr. G. L. Woodruff, B.A., transferred to Peterborough Normal School from District Division IX. September 1st.
5. Mr. C. P. O'Neill, M.A., transferred to North Bay Normal School from R.C.S.S. Division VII. March 1st.

#### Conclusion

I have been delighted to have had the opportunity of meeting many of the inspectors in group conferences during the year, in most cases in company with the masters in the local Normal School. These conferences have been fruitful, and it is my hope that they may be continued, and extended to parts of the province not previously covered.

It is realized that administrative duties in the formation of larger units of administration, and in connection with school financing and distribution of the legislative grants, have claimed much of the inspector's time and attention during

1946. His duties have become so numerous and varied that the term "Inspector" is perhaps not wholly appropriate. The inspectors have rendered good service in regard to both administrative and professional duties. Besides, the inspector is the field representative of the Department of Education, and bears responsibility for good public relations. Some inspectors have been ably assisted in their work by a Supervising Teacher or an Assistant Inspector.

Every inspector has long realized that, in his work as a professional supervisor of instruction, his first objective is to gain the co-operation of his teachers, that he cannot make any worthwhile contribution to education except through the day-by-day work in the classroom. Therefore, it has been a pleasure to note the intelligent use made by many inspectors of several kinds of co-operative supervision, such as classroom visitation where most needed, individual and group conferences with teachers, demonstration lessons, intervisitation, supervisory bulletins and circulars, reading and study clubs, and co-operative testing.

C. F. CANNON,

*Superintendent of Elementary Education.*

Toronto, March 31st, 1947.

## SECONDARY EDUCATION

I have the honour to submit herewith the reports of the High School Inspectors and the Director of Vocational Education for the school year 1945-46.

A. G. HOOPER,  
*Superintendent of Secondary Education*

Toronto, June 2, 1947.

---

### 1. COLLEGIATE INSTITUTES, HIGH SCHOOLS AND CONTINUATION SCHOOLS

The scope of Secondary School education in the province of Ontario has gradually increased in recent years. In the school year 1945-46 the total enrolment of pupils in the Collegiate Institutes, High Schools, and Continuation Schools of Ontario was 89,521. The total number of teachers in these schools was 3,609. The corresponding figures for the year 1944-45 are 82,863 pupils and 3,362 teachers and for the year 1943-44, 74,512 pupils and 3,261 teachers.

On September 1, 1945, Major J. R. H. Morgan was appointed to the inspection staff for secondary schools. Major Morgan has the benefit of wide experience in various types of schools. His teaching experience, which began in the elementary schools, also included work in Continuation Schools before he joined the staff of North Toronto Collegiate Institute, Toronto. His qualifications as a specialist in French and Latin were enhanced by post-graduate studies in the Sorbonne, Paris, France. During the recent World War he served with distinction as an officer in the Canadian army and received for meritorious service the decoration of a Member of the Order of the British Empire. Major Morgan comes to his present position well fitted for its administrative duties.

The movement for the establishment of larger High School Districts advanced greatly during 1945-46. This movement was encouraged by a growing realization of the need for better educational opportunities for pupils in rural sections of the province. It was furthered by an increasing desire on the part of the public for improved accommodations and a wider variety of courses in secondary schools. During the year Mr. S. D. Rendall, High School Inspector, gave full time to this programme and, in view of the many requests from County Councils, Municipal Councils, and School Boards for meetings to discuss the reorganization of High school districts, Mr. G. L. Duffin, Public School Inspector for Essex County was appointed Executive Assistant to the High School branch of the Department to work with Mr. Rendall. Mr. Duffin is a graduate of the University of Western Ontario and holds the degree of Master of Education from Wayne University, Detroit. With his scholastic training and practical experience in the field, he has been able to give valuable assistance in connection with this movement.

Careful surveys of educational needs were followed by discussions at public meetings as a basis for action by municipal bodies. Thus during the school year 1945-46 thirty-one enlarged districts were established in addition to the eight which had previously been organized. The fact that many school boards have felt constrained by the scarcity of building materials and the high cost of construction to postpone the provision of urgently needed school accommodations

has given to county councils a splendid opportunity for wise planning and careful reorganization of high school districts.

The following table shows the location and the year of establishment of these Districts:

| County         | No.     | Year established |
|----------------|---------|------------------|
| Kent.....      | 2 ..... | 1944             |
| Essex.....     | 6 ..... | 1945             |
| Carleton.....  | 3 ..... | 1946             |
| Elgin.....     | 3 ..... | "                |
| Halton.....    | 2 ..... | "                |
| Huron.....     | 4 ..... | "                |
| Hastings.....  | 1 ..... | "                |
| Kent.....      | 3 ..... | "                |
| Lambton.....   | 4 ..... | "                |
| Middlesex..... | 5 ..... | "                |
| Perth.....     | 4 ..... | "                |
| York.....      | 2 ..... | "                |

As a result of the establishment of these larger areas, some of the smaller secondary schools in the province requested dissolution at the end of June, 1946. By the end of the year 1946, public interest in this movement had resulted in the appointed of Consultative Committees in 36 of the 38 counties in the province.

For the first time in several years all candidates for Grade XIII (Upper School) standing were required to write the annual Departmental examinations in June. The wartime practice of granting standing upon the basis of early release of pupils from school for enlistment or for farm service was discontinued during the year.

During the school year 1945-46 interchanges were arranged for twenty Ontario teachers with teachers in various parts of England and for seventeen Ontario teachers with teachers in other provinces of Canada. The interchanges were for one year beginning in September, 1946.

Owing to the prevalent shortage of teachers it was found desirable to continue the policy of granting special permission to school boards to engage teachers who were not fully qualified in the subjects they were required to teach, especially in Shop Work, Home Economics, Music, and Art and Crafts. This shortage will gradually be overcome, since summer courses, which were suspended during the war years, have now been resumed.

The use of audio-visual aids as a supplement to regular class-room work increased during the year. In many schools new equipment, including radios, gramophones, and film projectors, was purchased. Special broadcasts for use in the schools were presented in the subjects of Guidance, English, French, and Mathematics with a view to further extension of this service at a later date. The chief purpose of these broadcasts has been to stimulate interest in these subjects and thus provide an aid to the classroom instruction. Principals and teachers alike have made wide use of these facilities to enrich the material available for class-room study. The broadcasts have also met with favourable reception by the general public.

In this, the first post-war year of education in Ontario, the services offered by our secondary schools have been greatly extended and substantially improved to meet the growing needs of our Province. The ultimate aims of secondary education remain fundamentally unchanged but the challenge of the present is also being met by a fuller appreciation of the needs of modern life.

W. R. STEWART,  
*for the High School Inspectors.*

## 2. VOCATIONAL SCHOOLS

The scholastic record of the vocational schools during the school year 1945-46 was most satisfactory, a definite upgrading of academic work being noticeable throughout the Province. An analysis of reports received shows a very high percentage of successes in the grade examinations and also shows that the standard of attainment of vocational pupils compares favourably with that of general course pupils in the upper school examinations. Vocational students were awarded several Dominion-Provincial scholarships for Grades XII and XIII as well as other scholarships provided by private donors. The continuing and expanding interest of business, industry, and other organizations in extending help to deserving pupils through provision of scholarships is commendable.

### Employment of Graduates

The close co-ordination established with industry and business through the employment service provided by the schools has greatly facilitated the placement of graduates. In addition to the contact made by the placement officer of the school, first-hand information of the various opportunities of employment available is obtained by graduating pupils through planned visits to plants and offices or by means of work experience. It is evident from employment records that graduates from vocational schools are assured of employment. In the commercial field, the call for trained office help is so great that the demand cannot be met, and the problem is to keep students in school until they have received adequate training.

### Part-time Training in Industry and Business

The part-time School-Industry plan operated at the Danforth Technical School in Toronto in connection with fourth year industrial classes (described in greater detail in previous reports) is being watched with interest throughout the Province. Ninety-one students participated in the scheme during the past year. Co-operative training has also been established in the F. R. Close Technical School and the High School of Commerce in Hamilton. Reports on progress are exchanged by the firms and the school, and in some cases, suggestions advanced by the pupils for the improvement of office conditions have been adopted. The introduction of a similar co-operative plan in the Malvern Collegiate Institute, Toronto, is under consideration. It may be possible before the close of another year to evaluate the advantages and disadvantages of this type of co-operative training.

### Growth

There has been a general increase in enrolment of vocational pupils during the past year in both day and evening classes. It is interesting to note that the increase in day school enrolment is greatest in the first and second years. A comparative table of statistics is given below. In order to ensure a proper comparison, the legislative grants *applying* to each school year are given without regard to the fiscal year in which the payments were made.

|  | 1943-44     | 1944-45     | 1945-46     |
|--|-------------|-------------|-------------|
| Number of Schools—Day.....                             | *59         | *43         | 43          |
| Number of Schools—Evening.....                         | 49          | 46          | †41         |
| Number of Pupils—Day.....                              | 30,956      | 27,782      | 30,252      |
| Number of Pupils—Evening.....                          | 29,546      | 32,834      | 37,807      |
| Number of Teachers—Day.....                            | 1,591       | 1,615       | 1,470       |
| Number of Teachers—Evening.....                        | 958         | 1,081       | 1,174       |
| Legislative Grants (applicable to School Year).....    | \$1,278,803 | \$1,349,846 | \$3,111,106 |
| Net Municipal Expenditures (previous Calendar Year)... | 5,198,184   | 5,284,355   | 3,569,265   |

\*Sixteen commercial departments transferred to high schools and collegiate institutes.

†Five centres transferred to night high schools.

### **New Buildings and Other Accommodations**

Kirkland Lake has provided a new home economics room, two new classrooms, an enlarged woodwork shop, and a sewing room.

The Ottawa Technical School has been obliged, through lack of space within the school building, to accommodate four classes (two in art and two in drafting) in rooms in the old Conservatory of Music.

The Danforth Technical School, Toronto, has provided accommodation for a new hairdressing and beauty culture class, and another room for plastics, both partially equipped and in use.

The Central High School of Commerce, Toronto, now has two attractive counselling rooms and one additional special room for teaching first-aid and healthful living.

In the Welland Vocational School three classrooms and a business machine room were added to the third floor, and a junior drafting room was established and equipped in the boys' industrial department. A new sound system was also installed for intercommunication, radio broadcast reception, and programme distribution.

Substantial additions to the vocational schools in St. Catharines and Kitchener-Waterloo are planned.

The Galt commercial office has been moved to the second floor to be near the rest of the department, and the electrical laboratory accommodation has been greatly improved.

In the Central Technical School, Toronto, there has been completed a three-room, up-to-date guidance centre, which takes care of group and individual guidance for both boys and girls. The accommodations for the courses in plastics and in radio broadcasting have been extended.

### **Adaptation of Curriculum**

In Toronto the commercial schools are organizing new courses in Grades XI to XIII to give students a wider choice of subjects; in the Kitchener-Waterloo Vocational School, farm boys are given instruction in the type of machine shop practice and carpentry particularly suited to farming operations. A number of other boards are arranging options in commercial work, but there is room for considerable improvement over the Province as a whole. Boards are being urged to co-operate in adapting the curriculum to meet individual needs and to use lesson-aid material more extensively, so that bright students may proceed at a *normal* rate without being retarded by weaker classmates.

### **Extra-Curricular Activities**

Opportunities for extra-curricular activities continue to expand throughout vocational schools. The most up-to-date programmes include such recreational features as school orchestras, brass and bugle bands, camera clubs, athletics, sports, music and dramatic groups, glee clubs, radio clubs, literary societies, debating societies, student administrative councils, school magazines, philatelic clubs and handicrafts.

### **Transfer of the Ontario Training College for Technical Teachers from Hamilton to Toronto and Amalgamation with the Ontario College of Education**

On the first day of September, 1946, the Ontario Training College for Technical Teachers was transferred from Hamilton to Toronto and amalgamated with the Ontario College of Education. Mr. R. D. Phillips of the Central Technical

School, Toronto, was appointed Acting Director of Vocational Training and the College staff, including W. R. Clarke, H. H. King, G. S. Apperley, and Miss Walker, was transferred to the College of Education. The Training College building in Hamilton is to accommodate the new Provincial Institute of Textiles which is referred to in another part of this report. C. C. Ashcroft, principal of the Training College, becomes principal of the Textile Institute, retaining Miss Harvey as his secretary.

#### **Teacher Training**

The new method of training vocational shop teachers, described in my last report, has met with considerable success, and is being continued at the Ontario College of Education in Toronto. As already pointed out, the new plan is an attempt to bring vocational teacher-training methods in line with actual teaching developments in the vocational schools. Observation and practice teaching have been extended and facilities provided at a number of vocational schools within a fifty-mile radius of Toronto.

#### **Industrial Arts and Crafts and Home Economics**

Interest in these subjects is spreading rapidly. New centres have been planned in a number of places and would be operating at the present time but for building difficulties and the scarcity of teachers and equipment. In the presentation of these subjects, teachers are continuing to broaden and enrich the content of courses. In the field of Home Economics, the functions, values and ideals of normal family life in a changing society are being emphasized. The scarcity of teachers still persists in spite of refresher and certificate courses provided by the Department, but the situation in Industrial Arts and Crafts is improving as teachers return from service in war industries and the Armed Forces. The teachers of these subjects are to be commended upon the excellence of their work.

#### **Apprenticeship**

Looking to the future, it is hoped to develop a plan whereby apprenticeship training will be centralized as part of the curriculum of a Provincial Technical Institute. Under present arrangements, students who complete a four-year course in a vocational school and who specialize in one of the designated trades are allowed to deduct two years from their apprenticeship training period, and those who spend three years in a vocational school are allowed one year towards their apprenticeship. Training on the job will always be a necessary adjunct to complete apprenticeship, but if the training is centralized, the provision whereby apprentices are required to attend night classes will probably be abolished.

#### **Evening Classes**

It is evident that evening vocational classes are maintaining their popularity. During the past year, every vocational school in the Province provided a wide range of courses and many reported increased enrolments over those of the preceding year. Advisory committees are assisting in implementing the adult education programme by providing special evening classes for adults.

#### **Provincial Technical Institutes**

Technical Institutes are a new venture on the part of Ontario in the field of technical training. One Institute has already been established, namely the Provincial Institute of Mining in Haileybury. A second, the Provincial Institute of Textiles, is being organized in Hamilton. A third is being organized between Port Arthur and Fort William, to be known as the Lakehead Provincial Technical Institute.

1. The purpose of the Haileybury Institute is to serve the needs of the mining areas of northern Ontario. It provides specialized technical courses in subjects related to mining, for youths and men who wish to enter the mining industry without investing the time and money required for degree courses.
2. The Hamilton Institute is being established in that city because it is the centre of the primary textile industry in Ontario. This Institute will provide a service to persons already employed in the industry and specialized training to young people who plan to occupy technical positions in the primary manufacture of textiles.
3. The Lakehead Institute will have a three-fold purpose, namely to provide technical training in mining, forestry, and agriculture.

#### Conclusion

It is quite apparent that Canada is entering a period when there will be great opportunities for industrial and commercial expansion. This expansion will not be possible unless our schools provide the specialists required. No time should therefore be lost in training the necessary technical personnel.

L. S. BEATTIE,

*Director of Vocational Education.*

To meet the problem caused by war-time shortage of teachers:

- (1) in 1940 and thereafter applicants were regularly admitted to Normal School on eight of the required nine Upper School papers. 1216 have so entered during the past seven years.
- (2) in 1943 applicants were admitted on seven, and in 1944 on five Upper School papers on condition that if successful they would be granted Deferred First Class certificates until the additional Upper School papers had been completed. 630 have so entered during the past four years.
- (3) In 1944 a First Year Normal School Summer Session of six weeks was established to which were admitted applicants holding at least full Middle School standing. 620 attended the London and Toronto centres, of whom 572 were granted Deferred Second Class certificates valid for one year. 466 of these attended the Second Year Normal School Summer Session in 1945, of whom 449 were granted Interim Second Class certificates.
- (4) In September, 1947, applicants holding eight of the required nine Upper School papers will be regularly admitted to Normal School and those holding five, six, or seven papers will be admitted to the Deferred First Class course.

- (5) A First Year Normal School Summer Session leading to a Deferred Second Class certificate will be held again during the summer of 1947, to which course will be admitted applicants holding Middle School standing and who have taught for at least five months on Letters of Permission.

Up to December 3rd 1015 Letters of Permission have been issued to unqualified teachers of whom 381 have been in receipt of teacher training from other provinces or in earlier times. Last year at this time 659 Letters of Permission had been issued.

### Medical Inspection of Training Schools

All applicants to Training Schools are required to submit to a medical examination before they are finally accepted. In 1937 seventeen applicants were rejected; in 1938, twenty-seven; in 1939, twenty-six; in 1940, thirteen; in 1941, seventeen; in 1942, eight; in 1943, nine; in 1944, fifteen; in 1945, twelve, in 1946, eight. Applicants suffering from physical handicap of a less aggravated nature are permitted to enter on signing a waiver to claims for disability pension under the Teachers' and Inspectors' Superannuation Act. In 1939-40 two signed waivers; in 1940-41, seven; in 1941-42, thirty-eight; in 1942-43, forty-six; in 1943-44, forty; in 1944-45, sixty; in 1945-46, forty-three; in 1946-47, twenty-one.

### Cost of Medical Inspection

|   |            |
|---|------------|
| Amount paid physicians for medical examinations—1,517 × \$4.00..... | \$6,068.00 |
| Amount paid hospitals and radiologists for X-ray films.....         | 584.15     |
| Amount paid consultants obtained by the Medical Board.....          | 645.00     |
| Amount paid nurses re medical examinations.....                     | 180.87     |
| Refund of fees to students excluded by the Medical Board.....       | 10.00      |
|   | <hr/>      |
|   | \$7,488.02 |
| Less fees paid by students.....                                     | 2,474.00   |
|   | <hr/>      |
|   | \$5,014.02 |

Late registration fees collected from some students. Other students who paid their fees in September required further examinations. No extra fee was charged. Students with military service were not required to pay a fee.

This amount to be divided between:

|  |            |
|--|------------|
| Ontario Government.....                                  | \$2,507.01 |
| Teachers' and Inspectors' Superannuation Commission..... | 2,507.01   |
|  | <hr/>      |
|  | \$5,014.02 |

### Practice Teaching—Normal Schools

In the Normal Schools practice teaching is carried on according to three methods: (1) Each student teaches a minimum of 23 lessons in graded and ungraded schools under competent and experienced critic teachers. The first five are prepared under supervision of the Normal School Masters in order that a reasonable degree of success may be attained and confidence inspired. The remaining eighteen constitute the basis upon which the student's practice teaching is judged. (2) In the regular rural practice schools a student teacher takes charge of the whole school for one hour instead of teaching a single lesson to a single class. (3) During the latter half of the term students are assigned four weeks of continuous observation and practice teaching, two in rural schools and two in graded schools taking full charge of the school for half of each week under the supervision of the teacher.

The average cost of practice teaching per student is \$103 per annum, made up as follows: practice teaching \$58, continuous teaching \$20, transportation \$10,

grants to Boards and janitors \$15, total \$103. This constitutes the major variable cost since it increases or decreases directly with the enrolment.

### Changes in Staff

On October 27, 1946, Mr. Edward A. Miller, a member of the staff of the Toronto Normal School, died suddenly. Mr. Miller was born near Rodney, Ontario, and attended the London Normal School. After gaining some teaching experience in rural schools near Leamington and in Northern Ontario, he attended the Ontario Agricultural College, from which he graduated with the degree of B.S.A. in 1923. He was appointed head of the science department of the Chatham Collegiate in 1925. In 1930, he joined the staff of the Stratford Normal School, and later secured the degree of Bachelor of Pedagogy from the University of Toronto. Mr. Miller was transferred to the Toronto Normal School in September, 1939, and spent the last seven years of his life at work there. He was deeply respected and loved by his students, who were inspired by his sound scholarship and quiet humour. He contributed numerous articles to the School Magazine on Science instruction.

On November 7, 1946, Miss A. Elsie Sherin, Instructor in the Primary Specialist Course offered in the Toronto Normal School, died suddenly. As a specialist in Primary Methods, Miss Sherin served on the staff of the Ottawa Normal-Model School, from 1919 to 1939, when she was transferred to Toronto. She rendered excellent service to the students in attendance at the Primary Specialist Course as an Instructor in Primary Methods, and contributed effectively to the establishment of the programme.

Mr. H. E. Ricker was appointed to temporary duty as Science Master at Toronto Normal School in December, 1946. Mr Ricker was eminently qualified for work in this field having served as Science Master and Principal at North Bay Normal School for a number of years before his retirement in 1943.

Mrs. Isabel E. McKone was appointed Instructor in Home Economics at Toronto Normal School in September, 1946. Mrs. McKone's previous experience in the Home Economics field includes service, first as teacher and later as supervisor, in the public schools of London, Ontario, and some years as Instructor in London Normal School, prior to her resignation in June, 1942.

Mr. C. A. Mustard, Inspector of Public Schools in Renfrew North, was appointed Master in Toronto Normal School in September, 1946. Mr. Mustard's early teaching experience included service on the staffs of Upper Canada College, and of public schools of Toronto. In 1940, he enlisted in the Artillery, where he served for three years, until his transfer to the General Staff. When discharged in 1945, he held the rank of Major, and the award of M.B.E. He was appointed Inspector of Public Schools, with headquarters at Pembroke, in September, 1945.

On October 5, 1946, Dr. G. W. Hofferd, Science Master in the London Normal School, retired. Dr. Hofferd was born in Huron County, trained at the Stratford Model School and taught for five years at Parry Sound. After graduation from Queen's University in Honour Science, he taught in Essex High School, Peterborough Collegiate, Lucan High School, Victoria Model School, Kingston, and Oakwood Collegiate, Toronto. Following this period of service he taught for 31 years in the London Normal School. Dr. Hofferd obtained a specialist certificate in Agriculture at Guelph, an Art specialist certificate from the Art School of Toronto, and his Doctor of Pedagogy degree

from Toronto. He was a frequent contributor to the School Magazine, and was author of "Content and Methodology of Lower School Biology" and "Suggestions for Teachers of Agriculture".

Mr. C. P. O'Neill succeeded Dr. Hofferd as Science Master in the London Normal School. Mr. O'Neill is a graduate of Toronto University. He obtained his professional training at Toronto Normal School and the Ontario College of Education. Mr. O'Neill taught in New York State and in Hamilton, Ontario, where he was also Guidance Director for one year. For two years he served as an Inspector of Schools in Northern Ontario. After spending one year as a member of the staff of the North Bay Normal School, he was transferred to the London Normal School Staff.

On September 1, 1946, Miss Louise Gahan, Librarian in the London Normal School, retired. Miss Gahan taught in the London Public schools and afterwards joined the staff of the London Public Library. In June, 1919, she was appointed to the London Normal School staff, where as Librarian she rendered excellent service until the time of her retirement.

On September 1, 1946, Miss Louisa Moisley was appointed Librarian in the London Normal School to succeed Miss Gahan. Miss Moisley is a native of Welland County and taught in Fenwick for two years, and later in Welland in Kindergarten and Grade I. She attended the Library School at the Ontario College of Education and was then appointed to the London Normal School staff.

Mr. J. E. Chambers, Instructor in Manual Training in the North Bay Normal School, retired on August 31st, 1946. Born in Hastings County, Mr. Chambers attended in turn, Belleville and Deseronto High Schools, Madoc Model School, Ottawa Normal School, Shaw's Business College, and the Manual Training branch of the Ontario Agricultural College. After teaching in rural schools for several years he was engaged as teacher of commercial subjects and Manual Training at Alexandra School, Guelph. Appointed from there to the staff of the North Bay Normal School on January 2, 1911, Mr. Chambers gave 35 years and 8 months of effective service as Instructor in Manual Training and Writing.

Mr. G. R. Smith, Master in the Ottawa Normal School, retired August 31, 1946. Mr. Smith received most of his elementary education in a rural school near his birthplace at Bothwell, Kent County, Ontario. His teaching experience was long and varied. After several years in elementary schools, he attended Toronto University and graduated as a specialist in Mathematics and Physics. After eleven years of experience in Wingham High School, Kingston Collegiate Vocational Institute, and Lisgar Collegiate, Ottawa, Mr. Smith was appointed to the staff of the Ottawa Normal School. His long period of conscientious and efficient service in the Normal School was broken temporarily by two years spent in study and travel abroad. He was co-author with Professor J. T. Crawford, of the Ontario High School Arithmetic.

Mr. J. E. Smith was appointed to the staff of the Ottawa Normal School on September 1, 1946, to succeed Mr. G. R. Smith. Mr. J. E. Smith was born in Southampton and received his public school education there. He attended Lucknow and Wingham High Schools and Stratford Normal School. After several years' experience in a rural school and in Goderich public schools, he was appointed principal of Listowel High School. He received his B.A. degree from

Queen's University and his B.Paed. degree from Toronto University. Mr. Smith gave service in the Army with the Directorate of Personnel Selection and was overseas for one year. Upon his discharge in 1945, he accepted appointment as a counsellor with the Department of Veterans' Affairs, and a few months later became District Supervisor of Training for Western Ontario.

On September 1, 1946, Mr. L. W. Copp was appointed Principal of the Peterborough Normal School. Mr. Copp was born in Mariposa Township, County of Victoria, and received his elementary, high school and Normal School training in Peterborough. He taught in two rural schools and in Oshawa, South River and Peterborough Public Schools. He is a graduate of Queen's University and obtained his B.Paed. degree from the University of Toronto. In the war of 1914-18 he was three years overseas with the Canadian Field Artillery. At the conclusion of the war he taught Soldiers' Civil Re-establishment at Ottawa. He served as Captain on the Peterborough Rangers Regiment H.A.A. Mr. Copp was Inspector of Schools in northern Ontario from 1926 to 1930, and in Peterborough County from 1930 to 1944. In the school year 1939-40 he was on the Peterborough Normal School staff on exchange and was a Master in that school from 1944 until his appointment as Principal.

In September, 1946, Mr. G. L. Woodruff was appointed to the staff of the Peterborough Normal School as English Master. Mr. Woodruff was born in Ottawa, where he received his elementary and secondary education. Following graduation from Ottawa Normal School in 1934, he taught in North Renfrew County and Ottawa Public Schools. Mr. Woodruff is a graduate of Queen's University and served with the Canadian Army, retiring with the rank of Major. Upon return to civilian life and prior to his present appointment, he served as Public School Inspector in the District of Cochrane.

On September 30, 1946, Miss E. M. Everson, Instructor in Health and Home Economics in the Stratford Normal School, retired. Miss Everson was born in the County of Durham and received her elementary and secondary education in Oshawa. Her professional training was secured at the Ontario Normal College, Hamilton, and in the Household Science Department of the University of Toronto. In addition to specialist standing in Household Science, Miss Everson had taken post-graduate work in her subject at Teachers' College, Columbia University, and at the Massachusetts Institute of Technology. After experience as a public and secondary school teacher in Ontario and Saskatchewan, she joined the staff of the Stratford Normal School in 1921, where she rendered valuable service to education in Ontario in her dual capacity as Instructor and Dean of Women.

On October 17, 1946, Miss Lelia J. Finlay was appointed Instructor in Home Economics in the Stratford Normal School on a part-time basis. Her professional training was received in the Stratford Normal School, and in the Ontario College of Education. In addition to her work at the Normal School, Miss Finlay serves as an employee of the Stratford Board of Education as teacher of Home Economics in the public schools and Vocational night school classes.

On August 31, 1946, Miss Agnes J. Johnston, Librarian in the Stratford Normal School, retired. Miss Johnston was born and received her early education in the City of Stratford. She obtained her training as a teacher at the Ontario Normal College, Hamilton, and as a Librarian in the Library School of the University of Toronto. Before her appointment to the librarianship in September,

1919, Miss Johnston was a member of the Stratford public school staff where she served as a practice school teacher for the Normal School. In her 27 years of competent service, she has made a marked contribution to education in this province.

Miss Gwendolyn Manchester was appointed on August 15, 1946, as Librarian in the Stratford Normal School. Miss Manchester is a graduate of the Ottawa Normal School and the Library School of the University of Toronto. Her experience as a teacher was obtained in the Ottawa public schools, and as a librarian in the Ottawa Public Library, where she was in charge of a branch library.

H. E. AMOSS

*Superintendent of Professional Training.*

Toronto, June 30th, 1947.

# SCHOOLS ATTENDED BY FRENCH-SPEAKING PUPILS

## Teachers' Training and Qualifications

In 1945-46 there were 144 teachers-in-training at the University of Ottawa Normal School, 37 of whom were enrolled in the First Class course and 107 in the Second Class course. As a result of the term and final examinations 34 students were awarded First Class certificates, and 97 obtained Second Class certificates.

The following table shows the number and percentage of Ontario French-speaking elementary school teachers holding First or Second Class certificates in November, 1946, and the progress made in this regard since 1929:—

|  | 1929  | 1939  | 1943  | 1944  | 1945  | 1946  |
|--|-------|-------|-------|-------|-------|-------|
| Total number of French-speaking teachers in Elementary Schools.....            | 1,087 | 1,390 | 1,148 | 1,181 | 1,576 | 1,615 |
| Number of above teachers holding I or II Class certificates.....               | 273   | 1,271 | 1,272 | 1,297 | 1,348 | 1,377 |
| Percentage of French-speaking teachers holding I or II Class certificates..... | 25 11 | 91 13 | 87 85 | 87 39 | 85 53 | 85 29 |

The slight decrease since 1943 in the percentage of First and Second Class certificated teachers is due to the abnormal situation caused by the war.

## Secondary School Classes

The following table shows the number of French-speaking students enrolled in December, 1946, in the advanced French courses of Collegiate Institutes, High, Continuation, and Vocational Schools under the supervision of the Department of Education:—

| SCHOOL                                      | GRADE |     |       |       |       | Total |
|---|-------|-----|-------|-------|-------|-------|
|   | IX    | X   | XI    | XII   | XIII  |       |
| Alexandria High.....                        | 34    | 12  | 13    | 8     | 3     | 70    |
| Cornwall Collegiate and Vocational.....     | 96    | 46  | 21    | 5     | 5     | 173   |
| Embrun High.....                            | 45    | 17  | 13    | 13    | ..... | 88    |
| Espanola Continuation.....                  | 8     | 5   | 4     | ..... | ..... | 17    |
| Hawkesbury High (for Fr.-sp. pupils).....   | 78    | 41  | 27    | 34    | ..... | 180   |
| Hearst High.....                            | 11    | 2   | 6     | 2     | ..... | 21    |
| Iroquois Falls High.....                    | 8     | 7   | 11    | 2     | ..... | 28    |
| Kapuskasing High.....                       | 27    | 28  | 10    | 2     | ..... | 67    |
| Kirkland Lake Collegiate and Vocational.... | 24    | 9   | 7     | 5     | ..... | 45    |
| Lafontaine Continuation.....                | 14    | 17  | 10    | 15    | 1     | 57    |
| Mattawa High.....                           | 7     | 7   | 7     | 4     | ..... | 25    |
| North Bay Collegiate and Vocational.....    | 29    | 7   | ..... | ..... | ..... | 36    |
| Ottawa Technical.....                       | 67    | 14  | 30    | 22    | ..... | 163   |
| Paincourt Continuation.....                 | 11    | 15  | 8     | 4     | 1     | 39    |
| Penetanguishene High.....                   | 28    | 26  | 12    | 5     | ..... | 71    |
| Plantagenet High.....                       | 23    | 16  | 20    | 20    | 6     | 85    |
| Rockland High.....                          | 19    | 13  | 12    | 5     | 2     | 51    |
| Smooth Rock Falls Continuation.....         | 17    | 9   | 3     | 1     | ..... | 30    |
| Sturgeon Falls High.....                    | 32    | 17  | 25    | 12    | 8     | 94    |
| Sudbury High and Technical.....             | 72    | 37  | 27    | 15    | 4     | 155   |
| Tilbury High.....                           | 8     | 1   | ..... | ..... | ..... | 9     |
| Timmins High and Vocational.....            | 68    | 21  | 18    | 8     | ..... | 115   |
| Vankleek Hill Collegiate.....               | 18    | 5   | 1     | 2     | ..... | 36    |
| Totals.....                                 | 744   | 402 | 285   | 184   | 30    | 1,645 |

NOTE:—The absence of students in the higher grades of some of the above schools is due to the fact that the advanced French courses were recently established in these schools.

In the following table are shown the enrolment totals of French-speaking students taking advanced French courses in the secondary schools of the provincial system for the period 1938-1946:—

| Year | Grade |     |     |     |      | Total |
|------|-------|-----|-----|-----|------|-------|
|      | IX    | X   | XI  | XII | XIII |       |
| 1938 | 327   | 182 | 155 | 143 | 32   | 839   |
| 1939 | 392   | 235 | 203 | 130 | 67   | 1,027 |
| 1940 | 440   | 310 | 172 | 132 | 48   | 1,102 |
| 1941 | 584   | 336 | 178 | 119 | 32   | 1,249 |
| 1942 | 531   | 336 | 189 | 101 | 30   | 1,187 |
| 1943 | 516   | 312 | 205 | 114 | 22   | 1,169 |
| 1944 | 644   | 384 | 215 | 142 | 33   | 1,418 |
| 1945 | 712   | 429 | 272 | 150 | 39   | 1,602 |
| 1946 | 744   | 402 | 285 | 184 | 30   | 1,645 |

It will be noted that the enrolment of French-speaking students in the public secondary schools of the Province has almost doubled in the period of eight years.

This creditable increase, it is confidently expected, will be exceeded in the next few years, because of the present organization of larger secondary school areas which will afford better and more readily accessible educational opportunities.

#### Elementary Schools

##### Age-Grade Distribution of Pupils

The tables on pp. 136-144, present a compilation of the French-speaking School inspectors' Annual Age-Grade Reports for May, 1946.

##### Grade-Enrolment of Pupils

The following comparative table, for the years 1938, 1944, 1945 and 1946, shows the marked progress which has been achieved, during the period under review, in the grade-enrolment distribution of French-speaking pupils in all elementary schools:

##### Separate and Public Schools

| Grade     | 1938    |          | 1944    |          | 1945    |          | 1946    |          |
|-----------|---------|----------|---------|----------|---------|----------|---------|----------|
|           | Num-ber | Per-cent | Num-ber | Per-cent | Num-ber | Per-cent | Num-ber | Per-cent |
| I         | 11,216  | 23.66    | 7,540   | 17.13    | 7,588   | 16.70    | 7,882   | 16.46    |
| II        | 6,992   | 14.75    | 6,056   | 13.76    | 6,387   | 14.06    | 6,489   | 13.56    |
| III       | 4,971   | 10.49    | 6,026   | 13.69    | 6,047   | 13.31    | 6,311   | 13.25    |
| IV        | 5,548   | 11.71    | 5,678   | 12.90    | 5,833   | 12.89    | 6,003   | 12.54    |
| V         | 5,828   | 12.30    | 5,104   | 11.59    | 5,516   | 12.14    | 5,878   | 12.29    |
| VI        | 4,775   | 10.07    | 4,783   | 10.86    | 4,670   | 10.29    | 5,109   | 10.68    |
| VII       | 3,764   | 7.95     | 3,837   | 8.71     | 4,049   | 8.91     | 4,237   | 8.85     |
| VIII      | 2,913   | 6.15     | 3,315   | 7.53     | 3,492   | 7.68     | 4,020   | 8.39     |
| IX        | 727     | 1.52     | 921     | 2.09     | 994     | 2.18     | 1,019   | 2.13     |
| X         | 443     | .93      | 577     | 1.31     | 615     | 1.35     | 702     | 1.46     |
| Auxiliary | 217     | .47      | 191     | .43      | 227     | .49      | 189     | .39      |
| Totals    | 47,397  | 100.00   | 44,028  | 100.00   | 45,418  | 100.00   | 47,869  | 100.00   |

NOTE:—The grade-enrolment for the year 1938 comprises some English-speaking sections of mixed schools in Northern Ontario which, prior to 1942, were included in the French-speaking Inspectors' Annual Age-Grade Reports.

| V-VIII.....    | 5,373  | 38.11    | 12,416 | 41.43    | 17,789          | 40.36    |
| IX-X.....      | 399    | 2.83     | 1,282  | 4.28     | 1,681           | 3.82     |
| Auxiliary..... |        |          | 189    | .61      | 189             | .43      |

## (C) Public Schools

| Grades         | Rural  |          | Urban  |          | Rural and Urban |          |
|----------------|--------|----------|--------|----------|-----------------|----------|
|                | Number | Per cent | Number | Per cent | Number          | Per cent |
| I-IV.....      | 1,645  | 60.04    | 653    | 62.02    | 2,298           | 60.59    |
| V-VIII.....    | 1,065  | 38.87    | 390    | 37.03    | 1,455           | 38.36    |
| IX-X.....      | 30     | 1.09     | 10     | .95      | 40              | 1.05     |
| Auxiliary..... |        |          |        |          |                 |          |

The following comparative table shows the grade-enrolment distribution of French-speaking pupils in separate and public schools for the years 1939, 1944, 1945 and 1946.

## Separate and Public Schools

| Grades         | 1939    |          | 1944    |          | 1945    |          | 1946    |          |
|----------------|---------|----------|---------|----------|---------|----------|---------|----------|
|                | Num-ber | Per cent | Num-ber | Per cent | Num-ber | Per cent | Num-ber | Per cent |
| I-IV.....      | 29,098  | 59.00    | 25,300  | 57.46    | 25,855  | 56.93    | 26,715  | 55.80    |
| V-VIII.....    | 18,473  | 37.46    | 17,039  | 38.70    | 17,727  | 39.04    | 19,244  | 40.21    |
| IX-X.....      | 1,480   | 3.00     | 1,498   | 3.40     | 1,609   | 3.54     | 1,721   | 3.60     |
| Auxiliary..... | 268     | .54      | 191     | .44      | 227     | .49      | 189     | .39      |

## Annual Contest

## ELEMENTARY SCHOOL SECTION

The finals of the ninth annual provincial contest among the Grade VIII French-speaking pupils of Ontario were held in Ottawa on April 24th and 25th, 1946.

Following modifications in the general organization of the provincial contest, the candidates were divided into two categories: those from schools of one or two classrooms and those from schools of three classrooms or more.

After winning preliminary tests in their own schools and inspectorates, twenty-six contestants—twelve from the smaller schools and fourteen from schools of three classrooms or more—took part in this final competition. The four provincial winners, two from each category, who were awarded secondary school scholarships by L'Association canadienne-française d'Éducation d'Ontario, were as follows:—

Schools of one or two classrooms:

1st boy: Gilles Lapointe, 12, R.C.S.S. 1, Lamarche & Fournier, Cochrane;  
1st girl: Jacqueline Bertrand, 12, P.S.S. 8, Plantagenet North, Pendleton.

Schools of three classrooms or more:

1st boy: Pierre Hurtubise, 13, Garneau School, Ottawa;  
1st girl: Thérèse de Montigny, 14, Immaculate Conception School, Kapuskasing.

The grand award, a trophy donated by L'Association de l'Enseignement français de l'Ontario for the highest marks among all contestants of the Province, went to Jacqueline Bertrand, of Pendleton.

#### SECONDARY SCHOOL SECTION

The fourth province-wide contest among the Grade XII and Grade XIII French-speaking students was held during the year. Preliminary contests were held in four regional centres and were followed by a final competition in Ottawa at the same time as the elementary school contest, on April 24th and 25th, 1946. The two provincial winners, who were also awarded valuable scholarships by L'Association canadienne-française d'Éducation d'Ontario, were the following:—

Raymond Sauvé, 17, Hawkesbury High School;  
Suzanne LaRocque, 17, Plantagenet High School.

#### Correspondence Courses

In June, 1946, ended the fourth school year in which correspondence courses for French-speaking children of Ontario were given by the Department of Education. Thus far, the lessons for pupils of Grades I to VI only were available.

In September, 1946, were added the courses for French-speaking pupils of Grade VII and Grade VIII, which had been prepared by Inspector Adélaré Gascon, M.A., Ph.D., B.Paed., and the enrolment during the school year 1946-47 was 352 pupils, divided as follows:—Grade I, 86; Grade II, 69; Grade III, 58; Grade IV, 42; Grade V, 38; Grade VI, 32; Grade VII, 14; Grade VIII, 13.

#### French Basic Vocabulary

It may be recalled from previous reports that Inspector Laurier Carrière, M.A., B.Paed., of Cornwall, agreed in June, 1946, to check and revise the various word lists, which had been compiled by eleven committees of teachers and inspectors, and to undertake the research work necessary to establish a French Basic Vocabulary according to a scientific method.

During the fall of 1946, Mr. Carrière checked these lists and rejected some 2,000 words which he felt were doubtless beyond the range of elementary school pupils. Then, by means of *Le Petit Larousse Illustré*, he checked page by page the remaining words. It was found that some 1,000 very common words had been omitted from the original lists.

He then proceeded to an elimination of those words which were suspected of being too difficult for Grade VIII pupils. Forty lists of 100 words each—the most difficult—were submitted to 100 Grade VIII pupils of five inspectorates and each pupil was requested to write out a sentence with each of the words he knew. All the words understood by less than 50% of the pupils were rejected. This test revealed that some 2,000 words were too difficult for Grade VIII pupils.

Through the use of the same method and the same sampling, some 1,000 of the easiest words were found to be of the Grade III level.

Lists of 50 words each were made with the remaining words and a preliminary grade-placement of these words was established as follows. The list was submitted to Grade IV pupils who were asked to write out a sentence with each of the words they knew. All the words clearly understood by 50% or more of the pupils were kept for that grade. The remaining words on that list were then given to Grade V pupils. The same method was followed, i.e. all words unknown by 50% or more of the pupils were considered as being of the Grade VI level. The same procedure was followed up to and including Grade VIII. This preliminary grade-placement gave the following results: Grade III, 1,500 words; Grade IV, 1,690; Grade V, 1,004; Grade VI, 937; Grade VII, 871; and Grade VIII, 774.

Tests were then given throughout the province with some 20,000 French-speaking pupils participating. The Grade III pupils were tested on the words of Grades III and IV. The Grade IV pupils were tested on the words of Grades IV and V and so on up to and including Grade VIII.

The compilation of results will be undertaken this year and it is expected that the work may be completed in 1948.

Teachers and inspectors are awaiting the results of this important research work which, no doubt, will be of great significance in Ontario French education.

ROBERT GAUTHIER,

*Director of French Instruction.*

Toronto, July 17th, 1947.

## AGRICULTURAL CLASSES

---

### Elementary Schools

Reports for the school year ending June 30, 1946, were received from 2,497 schools of which 403 were urban. Grants under the Regulations for instruction in Grades VII and VIII were claimed by 1,957 schools.

School gardens were reported in 738 schools. "Improvement of Rural Schools Grounds" was reported in 1,759 schools. This activity is resulting in marked improvement in the appearance of rural school grounds in many parts of Ontario.

School Fairs were conducted in a number of inspectorates under local committees with the co-operation of the Agricultural Representative and the Inspector. The activities and exhibits at the School Fair at Tehkummah on Manitoulin Island last October, which I was privileged to attend with Inspector Geiger, were an excellent example of what can be done in this field. Much credit for the success of this Fair was due to the direction of Mr. F. H. Cotton, Agricultural Representative, and the members of the local committee. In many other inspectorates a junior department is provided as a part of the fall fair programme.

The number of certificated teachers concerned in the schools reported was 1,026.

Instruction in agricultural topics in the Elementary School course is as important as ever. Practice in planting and caring for vegetables and flowers, the recognition of common weeds, the study of beneficial and harmful insects and a knowledge of the production and processing of dairy, poultry and meat products should be taken in all schools.

The Regulations now provide for a special grant to the Board based on the grading of the Inspector in schools in which the teacher holds a certificate in Agriculture. All expenditures are to be included under "Cost of Operation".

### Secondary Schools

Instruction in Agriculture is provided in Secondary Schools (1) in courses in Agricultural Science which are optional with General Science in Grades IX, X, XI and XII, and (2) in Agriculture which is taken in schools which have been granted permission to adopt the programme under Regulations for Departments of Agriculture. This programme provides essentially a two-year general course in Grades IX and X including instruction in Agriculture and Shop Work for boys and Home Economics for girls. Commercial subjects are optional with the languages in Grade X. Agriculture is an option in Grades XI and XII and in 1946 was taken in three schools. The Regulations also provide for visits to homes of pupils during the summer months by the principal and teacher, for serving a hot dish at noon hour during the winter months, for the use of the school property as a community centre and for an Open Night or Achievement Day during the school year. The revised programme was introduced in August 1944 and the number of schools have increased from twelve to fifty-three. The following tables give information concerning the number of schools and other particulars.

### *Schools taking Agricultural Science*

|                            | Total     | Increase | Decrease     |
|----------------------------|-----------|----------|--------------|
| Collegiate Institutes..... | 28        | 3        | 1            |
| High Schools.....          | 93        | 9        | 4            |
| Continuation Schools.....  | 54        | 1        | 6 (3 closed) |
|                            | <hr/> 175 | <hr/> 16 | <hr/> 11     |

### *Departments of Agriculture*

Departments of Agriculture are in operation in 51 schools under General Regulations and in 2 schools under Vocational Regulations, a total of 53.

### *Teachers and Qualifications*

The number of teachers and their qualifications are as follows:

|  |           |
|--|-----------|
| Specialists in Agriculture.....              | 135       |
| O.A.C. Graduates included above.....         | 94        |
| Intermediate Certificate in Agriculture..... | 91        |
| Granted permission 1945-46.....              | 21        |
|  | <hr/> 247 |

It is worthy of note that graduates of the Ontario Agricultural College are Principals in twenty-four of the above schools.

### *Practical Studies*

Provisions for practical studies in schools are as follows:

|                                 |     |
|---------------------------------|-----|
| School Gardens.....             | 150 |
| Colony type poultry houses..... | 39  |
| Colonies of bees.....           | 38  |

### *Teacher Supply*

As indicated above by the number of teachers granted permission there is still a shortage of teachers. In June 1946, eighteen of the twenty O. A. C. graduates who completed the Ontario College of Education courses secured positions as teachers of Agricultural Science and Agriculture. The lack of qualified teachers is mainly in smaller schools where there are frequent changes. As more High School areas are formed there will be a need of more teachers for schools introducing the Department of Agriculture or composite school programme. This need will be met by graduates of the Ontario Agricultural College who attend the College of Education and through summer courses for Science teachers.

### *Regulations*

Regulations for Agricultural Science and Departments of Agriculture provide for grading grants based on the calendar year. All expenditures are to be included in "cost of operation" under the General Grant Regulations.

### *Character of Instruction*

In Agricultural Science and Agriculture every effort is made to link instruction at school with practical activities on the farm and in the home. Chickens are kept in the school poultry house during the winter months and looked after by the pupils. In the spring chicks are purchased and reared in this poultry house. Colonies of bees provide interesting and valuable instruction and in many cases may be divided to provide colonies for students in home project activities.

Visits to the homes of pupils by the principal for supervision of projects has met with considerable approval and carries the school work to the home during the summer months. In all communities these visits enable the principal to discuss with the parents the progress and objectives of each pupil and in many cases has resulted in the return to school of students who otherwise might have dropped out.

There has been a steady increase in the number of secondary schools giving instruction in Agricultural Science and Agriculture. The indications are that there will be a further increase in September 1947.

Winter Courses in Agriculture and Farm Mechanics have been conducted in a number of schools during the year. These have been organized through the co-operation of the Agricultural Representative and other officials of the Department of Agriculture at Belleville, Blenheim, Pelham, Ridgetown and Stirling. This programme should be extended to other schools next year.

### *Inspection and Supervision*

Inspection of schools with Departments of Agriculture is conducted by Mr. E. R. McClellan or the undersigned accompanied by another inspector in the case of the larger schools. Schools with Agricultural Science only are inspected by one of the above or Mr. A. L. Laskie. Under this arrangement it was possible to visit all schools during 1946.

### **Statistics and Comments**

Agricultural Science was taught during the year in the secondary schools listed below: Under (a) are schools in which Lower School courses only are taken, and under (b) both Lower and Middle School Courses. Schools in which Departments of Agriculture have been established have (D) after the name:

#### *Collegiate Institutes*

(a) Brockville, Cornwall, Ingersoll, Kitchener, \*Owen Sound, Oshawa, Perth, Runnymede, \*Stratford, York Memorial, \*Woodstock. Total 11.

(b) Barrie, Belleville, Clinton (D), East York, Fort William, Goderich (D), Lindsay, Napanee (D), Orillia, Picton (D), Port Arthur, Renfrew (D), St. Mary's (D), Scarborough, Smiths Falls (D), Stamford (D), Strathroy (D). Total 17. Departments of Agriculture 9.

#### *High Schools*

(a) \*Bancroft, Bracebridge, \*Bradford, Chesley (D), Durham, \*Exeter, \*Flesherton, \*Forest, \*Lucknow, Merriton, Mount Forest, Newmarket, Parkhill, Port Credit, \*Stouffville, Tilbury, \*Walkerton, \*Wallaceburg, Wiarton. Total 19.

(b) Alexandria (D), Alliston, Amherstburg, Arthur (D), Athens (D), Beamsville (D), Blenheim (D), Bowmanville, Brighton, Burford (D), Burlington, Caledonia, Cayuga, Chesterville (D), Cochrane (D), Dundalk, Dunnville (D), Elmira (D), Essex (D), Fergus, Fort Frances, Grimsby (D), Hagersville (D), Haileybury, Harriston, Harrow (D), Iroquois, Kemptville (D), Kincardine (D), Kingsville (D), Lakefield, Leamington, Listowel (D), Lucan, Madoc, Markdale, Markham, Maxville, Meaford (D), Midland, Milton (D), Mitchell (D), Morewood, Nepean, Newburgh, Newcastle, New Liskeard, Norwich (D), Norwood, Oakville (D), Orangeville, Palmerston (D), Petrolia (D), Port Elgin (D), Port

\*Introduced Agricultural Science in September 1946.

Perry (D), Preston (D), Ridgetown (D), Saltfleet, Seaforth (D), Shelburne (D), Simcoe (D), Smithville, Stirling (D), Streetsville, Sydenham (D), Trenton, Tweed (D), Uxbridge (D), Waterdown, Waterford (D), Watford, Whitby (D), Williamstown, Winchester. Total 74. Departments of Agriculture—39.

### *Continuation Schools*

(a) Ailsa Craig, Bath, Bothwell, Burgessville, Chatsworth, Clifford, \*Denbigh, Eganville, Grand Valley, Kars, Millbrook, Milverton, Minesing, \*North Gower, \*Paisley, Seeley's Bay, \*Tavistock, Wellington. Total 18.

(b) Agincourt, Ayr, Beaverton, Brooklin, Brownsville, Comber, Drayton (D), Florence, Fordwich, Ilderton, Inglewood, Kinnmount, Lynden, Lyndhurst, Merrickville, Mindemoya, Mount Albert, Mount Brydges, Mount Elgin, Mount Pleasant, New Dundee, New Hamburg, Orono, Pelham (D), Port McNicoll, Princeton, St. George, Sparta, Sundridge, Tamworth, Teeswater, Thamesford, Thamesville, Tiverton, Wheatley (D), Woodville. Total 36. Departments of Agriculture—3.

### *Vocational Schools with Departments of Agriculture*

Belleville, Chatham.

Agricultural Science is taken in Grades IX and X in 48 schools and in both Lower and Middle School grades in 127 schools.

The following abbreviated table shows the development in this phase of instruction since its beginning in 1913 and the number of schools now taking Agricultural Science:

| Year      | Collegiate<br>Institutes | High<br>Schools | Continuation<br>Schools | Total |
|-----------|--------------------------|-----------------|-------------------------|-------|
| 1913..... |                          | 1               | 1                       | 2     |
| 1918..... | 8                        | 13              | 4                       | 25    |
| 1928..... | 14                       | 44              | 23                      | 81    |
| 1941..... | 27                       | 82              | 59                      | 168   |
| 1943..... | 26                       | 78              | 49                      | 153   |
| 1944..... | 27                       | 82              | 52                      | 161   |
| 1945..... | 26                       | 88              | 56                      | 170   |
| 1946..... | 28                       | 93              | 54                      | 175   |

### **Normal Schools**

There have been no material changes in the Normal School Course in Agriculture. Except in the University of Ottawa Normal School, instruction in Agriculture is part of the regular course and the subject is taken by all students. Some time is now being given to Science and Agriculture at the University of Ottawa Normal School. Students who have taken four years of Agriculture in an approved school during their Secondary School course are granted an Interim Elementary Certificate on successfully completing the Normal School course. Others must attend summer school to secure a certificate in Agriculture.

Facilities for instruction in practical phases of gardening and other topics are provided, the instructors are capable and a good course is given as far as the time allotment on the Normal School programme will allow. All Normal Schools were visited during the year.

### Summer Courses

Permits to teach Agricultural Science were granted to 21 teachers of Science for the school year 1946-47. The lack of teachers certificated in Agriculture has retarded the extension of Agricultural Science during the past seven years. A number of teachers completed their standing at the Summer Course in 1946. Enrolment was Elementary I—9; Elementary II—10; Intermediate I—17; Intermediate II—43, Specialist—13, Inspectors—11.

NORMAN DAVIES,

*Inspector of Agricultural Classes.*

Toronto, August 1, 1947.

## AUXILIARY CLASSES

### The Development of Special Education in Ontario

Among all the more highly civilized peoples of the world, special education is accorded an important place in the national or state school systems. In no other comparable area, has the right of the exceptional child to educational opportunity been more speedily recognized and more amply provided for than in the province of Ontario. The first schools for the physically handicapped were opened approximately twenty years after the Rev. Egerton Ryerson organized our educational system. Training institutions, special schools and classes have been opened and have received government support from the following dates:

|   |      |
|---|------|
| Schools for the Blind and Deaf.....   | 1873 |
| Institution for Delinquent Girls.....   | 1880 |
| Institution for Delinquent Boys.....  | 1887 |
| Institution for Feeble-minded Children.....   | 1888 |
| Institution for Epileptic Children.....   | 1905 |
| Classes for Mentally Handicapped Children.....  | 1911 |
| Sight Saving, Home Instruction, Hard-of-Hearing and Speech Correction Classes.....                            | 1921 |
| Vocational Schools for Senior Mentally Handicapped Boys and Girls.....  | 1924 |
| Institutional, Hospital, Open Air and Forest School Classes.....  | 1924 |
| Correspondence Courses.....   | 1925 |
| Orthopaedic Classes.....  | 1926 |
| School Cars.....  | 1926 |
| Advancement Classes.....  | 1928 |
| Oral Day Classes for the Deaf.....  | 1929 |
| Opportunity, Sight Saving, Home Instruction, Transportation and Speech Correction Units in small Schools..... | 1930 |
| Classes for Dull Normal Pupils.....   | 1931 |
| Classes for Adults in Sanatoria.....  | 1939 |
| Habilitation Units for Cripples.....  | 1940 |
| Remedial Reading Classes.....   | 1942 |
| Secondary School Units for Cripples.....  | 1942 |
| Instruction of the Deaf-Blind.....  | 1943 |

For a variety of reasons several of these institutions, schools and classes are administered by other departments of the provincial government. The Ontario Hospital schools accommodate pupils classed as idiots and imbeciles and because the problem presented is more that of shelter and treatment than of education it is the responsibility of the Department of Health. The Training Schools for delinquent boys and girls are placed under the direction of the Department of Reform Institutions because, although academic and vocational instruction is provided in these schools, their chief purpose is to effect the reformation of their charges and to protect society, and because the children are committed to these schools by order of the court and leave them by way of legally arranged placement or under supervision.

The remainder of the schools and classes are administered by the Department of Education. The Schools for the Blind and Deaf, the Correspondence Courses and the School Cars are supervised, organized and provided by the Department of Education. The remaining special schools and classes are organized and provided by local boards of education under the Auxiliary Classes Act. Supervision is exercised by the Auxiliary Education Branch which also administers the grants paid in respect to these classes.

### Changes in Certification of Teachers of Special Classes

The establishment of two levels of certificates in Auxiliary Education is a change which was deferred by World War II. The new system follows the pattern

of the other summer courses in providing for elementary and intermediate certificates. At some later date, it is expected that a training course leading to a supervisor's certificate will be added.

Beginning in July, 1947, courses will be offered for the following types of special classes:

Elementary—Type I—valid in Opportunity and Handicraft classes for 2 years.

Type II—valid in Speech Correction and Lip Reading classes for 2 years.

Type III—valid in Remedial Teaching classes for 2 years.

Intermediate—Type I—valid in Opportunity and Handicraft classes.

Type II—valid in Speech Correction and Lip Reading classes.

Type III—valid in Remedial Teaching classes.

Type IV—valid in Sight Saving classes.

Type V—Home Instruction and Hospital classes.

The elementary certificate of each type must be secured before the teacher is admitted to the corresponding type of intermediate course. Elementary course, Type I or Type III is a prerequisite for admission to Intermediate Type IV or V.

In previous years a refresher course of five weeks has been given annually to a group of fifteen to twenty-five holders of certificates in Auxiliary Education. It has been decided to award Intermediate Certificates to all teachers who have completed successfully one of the Refresher Courses.

#### Urban Organization

During 1946 as a result of surveys conducted in this and previous years, the following classes were opened:

|  |   |
|--|---|
| Advancement—Ottawa.....                        | 2 |
| Handicraft—Belleville.....                     | 1 |
| Toronto.....                                   | 8 |
| Peterborough.....                              | 2 |
| Hard of Hearing—Ottawa.....                    | 1 |
| Windsor.....                                   | 1 |
| Home Instruction—Kirkland Lake.....            | 1 |
| Opportunity—Southampton.....                   | 1 |
| Remedial Teaching—London.....                  | 1 |
| Newmarket.....                                 | 1 |
| New Toronto.....                               | 1 |
| Sight Saving—Windsor.....                      | 1 |
| Speech Correction and Lip Reading—Toronto..... | 2 |
| Brantford.....                                 | 1 |
| Sanatorium—Ottawa.....                         | 1 |

At the request of several school boards, inspectors and principals, the techniques of administering group intelligence and achievement tests were demonstrated in the schools concerned. The Dominion Group Tests of Learning Capacity, The Otis Alpha and Beta Examinations, and the Henmon-Nelson Intelligence Test were used with very satisfactory results.

The administration of one group intelligence test yields an Intelligence Quotient or a mental age which can be used for prognosis, but further tests are necessary before the results can be considered reliable. One way to determine the accuracy of the Intelligence Quotient or mental age so obtained is to administer achievement tests at least in reading and arithmetic as they are school subjects in which standards must be reached if a pupil is to be regularly promoted.

The Dominion Tests of Fundamentals of Arithmetic, The Iowa Silent Reading Test, The Gates Reading Survey, The Metropolitan Arithmetic Tests and the Nelson Silent Reading Test have been used to secure grade scores which could be compared with the teacher's opinion of a pupil's work and with a probable grading based on the mental age secured by the use of group intelligence tests. These data proved helpful to the school officials concerned, since in eighty per cent of the cases the records supported their opinions that the pupils were accurately graded. In over fifteen per cent of the cases, weaknesses in either arithmetic or reading were shown in specific terms instead of the general terms used by the teachers.
